Lily Leticia and the Book of Practical Magic

Lily Leticia is in Trouble. Deep Trouble. Of course, that shouldn't be too surprising. She is only eleven years old, has an IQ of 160, and is in high school. Her classmates ignore her, because, after all, she should still be in elementary school. Kids her own age ignore her, because, after all, she is somewhat of a freak.

Lily Leticia and the Book of Practical Magic

"Lily Leticia is in Trouble. Deep Trouble. Of course, that shouldn't be too surprising. She is only eleven years old, has an IQ of 160, and is in high school. Her classmates ignore her, because, after all, she should still be in elementary school. Kids her own age ignore her, because, after all, she is somewhat of a freak. Unfortunately, Trouble just seems to follow Lily Leticia around ... with only a little help from her. Now, however, Lily Leticia has found an old book, one that her Native American friend, Joseph Spotted Elk, has told her to put back immediately in the trunk where she found it. He claims there are Indian spirits in the book, that it is ancient magic, and she should not even be touching it. Magic? Combined with an IQ higher than most of her teachers? This is right up Lily Leticia's alley! If she ever thought she was in Trouble before The Book, it was nothing compared to the Trouble she's going to be in."--Publisher's description.

The Case for Marriage

A groundbreaking look at marriage, one of the most basic and universal of all human institutions, which reveals the emotional, physical, economic, and sexual benefits that marriage brings to individuals and society as a whole. The Case for Marriage is a critically important intervention in the national debate about the future of family. Based on the authoritative research of family sociologist Linda J. Waite, journalist Maggie Gallagher, and a number of other scholars, this book's findings dramatically contradict the anti-marriage myths that have become the common sense of most Americans. Today a broad consensus holds that marriage is a bad deal for women, that divorce is better for children when

parents are unhappy, and that marriage is essentially a private choice, not a public institution. Waite and Gallagher flatly contradict these assumptions, arguing instead that by a broad range of indices, marriage is actually better for you than being single or divorced— physically, materially, and spiritually. They contend that married people live longer, have better health, earn more money, accumulate more wealth, feel more fulfillment in their lives, enjoy more satisfying sexual relationships, and have happier and more successful children than those who remain single, cohabit, or get divorced. The Case for Marriage combines clearheaded analysis, penetrating cultural criticism, and practical advice for strengthening the institution of marriage, and provides clear, essential guidelines for reestablishing marriage as the foundation for a healthy and happy society. “A compelling defense of a sacred union. The Case for Marriage is well written and well argued, empirically rigorous and learned, practical and commonsensical.” -- William J. Bennett, author of *The Book of Virtues* “Makes the absolutely critical point that marriage has been misrepresented and misunderstood.” -- *The Wall Street Journal* www.broadwaybooks.com

Magic Lessons

In this “bewitching” (*The New York Times Book Review*) novel that traces a centuries-old curse to its source, beloved author Alice Hoffman unveils the story of Maria Owens, accused of witchcraft in Salem, and matriarch of a line of the amazing Owens women and men featured in *Practical Magic* and *The Rules of Magic*. Where does the story of the Owens bloodline begin? With Maria Owens, in the 1600s, when she’s abandoned in a snowy field in rural England as a baby. Under the care of Hannah Owens, Maria learns about the “Nameless Arts.” Hannah recognizes that Maria has a gift and she teaches the girl all she knows. It is here that she learns her first important lesson: Always love someone who will love you back. When Maria is abandoned by the man who has declared his love for her, she follows him to Salem, Massachusetts. Here she invokes the curse that will haunt her family. And it’s here that she learns the rules of magic and the lesson that she will carry with her for the rest of her life. Love is the only thing that matters. *Magic Lessons* is a “heartbreaking and heart-healing” (*BookPage*) celebration of life and love and a showcase of Alice Hoffman’s masterful storytelling.

On the one hand, nobody wants to be a dick. On the other hand, dicks are everywhere! They cut in line, talk behind our backs, recline into our seats, and even have the power to morph into trolls online. Their powers are impressive, but with a little foresight and thoughtfulness, we can take a stand against dickishness today. How Not to Be a Dick is packed with honest and straightforward advice, but it also includes playful illustrations showing two well-meaning (but not always well behaved) young people as they confront moments of potential dickishness in their everyday lives. Sometimes they falter, sometimes they triumph, but they always seek to find a better way. And with their help, you can too. Just see the agreement at the beginning of the book: I pledge to use the tools and techniques provided in this book to help make the world a less dickish place. Charleston, South Carolina, is one of the most storied cities of the American South. Well known for its historic buildings and landscape, its thriving maritime culture, and its role in the beginning of the American Civil War, many consider it the birthplace of historic preservation. In Charleston, Martha Zierden and Elizabeth Reitz—whose archaeological fieldwork in the city spans more than three decades—reveal a vibrant, densely packed city, where people, animals, and colonial activity carried on in close proximity. Examining animal bones and the ruins of taverns, markets, townhouses, and smaller homes, the authors consider the residential, commercial, and public life of the city and the dynamics of production, distribution, and consumption of goods and services that linked it with rural neighbors and global markets. From early attempts at settlement and cattle ranching to the Denmark Vesey insurrection and efforts to improve the city's drinking water, Zierden and Reitz explore the evolution of the urban environment, the intricacies of provisioning such a unique city, and the urban foodways and cuisine that continue to inspire Charleston's culinary scene even today.

Coco Chanel was founder and queen of a fashion empire, and her name is forever linked to an unmistakable style. Before all this, Mademoiselle Coco was Gabrielle, a poor orphan who rejected convention and put her independence above all else. With her grit and tenacity, she made her fortune and restored freedom to women. This volume celebrates a true icon 50 years after her passing, coinciding with the 100th anniversary of the timeless Chanel N°5. ¹ She revolutionized the concept of feminine elegance with straight dresses and inventions that would later become icons: these were

the little black dress, Chanel N° 5, costume jewelry, the suit with gold buttons, the quilted bag.¹ Her myth lives again in a biography illustrated by images portraying her as the perfect embodiment of the timeless elegance. Because, as Coco said, "fashion passes; style remains."

The third design book from the TV and social media star and author of *Habitat* and *Down to Earth*, *Feels Like Home* explores the emotional connection that a home can have to a person's life. A house is a feeling. That is the conceit behind designer Lauren Liess's third book, which explores the emotional connection between the way we decorate our homes and our daily lives. She advises readers to think beyond just the objects in their homes and explore how design informs an intentional, happy, and

authentic life. The book includes practical design information, with never-before-seen case studies on a variety of homes including a beach cottage, a farmhouse, a home in the woods, a Spanish colonial, and other more traditional homes. Each case study explores a hardworking design aspect (such as proportion, scale, and color), while also focusing on the emotional aspect of the home. The chapters are inspired by the following themes: comfort, calm, excitement, belonging, carefree, love, and contentment.

In January 2004, President Bush announced a new space policy directed at human and robotic exploration of space. The National Academies released a report at the same time that independently addressed many of the issues contained in the new policy. In June, the President's Commission on Implementation of United States Space Exploration Policy issued a report recommending that NASA ask the National Research Council (NRC) to reevaluate space science priorities to take advantage of the exploration vision. Congress also directed the NRC to conduct a thorough review of the science NASA is proposing to undertake within the initiative. This report provides an initial response to those requests. It presents guiding principles for selecting science missions that enhance and support the exploration program. The report also presents findings and recommendations to help guide NASA's space exploration strategic planning activity. Separate NRC reviews will be carried out of strategic roadmaps that NASA is developing to implement the policy.

'England? It seemed to be raining the whole time . . . Or maybe it was me' MARILYN MONROE In July 1956, Marilyn Monroe arrived in London, on honeymoon with her husband Arthur Miller, to make *The Sleeping Prince* (later released as *The Prince and the Showgirl*) with Laurence Olivier. When the couple arrived at London Airport, they were looking forward to a peaceful stay. Marilyn would work during the day at Pinewood Studios, while Arthur would write. Then, in the evening, the couple would be able to relax together in their private English country cottage. It didn't quite turn out that way. The 'cottage' was actually a mansion, which belonged to Lord Drogheda, the managing director of the Financial Times. Raised in tiny hotel rooms and apartments, Marilyn felt herself being watched. She was, by Lord Drogheda's servants, who were selling stories to the papers. When filming began, it was a disaster. Director Joshua Logan had written to Olivier, offering advice on how to handle Marilyn as an actress, but Olivier ignored him. Instead, he condescended to her in his introduction to the cast, pooh-poohed her views on acting, and dismissed her stage-fright as an inconvenience. Marilyn grew to hate Olivier with a passion; the feeling was mutual. Marilyn found herself torn between settling into married life, being a curiosity for the frequently hostile British press, and her work on *The Prince and the Showgirl*. She took solace in small acts of kindness from members of the public, and a new fascination with Queen Elizabeth. Marilyn made a point of adopting some of the Queen's favourite brands, buying gloves from Cornelia James, perfume from Floris, and switching from Chanel No. 5 to Yardley's Lavender. Marilyn made a point of asking the film's PR manager to add a royal meeting to her schedule, but each day Olivier would delete the request. Michelle Morgan describes Marilyn's trip to late-1950s Britain in evocative detail, exploring the making of the film alongside the film star's troubled private life and her quest to meet the Queen.

Part of the "Literary Movements" series, this title examines the people, events, and works that defined the literary Romantic era in Great Britain and Ireland from 1775 through the 1830s. An introductory essay summarizes the movement's origins and philosophy. This A-to-Z-format work provides brief biographies, plot summaries, and critical interpretations of both the popular, well-known Romantics and the many often-overlooked, lesser-known writers. Designed to "whet the reader's appetite" for further exploration of this fascinating period and to focus on how closely Romantic writers are connected to

their contemporary world, the book offers signed essays on industrialism, the monarchy, the American and French Revolutions, childhood, slavery, and many other topics. Many articles offer suggestions for further reading. Comparing this title to *Encyclopedia of the Romantic Era, 1760-1850*, edited by C. J. Murray (CH, Jun'04, 41-5628), reveals that the newer volume includes more close analysis of individual works and features a larger number of lesser-known writers, particularly women. Rather than being a substitute, it is best used in conjunction with the Murray title. Summing Up: Recommended. Lower-division undergraduates and above; general readers.
