Les Secrets de la Boule de Cristal

" Aujourd'hui, la boule de cristal devient un instrument vivant. Une nouvelle compréhension émerge avec l'âge nouveau. Tout peut maintenant arriver. Nous détenons la clé des portes de la lainière, et nous devons apprendre à nous en servir de la bonne manière... " Au début de ce nouveau millénaire, nombreuses figures spirituelles témoignent de l'émergence d'une nouvelle conscience et de l'érosion des frontières nous séparant de notre propre réalité supraconsciente. L'art ancestral de la voyance devient ainsi de plus en plus facile à intégrer. En nous dévoilant, de façon claire et détaillée, les Secrets de la Boule de cristal, Mireille Nathalie Dubois nous permet de faire de cet instrument de divination une utilisation judicieuse et approfondie. Véritable initiation à l'art de la clairvoyance, cet ouvrage constitue une référence pour toutes les personnels intéressées par ce sujet. Y sont, entre autres, décrits les thèmes suivants : • Le 3e œil • La 3e oreille • Les heures énergétiques • Les phases lunaires • Les fenêtres énergétiques • L'influence des points cardinaux • Le choix et la préparation de la boule de cristal • Les protections énergétiques

Les Secrets de la Clairvoyance Par la Boule de Cristal

La boule de cristal, symbole de la voyance, est un bel objet magique, parfois sous-estimé. Ce livre révèle ce qu'elle est réellement et comment chacun peut apprendre à l'utiliser. L'auteur, qui pratique la cristallomancie depuis de nombreuses années, donne les indications précises pour " voir dans la boule \

Manuel d'utilisation de la boule de cristal

" Tout le monde a déjà entendu parler de la boule de cristal, et tout le monde sait à quoi elle ressemble. Hélas ! Tout le monde se trompe, car la boule de cristal n'est pas forcément en cristal et n'a pas toujours la forme d'une boule. D'où vient-elle ? Quand est-elle apparue ? Quels sont ses pouvoirs et usages ? Cela reste désespérément caché, voire confus, quoiqu'il en soit, peu clair... "

Traité de la boule de cristal

Les secrets de l'expertise immobilière

Comment la Chine a-t-elle connu sa vertigineuse ascension et rattrapé son retard technologique pour devenir une superpuissance militaire dans l'espace ? Cette incroyable transition débuta au sein de programmes hautement confidentiels des forces aériennes américaines, il y a plus de 75 ans ! Alors qu'il habite aux États-Unis, un brillant scientifique chinois est désigné pour travailler, pendant plus d'une décennie, aux technologies militaires américaines les plus secrètes. Puis un jour, de façon très étrange, il sera ciblé par le FBI, puis renvoyé en Chine dans le cadre d'un échange de prisonniers par le président Eisenhower. Cet épisode l'amènera à développer en Chine, sous l'égide de l'armée, un programme spatial secret (PSS) utilisant des systèmes inusités de propulsion électromagnétique qui, à présent, mettent au défi la domination de l'armée américaine au sol et dans l'espace. Ce livre vous révélera : les origines du PSS chinois dans le travail novateur du Dr Tsien Hsue-shen, qui a transmis à la Chine sa connaissance avancée des PSS de l'Allemagne nazie et des États-Unis ; d'anciennes technologies aéronautiques enfouies dans de mystérieuses pyramides chinoises qui ont été secrètement étudiées et soumises à une rétro-ingénierie ; d'anciens artefacts de contacts extraterrestres dans les régions lointaines du Tibet et du désert de Gobi ; la participation de la Chine à un PSS dirigé par les Nations unies et destiné à engendrer une plus grande coopération internationale en réponse à l'existence de la vie extraterrestre ; les armes de l'espace et le vaisseau spatial à propulsion électro-magnétique que la Chine développe et déploie présentement. D'ici 2030, l'économie chinoise va dépasser celle des États-Unis, et la Chine a l'intention d'utiliser ses vastes ressources économiques pour projeter sa présence loin dans l'espace. Les États-Unis et la Chine sont-ils voués à un affrontement violent lors d'une inévitable guerre spatiale, ou doivent-ils devenir des partenaires stratégiques pour guider la transition paisible de l'humanité vers une civilisation galactique

La boule de cristal

Au Passage du Diable, une Dimension de perdition et de décadence, un meurtre d'une étrange sauvagerie a été commis. Dans le même temps, une vampire est en fuite dans un monde ravagé par la mort. Elle n'a aucun souvenir de son passé mais elle est persuadée que quelque chose rôde dans les ténèbres, et attend son heure pour venir la chercher. Les voix qui résonnent dans son esprit l'ont prévenue ; le Maître Corbeau, le fils du Chaos reviendra, et pour lui, elle devra accomplir une mission. Et, à travers les Dimensions, la Sentinelle recherche l'Oeil du Chaos. Sa mission est la plus importante ; celle-ci ne s'achèvera que lorsqu'elle l'aura retrouvé. Et, elle tuera tous ceux qui se mettront sur son chemin.

The Seven Crystal Balls

Comprendre la magie, c'est comprendre comment fonctionne la nature! La lumière est l'élément qui anime le monde, prodigue la vie et rythme la nature, les animaux et les hommes. Dans les sorts et les rituels, la lumière est symbolisée par les bougies, mais la Lumière divine est d'abord présente à travers la flamme qui anime le sorcier. Dans ce carnet richement illustré, vous découvrirez comment la lumière définit la nature des sorts et des rituels, parfois même sans le savoir. Au préalable, vous apprendrez comment consacrer votre espace dédié à la magie, préparer un autel ainsi que le matériel et les ingrédients nécessaires à votre pratique, mais aussi la consécration aux quatre éléments, les rituels d'ouverture et de fermeture de vos travaux, et comment activer et détruire un sort. Puis, au fil des pages, vous serez initié par Marc Neu, sorcier contemporain authentique, à la technique du scrying ou comment lire dans une boule de cristal, un miroir ou une coupe d'eau. Vous pratiquerez la magie de la manifestation pour matérialiser vos rêves, mais aussi, la magie de renforcement ainsi que l'art de fabriquer de puissants talismans pour réaliser vos intentions dans la matière.

Le secret de la dame en rouge

Un manuscrit ancien a disparu. L'étau se resserre autour des jumeaux de la légende... Qui sont vraiment les " deux qui ne font qu'un " ?

Enfant secret

À trente-quatre ans, Lili n'attend plus le prince charmant et refuse même la cohabitation... au grand dam de sa mère, féministe patentée, qui l'a élevée seule. Elle aime (dans le désordre) : la lecture, la mousse au chocolat, Clint Eastwood (s'il pouvait l'adopter !), l'amitié d'Amanda, cartomancienne adepte des massages relaxants, et Julien, météorologue cartésien... Mais son pêché mignon, c'est de visiter des appartements, surtout ceux qu'elle ne pourra jamais s'offrir ! Avant de rencontrer Joséphine Foncier, agent immobilier très spécial, qui offre du rêve au mètre carré, et le séduisant Joachim Bateman, singulier auteur de guide de voyages, qui a presque tout du super héros... Claire Vassé insuffle magie et poésie aux vies apparemment ordinaires de ses personnages tendrement attachants. Une comédie sensible et drôle..
