With this gloriously photographed and illustrated manual at hand, beaders can create awe-inspiring jewelry. It's the only current, comprehensive guide to working with cabochons--a flat piece of rock or mineral--and it covers all the basics, along with a range of new creative techniques and hot trends. Find out which tools and materials to use, which beads work best, and how to wrap them round the stones. Craft turned, pointed, twisted, brick stitch, ruffled, or scalloped edges, or add decorative fringe. For something dramatic, combine more than one cabochon in a single piece. Or, instead of natural

stone, use dichroic glass or other found objects. Make a glittering brooch, funky bracelets, a wearable art necklace, and other showstoppers.

This is a fac simile edition of Bloomfield's *An Introduction to the Study of Language* (New York 1914), with an introductory article by Joseph S. Kess. Leonard Bloomfield (1887-1949) was responsible for two classic textbooks in the field of linguistics. The earlier, reproduced here, shows some striking differences to his later views, reflecting much of the then-current thinking on language matters. As such, it represents not only an interesting commentary on the theoretical development of an extremely influential linguist, but more importantly, it is a telling document in the evolving history of the discipline and a rich source for the (psycho)linguist interested in how and why we got from where we were to where we are.

The Elliott Homestead

KEYNOTE: This book provides a savvy survey of the latest work by designers, craftspeople, and architects of African descent around the world. Artists and designers of African ancestry-many in Africa but also others throughout Europe, the Americas, and the Far East- are working in a wide array of mediums: fashion, architecture, non-traditional crafts, design, fine art, and photography. Authors Lowery Stokes Sims and Leslie King-Hammond, together with six contributors, challenge presumptions of what constitutes an 'African' style or aesthetic, and demonstrate the power and expressive potential of materials, textures and forms. Work by well-known artists such as Yinka Shonibare, MBE and architects including David Adjaye appear alongside those of lesser-known but equally exciting designers whose garments, carpets, baskets, ceramics, furniture, body arts, wall painting, photographs and sculpture blur the distinction between art and craft. The result is an enormously diverse display of young and established talent, and a wide-ranging survey of contemporary African art and design. **AUTHOR:** LOWERY STOKES SIMS is Director and Organizing Curator of the Global Africa Project and the Charles Bronfman International Curator at the Museum of Arts and Design in New York City. She has published extensively on African, Latino, Native and Asian American Artists. She is a contributor to Fritz Scholder: Indian/ Not Indian (Prestel). **LESLIE KING-HAMMOND** is the founding director of the Center for Race and Culture and the Maryland Institute College of Art. A noted scholar, teacher, and curator, King-Hammond has directed numerous exhibitions on African-American art and artists. 200 colour illustrations

About Life

Life is a challenge. Meet it.

Everything happens for a reason.

A life without cause, is a life without effect.

Worry ends when faith begins.

Never stress over what you can't control.

Don't say what you don't mean.

If you hate losing, Stop giving up.

Never wait. Life goes faster than you think.

Treat each day like a gift.

Life is a dream, realize it.

Don't go through life, Grow through life.

Each day is a new beginning.

Life is an opportunity. Capture it.
