### The Illustrated Book of Funny Old Sayings

Have you ever wondered why we say, "It's raining cats and dogs" and other funny old sayings like, "Don't look a gift horse in the mouth"? Often we know what they mean, but do we know where they originated? Well in this book, you are about to find out! For example, when we want to wish someone a good nights sleep, people often say, "Night night, sleep tight." Who would have thought that this dates back to Shakespeare's time, when mattresses were secured onto a bed frame by ropes. In order to make the bed firmer and more comfortable, people would have to pull on the ropes to tighten the mattress and hence the saying came about. This delightful book is full of well known sayings, beautifully matched with fun and original illustrations, which will make you laugh out loud. Part of the fun is seeing whether you can guess the saying just from looking at the picture. This book will appeal to lovers of trivia, history and language. It makes the perfect little gift for the someone that has everything! Keep it in on the coffee table and provide a little bit of amusement for all! Learn a little trivia, keep history alive and order your book today! BUY NOW and receive the "Sayings Game" for FREE (Details inside the book)!

The uneasy balance between them is shattered when Starr is the only witness to the fatal shooting of her unarmed best friend, Khalil, by a police officer. #### The Outsiders

Over 50 years of an iconic classic! This international bestseller and inspiration for a beloved movie is a heroic story of friendship and belonging. No one ever said life was easy. But Ponyboy is pretty sure that he's got things figured out. He knows that he can count on his brothers, Darry and Sodapop. And he knows that he can count on his friends—true friends who would do anything for him, like Johnny and Two-Bit. But not on much else besides trouble with the Socs, a vicious gang of rich kids whose idea of a good time is beating up on “greasers” like Ponyboy. At least he knows what to expect—until the night someone takes things too far. The Outsiders is a dramatic and enduring work of fiction that laid the groundwork for the YA genre. S. E. Hinton's classic story of a boy who finds himself on the outskirts of regular society remains as powerful today as it was the day it was first published. "The Outsiders transformed young-adult fiction from a genre mostly about prom queens, football players and high school crushes to one that portrayed a darker, truer world." —The New York Times "Taut with tension, filled with drama." —The Chicago Tribune "[A] classic coming-of-age book." —Philadelphia Daily News A New York Herald Tribune Best Teenage Book A Chicago Tribune Book World Spring Book Festival Honor Book An ALA Best Book for Young Adults Winner of the Massachusetts Children's Book Award

#### Flash Feedback [Grades 6-12]

Beat burnout with time-saving best practices for feedback For ELA teachers, the danger of burnout is all too real. Inundated with seemingly insurmountable piles of papers to read, respond to, and grade, many

teachers often find themselves struggling to balance differentiated, individualized feedback with the one resource they are already overextended on—time. Matthew Johnson offers classroom-tested solutions that not only alleviate the feedback-burnout cycle, but also lead to significant growth for students. These time-saving strategies built on best practices for feedback help to improve relationships, ignite motivation, and increase student ownership of learning. Flash Feedback also takes teachers to the next level of strategic feedback by sharing: How to craft effective, efficient, and more memorable feedback Strategies for scaffolding students through the meta-cognitive work necessary for real revision A plan for how to create a culture of feedback, including lessons for how to train students in meaningful peer response Downloadable online tools for teacher and student use Moving beyond the theory of working smarter, not harder, Flash Feedback works deeper by developing practices for teacher efficiency that also boost effectiveness by increasing students' self-efficacy, improving the clarity of our messages, and ultimately creating a classroom centered around meaningful feedback.

#### Emmy Noether 1882–1935

IN 1964 at the World's Fair in New York City one room was dedicated solely to mathematics. The display included a very attractive and informative mural, about 13 feet long, sponsored by one of the largest computer manufacturing companies and presenting a brief survey of the history of mathematics. Entitled, "Men of Modern Mathematics," it gives an outline of the development of that science from approximately 1000 B. C. to the year of the exhibition. The first centuries of this time span are illustrated by pictures from the history of art and, in particular, architecture; the period since 1500 is illuminated by portraits of mathematicians, including brief descriptions of their lives and professional achievements. Close to eighty portraits are crowded into a space of about fourteen square feet; among them, only one is of a woman. Her face—mature, intelligent, neither pretty nor handsome—may suggest her love of science. Emmy Noether's intelligence and creative gift, but certainly reveals a likeable personality and a genuine kindness of heart. It is the portrait of Emmy Noether (1882 - 1935), surrounded by the likenesses of such famous men as Joseph Liouville (1809-1882), Georg Cantor (1845-1918), and David Hilbert (1862 -1943). It is accompanied by the following text: Emmy Noether, daughter of the mathematician Max, was often called "Der Noether," as if she were a man.

#### The Public Diplomacy Reader

The Public Diplomacy Reader is a 500-page compendium of intellectual and practical tools for the cross-cultural communicator. Designed for students, diplomats, military officers, intelligence professionals and other practitioners, the Reader is meant to be used as an instrument and guide in waging the war of ideas. Naval War College Professor of Strategy Carnes Lord describes The Public Diplomacy Reader as "a unique and outstanding compilation of materials on public diplomacy." Former Voice of America Director Robert R. Reilly says the book "brings the wealth of experience and knowledge" of an experienced public diplomacy practitioner to "both students and anyone wishing to win 'the war of ideas.'" The Public Diplomacy Reader is edited by J. Michael Waller, the Walter and Leonore Annenberg Professor of International Communication at The Institute of World Politics in Washington, D.C., and author of the ground-breaking 2007 book, *Fighting the War of Ideas like a Real War*.

#### Chasing Redbird

"Intriguing, delightful, and touching." —School Library Journal (starred review) "Creech's best yet." —Publishers Weekly (starred review) It started out as an ordinary summer. But the minute thirteen-year-old Zinny discovered the old, overgrown trail that ran through the woods behind her family's house, she realized that things were about to change. It was her chance to finally make people notice her, and to have a place she could call her very own. But more than that, Zinny knew that the trail somehow held the key to all kinds of questions. And that the only way to understand her family, her Aunt Jessie's death, and herself, was to find out where it went. From Newbery Medal-winning author Sharon Creech comes a story of love, loss, and understanding, an intricately woven tale of a young girl who sets out in search of her place in the world—and discovers it in her own backyard. An ALA Best Book for Young Adults

#### Testing Miss Malarkey

The new school year brings standardized testing to every school and Miss Malarkey's is no exception. Teachers, students, and even parents are preparing for THE TEST-The Instructional Performance Through Understanding (IPTU) test-and the school is in an uproar. Even though the grown-ups tell the

children not to worry, they're acting kind of strange. The gym teacher is teaching stress-reducing yoga instead of sports in gym class. Parents are giving pop quizzes on bedtime stories at night. The cafeteria is serving "brain food" for lunch. The kids are beginning to think that maybe the test is more important than they're being led to believe. Kids and adults alike will laugh aloud as Finchler and O'Malley poke fun at the commotion surrounding standardized testing, a staple of every school's year.

#### Dictionary of Foreign Quotations

A: It lists the cats involved). Also including bonus trivia in the form of “Stuff They Should Have Taught Us in School” facts (did you know a sneeze can travel up to 100 MPH?), this A+ collection will amuse anyone facing down a test as well as those happy to have the classroom behind them.

#### The Country of Language

Lucy has big hair, eats fun foods and is teased by a boy named Ralph at school because she is different. She tries to be brave but she wishes the teasing would stop. What should I do? she asks herself over and over. Lucy's Papa Gino reminds her to do the right thing and treat people with kindness. So when Ralph gets stuck on the playground and needs help, will Lucy use this chance to teach Ralph a lesson? Or will she have the courage to be true to herself and make the right choice with an act of kindness? Download your copy direct from the publisher website. The best book for teaching kindness and confronting bullying. Spaghetti in a Hotdog Bun is perhaps the most beloved book by award-winning author Maria Dismondy. It carries the key message of love, courage and positivity supported by the many advocates of positive parenting solutions. It will sit comfortably on your shelf alongside other books that focus on emotions, confidence and bullying. #### Impact Mathematics

The occasion of forty years of teaching at Amherst by William H. Pritchard, the renowned critic of Frost, Jarrell, and many others, has generated a remarkable collection of essays by former students, colleagues, and friends. The essays themselves are a spectrum of contemporary, criticism, ranging from classroom memoirs to analytic essay-in-criticism to assessment of the state of academic letters today. These contributions, a tribute, by reason of their very range, are a salute to the breadth of William Pritchard's circle of literary acquaintance. Under Criticism demonstrates the fine persistence in certain manners of approach and habits of focus that go, among that circle, under the name of

criticism. Drawing foremost on their engagement with the literature before them, Christopher Ricks, Helen Vendler, Patricia Meyer Spacks, Neil Hertz, David Ferry, Paul Alpers, Joseph Epstein, and Frank Lentricchia -- as well as fifteen other critics and men and women of letters -- reinforce Professor Pritchard's prescription that in order to have a hearing, the critic needs to keep listening.

### Black Border

In a standout debut for the #MeToo era, a young pianist devotes herself to her art — and to the demanding, charismatic teacher she idolizes. After seventeen-year-old Claire Alalay's father's death, only music has helped her channel her grief. Claire likes herself best when she plays his old piano, a welcome escape from the sadness — and her traditional Filipino mother's prayer groups. In the hopes of earning a college scholarship, Claire auditions for Paul Avon, a prominent piano teacher, who agrees to take Claire as a pupil. Soon Claire loses herself in Paul's world and his way of digging into a composition's emotional core. She practices constantly, foregoing a social life, but no matter how hard she works or how well she plays, it seems impossible to gain Paul's approval, let alone his affection. Author Cynthia Salaysay composes a moving, beautifully written portrait of rigorous perfectionism, sexual awakening, and the challenges of self-acceptance. Timely and vital, *Private Lessons* delves into a complicated student/teacher relationship, as well as class and cultural differences, with honesty and grace.

### Spaghetti in a Hot Dog Bun

Whose foot is this? An intriguing close-up of an animal's foot piques curiosity that's satisfied on the following page with a stunning full-size photo of the animal itself and a brief description of how the foot is used. A tiger stalks its prey on velvet paws. A gecko's ribbed feet enable it to climb walls as smooth as glass. The mole uses its feet for digging. The webbed feet of a duck help it swim. Rabbits and kangaroos have feet adapted for jumping fast and far. Caterpillars, starfish, and octopuses all use their feet to grab hold. The guessing-game format makes learning about natural adaptation fun. Includes an index of all animals illustrated.

### The Coveteur

'Boldly reactionary... What looks like feast, Carr argues, may be closer to famine' Sunday Times 'Chilling' The Economist In this ground-breaking and compelling book, Nicholas Carr argues that not since Gutenberg invented printing has humanity been exposed to such a mind-altering technology. The Shallows draws on the latest research to show that the Net is literally re-wiring our brains inducing only superficial understanding. As a consequence there are profound changes in the way we live and communicate, remember and socialise - even in our very conception of ourselves. By moving from the depths of thought to the shallows of distraction, the web, it seems, is actually fostering ignorance. The Shallows is not a manifesto for luddites, nor does it seek to turn back the clock. Rather it is a revelatory reminder of how far the Internet has become enmeshed in our daily existence and is affecting the way we think. This landmark book compels us all to look anew at our dependence on this all-pervasive technology. This 10th-anniversary edition includes a new afterword that brings the story up to date, with a deep examination of the cognitive and behavioural effects of smartphones and social media.

### Did I Miss Anything?

If a hungry little traveler shows up at your house, you might want to give him a cookie. If you give him a cookie, he's going to ask for a glass of milk. He'll want to look in a mirror to make sure he doesn't have a milk mustache, and then he'll ask for a pair of scissors to give himself a trim.... The consequences of giving a cookie to this energetic mouse run the young host ragged, but young readers will come away smiling at the antics that tumble like dominoes through the pages of this delightful picture book.

### Things I Want To Say To My Students But I Can't

I believe that our potentials are just raw materials; how we optimize them will determine whether they will become useful products or useless wastes. In this book, you will find thought provoking series of motivations meant to empower you to do more than you have done. I have deliberately shared clear guiding directions and inspirations that will create an advantageous mental environment for you to pursue your dreams. You know, it all starts from our minds and hence this book will spark your minds and empower you to live a purposeful life. The three major principles on which this book was written are; 1. To inform you to embrace opportunities, 2. To inspire you to defeat challenges and 3. To promote you to make a difference. I hope it becomes an opportunity for you to live your dreams to the fullest and also empower someone to also live his (her) dreams also with passion!
