## The Book of Raymond

Raymond Richard tells it like it is in a powerful collection of poems that are electrifying, terrifying and awe-inspiring. Richard, a victim of abject poverty, lived on the streets of Chicago and took to crime and drugs to survive.

## Poetry to God

Poetry to God Volume 4: Prison Praise is a vast collection of spiritual, uplifting, and empowering poems written by a man doing time in state prison. This book of poetry includes cries from behind the wall and love letters from prison. Each poem will encourage your heart, soul, and mind and keep you focused on the things of God. Overwhelming comfort can also be found here in this book of inspirational poetry. All of the poems are true-life experiences written by Terry Webb while doing time in a California state prison, keeping his heart and mind on the things of God.

## Leave A Legacy In Words

This book of poems was written with inspiration and from the heart. It came to pass as if God was speaking to me giving me the words to put on paper, the poems are spiritually discerned and written out of love. At times, I knew it was God speaking to me as you will find as you read these poems as well as in the books to follow. This book of poems was meant to inspire those that read them, whether they make you sad, happy, or encourage you. It was God who seen me through a five year serve out incarcerations. That is five years straight, from 1997 to the end of 2001. I have been out for 15 years and have not looked back. You have to be down and out, it is then that you will call out to God, "God help me". So, I am truly grateful that he did just that. I spent my time reading and writing a lot, also taking care of my physical body by working out and doing a lot of walking. As I walked, I had a little pocket version of the New Testament and I would read scriptures until I memorized them. One of the first scriptures I memorized was Proverbs 3:5-6. The scripture says "Trust in the Lord with all thine heart, lean not unto thine own understanding in all thy ways acknowledge him, and he will direct thy paths". (King James Version) May you be inspired and blessed as you read these poems. God has blessed me and he wants me to share that it was Him that changes life. May you find comfort and peace as you read these poems. God Bless Ray Tapp

## All The Names Given

From the Sunday Times Young Writer of the Year 2019 Shortlisted for the T. S. Eliot Prize 2021 '[Raymond Antrobus] has built another beautiful paper house which you can spend a very long and deeply satisfying time inside.' Mark Haddon 'Moving deftly between tenderness and violence, hope and grief, praise and lament, this is a deeply evocative collection that will linger in the reader's mind.' Guardian Raymond Antrobus's astonishing debut collection, *The Perseverance*, won both Rathbone Folio Prize and the Ted Hughes Award, amongst many other accolades; the poet's much anticipated second collection, *All The Names Given*, continues his essential investigation into language, miscommunication, place, and memory. Throughout, *All The Names Given* is punctuated with [Caption Poems] partially inspired by Deaf sound artist Christine Sun Kim, which attempt to fill in the silences and transitions between the poems, as well as moments inside and outside of them. Direct, open, formally sophisticated, *All The Names Given* breaks new ground both in form and content: the result is a timely, humane and tender book from one of the most important young poets of his generation.

In the wake of his father's death, the speaker in Raymond Antrobus' *The Perseverance* travels to Barcelona. In Gaudi's Cathedral, he meditates on the idea of silence and sound, wondering whether acoustics really can bring us closer to God. Receiving information through his hearing aid technology, he considers how deaf people are included in this idea. "Even though," he says, "I have not heard / the golden decibel of angels, / I have been living in a noiseless / palace where the doorbell is pulsating / light and I am able to answer." *The Perseverance* is a collection of poems examining a d/Deaf experience alongside meditations on loss, grief, education, and language, both spoken and signed. It is a book about communication and connection, about cultural inheritance, about identity in a hearing world that takes everything for granted, about the dangers we may find (both individually and as a society) if we fail to understand each other.

In his final book before his death, Primo Levi returns once more to his time at Auschwitz in a moving meditation on memory, resiliency, and the struggle to comprehend unimaginable tragedy. Drawing on history, philosophy, and his own personal experiences, Levi asks if we have already begun to forget about the Holocaust. His last book before his death, Levi returns to the subject that would define his reputation as a writer and a witness. Levi breaks his book into eight essays, ranging from topics like the unreliability of memory to how violence twists both the victim and the victimizer. He shares how difficult it is for him to tell his experiences with his children and friends. He also debunks the myth that most of the Germans were in the dark about the Final Solution or that Jews never attempted to escape the camps. As the Holocaust recedes into the past and fewer and fewer survivors are left to tell their stories, *The Drowned and the Saved* is a vital first-person testament. Along with Elie Wiesel and Hannah Arendt, Primo Levi is remembered as one of the most powerful and perceptive writers on the Holocaust and the Jewish experience during World War II. This is an essential book both for students and literary readers. Reading Primo Levi is a lesson in the resiliency of the human spirit.

## From Prison to the Premiership - The Amazing True Story of Britain's Hardest Footballer

Few footballers have 'Jailhouse Rock' played over the PA when they make their professional debut, but that's what happened to Jamie Lawrence when he came on as a substitute for Sunderland against Middlesbrough in 1993. In a life that has seen him go from prison to the football premiership, Jamie has one hell of a story to tell. In a career that has lasted over 12 years, Jamie Lawrence has played in the Premiership against some of the world's best players, including David Beckham. He has won the Liverpool Cup with Leicester and has played for Jamaica in World Cup qualifiers. But his route into football's elite was far from conventional, for Jamie spent his late teens in Borstal. Jamie's skill for football emerged at the age of three, but although he played for local teams in Battersea as a schoolboy, he wasn't scouted by a professional club. When his parents returned to Jamaica when he was 17, Jamie fell into a life of petty crime. It was during his second spell in prison, at Camp Hill on the Isle of Wight, that he began to turn his life around. He joined the prison football team and his talent was spotted when they played a semi-professional team. Three months after his release from prison in 1993, Jamie was signed by Sunderland. Jamie's character, which is as colourful as his ever-changing hair styles, has endeared him to everyone he meets. Fans, managers, team-mates, opponents, friends and ex-lovers all tell tales of his various escapades, including his legendary capacity for consuming Guinness and his numerous sexual adventures. And Jamie reveals how he has matured to the point that he is now in a settled relationship and is taking responsibility for his children. This biography of a hilarious insight into one of football's greatest characters.

Belief

From prison to premiership glory; this is Marlion Pickett's extraordinary story. It's the third quarter in the biggest game of the season. A young man lines up for goal. The 100,000 strong crowd leaps to its feet and roars as Marlion Pickett sends the ball soaring through the goalposts for his first ever major, celebrated by every teammate, a tradition upheld even on Grand Final day. It was the 2019 AFL Grand Final, and Richmond's Marlion Pickett was making history as the first player in over 50 years to debut on that 'one day in September'. Marlion helped the Tigers thrash the Greater Western Sydney Giants in their debut grand final appearance and was judged third best on ground, only six days after steering Richmond's VFL team with his best on ground performance to their nail biting Grand Final victory. Marlion Pickett's extraordinary story of redemption is a true fairy tale. The tale of a man who came back from the brink to triumph on Australian sport's biggest stage, a long-held dream come true. What's even more remarkable about Marlion's journey is how this young, troubled Aboriginal kid from Western Australia ever got his chance in the first place. A story all too sadly familiar – about drugs, crime, violence and time spent in jail – but also about a life picked up piece by piece through his own belief in himself and those around him who believed in him too. Belief also takes us inside the South Fremantle and Richmond Football clubs – clubs that have made stars and cult heroes out of other Indigenous players; clubs willing to overlook a talented kid's troubled past to give him a chance. We meet the fellow players and support network who stood by Marlion's side as he fought back against injury and the doubters and proudly ran onto the field at the MCG. Marlion's resilience and strength is inspirational. His is an unforgettable Australian story of triumph over adversity. Foreword by Brendan Gale, CEO Richmond Football Club and Damien Hardwick, Senior Coach Richmond Football Club '[Belief reads] like a Steinbeck novel cum Tarantino film due to the vividly unfolding drama on almost every page.' Dr Sean Gorman, AFL.com.au

### Sport in Prison

Although prison can present a critical opportunity to engage with offenders through interventions and programming, reoffending rates among those released from prison remain stubbornly high. Sport can be a means through which to engage with even the most challenging and complex individuals caught up in a cycle of offending and imprisonment, by offering an alternative means of excitement and risk taking to that gained through engaging in offending behaviour, or by providing an alternative social network and access to positive role models. This is the first book to explore the role of sport in prisons and its subsequent impact on rehabilitation and behavioural change. The book draws on research literature on the beneficial role of sport in community settings and on prison cultures and regimes, across disciplines including criminology, psychology, sociology and sport studies, as well as original qualitative and quantitative data gathered from research in prisons. It unpacks the meanings that prisoners and staff attach to sport participation and interventions in order to understand how to promote behavioural change through sport most effectively, while identifying and tackling the key emerging issues and challenges. *Sport in Prison* is essential reading for any advanced student, researcher, policy-maker or professional working in the criminal justice system with an interest in prisons, offending behaviour, rehabilitation, sport development, or the wider social significance of sport.

Even though it has faded in the minds of most, the Cold War was the dominant happening in the second half of the 20th Century. The underlying cause was the Soviet Union's expansionism, which was driven by imperialist ambition overlaid with ideology. Combating this radical and highly threatening form of political and territorial aggrandizement made extraordinary demands on the Western nations,

and especially the United States because of its strength and democratic tradition. These forces vied in the Hungary-Suez Crisis of 1956 as not before or after, when 200,000 Soviet troops intervened in Hungary to put down the revolution and the attendant Uprising, and, acting contrary to Western interests, Britain and France invaded the Canal Zone and the Israelis the Sinai, raising the crisis to a point of extreme danger as the East-West confrontation nearly burst its bounds. Had the allies not been halted in Egypt by the Eisenhower Administrations use of the UN Charter and UN mechanisms for maintaining peace, and the Russians not deterred from invading Western Europe by threat of U.S. nuclear retaliation, it seemed possible that the world would experience a general war with nuclear weapons as a major component. A Lesson for Our Times focuses on this possibility. While it is about the steps taken by the United States to prevent the worst from occurring immediately, it is also about what was done to prevent a similar crisis from occurring in the future. To say that these actions were unique and effective is true but not enough. They were also unprecedented in the history of the nation, and surely the world, as well as proof that the peace-keeping system devised after World War II would function as intended if undergirded and augmented by U.S. prestige and wherewithal. Here, then, was Hungary-Suez in its totality. More should be known about the crisis for these reasons alone. This book seeks to meet that need while filling a large gap in the understanding of the Cold War. It also recalls a time when Americas conduct as the worlds primary superpower was as clear and visionary as it was purposeful and constructive, in a word, when American diplomacy was at its zenith.

### The Hungarian Revolution

Koestler Platinum Award Winner (judged by author and comedian Will Self). As Frankie Owens writes in The Little Book of Prison (LBP), Society wants to know about prison life, an interesting place to visit but you wouldn't want to live there. --An easy-to-read prison survival guide of do's and don'ts. --Perfect for anyone facing trial for an offence that may lead to imprisonment, their families and friends --Packed with humour as well as more serious items --Backed by prisoner support organizations --Straightforward and highly entertaining. Frankie started writing the LBP from day two of entering prison as a first-time offender. He had no idea how the system or a prison worked. He was clueless about it all and it was hard for him going in and frightening for the family and loved ones he left behind. The writing began as self-help and as the days progressed it occurred to Frankie that the LBP would prove useful to first-time offenders as well as other prisoners and help them get through what is surely one of the most difficult times in their lives. It also motivated him to get out on the prison wing and find out as much as possible about his new home. There are a lot of books about people in prison, people in far worse places than Frankie was and on far longer sentences. But the LBP is a book about prison not people, and will help new inmates, their friends and families get to know what to expect from the system. The LBP is a masterpiece in comic writing but somehow gets through to people with serious information in a way that more formal texts cannot. Already organizations connected to the criminal justice system are beginning to acknowledge that Frankie Owen's LBP is an ideal read for people facing the trauma of a first prison sentence. It will also be of considerable interest to other prisoners or people working in a custodial setting. "If people want to know what prison is like it's for them, if people need to know what happens in prison it's definitely for them". Frankie Owens was prisoner A1443CA at Her Majesty's pleasure until 2 August 2011. Publisher's note.

## The Hungarian Revolution; a White Book

From Oscar Wilde to the Kray brothers—a unique history of the lives and crimes of the United Kingdom's most famous, and infamous, inmates. Their names can chill the blood of true-crime aficionados: Peter Sutcliffe, aka The Yorkshire Ripper; child-torturer Ian Brady; cannibal Dennis Nilsen; serial killer Beverley Allitt. Some are tinged in glamour: beautiful nightclub hostess Ruth Ellis, hanged for a crime of passion. While others hold a bizarre fascination, like bare-knuckle boxer Michael Gordon Peterson. Called “the most violent prisoner in Britain” he changed his name to Charles Bronson in honor of the Death Wish star. Only to change it yet again to Charles Salvador, in honor of his favorite artist, Dali. By any name, the “one-man riot” was a prison superstar. Britain's Most Notorious Prisoners tells the stories of these lives and many more inside the Big House where prison culture breeds a strange, unreal community. It's also where the system learns to cope with those who refuse to live by the law of the land: killers and rapists, spies, gangster, hit-men, political prisoners, and serial offenders—as well as some who were egregiously wronged. From headline-makers to long-forgotten villains, these stories make for a thrilling and harrowing look at life, death, and survival behind bars.

## A Bit of a Stretch

This book presents both a survey of and commentary upon the penal process of England and Wales between 1945 and 2020 from the primary perspective of prisons and their operational management. Part I focusses on the extent to which governmental polities, changing concepts in penology and significant events affected the performance and management of prisons during four key periods: 1945-1991; 1991-1997; 1997-2007 and 2007-2020. Part II presents a vision for more effective operation of prisons within the wider penal process in the 2020s and beyond. It draws upon the author's academic insights and his experience as a former prison governor. This book speaks to those in the social sciences, law and politics and to professionals in government and in the penal system who are interested in reform.

## The British National Bibliography

The Columbia Guide to East African Literature in English Since 1945 challenges the conventional belief that the English-language literary traditions of East Africa are restricted to the former British colonies of Kenya, Uganda, and Tanzania. Instead, these traditions stretch far into such neighboring countries as Somalia and Ethiopia. Simon Gikandi and Evan Mwangi assemble a truly inclusive list of major writers and trends. They begin with a chronology of key historical events and an overview of the emergence and transformation of literary culture in the region. Then they provide an alphabetical list of major writers and brief descriptions of their concerns and achievements. Some of the writers discussed include the Kenyan novelists Grace Ogot and Ngugi wa Thiong'o, Ugandan poet and essayist Taban Lo Liyong, Ethiopian playwright and poet Tsegaye Gabre-Medhin, Tanzanian novelist and diplomat Peter Palangyo, Ethiopian novelist Berhane Mariam Sahle-Sellassie, and the novelist M. G. Vassanji, who portrays the Indian diaspora in Africa, Europe, and North America. Separate entries within this list describe thematic concerns, such as colonialism, decolonization, the black aesthetic, and the language question; the growth of genres like autobiography and popular literature; important movements like cultural nationalism and feminism; and the impact of major forces such as AIDS/HIV, Christian missions, and urbanization. Comprehensive and richly detailed, this guide offers a fresh perspective on the role of East Africa in the development of African and world literature in English and a new understanding of the historical, cultural, and geopolitical boundaries of the region.

Taking the events of Blair's last hundred days as his launching pad for captivating snapshots of key moments in his premiership, Adam Boulton follows Tony Blair intimately through his final day in office. The veteran political journalist witnesses the so-called 'Blairwell Tour' as the caravan travels from Westminster to Washington, Iraq, South Africa, the EU, the G8, Northern Ireland, the Sedgefield constituency, Chequers to the final farewell and beyond. Boulton traces from these celebrations back to the key incidents, achievements and mistakes of the Prime Minister's ten years in power. And he draws on his first hand experience of them to measure Tony Blair against his immediate predecessors, Margaret Thatcher and John Major, and the rival who succeeded him, Gordon Brown. Boulton has followed the Blair story intimately from 1983 to the present. He provides fresh and fascinating insights into the Blair-Brown conflict, the decision making that led to Britain joining the US invasion of Iraq, the pressures on the Blair family, and the often fraught and febrile relationship between Number 10 and the media. MEMORIES OF THE BLAIR ADMINISTRATION is authoritative, highly readable and revealing.

Britain's Most Notorious Prisoners

It was the railway's Titanic. A horrific crash involving five trains in which 230 died and 246 were injured, it remains the worst disaster in the long history of Britain's rail network.??The location was the isolated signal box at Quintinshill, on the Anglo-Scottish border near Gretna; the date, 22 May 1915. Amongst the dead and injured were women and children but most of the casualties were Scottish soldiers on their way to fight in the Gallipoli campaign. Territorials setting off for war on a distant battlefield were to die, not in battle, but on home soil – victims, it was said, of serious incompetence and a shoddy regard for procedure in the signal box, resulting in two signalmen being sent to prison. Startling new evidence reveals that the failures which led to the disaster were far more complex and wide-reaching than signalling negligence. Using previously undisclosed documents, the authors have been able to access official records from the time and have uncovered a?highly shocking and controversial truth behind what actually happened at Quintinshill and the extraordinary attempts to hide the truth.??As featured in Dumfries & Galloway Life magazine, January 2014.

## Prisons, Politics and Practices in England and Wales 1945–2020

*Privatising Criminal Justice* explores the social, cultural and political context of privatisation in the criminal justice sector. In recent years, the criminal justice sector has made various strategic partnerships with the private sector, exemplified by initiatives within the police, the prison system and offender services. This has seen unprecedented growth in the past 30 years and a veritable explosion under the tenure of the coalition government in the UK. This book highlights key areas of domestic and global concern and illustrates, with detailed case studies of important developments. It connects the study of criminology and criminal justice to the wider study of public policy, government institutions and political decision making. In doing so, *Privatising Criminal Justice* provides a theoretical and practical framework for evaluating collaborative public and private-sector response to social problems at the beginning of the twenty-first century. An accessible and compelling read, this book will appeal to students and scholars of criminology, criminal justice, sociology and politics and all those interested in how privatisation has shaped the contemporary criminal justice system.

## The Columbia Guide to East African Literature in English Since 1945

Recent outbursts of sectarian and ethnic violence in Iraq have made many observers question the viability of the state itself. It is said that due to the artificiality of the state and a lack of deep-seated political institutions, Iraqi politics is doomed to endlessly revert back to primordialism. Political parties are mere facades for the real intention of pursuing ethno-sectarian interests, the argument goes. But the present situation has largely been caused by Saddam Hussein's infamous rule over the past three decades, combined with the plight of international sanctions. Before Saddam's ascent to power in the late 1970s, however, the Iraqi political spectrum was full of political parties operating from ideological platforms. The largest, and arguably most important of these groups, was the Iraqi Communist Party (ICP). The ICP stands out as the only true cross-sectarian party in Iraqi history, drawing support from all of Iraq's diverse communities. From its inception in 1934, it continuously fought the various regimes in power and endeavoured to spread communist ideology throughout Iraq. At times the party achieved considerable success in this regard, although ultimately never able to seize power. *Red Star over Iraq* analyses the twists and turns of the ICP from its inception until its ultimate demise as a significant political force at the hands of Saddam in 1979.

## The Spirit of Hungary

Bad things happen to all people but we often ask why good people suffer and the wicked prosper. This is a very complex subject to which Ady tries to give some clarity. In this book "Through Trials To Triumph" he discusses the issue from a Biblical perspective and helps the reader to understand why trials happen to all of us. This book shows that life is a journey full of ups and downs. What we often perceive as a bad situation can be an opportunity for change and growth, but the key is "attitude and faith." How people deal with life's trials depends on what attitude they have. God does not cause bad things to happen to us, but he allows them in our lives, and stands ready to help us through difficult times.

Finland and Hungary both fought on the losing side in WWII. Yet the former was able to resist the overwhelming power of its Soviet neighbour, while Hungary, whose status was uncertain until 1947, was not. Could the revolt of 1956 have been a turning point? How did the Helsinki Accords contribute to the end of the Cold War?

## Background Notes

This book brings together a collection of emergent research that moves the debate on desistance beyond a general consideration of individual and social structural influences. The authors examine empirical developments which have implications for policy surrounding resettlement and re-offending, but also for punishment practices. Presenting thought-provoking theoretical advances and critiques, the editors challenge and enrich traditional understandings of desistance. A wide range of chapters explore how some criminal justice interventions hinder the desistance process, but also how alternative approaches may be more helpful in promoting and supporting desistance. Thorough and diverse, this book will be of great interest to scholars of criminology and criminal justice, social policy, sociology and psychology, and of special interest to researchers and practitioners working with (ex-)offenders.

## From Prison to Power

WINNER of the William Hill Sports Book of the Year Award 2015 In the last two decades football in Britain has made the transition from a peripheral dying sport to the very centre of our popular culture, from an economic basket-case to a booming entertainment industry. What does it mean when football becomes so central to our private and political lives? Has it enriched us or impoverished us? In this sparkling book David Goldblatt argues that no social phenomenon tracks the momentous economic, social and political changes of the post-Thatcherite era in a more illuminating manner than football, and no cultural practice sheds more light on the aspirations and attitudes of our long boom and now calamitous bust. A must-read for the thinking football fan, *The Game of Our Lives* will appeal to readers of *Fever Pitch* by Nick Hornby and *Inverting the Pyramid* by Jonathan Wilson. It will also be relished by readers of British social history such as *Austerity Britain* by David Kynaston. 'Brilliantly incisive. Goldblatt is not merely the best football historian writing today, he is possibly the best there has ever been. Goldblatt's book could hardly be more impressive' *Sunday Times*
