Creating America

One of the half dozen most important books ever written about the American Revolution.--New York Times Book Review "During the nearly two decades since its publication, this book has set the pace, furnished benchmarks, and afforded targets for many subsequent studies. If ever a work of history merited the appellation 'modern classic,' this is surely one.--William and Mary Quarterly "[A] brilliant and sweeping interpretation of political culture in the Revolutionary generation.--New England Quarterly "This is an admirable, thoughtful, and penetrating study of one of the most important chapters in American history.--Wesley Frank Craven

Creating America

Millions of American families from every race, creed, and economic background are losing hope as the United States continues slide deeper into fiscal insanity and moral decay. Where will America stand when we lose our traditional values, border security, and limited government? Having gained insight from industry experts in farming, energy, infrastructure, and finance, author Douglas MacKinnon has outlined one alternative to our existing government in an entirely constitutional and legal approach—secession from the United States of America. President Abraham Lincoln once said, “This country, with its institutions, belongs to the people who inhabit it. Whenever they shall grow weary of the existing government, they can exercise their constitutional right of amending it, or their revolutionary right to dismember or overthrow it.” With this patriotic wisdom of Abraham Lincoln and Thomas Jefferson in mind, MacKinnon also works in conjunction with a team of highly experienced individuals from Special-Ops, intelligence, the military, and constitutional law to provide you with the answers to why, how, when, and where as he outlines what secessionism would bring. Using maps, charts, and excerpts of previously published materials to supplement his own interviews and research, MacKinnon has written a powerful, one-of-a-kind book that will initiate conversation—and movement—throughout the country.

Creating America

Printed in color. U.S. History is designed to meet the scope and sequence requirements of most introductory courses. The text provides a balanced approach to U.S. history, considering the people, events, and ideas that have shaped the United States from both the top down (politics, economics, diplomacy) and bottom up (eyewitness accounts, lived experience). U.S. History covers key forces that form the American experience, with particular attention to issues of race, class, and gender.

From one of America's most popular short story writers and an Academy Award nominee: the O. Henry Award-winning tale that inspired the movie The Hunt. A subject of mysterious rumors and superstition, the deserted Caribbean Island was shrouded in an air of peril. To Sanger Rainsford, who fell off a yacht and washed up on its shores, the abandoned isle was a welcome paradise. But unknown to the big-game hunter, a predator lurked in its lush jungles—one more dangerous than any he had ever encountered: a human. First published in 1924, this suspenseful tale “has inspired serial killers, films

and stirred controversy in schools. A century on, the story continues to thrill” (The Telegraph). “[A] tense, relentless story of man-against-man adventure, in which the hunter Sanger Rainsford learns, at the hands of General Zaroff, what it means to be hunted.” —Criterion
