Intro

Welcome to this interview training tutorial.

In very simple terms, the supply chain is a system that involves organizations, people, resources, activities and information that are all involved in the process of moving a product or service from the supplier to the customer.

That's a good question! The one thing I like the most about working in supply chain is the fact you get to work with so many different companies, people and organizations to build up long-term, positive relationships that everyone can benefit from
