Before We Fall

The third book in the Beautifully Broken series. Sometimes before we fall . . . we fly. One dark moment was all it took to turn twenty-four-year-old Dominic Kinkaide's world black. On the night of his high school graduation, a single incident changed him forever, and he became a hardened man - famous in the eyes of the world, but tortured inside. Now all he cares about is losing himself in the roles that he plays. At twenty-three years old, Jacey Vincent doesn't realise how much her father's indifference has affected her. She tries to find acceptance in the arms of men to fill the void - a plan that has worked just fine for her, until she meets Dominic. When jaded Dominic and strong-willed Jacey are thrown together, the combination of his secrets and her issues turns their attraction into the perfect storm. It could change their lives for good - if it doesn't tear them both apart . . .

Before We Fall

In the bestselling tradition of J.A. Redmerski and Jessica Sorensen come the next novel in Courtney Cole's New York Times bestselling Beautifully Broken Series... Sometimes before we fall . . . we fly. One dark moment was all it took to turn twenty-four-year-old Dominic Kinkaide's world black. On the night of his high school graduation, a single incident changed him forever, and he became a hardened man-famous in the eyes of the world, but tortured inside. Now all he cares about is losing himself in the roles that he plays. At twenty-three years old, Jacey Vincent doesn't realize how much her father's indifference has affected her. She is proof that sometimes it isn't one specific moment that wrecks a person, but an absence of moments. She tries to find acceptance in the arms of men to fill the void-a plan that has worked just fine for her, until she meets Dominic. When jaded Dominic and strong-willed Jacey are thrown together, the combination of his secrets and her issues turns their attraction into the perfect storm. It could change their lives for good-if it doesn't tear them both apart . . .

If You Stay

The first book in the Beautifully Broken series. Twenty-four-year-old Pax Tate is not always a nice guy. He's a tattooed, rock-hard bad boy with a bad attitude to match. But he's got his reasons. His mother died when Pax was seven, leaving a hole in his heart filled with guilt. As Pax grew up, he tried to be the perfect golden boy but his dad couldn't overcome his grief long enough to notice. Pax couldn't keep up the impossible perfect façade, so he slipped far, far from it. Now, he uses drugs and women to cope with the ugly, black void in his heart. Until he meets sweet, beautiful Mila Hill. Mila is a carefree smile to his hardened frown, the beauty to his beast. When memories of his mother's death resurface, Mila is there to help him mend his broken heart . . . but only if he can stop being a jerk long enough to allow it. Pax says he's working on it. But is that enough to make her stay?

Until We Fly

Nora Greene works to rekindle her relationship with ex-Army Ranger Brand Killien while Brand is home for a family emergency.

If You Leave

The second book in the Beautifully Broken series. Ex-army soldier Gabriel Vincent is a badass hero. Or he used to be. Home from Afghanistan, Gabe can't stop thinking about that one horrible night on the battlefield, a night that changed his life for ever. He knows he's messed up, but with the help of a little beer and a lot more women, he's keeping it together. Until he meets Madison Hill. Madison is happily single - or so she thinks. After the tragic death of her parents, she took on the responsibility of running

the family restaurant, and that's all she has time to worry about. Until she meets Gabriel. Though they don't know realise it at first, Gabe and Maddy will soon develop a weakness: each other. They need to be together to be whole, but can they find a way to heal the past . . . before they lose each other?

Saving Beck

From New York Times bestselling author Courtney Cole comes “a raw, powerful, heart-wrenching read” (Robyn Harding, international bestselling author of *The Party*) about a son's heroin addiction and its harrowing effects on both him and his mother, reminiscent of the #1 New York Times bestselling memoir *Beautiful Boy*. There comes a time when offering your life for your child's doesn't work, when you realize that it'll never be enough. The cold needle in his warm vein was a welcome comfort to my son at first. But then it became the monster that kept us apart. Heroin lied, and my son believed. It took him to a world where the last year didn't happen, to a place where his father was still alive. What Beck didn't understand was that it couldn't bring his father back from the dead. It couldn't take away his pain, not permanently. You think it can't happen to you, that your kids, your family, will never be in this situation. I thought that too. But you're wrong. Step into our world, and see for yourself. Watch my golden boy become a slave to this raging epidemic. Watch me try and save him. Drug addiction comes with a price. Trust me, you're not equipped to pay it. Don't miss this heartwrenching, evocative, yet hopeful novel—“it will rip your heart out but then leave you knowing there is a light at the end of the tunnel” (Nikki Sixx, New York Times bestselling author of *The Heroin Diaries*).

Such Dark Things

A HORRIFIC RECURRING NIGHTMARE IS THREATENING TO STEAL HER SANITY... Dr. Corinne Cabot is living the American dream. She's a successful ER physician in Chicago who's married to a handsome husband. Together they live in a charming house in the suburbs. But appearances can be deceiving—and what no one can see is Corinne's dark past. Troubling gaps in her memory mean she recalls little about a haunting event in her life years ago that changed everything. She remembers only being in the house the night two people were found murdered. Her father was there, too. Now her father is in prison; she hasn't been in contact in years. Repressing that terrifying memory has caused Corinne moments of paranoia and panic. Sometimes she thinks she sees things that aren't there, hears words that haven't been spoken. Or have they? She fears she may be losing her mind, unable to determine what's real and what's not. So when she senses her husband's growing distance, she thinks she's imagining things. She writes her suspicions off to fatigue, overwork, anything to explain what she can't accept—that her life really isn't what it seems.

Mine

"The USA TODAY and New York Times bestselling author of the "raw, powerful, heart-wrenching" (Robyn Harding) *Saving Beck* delivers a riveting and heart-pounding story of a crumbling marriage rocked by an affair--as betrayal and jealousy begin to consume both wife and mistress, forever intertwining their fates" --

LET THERE BE LIGHT. My name is Calla Price and I'm broken. My pieces are all around me, floating on the wind, even as I desperately try to grasp them. Who is dead? Alive? Insane? What is the truth? I don't know. I do know this: The darkness is strangling me. With every breath, I choke on another lie. My mind has protected me, but that shield will soon be lowered. All will be revealed. Every answer to every question. It's all been leading to this. Don't be afraid. Be terrified.

Confessions of an Alli Cat

Fifty Shades of Grey meets hilarious Contemporary Romance in this witty and sexy novel by Courtney Cole. Caution! Only read this book if you want to laugh and are not offended at adult themes and language. This is not a Young Adult book. ***** "You know what they say...a happy vagina is a happy woman. Well, they might not say that, but they should." -Alli Thirty-five year-old Allison "Alli" Lancaster has it all-a fabulous job, a beautiful 15 year-old daughter, a hilarious BFF and a gorgeous house with a pool and Jacuzzi in an exclusive Las Vegas neighborhood. What she doesn't have is a husband, because she kicked her lousy, cheating ex to the curb nine months ago. Since then, Alli has paid her dues with seemingly endless self-improvement and seemingly endless mourning. Now she's ready to move on and try new things. Alli's idea of "trying new things" is nothing like that devil-of-a-best-friend of hers. Somehow, Sara, the devil of a best friend, talks Alli into trying out a sex toy, sleeping with a younger man and letting a stranger in a lab jacket put hot wax on a place that should never, ever, ever see wax. And that's only the beginning. Alli never saw her life going quite like this. She also never thought she'd meet someone else who had the very real potential to change her life forever. But she did. Enter the new guy. He's gorgeous, refined and mature. He's also marriage material. But that poses a problem for Alli, who renounced the institution of marriage when she renounced her ex. What's a girl to do? They say that what happens in Vegas, stays in Vegas. But what the heck happens when you can't leave Vegas? Well, you spin the wheel, of course. You play the game and let the chips fall where they may. Alli just hopes she can find them all.

The Last to See Her

A woman disappears into the dark city night... Gen is on the verge of a divorce from her cheating husband. When her sister, Meg, has a convention to attend in the Big Apple, she invites Gen along to celebrate her newly found freedom. But the perfect sisters' getaway quickly goes awry when a tipsy Gen defiantly throws her wedding ring off the hotel room's balcony. Then, wanting some fresh air, she decides to take a late-evening walk alone and vanishes without a trace. The investigation that follows uncovers secrets—and betrayals—between sisters and spouses that will twist the truth in on itself until nothing is clear. What really happened to Gen and who, besides Meg, was the last to see her?

Hamilton's Battalion

Love in the time of Hamilton... On October 14, 1781, Alexander Hamilton led a daring assault on Yorktown's defenses and won a decisive victory in America's fight for independence. Decades later, when Eliza Hamilton collected his soldiers' stories, she discovered that while the war was won at Yorktown, the battle for love took place on many fronts... PROMISED LAND by Rose Lerner Donning men's clothing, Rachel left her life behind to fight the British as Corporal Ezra Jacobs--but life catches up with a vengeance when she arrests an old love as a Loyalist spy. At first she thinks Nathan Mendelson hasn't changed one bit: he's annoying, he talks too much, he sticks his handsome nose where it doesn't belong, and he's self-righteously indignant just because Rachel might have faked her own death a little. She'll be lucky if he doesn't spill her secret to the entire Continental Army. Then Nathan shares a secret of his own, one that changes everything... THE PURSUIT OF... by Courtney Milan What do a Black American soldier, invalided out at Yorktown, and a British officer who deserted his post have in common? Quite a bit, actually. * They attempted to kill each other the first time they met. * They're liable to try again at some point in the five-hundred-mile journey that they're inexplicably sharing. * They are not falling in love with each other. * They are not falling in love with each other. * They are.... Oh no. THAT COULD BE ENOUGH by Alyssa Cole Mercy Alston knows the best thing to do with pesky feelings like "love" and "hope": avoid them at all cost. Serving as a maid to Eliza Hamilton, and an assistant in the woman's stubborn desire to preserve her late husband's legacy, has driven that point

home for Mercy—as have her own previous heartbreaks. When Andromeda Stiel shows up at Hamilton Grange for an interview in her grandfather's stead, Mercy's resolution to live a quiet, pain-free life is tested by the beautiful, flirtatious, and entirely overwhelming dressmaker. Andromeda has staid Mercy reconsidering her worldview, but neither is prepared for love—or for what happens when it's not enough.

The Christmas Dress

An enchanted Christmas dress brings two generations of women together for the magic of the season in this delightful holiday story from New York Times bestselling author Courtney Cole. One Dress. Two Women. The Magic of the Holiday Season. When hopeful fashionista Meg Julliard must return to her hometown of Chicago to manage her late father's apartment building, she thinks her dreams of making it in the fashion business are over. Add in her father's eclectic roster of tenants who all need Meg's attention (ASAP!), a host of building related disasters, and a handsome handyman she keeps embarrassing herself in front of, and this has all the makings for the worst Christmas she's ever had. Ellie Wade, one of the building's longtime residents, is also not feeling the Christmas Joy this year. She is preparing to move into a nursing home (reluctantly), and is in the process of sorting through her belongings to downsize. Every corner of her apartment holds memories, some good, some bad. But there's one dress she hesitates to pack up as it represents both the best and worst night of her life. Ellie and Meg strike up an unlikely friendship and the story of Ellie's dress comes out. Ellie gifts the gorgeous dress to Meg, hoping that it will bring her more luck, on the condition that she wear it to the building's Christmas party. The dress magically fits, and while it eventually leads to the best night of Meg's life, it also acts as inspiration for Meg to follow a life-long dream of her own, a dream that will help save the crumbling Parkview West, and restore it to its former glory, and keep it as a safe home for all of the current tenants. The dress and the magic of the holiday season helps both Meg and Ellie find their own happy endings.

Beautifully Broken

She thinks she's broken and I'm the one to fix her. As an ex-Navy SEAL there are a few guarantees in life. Avoiding relationships is one of them. Dealing with PTSD is another. So when I come across

the Reckless Bastards MC, it's perfect for a man like me. I don't expect to fall for any women, much less find one who can deal with me and my messed up past. Last thing I expect is to encounter Jana Carter at a painting class. Don't ask why I was there. I can hardly keep my eyes off of her. She's a shy, sultry vixen, and she grabs a hold of me so hard, I can't let go. Just when I thought I'd built strong walls around my heart, I discover her walls are reinforced with steel. She's so pure, so innocent. Against all odds, I want her. I'll do anything to have her, to make her mine.

Lord of London Town

Cheska Harlow-Wright was born into a life of luxury and privilege. She has never wanted for anything. A comfortable future as a married London socialite awaits her. But since the age of thirteen, Cheska has harbored a secret—an unshakeable fixation on a boy who could never offer her anything close to comfort. A boy steeped in sin and draped in depravity. A boy born into the possessive embrace of darkness. When Cheska's seemingly perfect world is ripped apart by an unknown but deadly enemy, there's only one person she can run to. One person in the world who has the power to keep her safe. The one person her weak and shattered heart craves. Arthur Adley. The new head of the most feared crime family in London. Forced too young to take the helm of the Adley firm, Arthur has become even more ruthless, formidable, and cold than ever before. His enemies are circling, and he must fight—and kill—to maintain his family's place at the top of the London crime underworld. There is no room for weakness, emotion, or loss of control. But then Cheska smashes back into his life with the force of a wrecking ball. She has no place in this dark, vicious, and bloodthirsty world. And worse, she is the solitary chink in his impenetrable armor. He's already pushed her away once, but this time she desperately needs him. She's broken, lost, and in danger, and he is the only one who can help. Arthur must protect her. He must destroy those who dare to threaten her, hunt down those who would take what is his. He would raze all of London to the ground to keep her safe... but can he also protect himself? The infamous Dark Lord of London Town faces his most brutal battle yet—the crippling weight of the past, the unrelenting enemies lurking in the shadows... and the havoc that Cheska's presence is wreaking on the granite fortress that was once his heart.

The Stationery Shop

A poignant, heartfelt new novel by the award-nominated author of *Together Tea*—extolled by the *Wall Street Journal* as a "moving tale of lost love" and by *Shelf Awareness* as "a powerful, heartbreaking story"—explores loss, reconciliation, and the quirks of fate. Roya, a dreamy, idealistic teenager living amid the political upheaval of 1953 Tehran, finds a literary oasis in kindly Mr. Fakhri's neighborhood stationery shop, stocked with books and pens and bottles of jewel-colored ink. Then Mr. Fakhri, with a keen instinct for a budding romance, introduces Roya to his other favorite customer—handsome Bahman, who has a burning passion for justice and a love for Rumi's poetry—and she loses her heart at once. Their romance blossoms, and the little stationery shop remains their favorite place in all of Tehran. A few short months later, on the eve of their marriage, Roya agrees to meet Bahman at the town square when violence erupts—a result of the coup d'état that forever changes their country's future. In the chaos, Bahman never shows. For weeks, Roya tries desperately to contact him, but her efforts are fruitless. With a sorrowful heart, she moves on—to college in California, to another man, to a life in New England—until, more than sixty years later, an accident of fate leads her back to Bahman and offers her a chance to ask him the questions that have haunted her for more than half a century: Why did you leave? Where did you go? How is it that you were able to forget me?

A Textbook of Clinical Pharmacology

Celebrating 100 years of HEP, this volume will discuss key pharmacological discoveries and concepts of the past 100 years. These discoveries have dramatically changed the medical treatment paradigms of many diseases and these concepts have and will continue to shape discovery of new medicines. Newly evolving technologies will similarly be discussed as they will shape the future of the pharmacology and, accordingly, medical therapy.

The Textbook of Pharmaceutical Medicine

Hugo and Shirley Jackson award-winning Peter Watts stands on the cutting edge of hard SF with his acclaimed novel, *Blindsight* Two months since the stars fell... Two months of silence, while a world held its breath. Now some half-derelict space probe, sparking fitfully past Neptune's orbit, hears a whisper from the edge of the solar system: a faint signal sweeping the cosmos like a lighthouse beam. Whatever's out there isn't talking to us. It's talking to some distant star, perhaps. Or perhaps to something closer, something en route. So who do you send to force introductions with unknown and unknowable alien intellect that doesn't wish to be met? You send a linguist with multiple personalities, her brain surgically partitioned into separate, sentient processing cores. You send a biologist so radically interfaced with machinery that he sees x-rays and tastes ultrasound. You send a pacifist warrior in the faint hope she won't be needed. You send a monster to command them all, an extinct hominid predator once called vampire, recalled from the grave with the voodoo of recombinant genetics and the blood of sociopaths. And you send a synthesist—an informational topologist with half his mind gone—as an interface between here and there. Pray they can be trusted with the fate of a world. They may be more alien than the thing they've been sent to find. At the Publisher's request, this title is being sold without Digital Rights Management Software (DRM) applied.

"This book is a translation of historian Carlo Ginzburg's latest collection of essays. Through the detective work of uncovering a wide variety of stories or microhistories from fragments, Ginzburg takes on the bigger questions: How do we draw the line between truth and fiction? What is the relationship between history and memory? Stories range from medieval Europe, the inquisitional trial of a witch, seventeenth-century antiquarianism, and twentieth-century historians"--Provided by publisher.

Threads and Traces

For human health, leishmaniasis is among the most important protozoan diseases, superseded only by malaria. Globally, 10 to 12 million people are infected with 1.5 million new cases every year. The development of cheaper new drugs is urgently needed for this neglected disease that is developing resistance to current treatments. Chemotherapy remains the only treatment option for the bulk of patients. However, this is largely unaffordable for most. In the past three years numerous advances in drug discovery have been made for treating this disease by exploiting diverging metabolic pathways between the *Leishmania* enzymes and their hosts, using nanotechnology to target the immune cell phagolysosomes where *Leishmania* resides. *Drug Discovery for Leishmaniasis* aims to provide a perspective of the current treatments and their challenges, blended with the emerging strategies and methodologies that will drive new target appraisals and drug developments, as well as addressing the molecular basis of resistance in *Leishmania*. Recent studies have shown that leishmaniasis affects some of the poorest people in the world, with 95% of fatal cases occurring in only 6 countries. With the WHO goal of eliminating this public health problem in the South-east Asia Region by 2020, this book will be important for anyone who is interested in neglected tropical diseases.

Early Modern Herbals and the Book Trade

The definitive treatment textbook in psychiatry, this fifth edition of Gabbard's *Treatments of Psychiatric Disorders* has been thoroughly restructured to reflect the new DSM-5® categories, preserving its value as a state-of-the-art resource and increasing its utility in the field. The editors have produced a volume that is both comprehensive and concise, meeting the needs of clinicians who prefer a single, user-friendly volume. In the service of brevity, the book focuses on treatment over diagnostic considerations, and addresses both empirically-validated treatments and accumulated clinical wisdom where research is lacking. Noteworthy features include the following: Content is organized according to DSM-5® categories to make for rapid retrieval of relevant treatment information for the busy clinician. Outcome studies and expert opinion are presented in an accessible way to help the clinician know what treatment to use for which disorder, and how to tailor the treatment to the patient. Content is restricted to the major psychiatric conditions seen in clinical practice while leaving out less common conditions and those that have limited outcome research related to the disorder, resulting in a more streamlined and affordable text. Chapters are meticulously referenced and include dozens of tables, figures, and other illustrative features that enhance comprehension and recall. An authoritative resource for psychiatrists, psychologists, and psychiatric nurses, and an outstanding reference for students in the mental health professions, *Gabbard's Treatments of Psychiatric Disorders, Fifth Edition*, will prove indispensable to clinicians seeking to provide excellent care while transitioning to a DSM-5® world.

The Olympic Textbook of Medicine in Sport

In *Medicine: Preserving the Passion*, Phil R. Manning, a pioneer and recognized authority in continuing medical education, and Lois DeBakey, a passionate advocate of critical reasoning and leading scholar in scientific communication, endeavor to shift the focus in lifelong learning from group exercises in a lecture hall to self-directed, practice-related activities. Although most experts have applauded this new concept, few publications have addressed methods for implementation. The Manning-DeBakey book describes such methods as devised by outstanding clinicians and academicians to obtain educational benefit from their clinical experience. Some techniques inspired by quality assurance, for example, these master clinicians have used successfully to improve their knowledge, skills, and patient care. This book not only identifies the primary concerns in continuing medical education, but also offers sound recommendations and effective solutions and suggests future directions and approaches. The authors have analyzed the continuing educational practices of physicians in a wide range of environments, from small communities to the most acclaimed medical centers, and have extracted additional advice from the writings of past authorities like Osler. The resulting concepts will undoubtedly attract wide public attention. Office practice audit, self-directed learning, case indexing, patient education, computer-assisted education, and collegial networks, as well as regular reading, writing, and teaching, are among the successful methods described by physicians and surgeons who exemplify the highest standards of medical practice.

Gabbard's Treatments of Psychiatric Disorders

Second in a series of publications from the Institute of Medicine's Quality of Health Care in America project Today's health care providers have more research findings and more technology available to them than ever before. Yet recent reports have raised serious doubts about the quality of health care in America. Crossing the Quality Chasm makes an urgent call for fundamental change to close the quality gap. This book recommends a sweeping redesign of the American health care system and provides overarching principles for specific direction for policymakers, health care leaders, clinicians, regulators, purchasers, and others. In this comprehensive volume the committee offers: A set of performance expectations for the 21st century health care system. A set of 10 new rules to guide patient-clinician relationships. A suggested organizing framework to better align the incentives inherent in payment and accountability with improvements in quality. Key steps to promote evidence-based practice and strengthen clinical information systems. Analyzing health care organizations as complex systems, Crossing the Quality Chasm also documents the causes of the quality gap, identifies current practices that impede quality care, and explores how systems approaches can be used to implement change.
