Playing the Grey Man

When the rest of us run away, it's the police officers up and down the country who run into danger and into some of the messiest and most tragic events imaginable. But there's a price to pay. Robert Moon's vivid description of how he left the SAS for a life in the Scottish police gives a shocking insight into the toll that police life can take on even the toughest individuals. At times funny, at other times almost unbearably sad, and often both at the same time, this heart-rending account will leave you with awed respect for the ordinary police men and women, the cops on the front line - and not a little concern about some of those higher up the ranks. When Robert Moon joined the police he was enthusiastic and idealistic; when he resigned and refused his long service medal, he was disillusioned and broken by

a job that betrayed the public and had been betrayed by the managers who seemed to have forgotten how to look after the people who really keep us safe.

Relentless

Scholars have often been puzzled by the fact that the basic word-order rule of Welsh seems to have changed twice in the last 1000 years. David Willis explores how and why these changes have taken place. He examines the relationship between the literary and spoken language throughout the history of Welsh, points out similarities between the rules of earlier Welsh and other European languages, and looks at the forces that cause languages to change over time.

Syntactic Change in Welsh

Ex-CIA master assassin Court Gentry has always prided himself on his ability to disappear at will, to fly below the radar and exist in the shadows - to survive as the near-mythical Gray Man. But when he takes revenge upon a former employer who betrayed him, he exposes himself to something he's never had to face before. A killer who is just like him. Code-named Dead Eye, Russell Whitlock is a graduate of the same ultra-secret Autonomous Asset Program that trained and once controlled Gentry. But now, Whitlock is a free agent who has been directed to terminate his fellow student of death. He knows how his target thinks, how he moves, and how he kills. And he knows the best way to do the job is to make Gentry run for his life - right up until the moment Dead Eye finally ends it...

80+ ADVENTURE TALES OF ROBERT E. HOWARD - The Ultimate Action-Packed Collection

Robert Ervin Howard was an American pulp writer and is especially noted for his memorable depictions of "a sombre universe of swashbuckling adventure and darkling horror." He is well known for having created the character Conan the Barbarian. This collection includes Howard's short horror and fantasy stories, including the masterpiece "Pigeons from Hell," which Stephen King calls "one of the finest horror stories of century," a tale of two travelers who stumble upon the ruins of a Southern plantation-and into the maw of its fatal secret. In "Black Canaan" even the best warrior has little chance of taking down the evil voodoo man with unholy powers-and none at all against his wily mistress, the diabolical High Priestess of Damballah. In these and other lavishly illustrated classics, such as the nightmare "The Cairn on the Headland," Howard spins tales of unrelenting terror, the legacy of one of the world's great masters of the macabre.

Ralph Waldo Emerson was an American essayist, lecturer, philosopher, abolitionist, and poet who led the transcendentalist movement of the mid-19th century. He was a prescient critic of the countervailing pressures of society, and his ideology was disseminated through dozens of published essays and more than 1,500 public lectures. Emerson gradually moved away from the religious and social beliefs of his contemporaries, formulating and expressing the philosophy of transcendentalism in his 1836 essay "Nature". Dodder, Baldmoney, Cloudberry, and Sneezewort are the last four gnomes in Britain and were first introduced to us in the Carnegie Medal-winning book, The Little Grey Men. In this charming book their story continues and we find them tucked up in their cosy home, next to the Folly, for winter. But when they're awakened from their sleep with the terrible news that the Folly is drying up, they must pack up their belongings and head off in their boat, the Jeanie Deans, to find a new home where they can be safe once again. Along the way they face many dangers and their journey is sometimes perilous and packed with adventure.

Down The Bright Stream

Trapped in a dank cave with only his bestial inner voice for company, Thame has a choice: deny the creature inside and fester forever in darkness, or embrace his shadowy alter ego Ormr once and for all. But what then? Thame has to break free of his stone prison to seek out and defeat a bloodline that threatens to corrupt the world with the deepest evil. Yet what if the real danger lies outside his own genetics? And what if that peril involves his ex-lover, whose new boyfriend seems suspiciously familiar... Thame's journey to reclaim his place in the Order and save those he cares for takes him from his Mediterranean imprisonment, deep into the stories of Ormr's shadowy past, to Florida Keys and finally back to Britain. Here he must face his biggest ordeal yet: the culmination of an ancient vendetta that just got personal. The Selfless Gene is the sequel and concluding part of Wattpad favourite and award winning (Wattys2018) The Illumination.

Red Shadows

Katharine Campbell's father Sholto Douglas was the hero of her childhood, an unconventional senior commander in the Royal Air Force described as 'a gloriously contentious character'. Following childhood abandonment and poverty, Sholto rose through the ranks of the fledgling RAF in the First World War before taking on a crucial role in the Second as head of Fighter Command and going on to serve as Military Governor in Germany in the war's devastating aftermath. But when Katharine was five years old, he began to be stolen away by strange night-time wanderings and daytime distress – including vivid flashbacks to his time signing death warrants in post-war Germany. The doctors called it dementia, but decades later, Katharine started researching her father's story and realised that she had observed the undiagnosed consequences of post-traumatic stress disorder. PTSD is a hot topic today. We're aware of the front-line soldier suffering from 'shell-shock' – but what about the senior officer giving the orders, who may be carrying hidden wounds accumulated over many years? We don't expect our military leaders to have PTSD, nor is it something they often recognise or acknowledge in themselves, yet this secret burden likely affects a surprising number of those making important tactical decisions. A thought-provoking insight into the damage done by military conflict, Behold the Dark Gray Man is the story of a daughter's search to understand the impact of war upon one of its most charismatic senior commanders.
