The D4BF engine is a robust and reliable diesel engine known for its durability and performance. It's commonly found in various Mitsubishi vehicles and is praised for its fuel efficiency and longevity. This engine offers a good balance of power and economy, making it a popular choice for both commercial and personal applications. Understanding the specifications and performance characteristics of the D4BF engine is crucial for maintenance, troubleshooting, and making informed purchasing decisions.

These articles serve as a quick reference for both beginners and advanced learners.

SUZUKI GS125 (1982-2000) Review | Speed, Specs & Prices

The Suzuki GS125ES's four stroke single cylinder motor is virtually bulletproof, but makes a claimed 12bhp... eventually. A five speed gearbox lets what power there is get you to a cruising speed of about 55mph, although the Suzuki GS125ES will buzz its merry way to about 65mph on a good day.
