Deepest Corner of the Heart

Two women. Born on opposite sides of the world. Both experience catastrophic loss. Until their lives intersect... Laura is a young woman who has it all. A loving husband who has just begun his private medical practice. A beautiful home nestled in the hills north of San Diego. A promising counseling career. Life has given her everything she could ever hope for...but she would give it all up without a second thought. Despite appearances, there is one thing Laura wishes for and desires more than anything else...the one thing that life won't give her. And the pursuit of that one thing nearly destroyed her. Adrianna, a refugee in a foreign land, has left behind a home ravaged by war. In her arms, she clings to her new baby girl as they travel across the country to their new life. Adrianna has lost her husband, her parents, and the only man she ever truly loved. The only thing the young mother clings to besides her precious baby girl is a glimmer of hope that her life will be better than the one she left behind. Fate brings the two women together and they are drawn to one another as kindred spirits, each recognizing a familiar pain in the other. Can their new friendship heal old wounds and navigate the pitfalls that come with starting over? And what happens when Laura's new best friend makes a choice she will never be able to comprehend?

Echoes of the Heart

The heart has its ways, and here are words that make way for the heart. "Echoes of the Heart" is a powerful collection of poetry, musings, and perspectives. Through its richness of thoughts, simplicity of language and emotive imagery, this book will transport you to a world of quiet contemplation. Through its words, you'll be drawn closer to the author's soul and your own, peeling away the layers of your being, to reveal new sides of yourself that you may have never known existed. At the heart of this book is the belief in the power of words - how they can comfort, transport, touch, enlighten, and even change the world around us. Throughout its pages, the author encourages you to experience the Hebrew word "Selah" - a voluntary and intentional pause for reflection - allowing you to connect with your innermost thoughts and feelings. "Echoes of the Heart" will touch your heart and transform your perspective. It will leave you feeling enriched, enlightened, and inspired.

A Poetic trail

The universe is a magical place and human existence a magical phenomena. A poetic trail builds a bridge of verses to cross over from the limiting finiteness of being only human to step into the magical infinity of the universe to explore the very essence of life and beyond.

A Peaceable Wisdom for Love

A perfectly crafted piece of work that humanises the senses. It links individual, family and society in a chain of love which binds everything together in perfect harmony. Individual's freedom of will is considered a major concept of a new societal transformation that puts humanity back at the centre of the political debate. It empowers citizens to realise their full potentials under condition of free will and enhances the aggregate joy and happiness in the society. Thereby, contributing to the realisation of the triple-bottom-line of economic prosperity, social equity and sustainability. An intellectual exercise in generation and accumulation of moral capital; confirmation of the supremacy and trustworthiness of a belief and value system; and a recombination of the basic tenets of judeo-christian western civilisation for twin goals of futuristic modernisation and heritage conservation. A principled application of eternal process of learning to live with the natural world and the vagaries of human society

A Dreamer of Dreams

Materialism is the mantra of the modern generation, whose motto is to 'eat, drink and be merry'. This philosophy gives rise to 'greed, lust and addiction' which are vices within us. As against this, spiritualism believes in having 'virtues, values and morals' to live a contented, stress-free and purposeful life. This is the journey of an investigative journalist, thrillingly revealing mysteries of the corrupt material world. Believing in following the virtuous, righteous and spiritual path in life, how far will he succeed in a society dominated by corrupt politicians, unscrupulous greedy businessmen, puppet media, insensitive police, and even a biased judiciary? Will he survive in the midst of the powerful lobbies who have scant regard for human life? Or will he be crushed like a beetle under a booted foot, as everyone predicts? Or will he be able to stand up just with the help of a handful of yogis of the Himalayan ashrams and their spiritual followers? A novel with lots of twists, turns, conflicts, romance, emotions, drama, suspense, thrill and action, promising a mesmerising reading experience...

Greed Lust Addiction

"Caught Between Words" is a serious attempt to uncover some key words within the author and their meanings, which have been a recurring leitmotif in his life. "Caught Between Words" is also an emotional stance portrayed with words and the role they have played out in making him what he is today. The book is a rosary of words, alphabetically arranged, sometimes subtly funny, other times serene, disturbing, soul-searching, and existential, but most of all, a serious innermost debate with himself, others, and the world. Also, it is an effort to reorder his world in such a way that that personal reordering might elicit some kind of alignment in itself, with the meanings he gives to it.

Immortal Love

Darjeeling, late 1980s. The demand for a separate state of Gorkhaland has taken a violent turn. The Green Party is at war with the Red Party-and with the state's security forces. Murder, loot, terror and arson beset the Himalayan foothills. Fruits of the Barren Tree is a story of that time, and of Relling, a small village near Darjeeling. In Relling there's Basnet, the village shaman, and his wife; there's Jhuppay, their son-incorrigible thief, truant and amateur drunk; and also Nimma, Jhuppay's great love, whose only desire in life is that he take the path of virtue. There's Chyaatar too, former army man, now a militia commander in the Green Party, who rules the village with an iron hand. Ever the miscreant, nothing Jhuppay does can win Nimma's heart. But when the Red Party hires his loudspeaker for a meeting-the first innocent, honest job of his life-it sets Jhuppay, Nimma and Chyaatar on a murderous course that fate itself cannot derail. Originally published in Nepali as Phoolange, this sharp, evocative novel is the story of a failed movement and a cautionary tale of how easily the contagion of violence can infect a community. Intensely visual and imbued with a strong sense of place, it is equally a compelling portrait of Darjeeling away from the brochures and the postcards.

Emerging Trends in Science, Engineering and Technology

This is the story of a depression era orphan, Marie Pead, who grew up in a small town of Fairview in Western Wyoming. She never let the trials of her life hold her down. She had little money and as a young girl had the daily care of her two younger brothers and a younger sister. She still became the belle of the ball. At this time, she owned one hand-me-down dress. Marie was well-liked and popular at the big band dances held in the neighboring town of Afton. Pretty, nice, and spunky, she won the heart of the handsome Spencer Call, a University of Wyoming student who became the chief engineer at the local Call-Air airport and manufacturing company; he could design and build a plane and had a love of the mountains. Marie followed him on many adventures. She loved him distractedly, honoring him as a worthy companion but never lost her grit and spunkiness nor did she ever play second fiddle to anyone. Soon after the war, Spencer left the plane factory to form his own sand and gravel company. Spencer and Marie were a fairy-tale couple who lived in their own Camelot in a home nestled so close to the mountains one could almost touch the peaks. They lived in Camelot but they faced adversity with stoicism. Marie lost a brother in World War II, a son at 18, Spencer when he was 72, and a grandson to suicide. She lived as a widow for 18 years in her own home taking care of herself and never lost her faith in God, her charm, or her love of life. When pursued by other men, even as a widow, she staunchly maintained she was still married to Spencer Call and would be forever. The stories in this book are in Maries own words in the form of letters she wrote and saved which were compiled and edited by her daughter, Pamela Call Johnson.

This Story Is Mine

This is a true story of how a man and wife; the co-authors of this amazing experience; who gave so much to their respective countries; sacrificed, struggled and suffered through the horrors of extreme political persecution. It is also about their flight to survive, to save their own lives after the savage U.S. Military Invasion of the Republic of Panama in December 1989; and other events, such as the Sandinista-Contra-U.S. inspired war in Central America. In the process it will bring out the occurrence of numerous acts of deceitful cover ups, lies, dishonesty, and diverse illegal conduct by those who preached the Rule of Law. This account will link together many of the not so legal or moral activities of the Washington right wing establishment, during the decade of the 1980s; their improper foreign policy in promoting illegal wars in Latin America; while at the same time having relations with terrorist regimes; and drug dealers, in other areas of the world. In the process it will bring to the surface the extremes to which some power groups will resort to; in order to reach their political, personal and economic objectives; along with their avarice, greed, and self indulgence. It will lead you to an understanding of the origins and illicit justification of some of the major cover ups of recent times. It will show, in the process, how American politicians and their Judicial System fell right into the muck and sewage, along with their self serving interests. It is a chilling account of vengeance, pursuit, endurance, injustice, faith, mental torture; and physical danger of two people, along with their unyielding commitment to survive. All against the perils of clandestine capture, illegal extradition; the tropical jungles, judicial persecution, envy and retribution, defamation, illicit prosecution, confiscation of assets; and an International Police hunt in the course of extremely inhospitable terrain; through guerrilla cells of insurgency and a journey across different countries. PAGE 2 BOOK DESCRIPTION CHISM BOOK ID 57251 This will exhibit a perfect example of the perverse U.S. Consular Visa revocation process against one of Americas most committed supporters; in a dreadful showing of the astonishing improprieties and failures in the application of U.S. Diplomacy. Events in this version will give enormous insight into the progression of the Panama Canal Treaty, mandated transfer of all U.S. Panama Canal and military assets, to the Republic of Panama. None of which would occur without a complex, extreme, painful and deadly changeover process. It is also a story, never before told, of the monstrous effort, carried out to safeguard the operational integrity of the most important waterway in the world in favor of world shipping and commerce. This all made possible by the resolve, loyalty, commitment and strength of the protagonists who carried the weight of the responsibilities, necessary for this to be so; even during a time when the Winds of War of the United States of America; blew incessantly stronger toward the shores of the Republic of Panama. In the course of it all, the devastating effects of the application of the Law de Jante will become clear to all. Many lessons have surely been learned from these torturous events. The problem is that human minds are generally quick to forget whatever they dont wish to remember Better by far you should forget and smile / Than that you should remember and Be sad. Christina Rossetti, Remember (1862)

50 WESTERNS (Vol. 2)

The Memoirs of a Life Insurance Icon: Khuda Buksh illustrates the life of a legendary Insurance Specialist who chose to serve humanity by sparking an insurance awareness movement in three countries (India, Pakistan, and Bangladesh). Between 1930 and 1970, Khuda Buksh worked tirelessly to establish the insurance business in the region, overcoming engrained religious and cultural prejudices against life insurance amid enormous political upheaval. His passion, devotion, and unique sales strategies led him to train, motivate, and manage thousands of salesmen during his long career. He earned a reputation as the countrys most magnetic and dynamic sales executive and wizard of life insurance. He played a role as an educator to the vast number of field force who placed faith in his leadership and took insurance as career. His leadership strategies helped life insurance to flourish and to penetrate nearly every portion of society. Compiled more than 35 years after Khuda Bukshs death, this book uses interviews with dozens of contemporaries and family members who reminiscence Khuda Bukshs personality and role in promoting life insurance in Bangladesh and Pakistan. He is one figure among Bengali Muslims who popularized life insurance among the people. His name itself is an institution

and in his own lifetime he became a legendary figure. . . Dacca Rotary News He was an outstanding salesman who even in his dreams would only be able to think of life insurance; he was totally obsessed by it. A typical Bengali, small body, but with a big heart for everyone. . . he rose to the occasion and became a very big name in the field of life insurance. . . Wolfram W. Karnowski I still think if we measure with a balance between life insurance and Khuda Bukshit will be extremely difficult to measure, which one is heavier. A wizard with a legendary stature in insurance . . . -S. R. Khan Mr. Khuda Buksh would be very personally involved in the welfare and the personal interest of each field worker . . . As far as the life insurance industry in Pakistan is concerned, especially in the 50s and 60s, Khuda Buksh's role was undoubtedly the greatest. . . Joseph M. Pereira He used to say: think of insurance, dream of insurance, sleep of insurance. Devote your time to insurance . . . He was an unbeatable legend of insurance. . . Sharafat Ali Qureshi He was a very good leader, and this was apparent from the fact that he could train not one, but hundreds, and thousands of people. All his subordinates were just like his children . . . M. A. Chishti I used to hear about the great reputation of this giant personality of the life insurance arena. When I came to know him from close, I had no problem realizing the appropriateness of the title father of insurance by which he was known in this part of the world. . . -M. Faizur Razaque

Wild Violets; a Collection of Poems and Sketches ... With an Introduction by the Rev. W. Morley Punshon

Sometimes in our life, we are at a loss for words. We have emotions that we wear on our sleeves or we keep them tucked away in the deepest corner for no one to see, not even us. Healing begins with speaking the emotions that we hold onto when we should be letting them go. These poems represent the letting go of things held on to so the process of healing can begin.

Staying One Step Ahead of Interpol

Love is like fragrance. As much it grows, it becomes nurtured with feelings. Though invisible it is, still, it does always remain there beside you, within you, even when it is difficult to believe in. And it surprises you to beautify the life in the most unexpected way and when you expect it the least. It happens with Anshita too. She has learnt to recognize herself as abandoned and discarded. All she has received from her destiny is misfortune and reprimands as she was thrown out of the life by her parents when she was only a few months. And after some years of life she had to let the one go who taught her how to love. This loss consequently scares her of accepting love in any form. Though she has lost the love of life, but it is not what her destiny has decided for her as once again, love shows up in her life in the most unexpected way and when she expects it the least. With this love, she embarks on a journey to find out the base of her own existence and to get herself the original recognition. But the truth she comes to know shatters her down and once again shakes all the beliefs she ever had about the relations. Though the decision is difficult..... Still...She has to decide.....whether to win.....or to let win...

Where a Country Begins

The dark shadows of the past chase many of us, forcing us to live in a small cocoon that we make around us. We feel safe in that tiny nest where other people cannot enter and hurt us easily. But little do we know that in this process we also stop love and beatitude of life from overwhelming our beings. Heartbroken Sugandha had taken a vow not to respond to love if it ever knocked at the door to her heart again. Christopher was haunted by a disturbing childhood and boyhood and had devised his own means to derive joy from life all alone. They both met in the sleepy and quaint town of Panaji. From a small nod of acknowledgement to long idyllic talks... love cast its own magic spell. But a difficult battle was looming overhead, determined to destroy their dream of remaining together. All they possessed to win the battle was the courage, trust and determination that they drew from love. Based on a true story 'Your Love Makes Me Complete' is an inspiring novel on love, trust & destiny to read and reread.

I Am Put Here for the Defense of the Gospel

Dr. Norman L. Geisler has been called the "father of evangelical Christian philosophy." He has written more than one hundred books and taught at universities and top seminaries for some fifty-six years. He was the first president of the Evangelical Philosophical Society and the founder and first president of the International Society of Christian Apologetics. He has spoken or debated in more than two dozen countries and held pastoral/pulpit ministries in four states. Many view him as a cross between Thomas Aquinas and Billy Graham. No one has done more to communicate the modern challenges of the Faith to the "average" Christian, to the church, and to the academy. This volume offers creative and constructive essays from twenty-three contributors, all notable in their own right, who preserve and propagate Dr. Geisler's ideas and express appreciation for his influence. Those who know him best say he is "true, faithful, and blessed by God!"

In Defense of the New Perspective on Paul

The following book is comprised of a series of essays and reviews that have been produced over the past several years, all related, in one way or the other, to the New Perspective on Paul (NPP). This defense of the NPP takes the form of a combination of exegesis and extended book reviews. In endeavoring to defend the NPP, the eight chapters of this book contain a common thread, namely, that the movement generically bearing this moniker is not inimical to most historical/traditional systems of soteriology. Yet because of the rather volatile reaction of many, the volume seeks to redress the balance in favor of a more tempered approach to a highly controversial topic.

In Defense of the Cross of Christ

Who are enemies of the cross, and who are defenders of the faith? In Defense of the Cross of Christ is a wake-up call to sleeping Christians who keep hitting the conviction snooze button of God's command for obedience and holiness through His grace that compels us and equips us to personify Jesus in selfless love. In Defense of the Cross of Christ is an uncompromising warning to church leaders who have invaded the church with humanistic thinking and become stumbling blocks for babes in Christ while deceiving others to follow their pernicious ways of iniquity and to rejoice in it. Over a decade in preparation, In Defense of the Cross of Christ is now ready for you. The question is, are you ready for it? "I know of no other current author who addresses the issue of iniquity among the body of Christ as clearly and concisely as it is dealt with in this work. Just as importantly, I testify that the words written have the testimony of the Spirit by the demonstration of a life lived by the principles here taught." Corey Dawes, Father's Honor Ministry "With passion and conviction, Steven has presented an excellent defense of the cross. Through Scripture and his insight, the reader is drawn to move away from elementary teachings of Scripture and toward deeper water by allowing the love of Christ to guide every decision of their lives. In Defense of the Cross of Christ is intended for slow digestion so the reader may obtain the full nutrients it contains." Kevin Clouse, pastor and writer, First Church of God

The Image of God

The problem of evil has generated varying attempts at theodicy. To show that suffering is defeated for a sufferer, a theodicy argues that there is an outweighing benefit which could not have been gotten without the suffering. Typically, this condition has the tacit presupposition given that this is a post-Fall world. Consequently, there is a sense in which human suffering would not be shown to be defeated even if there were a successful theodicy because a theodicy typically implies that the benefit in question could have been gotten without the suffering if there had not been a Fall. There is a part of the problem of evil that would remain, then, even if there were a successful theodicy. This is the problem of mourning: even defeated suffering in the post-Fall world merits mourning. How is this warranted mourning compatible with the existence of an omniscient, omnipotent, perfectly good God? The traditional response to this problem is the *felix culpa* view, which maintains that the original sin was fortunate because there is an outweighing benefit to sufferers that could not be gotten in a world without suffering. The *felix culpa* view presupposes an object of evaluation, namely, the true self of a human being, and a standard of evaluation for human lives. This book explores these and a variety of other topics in philosophical theology in order to explain and evaluate the role of suffering in human lives.

Sometime in the first quarter of the 13th century a number of works were written for anchoresses, women who lived as religious recluses in cells adjoining churches. The most influential is Ancrene Wisse (A Guide for Anchoresses), which discusses in great detail the daily life of the anchoress, both outer and inner. This work gives a detailed sense of a powerful and multi-faceted spirituality different from that of other mystics.

In Defense of the Faithful-The Scriptural Truth of Catholicism was written as an aggressive defense of the Catholic Faith. It explores the foundations and historic origins of Catholic doctrine from an evangelical, fundamentalist, and reformed Protestant point of view. It offers the teachings of the Church in common language then defends the position with scriptural quotations from throughout the Holy Bible. It then quotes the Catechism (formal teaching doctrine) of the Catholic Church offering a factual presentation of what the Church actually teaches rather than what many people think it teaches. In doing so it is critical not only of Protestantism but some aspects of Catholicism (in practice) as well. It credits and praises both groups of Christians as being believers dedicated to Jesus and the Trinity while pointing out the mutual failures of both groups. It is a thought provoking examination of Catholic doctrine, practice, theology, and ethics from a biblical viewpoint and is not afraid to point fingers at all parties involved in greater Christianity.

In Defense of the Faithful

The period of Revolution and Toleration in England was filled with rapid change, political uncertainty, and ecclesiastical volatility. Still recovering from the strife of Civil War and a divisive Restoration, the relationship between the Church of England and Nonconformists remained deeply strained. Although Dissenters were granted the right to gather for worship under Toleration, their legitimacy was regularly challenged. Within this context, a variety of significant controversies arose in which James Owen, a Welsh Presbyterian minister, played a prominent role and was a leading voice for moderate Nonconformity. Along with a group of moderate Nonconformist friends like Edmund Calamy, Philip and Matthew Henry, and Francis Tallents, Owen defended a version of Protestant ecumenism. This was a theological conviction that (1) the unity of the Protestant Church was indispensable and (2) this unity was to be found in agreement on essential doctrines, not in sharing ecclesiastical structures. Owen, along with his associates, defended the Dissenters' separation from the Church of England as biblically sanctioned and at the same time emphasized that such separation was not schismatic. Owen's clear, biblically articulate, and historically informed writing made his contribution to the period of Toleration significant and influential.

A Defense of Revelation in general, and the Gospel in particular; in answer to the objections advanced in a late book [by Francis Webb], entitled, The Morality of the New Testament, etc. [By William Bell.]

Benor's study offers a systematic Aristotelian account of Maimonides' philosophy of religion that reconciles the ideals of rabbinic Judaism with the sensibilities of a medieval Jewish philosopher, coherently unifies his work, and shows where Maimonides' uncompromising radicalism presents enduring and challenging insights to the history and the philosophy of religion. *Worship of the Heart* explores Maimonides' contribution to the understanding of prayer, examining it against the background of two contrasting notions—dialogue and contemplation. The author argues that Maimonides integrates fundamental elements of these conceptions with his own insights to forge a mediating conception of prayer—a conception as constitutive of a world view.

The Heart of War

If you have read other books about love that have fallen short, read this book. *Mapping the Terrain of the Heart* is an eloquent guide through love's diverse landscapes that provides a whole new way to think about love relationships. Both descriptive and prescriptive, it is a book for anyone looking to experience a committed relationship full of passion and tenderness. In the labyrinth of love, every one of us has his or her own inner map. Psychologists Goldbart and Wallin lead us along the metaphorical superhighways on the map of love by charting six easily grasped skills—the six capacities of love—that are all necessary to a long-term, stable love relationship: the capacities for erotic involvement, for merging, for idealization, for integration, for "refinding," and for self-transcendence. The authors demonstrate in a very practical, hands-on way how individuals and couples can use these capacities to work on breaking down their usual defenses and grow toward a deeper understanding and connection. In defending ourselves against disappointment in love, we frequently—and often unknowingly—throw up obstacles, create roadblocks, and take detours around these six capacities. We think such detours will take us where we want to go in a relationship, but too often they do not. Goldbart and Wallin's sophisticated but accessible approach—using case studies and practical pointers throughout—based on solid psycho-analytic theory while creating a completely new model for love relationships that also makes intuitive sense. *Mapping the Terrain of the Heart* offers a comprehensive psychology of love that maps out the paths to a successful relationship and shows how both individuals and couples can progress toward that ever-elusive goal of lasting and passionate love.

The Heart of the World

Are children little angels or little devils, or are they like their parents a little of each? Must they go through a definite moment of conversion or can they grow up always knowing themselves to be Christian? How

do theological ideas about human nature, sin and salvation affect how parents see and treat children? Starting with Horace Bushnell's classic 19th-century study, *Christian Nurture*, Leander Harding brings the discussion up to date with the help of insights from contemporary psychoanalytic thought and Family Systems Theory. Included are practical suggestions for parents and parishes.

Journey to the Heart of Cuba

BY LOOKING UPON THE HEART WE CAN ALL BE CHANGED IN AN INSTANT AND LIVE LIFE MORE ABUNDANTLY! The mystery of the biblical heart is unveiled by integrating psychology and Scripture to delineate the five dispositions of the heart, the choice of which we morph into could either enhance or hinder the attainment of abundant life in Christ. Throughout time, people have been searching for the meaning of life and the way to find fulfillment. It is the intention of this book to show how, by Looking upon the Heart, where Jesus may live, we can actualize healing and holiness at any moment in time. In this in-depth, Christian psychology and self-help/textbook, the reader is enlightened as to what good and bad choices we can make about our character and personality; the goal is to consistently be transformed (morphed) out of the unhealthy dispositions of the heart (the broken heart and the hard heart) into healthier ones (the open heart, sweet heart, and the brave heart). Our first basic premise is that we all, believers and unbelievers alike, can and do spontaneously morph continually in and out of various dispositions, character states and personality styles, and so are capable of immediate transformation. The second premise is that grace must prevail; we all would be hypocrites if we judged, because we are all morphing, having our good moments and bad, at any particular moment in real time. Ultimately the overall perspective is that the heart should be the most important human entity known to man. The heart is the primary gatekeeper and decision-maker and, therefore, the overall determiner of the whole person's behavior, personal growth, and spiritual maturity. We are to embrace a complete understanding of the biblical heart, its five dispositions, in order to overcome psychological, behavioral and relational dysfunction and sin. Only then can we successfully and consistently experience oneness with God through Jesus, living and actively operating within our hearts. As a result of "Looking upon the Heart," the Lord reigns and leads us to a life of victory in Jesus.

Mapping the Terrain of the Heart

A fresh argument for rioting and looting as our most powerful tools for dismantling white supremacy. Looting -- a crowd of people publicly, openly, and directly seizing goods -- is one of the more extreme actions that can take place in the midst of social unrest. Even self-identified radicals distance themselves from looters, fearing that violent tactics reflect badly on the broader movement. But Vicky Osterweil argues that stealing goods and destroying property are direct, pragmatic strategies of wealth redistribution and improving life for the working class -- not to mention the brazen messages these methods send to the police and the state. All our beliefs about the innate righteousness of property and ownership, Osterweil explains, are built on the history of anti-Black, anti-Indigenous oppression. From slave revolts to labor strikes to the modern-day movements for climate change, Black lives, and police abolition, Osterweil makes a convincing case for rioting and looting as weapons that bludgeon the status quo while uplifting the poor and marginalized. *In Defense of Looting* is a history of violent protest sparking social change, a compelling reframing of revolutionary activism, and a practical vision for a dramatically restructured society.

In *The Heart of Torah*, Rabbi Shai Held's Torah essays—two for each weekly portion—open new horizons in Jewish biblical commentary. Held probes the portions in bold, original, and provocative

ways. He mines Talmud and midrashim, great writers of world literature, and astute commentators of other religious backgrounds to ponder fundamental questions about God, human nature, and what it means to be a religious person in the modern world. Along the way he illuminates the centrality of empathy in Jewish ethics, the predominance of divine love in Jewish theology, the primacy of gratitude and generosity, and God's summoning of each of us—with all our limitations—into the dignity of a covenantal relationship.

Whether one agrees with Cunningham's conclusions or not, his treatment of the texts is inspiring and illuminating."—Lawrence C. Becker, author of *A New Stoicism*

Inrushes of the Heart delves deeply into the life and thought of 'Ayn al-Qu t Hamad n+ (d. 525/1131), a major Muslim philosopher, Sufi master, and religious judge who was executed by the Seljuq government at the age of thirty-four. Mohammed Rustom presents nearly eight hundred passages in translation (most of which appear here for the first time in English) from 'Ayn al-Qu t's Arabic and Persian writings alongside a step-by-step commentary that outlines every major theme that guides his worldview. Contextualizing 'Ayn al-Qu t's life, influence, and self-perception as a teacher and scholar extraordinaire, the book then carefully unpacks his highly original teachings on God, cosmology, human agency, spiritual practice, imagination, death, knowledge, scripture, beauty, and love.

Maria was so moved by the letter that she set to work on a novel to make amends, and *Harrington* was published in 1817. The literary exchange that resulted grew into a friendship that lasted until Rachel's death in 1838, and the families continued to correspond until 1942. Originally published in 1977. At the Heart of the Borderlands is the first book-length study of Africans and Afro-descendants in the frontiers of Spanish America. While people of African descent have formed part of most borderlands histories, this study recognizes and explains their critical contribution to the formation of frontier spaces. Lack of imperial control coupled with Spain's desperation for settlers and soldiers in frontier areas facilitated the social mobility of Afro-descendants. This need allowed African descendants to become not just members of borderland societies but leaders of it as well. They were essential actors in helping to shape the limits of the Spanish empire. Africans and Afro-descendants built, opposed, and shaped Spanish hegemony in the borderlands, taking on roles that would have been impossible or difficult in colonial centers due to the socio-racial hierarchy of imperial policies and practices.

It was during a time when his family was financially down that the author discovered his passion. In a county fair where it was even hard for him and his mother to experience a single ride, he found himself fascinated with only one amusement—the old Curtis Robin airplane. Luckily for him, a family friend gave him the chance to ride it himself. As soon as the engine roared to life and the airplane lurched forward across the rough pasture and into the sky where he could see the beautiful view from above, he knew right then that he wanted to go flying for the rest of his life. Now in his late seventies, Bangart relives his wonderful journey through the skies and life to bring inspiration to others. In this autobiography, he reminisces his adventures as a pilot during the Great Depression, treating the reader with an inside look at growing to manhood during the first half of the twentieth century. His descriptions of the early days of Alaska bush flying, and the trials and hazards of the early airline flying are given in great detail. A person does not have to be a pilot or airplane enthusiast to enjoy this book. It covers such things as driving the Alaska-Canadian highway both in summer and winter weather, making a home in Alaska with a new bride, how government has brought many changes in our lives, and many insights into life itself. If you have been a passenger on an airliner during these early years, this book will give you a perception to what went on behind the closed cabin door where the pilots were secluded.

Matters of the Heart

William Harvey is the riveting story of a seventeenth-century man of medicine and the scientific revolution he sparked with his amazing discoveries about blood circulation within the body. Jole Shackelford traces Harvey's life from his early days in Folkstone, England, to his study of medicine in Padua through his rise to court physician to King James I and King Charles I, where he had the opportunity to conduct his research in human biology and physiology. Harvey's lecture notes show that he believed in the role of the heart in circulation of blood through a closed system as early as 1615. Yet he waited 13 years, until 1628, to publish his findings, when he felt more secure at introducing a concept counter to beliefs that had been held for hundreds of years. A revealing look at the changing social, religious, and political beliefs of the time, William Harvey documents how one man's originality helped introduce a new way of conducting scientific experiments that we still use today. Oxford Portraits in Science is an on-going series of scientific biographies for young adults. Written by top scholars and writers, each biography examines the personality of its subject as well as the thought process leading to his or her discoveries. These illustrated biographies combine accessible technical information with compelling personal stories to portray the scientists whose work has shaped our understanding of the natural world.

The Education of the Heart

Examining contemporary poetry by way of ethnicity and gender, Kenneth Lincoln tracks the Renaissance invention of the Wild Man and the recurrent Adamic myth of the lost Garden. He discusses the first anthology of American Indian verse, *The Path on the Rainbow* (1918), which opened Jorge Luis Borges' university surveys of American literature, to thirty-five contemporary Indian poets who speak to, with, and against American mainstream bards. From Whitman's free verse, through the Greenwich

Village Renaissance (sandwiched between the world wars) and the post-apocalyptic Beat incantations, to transglobal questions of tribe and verse at the century's close, Lincoln shows where we mine the mother lode of New World voices, what distinguishes American verse, which tales our poets sing and what inflections we hear in the rhythms, pitches, and parsings of native lines. Lincoln presents the Lakota concept of "singing with the heart of a bear" as poetry which moves through an artist. He argues for a fusion of estranged cultures, tribal and émigré, margin and mainstream, in detailing the ethnopoetics of Native American translation and the growing modernist concern for a "native" sense of the "makings" of American verse. This fascinating work represents a major new effort in understanding American and Native American literature, spirituality, and culture.

Being the Heart of the World

In her famous speech to rouse the English troops staking out Tilbury at the mouth of the Thames during the Spanish Armada's campaign, Queen Elizabeth I is said to have proclaimed, "I may have the body of a weak and feeble woman, but I have the heart and stomach of a king." Whether or not the transcription is accurate, the persistent attribution of this provocative statement to England's most studied and celebrated queen illustrates some of the contradictions and cultural anxieties that dominated the collective consciousness of England during a reign that lasted from 1558 until 1603. In *The Heart and Stomach of a King*, Carole Levin explores the myriad ways the unmarried, childless Elizabeth represented herself and the ways members of her court, foreign ambassadors, and subjects represented and responded to her as a public figure. In particular, Levin interrogates the gender constructions, role expectations, and beliefs about sexuality that influenced her public persona and the way she was perceived as a female Protestant ruler. With a new introduction that situates the book within the emerging genre of cultural biography, the second edition of *The Heart and Stomach of a King* offers insight into the continued fascination with Elizabeth I and her reign.

The Heart of a Pilot

The experience a reader undergoes when perusing a new novel parallels the spiritual probing of Bronte's central characters when they meet other characters. The reader's task, like that of a Bronte heroine, is to look beneath the surface. To Bronte, every true work of art, when rightly understood, was a marriage between Jane and Rochester, between the reader and the author. *The Adytum of the Heart* examines in detail Bronte's commentary on three famous novels--*Pride and Prejudice*, *Vanity Fair*, and *Wuthering Heights*--and relates each to Bronte's own fiction. The book reconstructs the similarities G.H. Lewes must have noted between *Jane Eyre* and *Pride and Prejudice*, applying Bronte's critical terminology to pinpoint what she saw as Austen's limitations. Wheat's reading of Bronte's handwritten letters enables her to uncover errors and omissions in printed editions.

Heart of the Forest

Trees occupy a place of enormous significance, not only in our planet's web of life but also in our psyche. *A Spell in the Forest - Tongues in Trees* is part love-song, part poetic guidebook, and part exploration of thirteen native sacred British tree species. *Tongues in Trees* is a multi-layered contribution to the current awareness of the importance and significance of trees and the resurgence of interest in their place on our planet and in our hearts.

In the Heart of the Forest

'Great Journeys' allows readers to travel both around the planet and back through the centuries and also back into ideas and worlds frightening, ruthless and cruel in different ways from our own. It describes great civilisations, walls of ice, violent jungles, deserts and mountains and multitudes of birds and flowers new to science.

In the Fresh Heart of the Forest

Into the Secret Heart of Ashdown Forest is a love letter after a forty-year affair. Wry, funny, moving and vivid, this memoir chronicles the life of the author and the ten square miles of country he calls his Kingdom. This book is as good as a brisk walk in the woods on an autumn day. Written with love and passion, it is a hymn to landscape and freedom. It is a close and deep observation of the writer's adopted country, the fabled Ashdown Forest in East Sussex, England, (the home of Winnie the Pooh), where he has lived and ridden for the past forty years. His gift is the ability to take you deep into the landscapes that make this place resonate in his heart: its streams, woods, heathlands. You meet its literary residents, A.A. Milne, Sir Arthur Conan Doyle, Ezra Pound and W.B. Yeats. You get beneath its skin among the networks of fungi that allow the trees to speak. You taste its foods, meet its locals, both the living and the ghosts, and see its huge importance during the plague year 2020-21 through the pandemic lockdowns. His passion for horses shines through these pages and his writing is, as he himself says, a form of 'moving meditation'. He takes you under the soil of this place and he leaves a soft glow on the landscape when he is gone.

A Spell in the Forest

A remarkable and ambitious novel whose central character is not a man or a woman, but the ancient New Forest of England. Few places lie closer to the heart of the nation's heritage than the New Forest. Now Edward Rutherfurd weaves its history and legends into compelling fiction, from the mysterious killing of King William Rufus to treachery and witchcraft, smuggling and poaching: this is an epic tale of well-born ladies, lowly woodsmen, sailors, merchants and Cistercian monks. The feuds, wars, loyalties and passions of generations reach their climax in a crime that shatters the decorous society of Jane Austen's Bath, and whose ramifications continue through the age of the Victorian railway builders to the ecologists of the present day.

In the Heart of the Amazon Forest

In the Ardennes Forest on the Belgian border the French guns point north-east, awaiting the German onslaught. One reinforced concrete blockhouse in the heart of the forest is manned, this winter of 1939/40, by Lieutenant Grange with three men, who live in a chalet built over it. Cut off from the rest of the world, their senses heightened to capture the sounds and smells of the forest, the men create their own security as autumn turns to winter. Later, though, when winter turns to spring, when the sap rises and the panzer divisions attack, Lieutenant Grange meets the fate he has never believed he would escape. But if this is a story of soldiers, it is not about fighting. It is about solitude, about watching and waiting - and about love, the young lieutenant's devotion to Mona, the child-widow discovered like a sprite in the forest one rainy night, who, in this surreal period of suspense, becomes his lover.

Into the Secret Heart of Ashdown Forest: A Horseman's Country Diary

"I met a man made of leaves, with roots for hair, who looked at me with eyes that burnt like fire." An impenetrable forest that denies entry to all but a select few. A strange and isolated village, whose residents never leave. A curse that reappears every generation, leaving death and despair in its wake. What is lurking at the heart of the Forest? When the White Hind of legend is seen, the villagers know three of its young people will be left dead, victims of a triangle of love, murder and suicide. This time, Sally, Jack and Reuben have been selected, and it's their turn to be tormented by long-buried jealousies, aroused by the dark entity existing within its shadowy glades. Only by confronting the Forest's secrets, can they hope to break the curse and change their destinies - if they have the courage. Keeper of secrets. Taker of souls. Defender of innocence. Existing on the very edge of believing, there is the Forest. And this is its story...

The Forest

In a winning combination of fine-art photography and short, lyrical essays, *The Living Forest* reveals the top-to-bottom mystery, beauty, and interconnectedness of the forest.

A Balcony in the Forest

From the DEADLY 60 TV presenter and BAFTA AWARD winner Steve Backshall, comes the second novel in THE FALCON CHRONICLES series, *GHOSTS OF THE FOREST*. Catch up with Saker and Sinter as they reunite to save endangered orang utans in this vivid adventure story. Saker and Sinter are travelling in Asia. Sinter is nursing in the shanties of Ho Chi Minh city. Saker is with the peace-loving Penan helping them protect the orang utans and save their own forest homes, as unscrupulous loggers wreak destruction. But they are being watched. And hunted. The Prophet has not forgiven their betrayal. Escaping the Clan takes Saker and Sinter on a deadly, dangerous journey through Vietnam, over the South China Sea back to Borneo. Deep in the jungle, they're reunited on their most daredevil and audacious mission yet, to save the endangered orang utans before they become ghosts of the forest. Beware the wooden bullet. Steve Backshall is the hugely popular and fearless presenter of the BBC kids' series DEADLY 60 and LIVE AND DEADLY as well as star of BBC's *Strictly Come Dancing* 2014.

The Forest

Sorcha, the seventh child and only daughter of Lord Colum, faces the difficult task of having to save her family from its enemies, who have bewitched her father and six older brothers while forcing her to choose between the life she has always known and a special love.

The Living Forest

Looking at threats to forest life across the globe, John Miller draws on literature, film and art to explore why woods matter to us, building on the ecological case for saving trees to raise the compelling question of their cultural value. *The Heart of the Forest* explores four enduring ways in which we connect to the woods - through Refuge, Sacredness, Horror and Hope - making fascinating links between emotion and genre. For Henry David Thoreau, the woods are places beyond civilization; for Ursula LeGuin and C S Lewis, they are loaded with otherworldly potential; and for those fleeing captivity, they can provide a welcome sanctuary. Woods can strike fear, they can inspire wonder, they can be lovely, dark and deep. With full-color illustration throughout, this book branches out into the British Library to find both the haunting and the hopeful in an unparalleled collection of books, manuscripts and photography. It tells a global story of how we understand trees, and its beautifully illustrated pages present a moving argument for conservation and renewal.

Ghosts of the Forest

Black Shuck Shadows presents a collectable series of micro-collections, intended as a sampler to introduce readers to the best in classic and modern horror.

Daughter of the Forest

Set in the near-future, *Into the Forest* is a powerfully imagined novel that focuses on the relationship between two teenage sisters living alone in their Northern California forest home. Nell and Eva live alone in the forest. Recently orphaned and completely isolated, they struggle for normality in a post-holocaust world where electricity is a thing of the past and the outside world a distant memory. In one short year, their normal teenage lives have been transformed as everything we consider necessary to civilization

crumbles. Without petrol or electricity they are forced into seclusion, and adolescent dreams of ballet school and Harvard are displaced by the reality of learning to survive. Nell and Eva wait for the power to come back and the world they understand to return, but as time goes on they are forced to realize that 'civilization' is perhaps nothing more than a temporary condition, a 'fugue state' the world has allowed us. At once a poignant and lyrical portrayal of the power of sisterly loyalty and a horrifying cautionary tale about the future of man and his place in the world, INTO THE FOREST is a deeply moving account of human nature and our fragile existence on earth.

The Heart of the Forest

Step into the forest. Hush! Keep still. An adventure awaits you under the trees as you turn the delicately crafted cut-through pages. Watch as animals, big and small, scamper and scurry in their atmospheric woodland world. Can you see the baby deer and its mummy in the clearing? The beautifully shaped cut-through pages invite you deeper into the heart of the forest as the seasons, time of day and colours change. Ideal for reading aloud, this stunningly illustrated novelty picture book is an irresistible treat for nature lovers, young and old.

The Forest of Dead Children

Exploring the rich diversity of London through a series of urban forest trails, this new, expanded edition of London is a Forest uncovers the fascinating stories and secrets the city holds. Through seven carefully devised paths, author Paul Wood explores the urban forest's geography, its past and future, and looks at the remarkable variety of life supported in this unique metropolitan ecosystem. For curious Londoners and anyone who's fascinated by nature, a wealth of arboreal details, history, myth and anecdotes are revealed along the way. Complementing the trails, Wood looks in more detail at the fascinating stories of some of the iconic, and some of the less obvious species that define the urban forest. In London, 9 million people are crammed into just 600 square miles alongside 8.5 million trees. According to one UN definition, this makes the city a forest. The Forestry Commission agree, describing London as the world's largest urban forest. And a particularly diverse and historic urban forest at that.

Into The Forest

London is a Forest

Into the Secret Heart of Ashdown Forest is a love letter after a forty-year affair. Wry, funny, moving and vivid, this memoir chronicles the life of the author and the ten square miles of country he calls

his Kingdom. This book is as good as a brisk walk in the woods on an autumn day. Written with love and passion, it is a hymn to landscape and freedom. It is a close and deep observation of the writer's adopted country, the fabled Ashdown Forest in East Sussex, England, (the home of Winnie the Pooh), where he has lived and ridden for the past forty years. His gift is the ability to take you deep into the landscapes that make this place resonate in his heart: its streams, woods, heathlands. You meet its literary residents, A.A. Milne, Sir Arthur Conan Doyle, Ezra Pound and W.B. Yeats. You get beneath its skin among the networks of fungi that allow the trees to speak. You taste its foods, meet its locals, both the living and the ghosts, and see its huge importance during the plague year 2020-21 through the pandemic lockdowns. His passion for horses shines through these pages and his writing is, as he himself says, a form of 'moving meditation'. He takes you under the soil of this place and he leaves a soft glow on the landscape when he is gone.

Beyond the Forest Floor

This evocative volume of work also includes three short stories and over forty coloring pages from or inspired by classic and ancient works. The pieces within this collection celebrate renewal and honor heartbreak.
