According to a longstanding interpretation, book religions are agents of textuality and logocentrism. This volume inverts the traditional perspective: its focus is on the strong dependency between scripture and aesthetics, holy books and material artworks, sacred texts and ritual performances. The contributions, written by a group of international specialists in Western, Byzantine, Islamic and Jewish Art, are committed to a comparative and transcultural approach. The authors reflect upon the different strategies of »clothing« sacred texts with precious materials and elaborate forms. They show how the pretypographic cultures of the Middle Ages used book ornaments as media for building a close relation between the divine words and their human audience. By exploring how art shapes the religious practice of books, and how the religious use of books shapes the evolution of artistic practices this book contributes to a new understanding of the deep nexus between sacred scripture and art.

This book reveals exciting early Christian evidence that Mary was remembered as a powerful role model for women leaders—women apostles, baptizers, and presiders at the ritual meal. Early Christian art portrays Mary and other women clergy serving as deacon, presbyter/priest, and bishop. In addition, the two oldest surviving artifacts to depict people at an altar table inside a real church depict women and men in a gender-parallel liturgy inside two of the most important churches in Christendom—Old Saint Peter's Basilica in Rome and the second Hagia Sophia in Constantinople. Dr. Kateusz's research brings to light centuries of censorship, both ancient and modern, and debunks the modern imagination that from the beginning only men were apostles and clergy.

"[An] epic account of life and loves among artists and writers in Paris from belle époque to world slump." —William Feaver, *The Spectator* A legendary capital of the arts, Paris hosted some of the most

legendary developments in world culture—particularly at the beginning of the twentieth century, with the flowering of fauvism, cubism, dadaism, and surrealism. In *Bohemian Paris*, Dan Franck leads us on a vivid and magical tour of the Paris of 1900–1930, a hotbed of artistic creation where we encounter Apollinaire, Modigliani, Cocteau, Matisse, Picasso, Hemingway, and Fitzgerald, working, loving, and struggling to stay afloat. Sixteen pages of black-and-white illustrations are featured. “Franck spins lavish historical, biographical, artistic, and even scandalous details into a narrative that will captivate both serious and casual readers . . . Marvelous and informative.” —Carol J. Binkowski, *Library Journal*

Travel narratives abound in French cinema since the 1980s. This study delineates recurrent travel tropes in films such as departures and returns, the chase, the escape, nomadic wandering, interior voyages, the unlikely travel, rituals, pilgrimages, migrants' narratives and emergencies, women's travel, and healing narratives.

Stays and Corsets: Historical Patterns Translated for the Modern Body goes a step beyond traditional historical costuming texts by not only providing you with historical pattern diagrams and information, but by showing you how to adapt these patterns to the contemporary body shape. Using her original pattern-drafting system, author Mandy Barrington will show you how to draft a historical pattern for a modern body shape, while still retaining an accurate historical silhouette. Each pattern has been generated from an original stay, corset, or pattern taken from a historical garment. The instructions to follow these new patterns are designed to accommodate any size of female figure, allowing you to avoid extremely difficult, time consuming, and inaccurate historical pattern re-sizing. Requiring only basic prior knowledge of pattern drafting, all calculations have been worked out for the costume maker and are provided in simple tables accompanied by easy-to-read, step-by-step diagrams that clearly show how the historical pattern is plotted onto the female basic block, coupled with photographs of the constructed stays and corsets.

Négritude has been defined by Léopold Sédar Senghor as "the sum of the cultural values of the black world as they are expressed in the life, the institutions, and the works of black men." Sylvia Washington Bâ analyzes Senghor's poetry to show how the concept of negritude infuses it at every level. A biographical sketch describes his childhood in Senegal, his distinguished academic career in France, and his election as President of Senegal. Themes of alienation and exile pervade Senghor's poetry, but it was by the opposition of his sensitivity and values to those of Europe that he was able to formulate his credo. Its key theme, and the supreme value of black African civilization, is the concept of life forces, which are not attributes or accidents of being, but the very essence of being. Life is an essentially dynamic mode of being for the black African, and it has been Senghor's achievement to communicate African intensity and vitality through his use of the nuances, subtleties, and sonorities of the French language. In the final chapter Sylvia Washington Bâ discusses the future of Senghor's belief that the black man's culture should be recognized as valid not simply as a matter of human justice, but because the values of negritude could be instrumental in the reintegration of positive values into western civilization and the reorientation of contemporary man toward life and love. Tracing themes and sources of inspiration, the second part of the book "The Waltz of Time" reveals how elements from the past - the French eighteenth century (a particularly significant era for Dior), the Belle Epoque, Ancient Egypt, and more-have influenced the designs. Then, the global nature of Dior is explored, finding parallels with specific pieces in the art and culture of Spain, Russia, and Asia.

A LACE GUIDE for MAKERS and COLLECTORS. This book includes a bibliography and a five-language nomenclature. It is hoped that this little manual will prove of use to students of stitchery in general, - or of bobbin lace in particular, - to see how certain meshes are woven; that it may aid those planning to produce lace either by hand or machine, in comparing and judging effects, in advance, and that it may assist collectors and classifiers to identify lace: for after all, it is the actual lace which finally determines a variety, only certain meshes being used in a lace of pure type. Originally published in 1917. Many of the earliest books on weaving, textiles and needlework, particularly those dating back to the 1900s and before, are now extremely scarce and increasingly expensive. We are republishing these classic works in affordable, high quality, modern editions, using the original text and artwork.

Robert Wyatt started out as the drummer and singer for Soft Machine, who shared a residency at Middle Earth with Pink Floyd and toured America with Jimi Hendrix. He brought a Bohemian and jazz outlook to the 60s rock scene, having honed his drumming skills in a shed at the end of Robert Graves' garden in Mallorca. His life took an abrupt turn after he fell from a fourth-floor window at a party and was paralysed from the waist down. He reinvented himself as a singer and composer with the extraordinary album *Rock Bottom*, and in the early eighties his solo work was increasingly political. Today, Wyatt remains perennially hip, guesting with artists such as Bjork, Brian Eno, Scritti Politti, David Gilmour and Hot Chip. Marcus O'Dair has talked to all of them, indeed to just about everyone who has shaped, or been shaped by, Wyatt over five decades of music history.

With the overall topic? Tradition and Transformation in Ancient Egypt? we tried to invite scholars working in different fields to discuss (dis)continuity of traditions and consequent cultural transformation. The main aim was to stimulate research and an exchange of ideas and to build bridges for a variety of disciplines within Egyptology.0The first impression given by the ancient Egyptian culture is that of continuity and long-lasting stability. In fact, we can observe very different kinds of transformation processes alongside unbroken tradition. These changes are visible in all areas of society: politics, art, language, economy, religion, etc. This volume gives an insight into the research presented and the results of various discussions afterwards.0In the study of ancient cultures and civilizations, the questions about what remains and what is changing are always of great importance. It is the attempt to get a deeper understanding of the life and thinking of our ancestors. Cultural changes are dynamic processes and can be caused by developments in technology, political and religious ideas or substantial experiences with diverse societies or environmental factors.0Because of this sheer panoply of possible causes, one seeks to understand transformation in ancient Egypt by asking a series of essential questions: what is the nature of a particular change, when and where did it come about, through what agency, for what purpose, which parts of Egyptian society did it affect, and how lasting were its consequences? In order to answer these questions, it is necessary to involve as many different cultural aspects as possible.

Stories are everywhere around us, from the ads on TV or music video clips to the more sophisticated stories told by books or movies. Everything comes wrapped in a story, and the means employed to weave the narrative thread are just as important as the story itself. In this context, there is a need to understand the role storytelling plays in contemporary society, which has changed drastically in recent decades. Modern global society is no longer exclusively dominated by the time-tested narrative media

such as literature or films because new media such as videogames or social platforms have changed the way we understand, create, and replicate stories. The Handbook of Research on Contemporary Storytelling Methods Across New Media and Disciplines is a comprehensive reference book that provides the relevant theoretical framework that concerns storytelling in modern society, as well as the newest and most varied analyses and case studies in the field. The chapters of this extensive volume follow the construction and interpretation of stories across a plethora of contemporary media and disciplines. By bringing together radical forms of storytelling in traditional disciplines and methods of telling stories across newer media, this book intersects themes that include interactive storytelling and narrative theory across advertisements, social media, and knowledge-sharing platforms, among others. It is targeted towards professionals, researchers, and students working or studying in the fields of narratology, literature, media studies, marketing and communication, anthropology, religion, or film studies. Moreover, for interested executives and entrepreneurs or prospective influencers, the chapters dedicated to marketing and social media may also provide insights into both the theoretical and the practical aspects of harnessing the power of storytelling in order to create a cohesive and impactful online image.

Handbook of Research on Contemporary Storytelling Methods Across New Media and Disciplines

Although South Asian cookery and gastronomy has transformed contemporary urban foodscape all over the world, social scientists have paid scant attention to this phenomenon. Curried Cultures—a wide-ranging collection of essays—explores the relationship between globalization and South Asia through food, covering the cuisine of the colonial period to the contemporary era, investigating its material and symbolic meanings. Curried Cultures challenges disciplinary boundaries in considering South Asian gastronomy by assuming a proximity to dishes and diets that is often missing when food is a lens to investigate other topics. The book's established scholarly contributors examine food to comment on a range of cultural activities as they argue that the practice of cooking and eating matter as an important way of knowing the world and acting on it.

In 2014, barrister Nisha Katona had a nagging obsession to build a restaurant serving the kind of food Indians eat at home and on the street. The first Mowgli restaurant opened in Liverpool in late 2014, blowing away the critics forming legions of fans. The simple dishes of a Mowgli menu are a million miles away from the curry stereotype. These dishes convey the truth that real Indian food is extremely healthy, often vegan, and always packed with fresh flavour. She gave up her 20 year career as a full time barrister to build Mowgli Liverpool and opened Manchester Mowgli less than a year later. There are now three restaurants with two more venues about to open, and plans for further expansion. Nisha, a dedicated curry evangelist, has fond hopes for Mowgli's growth and she still insists on hand picking curry virgins for her kitchens, hand training each new Mowgli chef.

Winner of the Jeremy Round Award for Best First Book and shortlisted for Best Book at the Glenfiddich Awards, this fully revised and redesigned edition of *Cooking with Mummyji* features newly commissioned photography and more than 100 scintillating, simple, healthy recipes that celebrate Vicky Bhogal's Indian roots. These exciting recipes come from Bhogal's own family and friends: traditional Indian cooking using accessible ingredients. As Vicky says, "Our home food is much simpler than the food you find in Indian restaurants. We use very few spices. The same ingredients are generally used for everything but, like musical notes, can be combined in many different ways to create beautiful melodies." A treasure of culinary delights, this is "an enchanting book, suffused with charm, wit and the kind of fresh, light recipes that can dazzle a dinner party or make a perfect supper for one" (Red Magazine). "Written with openness and delight in its subject . . . intelligent and fascinating." —The Guardian "A tribute to the Sikh community living in Britain, Vicky Bhogal's book brings favourite family dishes to the table in much the same way as they would be in rural Punjab." —Time Out London

The Making of the Modern Indian Artist-Craftsman is intended to be a biographical and critical insight into the work of the potter, painter and photographer Devi Prasad. Apart from the making of his personal history and his times, it leads us to why the act of making (art) itself takes on such a fundamental philosophical significance in his life. This, the author explains, derives directly from his absorption of Gandhi's philosophy that looked at the act of making or doing as an ethical ideal, and further back to the impact of the Arts and Crafts Movement on the ideology of 'Swadeshi' and on the milieu of Santiniketan. This book examines his art along with his role in political activism which, although garnered on Indian soil made him crisscross national borders and assume an important role in the international arena of war resistance. Devi Prasad graduated from Tagore's Santiniketan in 1944 when he joined the Hindustani Talimi Sangh (which promulgated Nayee Taleem) at Gandhi's ashram Sevagram as Art 'Teacher'. His political consciousness saw him participate actively in the Quit India Movement in 1942, in Vinoba Bhave's Bhoodan and later from 1962 onward as Secretary General (later Chairman) of the War Resisters' International, the oldest world pacifist organisation based in London. From there he was able to extend his Gandhian values internationally. All of this, while continuing with his life as a prolific artist. Rather than view them as separate worlds or professions, Devi harmonises them within an ethical and conscionable whole. He has written widely on the inextricable link between peace and creativity, on child /basic education, Gandhi and Tagore, on politics and art, in English, Hindi and Bangla. In 2007 he was awarded the Lalit Kala Akademi Ratna and in 2008, the Desikottama by Visva Bharati University, Santiniketan.

Julie Sahni's Introduction to Indian Cooking

From formal recipes for parties to the leisurely making of dals, pickles, and relishes, Jaffrey's "invitation" has proved irresistible for generations of American home cooks.
