The Relative Clause

She Will Set the Switches for French and When She Hears English She'll Set the Switches for English but the Switches Are There and the Principles on Which the Switches Operate Are There at Birth It's Just that the Parameters Are Not Yet Fixed Okay I'm Not Gonna Resolve this this Morning I Just Want You To See that the Issues We're Going To Be Talking about in the Philosophy of Language Extend beyond Philosophical Questions To Cover Questions about the Nature of Human Languages in the Actual Structure of Human Languages Now Emotional Auditions Don't Give a Damn about this because in a Formal Logical Languages like the Predicate Calculus

Between Synthetic a Posteriori Contingent Propositions on the One Hand and Analytic A Priori Necessary Propositions on the Other and that in Its Simplest Form That Gives You a Very Elegant Conception of Philosophy Philosophy Consists of Stating Analytic Truths about Concerns about Concepts It's Essentially a Conceptual Inquiry I for a Number of Reasons That Picture Has Come under Attack I Haven't Told You the Most Powerful Forms of the Attack but There Are a Number of Reasons That It Has Come under Attack Now in Addition to that though We Also Need the Distinction between Syntax Semantics and Pragmatics and that Acquires some of Its Interest because We Need a Distinction between Sentence Meaning and Speaker Meaning We Need To Get the Idea that When People Actually Communicate with each Other They Use Sentences

Because We Need a Distinction between Sentence Meaning and Speaker Meaning We Need To Get the Idea that When People Actually Communicate with each Other They Use Sentences but the Meaning of What They Say Typically Differs from the Meaning of the Sentence They Uttered They May Mean More They May Mean Less They May Mean Something Different as in the Case of Metaphor They May Mean the Opposite as in the Case of Sarcasm and Irony but There's a Systematic Set of Relations between the Sentence Meaning and the Speaker Meaning You Can't Say Anything and Mean Anything

And One I Want To Call Your Attention to Now because We're Going To Be Spending some Time on It and that Is Austin Noticed that's JI Austin an Oxford Philosopher Austin Noticed that There Are Lots of Utterances That Are Perfectly Legitimate Utterances but Don't Seem To Aim at Stating Something True or False if I Say I Promise To Come and See You I'M Making a Promise if I Say I Order You To Leave the Room I'M Issuing an Order and a Pick One of Austin's Example in a Wedding Ceremony When the Preacher Says to the Man You Take this Woman To Be Your Lawful Wedded Wife and He Says the Woman Do You Take this Man To Be Your Lawful Wedded Husband

Between the Philosopher's Favors that Con Stadiums over Here That Can Be True or False They Come in Regular What in America Called Declarative Sentences but in England Just Say Indicative Sentences and They're Sayings They're Utterings as Opposed to the Performative Which Are Not True or False but Felicitous That Are in Felicitous They Have Special Verbs and Their Actions They're all Cases of Action Now What Happens Often Is What Looks like a New Kind of Case the Performative Case May Have Features That Swallow the General Case and that Is if You Look Closely over Here You'll Find that You Can't Make the Distinction in this Way

Now What Happens Often Is What Looks like a New Kind of Case the Performative Case May Have Features That Swallow the General Case and that Is if You Look Closely over Here You'll Find that You Can't Make the Distinction in this Way Lots of Performative I Can Be True or False I Warn You that It's Going To Rain Today Well that's Likely To Be a False Warning because It's Whatever Else Is Going To Happen in Berkeley Today It's Not Going To Rain or So I Don't Promise You but that Would Be My My Statement Okay and Furthermore There Can Be Felicitous

Because It's Whatever Else Is Going To Happen in Berkeley Today It's Not Going To Rain or So I Don't Promise You but that Would Be My My Statement Okay and Furthermore There Can Be Felicitous and in Felicitous Con Stative if I Now Say There Are Exactly 37 People in the Next Room and You Say Well How Do You Know Well I Just Said It I Mean It's a Free Country Well There's Something Wrong with that if I Make a Firm Claim I Am Required by the Rationality of the Language by the Structure of the Speech Act

And I Want You To See above all Perhaps the Distinction between What the Sentence Means as an Element in the Language and What the Speaker Means When He or She Utters the Sentence between Speaker Meaning and Sentence Meaning I and Then I Want You To Understand that the Resources of the Language Have To Give You a Compositionality and Generativity Okay any Questions before We Break Up for this Morning Yes Speaker Meaning and Sentence Meaning Can Coincide and There's a if You Say to Me How Much Is Two plus Two and I Say Two plus Two Equals Four the Speaker Meaning and the Sentence Meaning Can Coincide
