I Spoke Before the U.S. House Judiciary Committee - I Spoke Before the U.S. House Judiciary Committee by Jordan B Peterson 827,951 views 7 days ago 31 minutes - On March 7th, 2024, Dr. Jordan B. Peterson was invited to be an expert witness before the U.S. House Judiciary committee.

The hearing comes to order, overview

FBI overreach, and their intended goal

Swearing in Dr. Peterson

Dr. Peterson testifies: "George Orwell could scarcely imagine this"

Question one: will it stop with Conservatives?

Question two: why not embrace AI and the surveillance state for improved safety?

Question three: why did Canada decide that you need more "education?"

Question four: why are the U.S. safeguards on free speech so important?

Question five: should the banks be required to inform their customers when the GOV requests their records?

Question six: can you tell us about the de-banking incidents during the Canadian Freedom Convoy?

Question seven: who are the biggest victims of de-banking?

Question eight: can you explain to what extent citizen's "virtualized selves" will be used by big tech, big gov, and the banks?

The hearing is adjourned

Contract Law

This book gives an introduction to the English law of contract. The third edition has been fully updated to cover recent developments in case law and recent statutes such as the Consumer Rights Act 2015. However, this new edition retains the primary focus of the earlier editions: it is designed to introduce the lawyer trained in a civil law jurisdiction to the method of reasoning in the common law, and in particular to the English law of contract. It is written for the lawyer - whether student or practitioner - from another jurisdiction who already has an understanding of a (different) law of contract, but who wishes to discover the way in which an English lawyer views a contract. However, it is also useful for the English law student: setting English contract law generally in the context of other European and international approaches, the book forms an introductory text, not only demonstrating how English contract law works but also giving a glimpse of different ways of thinking about some of the fundamental rules of contract law from a civil law perspective. After a general introduction to the common law system - how a common lawyer reasons and finds the law - the book explains the principles of the law of contract in English law covering all the aspects of a contract from its formation to the remedies available for breach, whilst directing attention in particular to those areas where the approach of English law is in marked contrast to that taken in many civil law systems.

Contract Law

This book gives an introduction to the English law of contract. In this new and fully updated edition the book retains the primary focus of the first edition: it is designed to introduce the lawyer trained in a civil law jurisdiction to the method of reasoning in the common law, and in particular to the English law of contract. It is written for the lawyer-whether student or practitioner-from another jurisdiction who already has an understanding of a (different) law of contract, but who wishes to discover the way in which an English lawyer views a contract. However, setting English contract law generally in the context of other European and international approaches, the book forms an introductory text for the English student, who can see not only how English contract law works but also get a glimpse of different ways of thinking about some of the fundamental rules of contract law. After a general introduction to the common law system-how a common lawyer reasons and finds the law-the book explains the principles of the law of contract in English law covering all the aspects of a contract from its formation to the remedies available for breach, whilst directing attention in particular to those areas where the approach of English law is in marked contrast to that taken in many civil law systems.

Contract Law

Reflecting the most recent changes in the law, the third edition of this popular textbook provides a fully updated, comparative introduction to the law of contract. Accessible and clear, it is perfectly pitched for international students and courses with a global outlook. Jan Smits' unique approach treats contract law as a discipline that can be studied on the basis of common principles and methods without being tied to a particular jurisdiction or legal culture. Notable updates include the consequences of Brexit, the implementation of new European directives 1999/770 and 2019/771 as well as coverage of the effect of COVID-19 on contracts.

Contract Law

This bestselling, classic textbook provides a clear and straightforward account of contract law, while also introducing current debates about the nature, scope and functions of the law and discussing wider controversies surrounding the basic doctrines. Written by one of the UK's leading experts on contract law, this book is compact yet comprehensive, well-structured, stimulating and engaging. New to this edition are 'Hot topics', which flag up controversial issues for debate so that students can consider key issues and think critically about them, whilst also offering some insight from the author. This is an ideal text for all students taking undergraduate and GDL/CPE courses in contract law. It would also be useful for professionals and business students requiring an understanding in simple terms of the nature and scope of contract law.

Introduction to Contract Law - REVISION GUIDE

This book discusses the principles and rules of general contract law in England & Wales. It examines the key points and rules of contract law, starting with the formation of the contract and ending with the remedies for breach of contract. In this it follows the structure most used in contract law modules at universities. Please also note that this book takes into account developments of the law up until July 2021. Contract law is a core module in legal higher education in the UK. Contract law is also an important basis for many other law modules including maritime law, company law, commercial law, and arbitration law. This book gives a clear oversight of the main issues of key contract law topics. It summarises the issues in a concise and precise manner and uses practical examples throughout to clarify how the law is applied. Key cases are used to explain and illustrate the principles of the law. This book is an ideal companion guide for exam revisions. The chapters follow a question-and-answer model that makes it easy to find information on a specific issue. The chapters end with a problem-solving scenario on key issues of the topic and a list with key cases which will be helpful in preparing for examinations. At the end of the book, you find a further reading list and a set of sample multiple-choice questions which can be used to help prepare for the first stage of the SQE examination that will be introduced in September 2021. "Contract Law is generally taught as a first-year subject which could be a daunting subject. This book helps students to revise this subject effectively as it brings together all key areas of contract law that a student should be familiar with when preparing for examinations, drafting coursework, and preparing for seminars. It examines the key points and rules of contract law, starting with the formation of the contract and ending with the remedies for breach of contract. The book is written in plain language in the form of questions and answers. It is detailed without being too long, succinct but covers all key cases and developments in the area. The multiple-choice questions at the end of the book are very beneficial for students preparing for the SQE and exams that follow a similar

format. I would recommend this book wholeheartedly.” – Dr Aysem Diker Vanberg, Lecturer in Law, Goldsmiths, University of London

Principles of the English Law of Contract

David Ibbetson exposes the historical layers beneath the modern rules and principles of contract, tort, and unjust enrichment. Small-scale changes caused by lawyers exploiting procedural advantages in their clients' interest are described & analyzed.

A Historical Introduction to the Law of Obligations

This innovative and accessible text offers a straightforward and clear introduction to the law of contract suitable for use across geographical boundaries. It introduces the key principles of contract law by comparing solutions from different jurisdictions and has an innovative design with text boxes, colour and graphics, making it a highly attractive tool for studying. This revised second edition has been updated to reflect the most recent changes in the law, including the French reform of the law of obligations and the new UK Consumer Rights Act. A whole new chapter on contracts and third parties has also been added.

Contract Law

This book provides an essential introduction to English contract law. Written by practising barrister and law professor, Mark Watson-Gandy, whose infectious enthusiasm for the subject permeates the text, the book simply explains all the core concepts and leading cases. Whether you are a law student or an international lawyer, you will find "Simple Contract Law" to be an easy-to-read, concise, and informative first guide into the subject. Enlivened by the colourful back stories to the case law and with witty illustrations by Gordon Collett, this book is a welcome antidote to stale traditional contract law textbooks. "Strips English Law of complexity" "The first law book you will actually enjoy reading" Business Money

Simple Contract Law: A Brief Introduction to English Contract Law

Atiyah's Introduction to the Law of Contract is a well-known text through which thousands of university students have first encountered the law of contract, and the new edition has long been eagerly awaited by university teachers and students. This sixth edition, updated by Stephen Smith, continues to provide readers with an introduction to the theories, policies, and ideas that underlie the law, placing an equal emphasis on the law and critical analysis. In particular, the discussion of recent cases and legislation is centred on why contract law is the way it is, whether it can be justified, and, if not, what should be done to improve it. The sixth edition has been revised to place the law of contract in a modern context and to account for recent developments in the law, as well as those in academic thinking and writing. Addressing European influences and including perspectives from comparative law, this remains a stimulating and authoritative exposition of the modern law of contract.

Atiyah's Introduction to the Law of Contract

UPDATED TO MARCH 2016 Written by a university lecturer and qualified solicitor, this is a clear and accessible introduction to English contract law. Stripped of unnecessary details, it is an ideal starter text for anyone with an interest in this subject or who plans to study law at any level. Easy to read and can be completed in several sittings to give a good grounding in the subject. The book covers all the main areas of English contract law that you would expect to find such as formation, consideration, intention, implied terms, breach, frustration, mistake, remedies, misrepresentation and exclusion clauses. The "Really Basic Introductions" series includes the following titles: - A Really Basic Introduction to Value Added Tax - A Really Basic Introduction to English Law and the English Legal System - A Really Basic Introduction to English Contract Law - A Really Basic Introduction to Company Law - A Really Basic

Introduction to Income Tax - A Really Basic Introduction to Capital Gains Tax The above titles are all available in Kindle format.

A Really Basic Introduction to English Contract Law

Whether you are engaged in the study of law, are considering studying law at university, are a business professional or want to find out more about the law in general, Slapper and Kelly's English Law offers a clear, lively and reliable point of entry to the law in England and Wales. Presented in an easy-to-read style, it provides readers with an accurate explanation of how the English legal system currently works and the content of English law in all its key areas of operation, including criminal law, contract law and the law of negligence. An invaluable introduction, English Law is an excellent resource for students of the English legal system and English law, as well as for professionals and general readers.

English Law

National legal systems have their own principles and rules on contract law. The trans-nationalization of trade and legal practice involves acting in the context of legal diversity. This book provides an introductory overview of the main issues of contract law from a comparative perspective, focusing on the legal traditions of civil law and common law. Featuring short theoretical overviews, followed by cases selected from various jurisdictions, the book shows the concrete application of the principles and rules involved. Civil law and common law represent two different models of dealing with contract law issues. The book focuses on the French, German, and Italian experiences and on the English legal system, the latter being the main source of inspiration for other common law countries, with some significant exceptions. Topics covered include the structure of contract law and the rules about its formation and interpretation, the role of pre-contractual negotiations, the consequences of mistakes, and breach and supervening events (including the impact of the Covid-19 pandemic). Readers will learn about common problems that are faced when contracting with parties coming from different jurisdictions, whilst also acquiring a deeper understanding of the approach of their own legal system. This book will be key reading for undergraduate and postgraduate students of comparative contract law, and contract law more generally.

Comparative Contract Law

Substantially revised and updated, this edition reexamines, in the light of renewed support for the ideology of freedom of contract, many of the arguments formerly levelled against this concept.

An Introduction to the Law of Contract

Contract Law and Practice is first and foremost a notably clear and well-illustrated exposition of the rules and attitudes of English contract law. It is moreover exceptional in emphasising the UK's membership of the European Union and seeking accordingly to give British lawyers an insight into equivalent Continental rules, while providing their Continental counterparts with a straightforward introduction to English law and its ways of thought. Special features include: Clarity of expression and text (no footnotes!); Nearly 150 cases added since the third edition, including more than 30 reported in 2000; Many examples of the terms of standard form contracts, considering their actual or possible effect and introducing students to current commercial practice. Particularly important issues include provisions as to risk, retention of title clauses, exclusion clauses, entire agreement clauses, and letters of credit; Full treatment of the fundamental and familiar principles of the law, together with recent and forthcoming UK and EU reforms as to third party rights, consumer protection, etc.; For those interested to look beyond the limits of their own systems, there are concise and updated commentaries at the end of every chapter on comparable aspects of Danish, Dutch, French, German, Italian, Spanish, and Swedish law, written by distinguished practitioners and academics in those countries; The book provides further comparative material in the many instructive references to Scottish, Commonwealth, and American contract cases, and To The Vienna Convention on Contracts For The International Sale of Goods.

Contract Law and Practice: The English System and Continental Comparisons

Derived from the renowned multi-volume International Encyclopaedia of Laws, this practical analysis of the law of contracts in India covers every aspect of the subject – definition and classification of contracts, contractual liability, relation to the law of property, good faith, burden of proof, defects, penalty clauses, arbitration clauses, remedies in case of non-performance, damages, power of attorney, and much more.

Lawyers who handle transnational contracts will appreciate the explanation of fundamental differences in terminology, application, and procedure from one legal system to another, as well as the international aspects of contract law. Throughout the book, the treatment emphasizes drafting considerations. An introduction in which contracts are defined and contrasted to torts, quasi-contracts, and property is followed by a discussion of the concepts of 'consideration' or 'cause' and other underlying principles of the formation of contract. Subsequent chapters cover the doctrines of 'relative effect', termination of contract, and remedies for non-performance. The second part of the book, recognizing the need to categorize an agreement as a specific contract in order to determine the rules which apply to it, describes the nature of agency, sale, lease, building contracts, and other types of contract. Facts are presented in such a way that readers who are unfamiliar with specific terms and concepts in varying contexts will fully grasp their meaning and significance. Its succinct yet scholarly nature, as well as the practical quality of the information it provides, make this book a valuable time-saving tool for business and legal professionals alike. Lawyers representing parties with interests in India will welcome this very useful guide, and academics and researchers will appreciate its value in the study of comparative contract law.

Contract Law in India

Principles of the English Law of Obligations provides students with a high-quality overview of this key area of English law. Drawing together updated chapters from the third edition of English Private Law, the subjects covered include contract, tort and equitable wrongs, unjust enrichment, and remedies. Written by a team of acknowledged experts, the chapters give a clear, simple, and accurate overview of the guiding principles and rules of the English law of obligations, including contract and tort, which are compulsory subjects for law degrees and on professional courses. Whether looking for an accessible, conceptual introduction to the area or a handy revision reference, students will find this book invaluable.

Understanding Contract Law

Contract Law in Zambia: An Introduction covers all the relevant aspects of the law of contract in Zambia, in both statutory and common law. The book focuses on a range of topics, including the theoretical aspects, offer and acceptance, consideration, the intention to create legal relations, the terms of a contract, misrepresentation, duress and undue influence, void and illegal contracts, the discharge of a contract, and remedies for breach of contract. The author covers important English case law and related developments. However, the author also examines the increasing number of cases decided by the Zambian courts, which 'domesticate' and build on English law, and therefore highlights the relevance of the local context and the changes that have occurred as a result of home-grown adjudication. Contract Law in Zambia: An Introduction is intended mainly for law students, but legal practitioners, corporate professionals, and those in related disciplines will also find the book to be an indispensable resource.

Principles of the English Law of Obligations

A student classic: clear, comprehensive, contextual. Jill Poole's immensely popular Textbook on Contract Law has been guiding students through contract law for over 20 years. This new edition has been updated with the latest key legal developments by Professor Robert Merkin and Dr Severine Saintier. The law of contract is placed within its commercial context, and students are provided with a detailed yet accessible treatment of all the key areas of contract law. Key features: - Each chapter begins with a summary of key issues, providing an overview of central themes and points of law, and concludes with suggestions for further reading, guiding students towards the most relevant texts and articles - Key points, illustrative examples and questions encourage a deeper understanding of the central facts and issues - Headings, case summaries and case extract boxes allow for easy navigation through the text Online resources: The study of contract law continues via the online resources, keeping you up to date and helping to consolidate your learning. - 300 multiple choice questions with answers and feedback - Self-test questions and answers - Guidance on answering problem questions in contract law - Updates on new legislation, cases, and other legal developments

Contract Law in Zambia

Derived from the renowned multi-volume International Encyclopaedia of Laws, this practical analysis of the law of contracts in England and Wales covers every aspect of the subject – definition and classification of contracts, contractual liability, relation to the law of property, good faith, burden of proof, defects, penalty clauses, arbitration clauses, remedies in case of non-performance, damages, power of

attorney, and much more. Lawyers who handle transnational contracts will appreciate the explanation of fundamental differences in terminology, application, and procedure from one legal system to another, as well as the international aspects of contract law. Throughout the book, the treatment emphasizes drafting considerations. An introduction in which contracts are defined and contrasted to torts, quasi-contracts, and property is followed by a discussion of the concepts of 'consideration' or 'cause' and other underlying principles of the formation of contract. Subsequent chapters cover the doctrines of 'relative effect', termination of contract, and remedies for non-performance. The second part of the book, recognizing the need to categorize an agreement as a specific contract in order to determine the rules which apply to it, describes the nature of agency, sale, lease, building contracts, and other types of contract. Facts are presented in such a way that readers who are unfamiliar with specific terms and concepts in varying contexts will fully grasp their meaning and significance. Its succinct yet scholarly nature, as well as the practical quality of the information it provides, make this book a valuable time-saving tool for business and legal professionals alike. Lawyers representing parties with interests in England and Wales will welcome this very useful guide, and academics and researchers will appreciate its value in the study of comparative contract law.

Poole's Textbook on Contract Law

The Modern Law of Contract builds on the success of the popular Principles of Contract Law. Taking account of a variety of theoretical approaches: economic, sociological and empirical, the book combines meticulous examination of authorities and commentary with a modern and contextual approach. The range of material covered, combined with an accessible style, means that this book meets the needs of all undergraduate contract courses, enabling students to gain a profound understanding of this pivotal field. It will also be useful for students studying contract law as part of another discipline.

Contract Law in England and Wales

This edition provides an authoritative and detailed account of contract law. It is essential reading for any student of contract law, and a valuable source of reference for practitioners and academics.

The Modern Law of Contract

This volume presents a distillation of the current state of the general law of contract into a coherent set of succinct rules. Written by an authority in the area, assisted by senior judges, academics, and practitioners, the law is restated in a clear and authoritative manner, demonstrating how the different elements fit together.

Anson's Law of Contract

This book provides continental lawyers with a clear and accessible introduction To The basic principles of English commercial contract law, and their English counterparts with what may well be their first insight into equivalent Continental rules. Highlighted features of this publication include: Clear but critical explanations of the general principles of the law, illustrated by modern precedents. More than 100 new cases have been added since the 1992 Second Edition. Use of typical commercial contract clauses, illustrating the practical significance of the rules in question and introducing students To The language of contracts. Emphasis on commercial practice And The fundamental issues of offer and acceptance, consideration, terms, exclusions clauses, risk, mistake, misrepresentation, frustration, and remedies for breach. Interesting and instructive comparisons with Commonwealth and American developments in case law and statute, combined with appropriate references To The Vienna Convention on Contracts For The International Sale of Goods. Appendices contain the full text of the Convention, together with the important, new Unfair Terms in Consumer Contracts Regulations. Commentaries on comparable aspects of Danish, Dutch, French, German, Italian, Spanish and (new to this edition), Swedish law written by practitioners and academics of the countries in question.

A Restatement of the English Law of Contract

Contract Law Concentrate is written and designed to help you succeed. Accurate and reliable, Concentrate guides help focus your revision and maximise your exam performance. Each guide includes revision tips, advice on how to achieve extra marks, and a thorough and focused breakdown of the key topics and cases.

Contract Law and Practice: The English System and Continental Comparisons

'...provides everything you want in a case book: a stimulating, thought-provoking and up to date account of contract law. It combines both fantastic academic commentary and superbly selected materials making it simply one of the best contract law casebooks.' Student Law Journal This is the seventh, fully updated, edition of Professor Burrows' Casebook, offering law students the ideal way to discover and understand contract law through reading highlights from the leading cases. Designed to be used either on its own or to supplement a contract law textbook, this book covers the undergraduate contract law course in a series of clearly presented and carefully structured chapters. The author provides an expert introduction to each topic and his succinct notes and questions seek to guide students to a proper understanding of the cases. The relevant statutes are also set out along with a principled analysis of them. In addition to cross-references to further discussion in the leading textbooks, an innovative feature is the summary of leading academic articles in each chapter. The book is designed not to overwhelm students by its length but covers all aspects of the law of contract most commonly found in the undergraduate curriculum.

Contract Law Concentrate

Contract Law in Zambia covers all the relevant aspects of the law of contract in Zambia, in both statutory and common law. The book focuses on critical topics in contract law, namely offer and acceptance, consideration, the intention to create legal relations, the terms of a contract, misrepresentation, mistake, duress and undue influence, void and illegal contracts, the discharge of a contract, and remedies for breach of contract. New to this version is an analysis and interpretation of the growing jurisprudence on various issues in the law of contract. Whereas the authors cover the important English case law and related developments, this edition outlines and examines the increasing number of cases decided by the Zambian courts, particularly the Supreme Court and Court of Appeal which interpret English and common-law principles. This second edition includes the latest decisions from the apex courts in Zambia on the law of contract. The book highlights the relevance of the local context and the changes resulting from home-grown adjudication. This edition expands on the first edition to give a more comprehensive overview of the law of contract. Contract Law in Zambia is intended for law students, legal practitioners, members of the judiciary and corporate professionals. Those in related disciplines will also find the book to be an indispensable resource.

A Casebook on Contract

This text serves as an accessible introduction to the law of contract. The headings chosen for examination track the main points in the lifetime of a contract—from its formation, drafting, and onward to its eventual dissolution, whether this occurs due to the terms of the contract, the will of the parties, or because of a breach of the agreed terms. It also provides studies of other notable areas within the subject, such as third-party rights, damages, and equitable remedies. In distinction to other guides to contract law, this text provides a comparative analysis of the area, incorporating sources drawn from both the civil law tradition, characteristic of several nations within Continental Europe, as well as the Anglo-American common law tradition, with cases and legislation drawn from England and the United States of America. It also explores contract law in the unique context of so-called hybrid jurisdictions—those that incorporate elements of both the common law and civilian traditions. As business assumes a global dimension, knowledge of the operation of contract law across various legal traditions and national contexts is increasingly at a premium. This text enables the student to gain a coherent vision of contract law, as well as to speak confidently when discussing the intricacies of the subject.

Contract Law in Zambia

Derived from the renowned multi-volume International Encyclopaedia of Laws, this practical analysis of the law of contracts in Singapore covers every aspect of the subject – definition and classification of contracts, contractual liability, relation to the law of property, good faith, burden of proof, defects, penalty clauses, arbitration clauses, remedies in case of non-performance, damages, power of attorney, and much more. Lawyers who handle transnational contracts will appreciate the explanation of fundamental differences in terminology, application, and procedure from one legal system to another, as well as the international aspects of contract law. Throughout the book, the treatment emphasizes drafting considerations. An introduction in which contracts are defined and contrasted to torts, quasi-contracts, and property is followed by a discussion of the concepts of 'consideration' or 'cause' and other

underlying principles of the formation of contract. Subsequent chapters cover the doctrines of 'relative effect', termination of contract, and remedies for non-performance. The second part of the book, recognizing the need to categorize an agreement as a specific contract in order to determine the rules which apply to it, describes the nature of agency, sale, lease, building contracts, and other types of contract. Facts are presented in such a way that readers who are unfamiliar with specific terms and concepts in varying contexts will fully grasp their meaning and significance. Its succinct yet scholarly nature, as well as the practical quality of the information it provides, make this book a valuable time-saving tool for business and legal professionals alike. Lawyers representing parties with interests in Singapore will welcome this very useful guide, and academics and researchers will appreciate its value in the study of comparative contract law.

Contract Law

This is a great starter book for those who are new to the subject of English law. Are you starting any kind of course of study in law or a related subject? Maybe you have always had an interest in law and just want an accessible book to start you off. Perhaps you have a friend or relative who is studying law and you want to see what they are learning about. Whatever your reasons, this easy to read book covers the basics for you. Written by a university lecturer and qualified solicitor, it is short enough to read in several sittings and won't bog you down in unnecessary details. I hope it will encourage you to read further into the subject, and who knows where that may lead you...? The book covers topics such as the court system, lawyers, the common law, legislation, the European Union, human rights, contract law, tort, criminal law and more, all in an easy-to-read, straightforward way and at an introductory level. The "Really Basic Introductions" series includes the following titles: - A Really Basic Introduction to Value Added Tax - A Really Basic Introduction to English Law and the English Legal System - A Really Basic Introduction to English Contract Law - A Really Basic Introduction to Company Law - A Really Basic Introduction to Income Tax - A Really Basic Introduction to Capital Gains Tax The above titles are all available in Kindle format.

Contract Law in Singapore

Aiming to provide a clear and digestible introduction to the central areas of commercial law, this text sets out each topic in a self-contained, annotated section. Coverage includes: fundamentals of sale of goods contracts; law governing agency relationships; and consumer credit agreements.

A Really Basic Introduction to English Law and the English Legal System

Elgar Advanced Introductions are stimulating and thoughtful introductions to major fields in the social sciences and law, expertly written by the world's leading scholars. Designed to be accessible yet rigorous, they offer concise and lucid surveys of the substantive and policy issues associated with discrete subject areas. In this Advanced Introduction, one of the world's leading private law scholars takes the reader on an intellectual journey through the different facets and dimensions of the field, from the family home to Kuta Beach and from Thomas Piketty to Nina Hagen. This concise book provides an accessible and fresh introduction to private law, presenting the topic as a unified whole of which the main branches – on contract, tort, property, family and inheritance – are governed by conflicts between individual autonomy and countervailing principles. The book stands out as a unique account of how private law allows individuals to optimally flourish in matters of economy, work, leisure, family and life in general.

Principles of Commercial Law 2/e

Since the publication of its first edition, this textbook has become the definitive student introduction to the subject. As with earlier editions, the seventh edition gives a clear understanding of fundamental legal concepts and their importance within society. In addition, this book addresses the ways in which rules and the structures of law respond to and impact upon changes in economic and political life. The title has been extensively updated and explores recent high profile developments such as the Civil Partnership Act 2005 and the Racial and Religious Hatred Bill. This introductory text covers a wide range of topics in a clear, sensible fashion giving full context to each. For this reason An Introduction to Law is ideal for all students of law, be they undergraduate law students, those studying law as part of a mixed degree, or students on social sciences courses which offer law options.

Advanced Introduction to Private Law

"[This book is written for students and practitioners alike wishing to learn about English law and the particular features of the common law. The fully up-dated edition provides an introduction to the key areas of English law covering the common law, sources of law, the court system, trial system, legal personnel, pre-trial civil procedure, constitutional law, equity and trusts, contract law, the law of tort, commercial law, company law and European Union law...Essential vocabulary is highlighted throughout and each chapter contains a section on legal terminology to assist the reader in developing their legal English."--

An Introduction to Law

This book, based on English law of contract, considers the development and present state of the doctrine of Privity of Contract with clear references to cases in other major common law jurisdictions (Australia, Canada, New Zealand and Singapore). The work opens with a history of development of the privity rule and its place in English up to the enactment of the Contract (Right of third parties) Act 1999. The book considers common law and statutory exceptions in detail as well as major statutory exceptions from other jurisdictions. There is also consideration of the operation of the rule with regard to exemption clauses and attempts to impose liabilities and burden on non-parties. A large section of the book considers the rights of a promisee where the loss suffered by reason of a breach of contract has been incurred by a third party. The final chapters consider the position under the Contract (Right of third parties) Act 1999 and look at the international position, considering work undertaken by UNIDROIT. This book fills a gap for a more thorough examination of the law of privity and is written by two well-known and experienced authors on contract law.

English Law and Terminology

The Modern Law of Contract is a clear and logical textbook, written by an experienced author team with well over 50 years' teaching and examining experience. Fully updated to address the Consumer Rights Act 2015 and recent key cases in Contract Law, it offers a carefully tailored overview of all key topics for LLB and GDL courses. The book also includes a number of learning features designed to enhance comprehension and aid exam preparation, allowing the reader to: understand and remember core topics: boxed chapter summaries offer a useful checklist for students, while illustrative diagrams help to clarify difficult concepts; identify important cases and assess their relevance: 'Key case' features highlight and contextualise the most significant cases; reflect on how contract law operates in context: highlighted 'For thought' features ask students to consider 'what if' scenarios, while 'in focus' features offer critical commentary on the law; consolidate learning and prepare for assessment: further reading lists and comparison website directions at the end of each chapter direct you to additional interactive resources to test and reinforce your knowledge. Clearly written and easy to use, The Modern Law of Contract enables undergraduate students of contract law to fully engage with the topic and gain a profound understanding of this fundamental area.

Privity of Contract

Significantly streamlined and updated, this second edition provides a clear introduction to all topics in the contract law curriculum.

The Modern Law of Contract

Principles of English Commercial Law provides students with a high-quality overview of this key area of English law. Drawing together updated chapters from the third edition of English Private Law, the subjects covered include the law on agency, sale of goods, carriage of goods by sea, carriage of goods by air and land, insurance, banking, bailment, security, and insolvency. Written by a team of acknowledged experts, the chapters give a clear, simple, and accurate overview of the guiding principles and rules of English commercial law, a vital topic in law degrees and on professional courses. Whether looking for an accessible, conceptual introduction to the area or a handy revision reference, students will find this book invaluable.

Contract Law

Derived from the renowned multi-volume International Encyclopaedia of Laws, this practical analysis of the law of contracts in Latvia and Wales covers every aspect of the subject definition and classification of contracts, contractual liability, relation to the law of property, good faith, burden of proof, defects, penalty

clauses, arbitration clauses, remedies in case of non-performance, damages, power of attorney, and much more. Lawyers who handle transnational contracts will appreciate the explanation of fundamental differences in terminology, application, and procedure from one legal system to another, as well as the international aspects of contract law. Throughout the book, the treatment emphasizes drafting considerations. An introduction in which contracts are defined and contrasted to torts, quasi-contracts, and property is followed by a discussion of the concepts of 'consideration' or 'cause' and other underlying principles of the formation of contract. Subsequent chapters cover the doctrines of 'relative effect', termination of contract, and remedies for non-performance. The second part of the book, recognizing the need to categorize an agreement as a specific contract in order to determine the rules which apply to it, describes the nature of agency, sale, lease, building contracts, and other types of contract. Facts are presented in such a way that readers who are unfamiliar with specific terms and concepts in varying contexts will fully grasp their meaning and significance. Its succinct yet scholarly nature, as well as the practical quality of the information it provides, make this book a valuable time-saving tool for business and legal professionals alike. Lawyers representing parties with interests in Latvia and Wales will welcome this very useful guide, and academics and researchers will appreciate its value in the study of comparative contract law.
