Ramage's Mutiny

Captain Ramage recklessly attempts to free the *Jocasta*, a British ship, from the Spanish Main stronghold of Santa Cruz. A vicious mutiny has left the *Jocasta* open to capture by Spain, but sailing the frigate *Calypso*, Ramage will stop at nothing to rescue the imprisoned vessel, even to inciting another mutiny on board his own ship.

Ramage's Mutiny

Mutiny and rebellion are rife on board a British ship in the Caribbean. A young British naval officer is chosen to rescue the ship from its Spanish captors - yet this means almost certain death. Lord Ramage soon learns he must resort to almost any means. Will his skill prove a match for the strength of the Spanish attack?

Ramage's Mutiny

Captain Lord Ramage's honeymoon in France is interrupted by a sudden end to the Peace of Amiens. Finding themselves on unfriendly soil just hours before hostilities commence, Ramage and his bride elude the grasp of Napoleon's secret police.

Ramage's Mutiny

Lieutenant Lord Ramage is given command of the *Triton* brig and ordered to deliver three sealed dispatches to admirals in the Caribbean. Unfortunately, he is also given command of a mutinous crew. This is the third novel in the 'Ramage' series and captures all the seafaring adventure of Nelson's Caribbean.

Ramage's Devil

The Treaty of Amiens is signed and Nelson's navy languishes in port. Ramage is at home on half pay and suspects Napoleon will yet break the terms of the Treaty. He is then given secret Admiralty orders to survey a small island off the coast of Brazil. He sails in *Calypso*, but then encounters more danger than in previous exploits.

Ramage And The Freebooters

Setting off on a sweep for freebooters in the waters off Jamaica, Ramage and the crew of the *Calypso* stumble upon a scene of carnage: a sinking British ship, her crew and passengers, men and women alike, ruthlessly murdered at the hands of a French privateer. Supported by his men in a thirst for righteous vengeance, Ramage ferrets out the brigand's name and sets sail to bring him in.

Ramage And The Renegades

Nelson's crews are standing down and Ramage is on leave when he receives secret Admiralty orders to inspect the small island of Trinidad off the coast of Brazil. Reaching the island, Ramage and the crew of the Calypso fetch up in a battle to free several captive merchant ships-- and a beautiful woman passenger-- as they cross swords with blood-thirsty pirates.

Ramage & the Rebels

After the Battle of Trafalgar, Captain Lord Ramage finds himself engaged in the pursuit of pirates.

Ramage and the Renegades

On a routine patrol, Ramage and his ship 'Calypso' make an horrific discovery. Caught in the process of taking a British ship, a ruthless French privateer has murdered the passengers and crew. Ramage and his men decide to track him down and set out to find his whereabouts in the Spanish Main.

Ramage and the Saracens

This book tracks the development of social complexity in Ireland from the late prehistoric period on into the Middle Ages. Using a range of methods and techniques, particularly data from settlement patterns, Blair Gibson demonstrates how Ireland evolved from constellations of chiefdoms into a political entity bearing the characteristics of a rudimentary state. This book argues that early medieval Ireland's highly complex political systems should be viewed as amalgams of chiefdoms with democratic procedures for choosing leaders rather than kingdoms. Gibson explores how these chiefdom confederacies eventually transformed into recognizable states over a period of 1,400 years.

Ramage and the Rebels

1796 - sea battles raging and an attack from the French has left third-lieutenant Ramage the sole officer in charge of his frigate. With orders from Nelson to be obeyed young Ramage must rise to the challenge. This thrilling adventure is the first in Dudley Pope's popular and much-loved Ramage series.

From Chiefdom to State in Early Ireland

A History of Peeblesshire

The traditional Eurocentric view of state formation and the rise of civilization is challenged in this broad-ranging book. Bringing archaeological research into contact with the work of ethno-historians and anthropologists, it generates a discussion of fundamental concepts rather than a search for modern analogies for processes that occurred in the past.

Ramage

"This book is an essential reference on creating words. It's packed with etymologies, ideas on derivation, places you can diverge from English, and fascinating things to think about. Plus it contains the real-world knowledge you need to name everything from colors to elements, from kinship systems to guilds" -- Back cover.

Tongan Culture and History

By describing the fabric of relationships indigenous peoples weave with their environment, *The Land Within* attempts to define a more precise notion of indigenous territoriality. A large part of the work of titling the South American indigenous territories may now be completed but this book aims to demonstrate that, in addition to management, these territories involve many other complex aspects that must not be overlooked if the risk of losing these areas to settlers or extraction companies is to be avoided. Alexandre Surralls holds a doctorate in anthropology from the School for Higher Studies in Social Sciences and is a researcher on the staff of the National Centre for Scientific Research. Pedro Garca Hierro is a lawyer from Madrid Complutense University and the Pontifical Catholic University of Peru. He has worked with various indigenous organizations, on issues related to the identification and development of collective rights and the promotion of intercultural democratic reforms.

Conformity and Conflict

Discovered in a hidden compartment of an old chest long after his death, the secret writings of John Dee, one of the leading scientists and occultists of Elizabethan England, record in minute detail his research into the occult. Dee concealed his treatises on the nature of humankind's contact with angelic realms and languages throughout his life, and they were nearly lost forever. In his brief biography of John Dee, Joseph Peterson calls him a "true Renaissance man" detailing his work in astronomy, mathematics, navigation, the arts, astrology, and the occult sciences. He was even thought to be the model for Shakespeare's Prospero. All this was preparation for Dee's main achievement: five books, revealed and transcribed between March 1582 and May 1583, bringing to light mysteries and truths that scholars and adepts have been struggling to understand and use ever since. These books detail his system for communicating with the angels, and reveal that the angels were interested in and involved with the exploration and colonization of the New World, and in heralding in a new age or new world order. While Dee's influence was certainly felt in his lifetime, his popularity has grown tremendously since. His system was used and adapted by the Hermetic Order of the Golden Dawn, and subsequently by Aleister Crowley. This new edition of John Dee's *Five Books of Mystery* is by far the most accessible and complete published to date. Peterson has translated Latin terms and added copious footnotes, putting the instructions and references into context for the modern reader.

State and Society

This vivid exposé of corruption and political tyranny in the Dominican Republic rang so true to the reality that the President of that country went on television to denounce the book. Sención's novel follows the lives of three seminary students who suffer from church-state oppression. The book also gives a chilling portrait of Dr. Ramos, a sinister autocrat, who manages to survive six terms as president of his country through manipulation and tyranny.

Historical Sketch of Franklin County, Pennsylvania

The New Hermetics is a powerful spiritual technology of the mind. It is a course of study and practice that teaches the science of illumination and the ability to alter reality. The ancient Egyptian form of Hermetic philosophy was that the mind shapes reality. The New Hermetics extends that philosophy - the universe is a great mind or consciousness, and we are a part of that consciousness; therefore

by learning to control the mind, we learn to control our part of the universe. With updated versions of the ancient Rosicrucian brotherhood's 10 levels of initiation, combined with ancient and modern mind-expanding techniques such as visualization and NLP (neuro-linguistic programming), The New Hermetics progressively gives initiates power over their minds and world. Practicing these elements simultaneously makes it possible to undergo initiation into the mysteries of consciousness in a fraction of the time it was ever before possible. The course offered in the book lets practitioners master their minds in such a way that they will be able to achieve anything and everything they want in life, spiritually and physically. The New Hermetics offers 10 levels of instruction to control the mind and control reality: Level 1-The Initiate teaches mastery over behavior and visualization in the Ether. Level 2-The Zealot bestows mastery over emotions, breathing, and Etheric energy. Level 3-The Practitioner gives mastery over mind, beliefs, and the ability to project Etheric energy. Level 4-The Philosopher masters creativity, values, and the ability to direct Etheric energy. Level 5-The Adept develops relationship with cosmic consciousness. Level 6-The Advanced Adept offers the power to direct the forces of cosmic consciousness. Level 7-The Perfect Adept gives wisdom and the ability to share these forces with others. Level 8-The Master bestows mastery of cosmic consciousness. Level 9-The Mage gains mastery of universal power. Level 10-The Ultimate Master obtains mastery over the universal self. The New Hermetics is a powerful course of instruction that can help anyone master themselves to rule their world.

That Desert is Our Country

Lord Ramage returns for another highly-charged and thrilling adventure at sea. Instructed with the task of discovering why His Majesty's dispatches keep unaccountably disappearing, Ramage finds himself involved in a situation far beyond his expectations. Based on true events, Ramage's Prize is another gripping story from Dudley Pope.

Oceania, a Regional Study

Three novels in one! Sixteen-year-old Richard Bolitho joins the British Royal Navy as a young midshipman. Follow his adventures as he undergoes a severe initiation into the dangerous world of the great sailing warships. 1. Richard Bolitho: Midshipman 1772: A young Richard Bolitho joins the 74-gun Gorgon. Naive and untested, Bolitho must learn the ways of the navy quickly if he is to survive. 2. Midshipman Bolitho and the Avenger 1773: Bolitho returns home to Cornwall for Christmas, but smuggling, shipwrecking, and witchcraft tear apart his once-peaceful community. 3. Band of Brothers

1774: Bolitho stands on the brink of manhood and takes his examination to begin his true career as a King's Officer. But soon he must test his mettle against vicious smugglers!

The Land Within

Chaucer called it "spiritual manslaughter"; Barthes and Benjamin deemed it dangerous linguistic nihilism. But gossip-long derided and dismissed by writers and intellectuals-is far from frivolous. In *Idle Talk, Deadly Talk*, Ana Rodríguez Navas reveals gossip to be an urgent, utilitarian, and deeply political practice-a means of staging the narrative tensions, and waging the narrative battles, that mark Caribbean politics and culture. From the calypso singer's superficially innocent rhymes to the vicious slanders published in Trujillo-era gossip columns, words have been weapons, elevating one person or group at the expense of another. Revising the overly gendered existing critical frame, Rodríguez Navas argues that gossip is a fundamentally adversarial practice. Just as whispers and hearsay corrosively define and surveil identities, they also empower writers to skirt sanitized, monolithic historical accounts by weaving alternative versions of their nations' histories from this self-governing discursive material. Reading recent fiction from the Hispanic, Anglophone, and Francophone Caribbean and their diasporas, alongside poetry, song lyrics, journalism, memoirs, and political essays, *Idle Talk, Deadly Talk* maps gossip's place in the Caribbean and reveals its rich possibilities as both literary theme and narrative device. As a means for mediating contested narratives, both public and private, gossip emerges as a vital resource for scholars and writers grappling with the region's troubled history.

John Dee's Five Books of Mystery

In the enchanted world of Braj, the primary pilgrimage center in north India for worshippers of Krishna, each stone, river, and tree is considered sacred. In *Climate Change and the Art of Devotion*, Sugata Ray shows how this place-centered theology emerged in the wake of the Little Ice Age (ca. 1550–1850), an epoch marked by climatic catastrophes across the globe. Using the frame of geoaesthetics, he compares early modern conceptions of the environment and current assumptions about nature and culture. A groundbreaking contribution to the emerging field of eco-art history, the book examines architecture, paintings, photography, and prints created in Braj alongside theological treatises and devotional poetry to foreground seepages between the natural ecosystem and cultural production. The paintings of deified rivers, temples that emulate fragrant groves, and talismanic bleeding rocks that Ray discusses will captivate readers interested in environmental humanities and South Asian art history. The Annals of Newberry, Historical, Biographical and Anecdotal

William Hodges is well known as the artist who accompanied Cook's second voyage to the South Pacific as official landscape painter. This book forms a major reappraisal of his career and reputation, arguing a central place for him in the development of British art. The nine essays included in this catalogue are by some of the foremost scholars in the area. They consider Hodges's work comparatively, in terms of the rise of ethnology, the investigation of Indian history, the encounter with peoples 'without history' and the development of empirical science and rationalism.

The New Hermetics

Wolfgang Laib's breathtaking and quietly beautiful artwork draws on the ritual life he leads in and with nature and its processes of becoming and forgetting. His works are composed of purely natural materials, collected and processed by the artist himself in the 70s, he created his first milk stone, and then moved on to sifting pollen into "color miracles" or piling it into "insurmountable mountains"; in the 80s, he began to incorporate rice into his pieces; and towards the end of the decade he began working in beeswax. This gorgeous retrospective of his work -- with texts by Klaus Ottman and Margit Rowell, and interview between the artist and Harold Szeeman -- offers us a key to fully appreciating his complex and transcendent body of work.
