Le sang des hommes

This fascinating study from the late 19th century analyzes early versions of the Arthurian legends along with Tennyson's Idylls.

Le sang des hommes

Nothing like wordplay can make difference between languages look so uncompromising, can give such a sharp edge to the dilemma between forms and effects, can so blur the line between translation and adaptation, or can cast such harsh light on our illusion of complete semantic stability. In the pun the whole language system may resonate, and so may literary traditions and ideological discourses. It follows that the pun does not only put translators to the test, it also poses a challenge to the views and concepts of those who study translation. This book brings together experts on translation and the pun, as well as researchers representing a variety of other relevant disciplines and schools of thought, ranging from theology to deconstruction and from contrastive linguistics to feminism. It can be read as a companion volume to Wordplay and Translation, a special issue of The Translator (Volume 2, Number 2, 1996), also edited by Dirk Delabastita

LE SANG NOIR DES HOMMES.

The hermeneutic path involved in the interpretation of law as well as in the interpretation of sacred texts, though peculiar, seems - as Emilio Betti pointed out - to share several things, most importantly the "normative" nature of interpretation. The 1999 issue of the Yearbook "Ars Interpretandi" accounts for the several and disparate relationships between these two important "regional hermeneutics".

Le sang noir des hommes

Histoire des grands lignages patrimoniaux de la plaine du Forez, dans le Massif Central, durant les deux siècles qui en constituent l'âge d'or, de la fin du XVIIIe jusqu'à la fin du XXe siècle. L'auteur montre les processus de formation et de transmission, la diversité des structures foncières auxquelles ils donnent lieu, le jeu des alliances entre grandes familles de propriétaires terriens.

De la possibilité de distinguer le sang de l'homme de celui des mammifères

This book is a tribute to Professor de Boer, the well-known Old Testamentarian of Leiden University who held the chair from 1938 till 1978. Not only was he involved in organizational and editorial work (I.S.S.O.T., Peshitta Institute, Vetus Testamentum etc.), but he was also an inspired and inspiring teacher and a subtle exegete of the Hebrew texts in which he was interested. In this volume, originally intended as a message of congratulation for his 80th birthday (June 14, 1990) around twenty of his own lectures and articles are presented here which previously were less accessible, because, for instance, they were written in Dutch. All the collected studies are now published in English apart from two in German and two in French. They cover the whole of his scholarly life, from his inaugural address on "Kingship in Ancient Israel" (1938) to his contribution about Psalm lxxxi 6a, to the Festschrift for

G.W. Ahlström (1984). The volume is concluded with a bibliography comprising all Professor de Boer's publications concerning the Old Testament and related scholarly subjects.

'Quand il ouvrit la porte, tous les yeux se tournèrent vers lui : - Que me voulez-vous ? dit-il. Laurent était assis à califourchon sur une chaise devant le feu. - Il faut que je sache si c'est décidé ou non pour demain matin, dit Laurent. Demain. Il regarda autour de lui. La pièce sentait la lessive et la soupe aux choux. Madeleine fumait, les coudes sur la nappe. Denise avait un livre devant elle. Ils étaient vivants. Pour eux, cette nuit aurait une fin ; il y aurait une aube...'

The Arthurian Epic

An inquiry into the problematic of perjury, or lying, and forgiveness from one of the most influential philosophers of the twentieth century. "One only ever asks forgiveness for what is unforgivable." From this contradiction begins *Perjury and Pardon*, a two-year series of seminars given by Jacques Derrida at the École des hautes études en sciences sociales in Paris in the late 1990s. In these sessions, Derrida focuses on the philosophical, ethical, juridical, and political stakes of the concept of responsibility. His primary goal is to develop what he calls a "problematic of lying" by studying diverse forms of betrayal: infidelity, denial, false testimony, perjury, unkept promises, desecration, sacrilege, and blasphemy. Although forgiveness is a notion inherited from multiple traditions, the process of forgiveness eludes those traditions, disturbing the categories of knowledge, sense, history, and law that attempt to circumscribe it. Derrida insists on the unconditionality of forgiveness and shows how its complex temporality destabilizes all ideas of presence and even of subjecthood. For Derrida, forgiveness cannot be reduced to repentance, punishment, retribution, or salvation, and it is inseparable from, and haunted by, the notion of perjury. Through close readings of Kant, Kierkegaard, Shakespeare, Plato, Jankélévitch, Baudelaire, and Kafka, as well as biblical texts, Derrida explores diverse notions of the "evil" or malignancy of lying while developing a complex account of forgiveness across different traditions.

Traductio

Exploring the depths of human nature in the light of biblical teaching, the author carves a straight path through the tangled undergrowth of Greek Gnosticism that has infiltrated the Church today. Startling in its simplicity, this book takes the reader to the core of the problem, clearly outlining the issues at stake and dealing with them uncompromisingly. Are children to blame for their parents' sin? Why does man sin? Does a Christian have a dual nature? Are we born bad? Does our nature compel us to commit certain actions, whether bad or good? What is the relationship between a twentieth-century Christian and Adam? Does God see Jesus when He looks at the Church? What is the truth regarding unconditional eternal security? Can a Christian be lost? Answering these questions and many others purely from the Bible, the author brings light and hope on this most misunderstood of all subjects - the nature of man.

Proceedings of the Universal Peace Congress

Une histoire scientifique, symbolique et culturelle du sang, des origines à nos jours. Vecteur de vie, signe de mort, le sang raconte l'histoire des hommes. Sang des sacrifices, sang des blessures de chasse ou de guerre, sang des femmes, sang sacré : le sang a, de tous temps, intrigué et fasciné. Vital ou maléfique, il a été la source d'inspiration de très nombreux mythes et symboles. Assimilé au poison, justifiant les saignées jusqu'à la déraison, il fut ensuite remède, engendrant la grande idée de la transfusion. Des premières tentatives au XVII^e jusqu'à la fin du XIX^e siècle, la transfusion connut bien des ratés tragiques. C'est dans les guerres du XX^e siècle que se sont forgés les progrès qui allaient bouleverser la médecine. Au cœur de questions de société cruciales depuis les années 1980 – le virus du sida et les scandales du sang contaminé –, il est aujourd'hui un enjeu économique mondial et une ressource de plus en plus chère. Gérard Tobelem nous invite à un passionnant voyage à la fois scientifique, anecdotique et symbolique, qui n'a pas d'équivalent. Ancien professeur d'hématologie (université Paris-7) et chef de service des maladies du sang (AP-HP) puis directeur au ministère de l'Enseignement supérieur et de la Recherche (1993-1997), Gérard Tobelem a présidé l'Etablissement français du sang (2009-2012) qui collecte, prépare, sécurise et livre aux hôpitaux trois millions de produits sanguins par an. Il préside aujourd'hui Theradiag, une société française dans le diagnostic biologique in vitro. Il est déjà l'auteur de plusieurs essais, documents et romans.

The year is 2069. Plagues have destroyed major food sources, and a virus has infected the vast majority of earth's inhabitants. The virus can be overcome, but only through complete blood transfusion. This is why blood has become the new currency: it is banked, traded, and speculated in. But only by the few who are wealthy enough to have a clean source. The moon is now a penal colony, a sexual pleasure dome, and home to the most important blood bank around. This bank is watched over by one massive computer, and that computer's security systems were devised by one man: Dallas. Playing by the system's rules, Dallas has become wealthy. But then his daughter is struck down by a blood disease requiring repeated transfusions. Now he is the security risk, and the perfect player has become a target.

Interpretation Des Heiligen

In Saints hommes de Chiraz et du F rs. Pouvoir, société et lieux de sacralité (Xe-XVe s.), Denise Aigle studies the spiritual role, but also the political one, played by the Sufi shaykhs. From the tenth century, F rs was a a land of holiness with Shaykh Kab+r in Shiraz and Murshid al-D+n Abk Is% q in K zark. This research is based on hagiographic sources, historical chronicles, literary sources and archival documents. The author shows how the pre-Islamic history of F rs was integrated into spiritual Islam thanks to the mystical speculations of the Sufi shaykhs. The particular interest of this research is its contribution to the history of L rist n, a region that has long remained terra incognita. Thanks to handwritten hagiographic documents preserved in several private libraries, we discover the existence and the role of spiritual masters until now totally unknown.

Selected Studies in Old Testament Exegesis

This collection of essays brings an approach to Beauvoir studies and makes an important contribution to Beauvoir's writing practice in her novels and short stories, and analysis the extent to which the meaning of her texts cannot be separated from the way they are written.

Le Sang des autres

In this volume collaborators from different universities all over the world explore a wide variety of methods for the study of literature as cultural memory. In literature, the past may be (re)constructed in various ways and in very diverse forms. This immediately raises the question as to how one can describe and inventory the various discourses and metadiscourses of historical representation. In what sense can the rhetoric of literary historiography itself contribute to literature's function as cultural memory? Which methods of analysis are most appropriate for describing specific text types or genres as cultural memory? What have been the pragmatic uses and the ethical merits of the stability and

continuity that literature has often provided for European, American, Asian and African cultures? What are the dilemmas they create for our teaching at the end of the twentieth century? To all these questions, a wide range of scholars here tries to find answers. In thorough and highly original contributions, they not only address theoretical problems, but also engage themselves in practical analyses of specific works.

Quant a la Nature de L'Homme

Depuis la préhistoire et la plus haute antiquité, le sang a généré de multiples mythes et fantasmes. L'imaginaire du sang véhicule une double image, celle de la venue au monde et celle de la mort et donc de la vie elle-même et de la métaphysique de l'être. Le sang interroge les anthropologues et tient une place centrale dans les trois religions du Livre. Incroyable aventure médicale, le sang puise ses racines dans l'imaginaire et l'inconscient des hommes.

Histoires du sang

African Journal of Reproductive Health (AJRH) is a multidisciplinary and international Journal published quarterly (March, June, September, and December) by the Women's Health and Action Research Centre (a Non-governmental Organization with headquarters in Nigeria). The publication of the journal started in 1997. The journal focuses on publishing original research, comprehensive review articles, short reports and commentaries on reproductive health in Africa. It strives to provide a forum for both African and foreign authors working in Africa to share findings about all aspects of reproductive health and also to disseminate innovative, relevant, and useful information on reproductive health throughout the continent.

The Second Angel

Toute définition du sang appelle son contraire. Le sang souille et purifie, il est masculin et féminin, faste ou funeste, bienfaisant ou dangereux, et le répandre peut être crime ou acte sacré. Or, devant le sang, l'humanité, en règle générale, a réagi de la même façon. Le sacrifice sanglant fut universel, et s'il disparut très tôt dans le monde judéo-chrétien, il atteignit le sommet de l'horreur chez les Aztèques. Universelles aussi furent les blessures rituelles. De même, la menstruante ou la nouvelle accouchée ont partout éveillé la crainte et ont été frappées d'interdits. Et l'on peut multiplier les rapprochements. Qu'il s'agisse de la chasse, de la vendetta et de l'alliance des sangs, ou encore des vampires, on retrouve les mêmes archétypes, les mêmes rites, les mêmes symboles dans des sociétés que le temps, l'espace et la culture pourtant séparent. Ainsi en est-il également de ces larmes de sang par lesquelles les mystiques de l'Orient comme ceux d'Occident ont exprimé leur amour pour Dieu. Car pour l'auteur, lui même chrétien, nul doute que le sang a un sens mystique. Dans un chapitre superbe, il montre comment l'Eucharistie et la Passion du Christ se placent sous le signe du sang. Les chrétiens du

Moyen Age et des siècles qui suivirent ont vécu avec ardeur cette Passion du Dieu sauveur; ses saints ensanglantés en furent l'expression la plus émouvante. Enfin c'est également dans une perspective christologique que l'auteur situe la mort de Louis XVI: l'historien des religions peut la lire comme le sacrifice d'un chef, purificateur et rédempteur, qui devait engendrer le monde moderne. Ces pages écrites avec ferveur pourront surprendre, voire choquer. Le sang est, par essence, ambivalent. Il a joué et joue encore un rôle fondamental dans toutes les civilisations. Et ce livre, qui met en évidence les croyances et les comportements humains face au sang, ne laissera personne indifférent. Jean-Paul Roux, directeur de recherches au CNRS, professeur à l'Ecole du Louvre, a publié de nombreux travaux d'érudition consacrés à l'histoire religieuse et des livres de synthèse, dont l'Histoire des Turcs, Les Explorateurs au Moyen Age, Babur. Histoire des Grands Moghols.
