Coming up

Intro

Early days of streaming, how Steven entered political commentary

Changes in thinking: shifting to the left

The key differences between left and right worldviews

Intervention, distribution, gigantism, and populism

Redistribution and command economies, can they work?

Negative externalities, balancing free markets with incentivized behavior and their effects on the poor
Climate and economic models: two Towers of Babel
The timeframe of CO2 models changes the outlook, so how far back should we consider?
The green guise of compassion obscures underlying intent
The psychology of those who utter, "There are too many people on the planet"
Destiny's Jenga Tower, an analogy for how people become stuck in their beliefs
Why people fear nuclear energy
Realities of the green energy pipe dream
Is it malevolence or ignorance that drives bad ideas? Motives versus public perception
Both parties wield power when they have it, so how do we mitigate it?
Was WWII Germany right or left wing?
Moses and the desert
Living in separate realities and bridging the divide
MRNA, validity of rollout and excess deaths
It wasn't just the left
Weighing the fear of a crisis against the use of experimental technology
Mass consensus
Psychopathy and levels of malevolence
Do marriage and society exist without force?
Tit-for-tat, force or justice?
Why Steven debates
