Can studying economics make you rich?
trying to understand how societies are put together
Broadly speaking, there are two big goals of economic policy
They also care about making sure that everybody has an adequate slice
We need some mechanism in the market economy to help people who are struggling.
We want to help people at the bottom, but we really can't achieve perfect equality
will lead to greater economic prosperity than the economy with heavy state control
When I teach basic theory of the overall economy, I emphasize aggregate demand and aggregate supply
One of the big questions of economics, is what can the markets do on their own.
and when does the government need to intervene?
The first thing to say is that markets exist only with government
