The Color of Love

The Color Of Love reveals the power of racial hierarchies to infiltrate our most intimate relationships. Delving far deeper than previous sociologists have into the black Brazilian experience, Elizabeth Hordge-Freeman examines the relationship between racialization and the emotional life of a family. Based on interviews and a sixteen-month ethnography of ten working-class Brazilian families, this provocative work sheds light on how families simultaneously resist and reproduce racial hierarchies. Examining race and gender, Hordge-Freeman illustrates the privileges of whiteness by revealing how those with "blacker" features often experience material and emotional hardships. From parental ties, to sibling interactions, to extended family and romantic relationships, the chapters chart new territory by revealing the connection between proximity to whiteness and the distribution of affection within families. Hordge-Freeman also explores how black Brazilian families, particularly mothers, rely on diverse strategies that reproduce, negotiate, and resist racism. She frames efforts to modify racial features as sometimes reflecting internalized racism, and at other times as responding to material and emotional considerations. Contextualizing their strategies within broader narratives of the African diaspora, she examines how Salvador's inhabitants perceive the history of the slave trade itself in a city that is referred to as the "blackest" in Brazil. She argues that racial hierarchies may orchestrate family relationships in ways that reflect and reproduce racial inequality, but black Brazilian families actively negotiate these hierarchies to assert their citizenship and humanity.

The Sorcery of Color

An examination of how racial and gender hierarchies are intertwined in Brazil.

Negras in Brazil

For most of the twentieth century, Brazil was widely regarded as a "racial democracy"-a country untainted by the scourge of racism and prejudice. In recent decades, however, this image has been severely critiqued, with a growing number of studies highlighting persistent and deep-seated patterns of racial discrimination and inequality. Yet, recent work on race and racism has rarely considered gender as part of its analysis. In *Negras in Brazil*, Kia Lilly Caldwell examines the life experiences of Afro-Brazilian women whose stories have until now been largely untold. This pathbreaking study analyzes the links between race and gender and broader processes of social, economic, and political exclusion. Drawing on ethnographic research with social movement organizations and thirty-five life history interviews, Caldwell explores the everyday struggles Afro-Brazilian women face in their efforts to achieve equal rights and full citizenship. She also shows how the black women's movement, which has emerged in recent decades, has sought to challenge racial and gender discrimination in Brazil. While proposing a broader view of citizenship that includes domains such as popular culture and the body, *Negras in Brazil* highlights the continuing relevance of identity politics for members of racially marginalized communities. Providing new insights into black women's social activism and a gendered perspective on Brazilian racial dynamics, this book will be of interest to students and scholars of Latin American Studies, African diaspora studies, women's studies, politics, and cultural anthropology.

Deaf Way II

In July 2002, more than 9,700 Deaf people from around the world met in Washington, D.C., to share their arts, research, and languages at Deaf Way II, a joyous festival of diverse Deaf cultures. *Deaf Way II: An International Celebration* offers 250 full-color photographs with captions and introductory essays to capture again the excitement of this historical event. Those who attended the gathering will relive their rich experiences visually, while those who view it for the first time through this book will feel as though they had lived its splendor in person. The Deaf Way II photographs, taken during the course of the six-day event, create a matchless pictorial record that travels back and forth from the formal grandeur of the opening celebration to fascinating looks behind the scenes at the arts festival and the scholarly conference program. The warm depictions of the youth program and many attendees complement the compelling portrayals of the people and technology that made Deaf Way II accessible to all. Through this magnificent cross-section of photographs, *Deaf Way II* reveals a wonderful international society of Deaf people that will engage all who see it.

The Deaf Way II Reader

This collection showcases the best scholarship on all aspects of Deaf life presented by more than 100 researchers at the 2002 international Deaf forum in Washington, DC.

A Series of Plays

This highly practical book presents an evidence-based individual therapy approach for children and adolescents experiencing anger problems. Comprising 10 child sessions and three parent sessions, the treatment addresses anger management, problem solving, and social skills. Sessions are described in step-by-step detail, complete with helpful case examples and therapist scripts. The authors show how to flexibly implement a range of cognitive and behavioral strategies while maintaining treatment fidelity. Reproducibles include 38 worksheets and handouts, plus therapist checklists and parent forms, all in a convenient large-size format for easy photocopying.

Cognitive-Behavioral Therapy for Anger and Aggression in Children

"The TSW program is an evidence-based intervention that enhances people's cognitive functioning in order to help them get and keep competitive jobs. This book explains how to provide the TSW program, and includes materials for implementing it, such as educational handouts and assessment tools. In addition, the book contains a wealth of information about overcoming common cognitive obstacles to steady employment that may be useful to the broad range of professionals helping individuals return to work"--

Cognitive Remediation for Successful Employment and Psychiatric Recovery

Negative rumination plays a key role in the onset and maintenance of depression and anxiety--and targeting this persistent mental habit in treatment can lead to better client outcomes and reduced residual symptoms. Rumination-focused cognitive-behavioral therapy (RFCBT) for depression com-

bines carefully adapted elements of CBT with imagery, visualization, and compassion-based techniques. Leading clinician-researcher Edward R. Watkins provides everything needed to implement this innovative, empirically supported 12-session approach, including sample dialogues, a chapter-length case example, reflections and learning exercises for therapists, and 10 reproducible client handouts. Purchasers get access to a Web page where they can download and print the reproducible materials in a convenient 8 1/2" x 11" size.

Rumination-Focused Cognitive-Behavioral Therapy for Depression

"Presenting an effective treatment approach specifically tailored to the unique challenges of body dysmorphic disorder (BDD), this book is grounded in state-of-the-art research. The authors are experts on BDD and related conditions. They describe ways to engage patients who believe they have defects or flaws in their appearance, not a psychological problem. Provided are clear-cut strategies for helping patients overcome the self-defeating thoughts, impairments in functioning, and sometimes dangerous ritualistic behaviors that are core features of BDD. Clinician-friendly features include step-by-step instructions for conducting each session and more than 50 reproducible handouts and forms; the large-size format facilitates photocopying. See also the related self-help guide by Dr. Wilhelm, *Feeling Good about the Way You Look*, an ideal recommendation for clients with BDD or less severe body image problems."--

Hallelujah Trombone!

Dear Black Girls is a letter to all Black girls. Every day poet and educator Shanice Nicole is reminded of how special Black girls are and of how lucky she is to be one. Illustrations by Kezna Dalz support the book's message that no two Black girls are the same but they are all special--that to be a Black girl is a true gift. In this celebratory poem, Kezna and Shanice remind young readers that despite differences, they all deserve to be loved just the way they are.

Cognitive-Behavioral Therapy for Body Dysmorphic Disorder

I took a three-year break from work to explore the topic of peace, love, and success. I spent the time analyzing my thoughts and the effects my thoughts had on my emotional state of mind. The things I found out were quite intriguing. I came to the realization that many of us are not living to our full potential. We live with a measured joy. We keep our happiness in check. Our smiles are met with a restriction from our breath, which makes it short-lived. We seldom breathe fully because our breath is interrupted by the depth of our thoughts. We never really let go fully. We are bound by layers of chains that have entangled our thinkingchains from an uncertain future, chains of work, chains of relationships, chains of our finances, too many chains to mention. My time away from work gave me the opportunity to explore how to break the chains. I admit that even a broken chain is not permanently broken but can be easily reunited if old habits are not changed. My book focuses on the actions we can take to break chains and keep them broken. My book explores how our thoughts control our destiny. It teaches thought control and the importance of silence. It teaches how to overcome fear, anger, negative thoughts, stress, and hatred. You will learn how to nurture your emotions, embrace moments, and the importance of spiritual peace. I will teach you how to live in thankfulness, with compassion, while activating love.

Dear Black Girls

Over the past decade, a significant body of work on the topic of deaf identities has emerged. In this volume, Leigh and O'Brien bring together scholars from a wide range of disciplines -- anthropology, counseling, education, literary criticism, practical religion, philosophy, psychology, sociology, and deaf studies -- to examine deaf identity paradigms. In this book, contributing authors describe their perspectives on what deaf identities represent, how these identities develop, and the ways in which societal influences shape these identities. Intersectionality, examination of medical, educational, and family systems, linguistic deprivation, the role of oppressive influences, the deaf body, and positive deaf identity development, are among the topics examined in the quest to better understand deaf identities. In reflection, contributors have intertwined both scholarly and personal perspectives to animate these academic debates. The result is a book that reinforces the multiple ways in which deaf identities manifest, empowering those whose identity formation is influenced by being deaf or hard of hearing.

Unchained Mind

This treatment manual provides mental health professionals with instructions for conducting written exposure therapy, a brief and accessible trauma intervention that is effective at reducing PTSD symptoms.

Deaf Identities

Offering vital tools for working with 4- to 18-year-olds in a wide range of settings, this book presents engaging cognitive-behavioral therapy (CBT) activities that can be implemented rapidly and flexibly. Concise chapters guide the provider to quickly identify meaningful points of intervention for frequently encountered clinical concerns, and to teach and model effective strategies. Each intervention includes a summary of the target age, module, purpose, rationale, materials needed, and expected time for completion, as well as clear instructions and sample dialogues and scripts. In a convenient large-size format, the book features helpful graphics and 77 reproducible handouts and worksheets in the form of Handy and Quick (HQ) Cards. Purchasers get access to a Web page where they can download and print the reproducible materials.

Written Exposure Therapy for PTSD

An ideal text for all students of marital dynamics.

CBT Express

Treatment of suicidal people takes three forms: prevention - strategies to avert conditions leading to suicide; intervention - treatment and care during the crisis; and postvention - response after the event has occurred. Unlike other current literature, here the focus is on the state of the art of intervention. This type of examination is essential, because suicidal people themselves are in need of such treatments - crisis intervention, psychotherapy, psychopharmacology and hospitalization. Written by professionals in the field, the Treatment of Suicidal People allows readers to participate in a learning experience. First is a case presentation of an individual - Arthur Inman - and his long road toward suicide, as chronicled in his personal diary. The second section puts forth guidelines for the evaluation of suicide risk and crisis intervention. A focus on more sustained efforts in psychotherapy is next, a theme which is continued in the fourth part by addressing psychiatric issues that are essential for treatment of highly disturbed and lethal patients. The following section examines a number of clinical and legal issues that transcend any one population of suicidal people, and any particular treatment approach or context. And lastly, the volume returns to Arthur Inman, with case consultations providing alternative perspectives and recommendations on his treatment. Suicide and related forms of self-injurious behaviour can be circumvented, if the involved professionals are sufficiently trained in assessment and prevention.

Acceptance and Change in Couple Therapy

Emotional Disorders in Children and Adolescents states that individual psychotherapy is a nonspecific label. It is done when two people interact in a prolonged series of emotionally charged encounters, with the purpose of changing the behavior of the dyad. The motives and dynamics of individual psychotherapy are explained in detail as well as the history of the approach. The book discussed the concept of child psychoanalysis. This section includes its historical background, the similarities and differences between child and adult psychoanalysis, the age of the child that should be treated and frequency of treatment. The text also covers some techniques in the application of psychoanalysis. A broad section of the volume is focused on the modification of the child's behavior as a type of treatment. This chapter is followed by a section on the behavioral approaches in adolescent psychiatry. The book will provide useful information to psychologist, psychiatrist, behavioral specialist, students and researchers in the field of psychology.

Treatment Of Suicidal People

A contemporary and vibrant Deaf culture is found within Deaf communities, including Deaf Persons of Color and those who are DeafDisabled and DeafBlind. Taking a more people-centered view, the second edition of Deaf Culture: Exploring Deaf Communities in the United States critically examines how Deaf culture fits into education, psychology, cultural studies, technology, and the arts. With the acknowledgment of signed languages all over the world as bona fide languages, the perception of Deaf people has evolved into the recognition and acceptance of a vibrant Deaf culture centered around the use of signed languages and the communities of Deaf peoples. Written by Deaf and hearing authors

with extensive teaching experience and immersion in Deaf cultures and signed languages, Deaf Culture fills a niche as an introductory textbook that is more inclusive, accessible, and straightforward for those beginning their studies of the Deaf-World. New to the Second Edition: *A new co-author, Topher González Ávila, MA *Two new chapters! Chapter 7 “Deaf Communities Within the Deaf Community” highlights the complex variations within this community Chapter 10 “Deaf People and the Legal System: Education, Employment, and Criminal Justice” underscores linguistic and access rights *The remaining chapters have been significantly updated to reflect current trends and new information, such as: Advances in technology created by Deaf people that influence and enhance their lives within various national and international societies Greater emphasis on different perspectives within Deaf culture Information about legal issues and recent political action by Deaf people New information on how Deaf people are making breakthroughs in the entertainment industry Addition of new vignettes, examples, pictures, and perspectives to enhance content interest for readers and facilitate instructor teaching Introduction of theories explained in a practical and reader-friendly manner to ensure understanding An updated introduction to potential opportunities for professional and informal involvement in ASL/Deaf culture with children, youth, and adults Key Features: *Strong focus on including different communities within Deaf cultures *Thought-provoking questions, illustrative vignettes, and examples *Theories introduced and explained in a practical and reader-friendly manner

This work has been selected by scholars as being culturally important and is part of the knowledge base of civilization as we know it. This work is in the public domain in the United States of America, and possibly other nations. Within the United States, you may freely copy and distribute this work, as no entity (individual or corporate) has a copyright on the body of the work. Scholars believe, and we concur, that this work is important enough to be preserved, reproduced, and made generally available to the public. To ensure a quality reading experience, this work has been proofread and republished using a format that seamlessly blends the original graphical elements with text in an easy-to-read typeface. We appreciate your support of the preservation process, and thank you for being an important part of keeping this knowledge alive and relevant.

Emotional Disorders in Children and Adolescents

A practical and conceptual guide to treating depression using both Beckian CBT and the latest, cutting-edge third wave CBT approaches, including mindfulness and metacognitive therapy. It provides an understanding of depression and its treatment and a clear practical guidance on how to use each treatment approach. Covers CBT, metacognitive therapy, and third-wave behavioural approaches within one volume Presents the theoretical background and evidence for each approach, and describes application in a clear case study approach which clearly outlines the contrasting features of the treatments Includes separate chapter commentaries on the theory and clinical material covered Internationally renowned contributors include Arthur Nezu, David A. Clark, Robert Zettle, Keith Dobson, Ruth Baer, Adrian Wells and Robert Leahy

Deaf Culture

The parents of a child born without hearing describe their efforts to reach across the barrier of silence to teach their daughter to speak and enjoy a normal life.

Wing and Trap Shooting

This issue of Children concerns healthcare delivery and research in neonatology. Several articles concern the work of the California Perinatal Quality Care Collaborative, including a history by founder Dr. Jeffrey Gould, and recent quality improvement work. Other articles concern methodological issues in neonatal research and findings of recent clinical studies.
