Last of the Saddle Tramps

Historically the world of equestrian travel has contained an exciting mixture of unique men and women. Some are adventurers seeking danger from the back of their horses. Others are travelers discovering the beauties of the countryside they slowly ride through. A few are searching for inner truths while cantering across desolate parts of the planet. Then there is Messanie Wilkins. She was acting on orders from the Lord! In 1954, at the age of 63, Wilkins had plenty to worry about. A destitute spinster in ill health, Wilkins had been told she had less than two years left to live, provided she spent them quietly. With no family ties, no money, and no future in her native Maine, Wilkins decided to take a daring step. Using the money she had made from selling homemade pickles, Wilkins bought a tired summer camp horse and made preparations to ride from the Atlantic coast to the Pacific Ocean. Yet before leaving she flipped a coin, asking God to direct her to go or not. When the coin came up heads several times in a row, one of America s most unlikely equestrian heroines set off. What followed was one of the

twentieth century's most remarkable equestrian journeys. Accompanied by her faithful horse, Tarzan, Wilkins suffered through a host of obstacles including blistering deserts and freezing snow storms, yet never lost faith that she would complete her 7,000 mile odyssey. Last of the Saddle Tramps is thus the warm and humorous story of a humble American heroine bound for adventure and the Pacific Ocean. The classic tale is amply illustrated with photographs.

Last of the Saddle Tramps

"Told by her doctor she had from two to four years to live, she set out on horseback from her farm in Minot, Maine, and traveled nearly 7,000 miles enroute to California." Dust jacket.

Saddle Tramps

Meet Pepper Kane ... a sassy ex-reporter, cowgirl, mother of wayward adult kids and daughter of aged parents, who's putting her brand on a new career in the romantic, mystery-filled modern American West. She has an eye for clues others overlook, and a talent for riding down the deadliest criminals - and lovers. SADDLE TRAMPS Trading her reporter's ID badge for the vocations of selling horse tack and showing horses, Pepper enjoys her new life and friends in Oregon's Rogue River Valley. While line-dancing with her Brassbottom Barn buddies one night, she learns a prize show horse has been killed. A suspect herself, she must find the killer before the killer closes in on her. Upping the urgency is that she, her horse and her barn buddies travel from Oregon to California for a do-or-die event to qualify for the World Open Western Show in Texas. Pepper also seeks an answer to her heart's question about her elusive lover, Lakota-tribal policeman Sonny Chief. Refusing to be intimidated, Pepper uncovers fellow competitors' secrets --one compelling enough to kill for - while finding an answer for her heart.

Of Mice and Men

Tells a story about the strange relationship of two migrant workers who are able to realize their dreams of an easy life until one of them succumbs to his weakness for soft, helpless creatures and strangles a farmer's wife.

The Ride of Her Life

NATIONAL BESTSELLER • The triumphant true story of a woman who rode her horse across America in the 1950s, fulfilling her dying wish to see the Pacific Ocean, from the #1 New York Times bestselling author of *The Perfect Horse* and *The Eighty-Dollar Champion* “The gift Elizabeth Letts has is that she makes you feel you are the one taking this trip. This is a book we can enjoy always but especially need now.”—Elizabeth Berg, author of *The Story of Arthur Truluv* In 1954, sixty-three-year-old Maine farmer Annie Wilkins embarked on an impossible journey. She had no money and no family, she had just lost her farm, and her doctor had given her only two years to live. But Annie wanted to see the Pacific Ocean before she died. She ignored her doctor's advice to move into the county charity home. Instead, she bought a cast-off brown gelding named Tarzan, donned men's dungarees, and headed south in mid-November, hoping to beat the snow. Annie had little idea what to expect beyond her rural crossroads; she didn't even have a map. But she did have her ex-racehorse, her faithful mutt, and her own unfailing belief that Americans would treat a stranger with kindness. Annie, Tarzan, and her dog, Depeche Toi, rode straight into a world transformed by the rapid construction of modern highways. Between 1954 and 1956, the three travelers pushed through blizzards, forded rivers, climbed mountains, and clung to the narrow shoulder as cars whipped by them at terrifying speeds. Annie rode more than four thousand miles, through America's big cities and small towns. Along the way, she met ordinary people and celebrities—from Andrew Wyeth (who sketched Tarzan) to Art Linkletter and Groucho Marx. She received many offers—a permanent home at a riding stable in New Jersey, a job at a gas station in rural Kentucky, even a marriage proposal from a Wyoming rancher. In a decade when car ownership nearly tripled, when television's influence was expanding fast, when homeowners began locking their doors, Annie and her four-footed companions inspired an outpouring of neighborliness in a rapidly changing world.

This Crooked Way

Travelling alone in the depths of winter, Morlock Ambrosius (bitterly dry drunk, master of all magical makers, wandering swordsman, and son of Merlin Ambrosius and Nimue Viviana) is attacked by an unknown enemy. To unmask his enemy and end the attacks he must travel a long crooked way through

the world: past the soul-eating Boneless One, past a subtle and treacherous master of golems, past the dragon-taming Khroi, past the predatory cities of Sarkunden and Afraun, past the demons and dark gnomes of the northern woods. Soon he will find that his enemy wears a familiar face, and that the duel he has stumbled into will threaten more lives than his own, leaving nations shattered in its chaotic wake. And at the end of his long road waits the death of a legend.

Saddle Tramps

When you work with a man, ride with him, eat the same food and even love the same woman, you are loyal to him. That was the way Corey Keogh had always believed it should be. But when his gun-happy partner, Andy Givens, turned killer and set his sights on robbing banks and then tried to force his unwanted attentions on Corey's one love, Marly Pierce, the day of reckoning was at hand. With Andy's gold-lust out of control and his desire for Marly unabated, the time comes when friend must turn against friend, even if only guns can sever the bond between them.

The Eighty Dollar Champion

Harry de Leyer first saw the horse he would name Snowman on a truck bound for the slaughterhouse. The recent Dutch immigrant recognized the spark in the eye of the beaten-up nag and bought him for eighty dollars. On Harry's modest farm on Long Island, he ultimately taught Snowman how to fly. Here is the dramatic and inspiring rise to stardom of an unlikely duo. One show at a time, against extraordinary odds and some of the most expensive thoroughbreds alive, the pair climbed to the very top of the sport of show jumping. Their story captured the heart of Cold War-era America—a story of unstoppable hope, inconceivable dreams, and the chance to have it all. They were the longest of all longshots—and their win was the stuff of legend.

Saddle Tramps

This groundbreaking novel is considered by many to be one of the most important early entries in the western genre. Recounting in rich detail the daily life of a foreman on a vast ranch in Wyoming, this gripping tale has sparked imaginations for more than a century, inspiring at least six film and television versions.

The Virginian

Classic Tramping in New Zealand is a beautifully photographed, award-winning tribute to fourteen of New Zealand's finest tramping trips. This revised and updated edition now includes superb Bird's Eye maps that show each route in three dimensions and two new tramps: the Frew Saddle-Toaroha Saddle and the Northwest Ruahine Range.

Classic Tramping in New Zealand

AND THE LAST SHALL BE FAST Lawrence Shaw once got a boost out of being the quickest gun alive. Now he's partial to telling gunfighter stories rather than living them. But that doesn't stop every ornery shootist with an itchy trigger finger from trying to pull iron on Fast Larry Shaw...or a group of gamblers from wagering five grand on who will kill him...or a gang of cutthroat saddle tramps from slaying his wife while in search of him. Racked with guilt for not saving his beloved, Shaw vows to shorten the life expectancy of her murderers—and any other hardcase who even thinks of sending hot lead his way.

Gunman's Song

Our epoch is an epoch of decadence. Bourgeois-Christian-plebeian civilization arrived at the dead end of its evolution a long time ago. Democracy has arrived! But under the false splendor of democratic civilization, higher spiritual values have fallen, shattered. Willful strength, barbarous individuality, free art, heroism, genius, poetry have been scorned, mocked, slandered. And not in the name of "I\

The Revolt of the Unique

This carefully crafted work brings you 70 color pictures, 40+ original drawings, and a story that burns with intensity, radiates personal crises, and reminds us how life can be lived. It is about horses, and not about horses at all. It's about the human journey we're all traveling.

Riding Into the Wind

The second edition of this book serves as a central source of theoretical and practical knowledge to optimize the evaluation and treatment of patients with lymphedema. The book covers all aspects of the disease from anatomical and histological features to diagnosis as well as physical/medical and surgical management of the disease. Updated from the first edition to reflect the substantial progress in diagnostics, medical care and surgical intervention for this patient population, this volume has been reorganized to meet today's practice requirements. It addresses the challenges faced by clinicians in the management of chronic lymphedema enabling them to meet the medical needs of this large patient community. Edited by world leaders in Vascular Medicine and Surgery, this comprehensive volume provides clear, concise background and recommendations in an easy-to-use format. It is a valuable reference tool for clinical practitioners (physicians/nurse practitioners/technicians) who wish to deliver state-of-the-art health care to their patients with lymphatic and venous disorders.

Boots and Saddles is in reality a bright and sunny sketch of the life of Mrs. Custer's late husband, General George A. Custer, who fell at the battle of Little Big Horn. After the war, General Custer was sent to the Indian frontier. His wife was of the party and she is able to give in minute detail the story of her husband's varied career since she was almost always near the scene of his adventures. She touches on themes little canvassed by the civilian, and makes a volume equally redolent of a loving devotion to an honored husband and attractive as a picture of necessary duty by the soldier. Love Goes to Buildings on Fire by Will Hermes - Five Years in New York that Changed Music Forever 'A must-read for any music fan' (Boston Globe) Crime was everywhere, the government was broke and the city's infrastructure was collapsing, but between 1974 and 1978 virtually all forms of music were being recreated in New York City: disco and salsa, the loft jazz scene and the Minimalist classical composers, hip hop and punk. Bruce Springsteen and Patti Smith arrived from New Jersey; Grandmaster Flash transformed the turntable into a musical instrument; Steve Reich and Philip Glass shared an apartment as they experimented with composition; the New York Dolls and Talking Heads blew away the grungy clubs; Weather Report and Herbie Hancock created jazz-rock; and Bob Dylan returned with *Blood on the Tracks*. Recommended by Nick Hornby, this fascinating and hugely inspiring book will be loved by readers of *Just Kids* by Patti Smith, *Chronicles* by Bob Dylan, *How Music Works* by David Byrne and *The Rest is Noise* by Alex Ross. 'Can literature change your life? Yes ... along came Will Hermes, who cost me several hundred pounds on iTunes and ruptured my relationship with guitars' Nick Hornby, *Believer* magazine Will Hermes was born in Queens, in the city of which he writes. He is a senior critic for *Rolling Stone*, and also writes for the *New York Times* and the *Village Voice*. He was co-editor of *SPIN: 20 Years of Alternative Music*.

Love Goes to Buildings on Fire

Chiles good, so is barbecue, but nothings finer than FANDANGO STEW! No money? No problem! In this sunny, funny western-style take on the famous folktale "Stone Soup," two penniless but wily vaqueros (cowboys) trick a whole town into cooking a giant pot of stew for everyone to share. David Daviss deliciously colorful language and Ben Galbraiths delightful illustrations make this picture book a tasty confection.

The Unforgiven

"When a rival ranch tries to drive the Creel family out of business, Bo and Scratch find themselves in a bloody battle for survival"--

Bleeding Texas

In the world of Western films, Randolph Scott, Joel McCrea, and Audie Murphy have frequently been overlooked in favor of names like Roy Rogers and John Wayne. Yet these three actors played a crucial role in the changing environment of the post-World War II Western, and, in the process, made many excellent middle-budget films that are still a pleasure to watch. This account of these three Western stars' careers begins in 1946, when Scott and McCrea committed themselves to the Western roles they would play for nearly twenty years. Murphy, who also joined them in 1946, would continue his Western career for a few years after his cohorts rode into the film sunset. Arranged chronologically, and balanced among the three actors, the text concludes with Audie Murphy's last Western in 1967. Covering both the personal and professional lives of these three Hollywood cowboys, the book provides both their stories and the story of a Hollywood whose attitude toward the Western was in a time of transition and transformation. The text is complemented by 60 photographs and a filmography for each of the three.

Tramps and Ladies

He's her boss. He'll do what he wants with her Ziara Divan came from nothing and worked hard to earn her position at Atlanta's most prestigious bridal fashion house. So when her new boss Sloan Creighton tries to seduce her in a power play, she's not having it. She won't climb the corporate ladder right into the boss's bed...even if he's irresistible. Sloan will have his way-in business and in pleasure. He'll regain control of his father's company, and he'll have this woman-not necessarily in that order. But just as his plans fall into place, Ziara's past threatens to tear them apart at the seams....

His by Design

This is the book that made its author Henry George suddenly famous. From the year 1879 to the present the doctrines of 'Progress and Poverty' have been familiar to all who are interested in social problems. The book has been read by many to whom Political Economy is still 'the dismal science', and it has been circulated in cheap editions by the thousand among the classes to which it holds out such an alluring prospect. 'Progress and Poverty' has become a classic in labor literature. Its doctrines have been accepted not only by many who see in them a means of personal rescue from distress and want, but by many others who are convinced by the reasoning of the author. Clergymen, in the Catholic as well as in the Protestant church, have become Mr. George's disciples, and business and professional men have gladly sat at his feet.

A Tramp Abroad

From the two-time Booker Prize-winning author: an irrepressible, audacious, trenchantly funny new novel set in the 19th century and inspired in part by the life of Alexis de Tocqueville. With dazzling exuberance and all the richness of characterization, story, and language that we have come to expect from this superlative writer, Peter Carey explores the birth of democracy, the limits of friendship and whether people really can remake themselves in a New World. The two men at the heart of the novel couldn't be any more different: Olivier is the son of French aristocrats who (barely) survived the French Revolution. Parrot is the motherless son of an itinerate English printer. But when young Parrot is

separated from his father (after a stupendous conflagration at a house of forgery) he runs into the powerful embrace of a one-armed marquis who will be his conduit - like it or not - into a life as closely (mis)allied with Olivier's as if they were connected by blood. And when Olivier sets sail for America - ostensibly to make a study of the American penal system, but more precisely to save his neck from the latest guillotineurs - Parrot, unable to loosen the Marquis's grip, is there too: as spy, scribe, comptroller, protector, foe and foil. As the narrative unfurls, shifting between the perspectives of Olivier and Parrot, between their picaresque adventures apart and together, in love and politics, prisons and finance, homelands and brave new lands - a most unlikely friendship begins to take hold.

Progress and Poverty

Parrot and Olivier in America

"An Ocean Tramp" is a sea story by the American writer William McFee. The novel offers a reader a captivating plot full of 19th-century naval romantics, adventure, unexpected turns, and dangers, which keep the attention of the reader from the very first pages. A perfect story for everyone in love with novels of the era of the great geographic discoveries.

Comfort Found in Good Old Books

Adam Bede, the first novel written by George Eliot (the pen name of Mary Ann Evans), was published in 1859. It was published pseudonymously, even though Evans was a well-published and highly respected scholar of her time. The novel has remained in print ever since and is regularly used in university studies of 19th-century English literature

An Ocean Tramp

In this funny, nightmarish masterpiece of imaginative excess, grotesque characters engage in acts of violent one-upmanship, boundless riches mangle a corner of Africa into a Bacchanalian utopia, and technology, flesh and violence fuse with and undo each other. A fragmentary, freewheeling novel, it sees wild boys engage in vigorous, ritualistic sex and drug taking, as well as pranksterish guerrilla warfare and open combat with a confused and outmatched army. *The Wild Boys* shows why Burroughs is a writer unlike any other, able to make captivating the explicit and horrific.

Adam Bede Illustrated

Since *My Life* was first published it has been regarded as a unique political, literary and human document. Written in the first year of Trotsky's exile in Turkey, it contains the earliest authoritative account of the rise of Stalinism and the expulsion of the Left Opposition, who heroically fought for the ideas and traditions of Lenin. Trotsky's exile is the culmination of a narrative which moves from his childhood, his education in the "universities" of Tsarist prisons, Siberia and then foreign exile - to his involvement in the European revolutionary movement and his central role in the tempestuous 1905 revolution and the Bolshevik victory in October 1917 and the civil war which followed. The work concludes with his deportation and exile. With an introduction by Alan Woods and a preface by Trotsky's grandson, Vsievolod Volkov.

The Wild Boys

Lang's fairy books were childhood favorites of Tolkien.

My Life

More than 1,000 photos, along with stories and interviews follow the "tiny house" movement which is currently going on among people who have chosen to scale back in the 21st century. Original.

The Green Fairy Book

When her roommate, Lil, mysteriously vanishes, waitress and TV junkie Parker Grey, inspired by the star of the television series *La Femme Nikita*, takes to the streets of Manhattan to search for Lil, changing her own life forever in the process. Original.

Tiny Homes

They knew that cycling around the world was never going to be an easy challenge, but there was no harm in trying to make it just a little less complicated. A shame that neither of them thought to do so. Join Daren and Tatjana on an eight thousand mile bicycle ride from a sodden English summer to the wind swept shores of New Zealand. Journey through the turbulent political setting of West Africa where they team up with an unlikely duo to cross the vast empty expanse of Western Sahara and into the Sahel where banditry, be-headings and military coups plague the landscape. Then into South America where favela kids rule and the long road south brought them closer each day to abandoning the trip, selling their bikes and heading to the nearest bar. Surely then, they could argue in peace.

The Parker Grey Show

George Orwell was one of the most significant literary figures on the left in the twentieth century. While titles such as 1984, Animal Farm and Homage to Catalonia are still rightly regarded as modern classics, his own politics are less well understood. *Hope Lies in the Proles* offers a sympathetic yet critical account of Orwell's political thinking and its continued significance today. John Newsinger explores various aspects of Orwell's politics, detailing Orwell's attempts to change working-class consciousness, considering whether his attitude towards the working class was romantic, realistic or patronising - or all three at different times. He also asks whether Orwell's anti-fascism was eclipsed by his criticism of the Soviet Union, and explores his ambivalent relationship with the Labour Party. Newsinger also breaks important new ground regarding Orwell's shifting views on the USA, and his relationship with the New Left and feminism. Focusing on the enduring interest in Orwell and his influence on current political causes, the book is ultimately a unique, nuanced attempt to demonstrate that Orwell remained a committed socialist up until his death.

The Boy Scouts in the Saddle

"There is star quality in this writer!" raves the *Romantic Times* about gifted author Gaelen Foley. Her love stories are filled with glorious settings, stunning characters, and unforgettable passion. Destiny casts its hand one perfect moonlit night when Ascencion's most elusive highwayman, the Masked Rider, chooses the wrong coach to rob. For inside is Rafael, the prince of the kingdom, renowned for his hot-blooded pursuits of women and other decadent pleasures. The failed raid leaves the equally notorious Masked Rider wounded and facing a hangman's noose. Then Rafe realizes his captive criminal is Lady Daniela Chiamonte, a defiant beauty who torments him, awakening his senses and his heart as no woman has before. Dani can only wonder if she's been delivered to heaven or hell once she agrees to marry the most desirable man in the Mediterranean--until forces of treachery threaten to destroy their tenuous alliance and bring down the throne itself. . . .

Hope Lies in the Proles

A follow-up to Alex Caine's bestselling *Befriend and Betray* and the third in his trilogy about big biker gangs, *Angel Dust* focuses on the Hells Angels. The Angels have built an empire, starting from their days as saddle tramps riding Harleys to becoming multi-millionaires driving high-end SUVs. The organization has moved deeper and deeper into legitimate business, particularly in the entertainment industry, real estate, currency exchange, and online gambling and pornography. Though much has been previously written about the Hells Angels, no author to date has had Caine's combination of experience as an undercover agent and his extensive contacts within gangs and law enforcement. Caine delves into this meteoric ascent and the consequences it has had for the Angels as they transform themselves from outlaw bikers into a new mafia. Using his contacts in domestic and international police forces and Interpol, Caine exposes the inner workings of the club, shows what it's become, and what is on the gang's horizon.
