

Chapter 16 Reaction Rates

[#reaction rates](#) [#chemical kinetics](#) [#factors affecting reaction rates](#) [#rate law](#) [#activation energy](#)

This chapter delves into the fundamental principles of reaction rates, exploring the science of chemical kinetics. Discover the various factors affecting reaction rates, including concentration, temperature, surface area, and catalysts. We also introduce key concepts like rate law and activation energy, providing a comprehensive understanding of how and why chemical reactions proceed at certain speeds.
