Gold fever can be fatal. When a small band of settlers seems to vanish without a trace from their camp
in the Black Hills, the army asks Skye Fargo to find out what happened. Unfortunately, he's also saddled
with a young greenhorn officer with too much starch and not enough experience. But the tenderfoot is
about to learn from the best—while Trailsman is about to go up against something much worse....

Massacre at Mountain Meadows

On September 11, 1857, a band of Mormon militia, under a flag of truce, lured unarmed members of a party of emigrants from their fortified encampment and, with their Paiute allies, killed them. More than 120 men, women, and children perished in the slaughter. *Massacre at Mountain Meadows* offers the most thoroughly researched account of the massacre ever written. Drawn from documents previously not available to scholars and a careful re-reading of traditional sources, this gripping narrative offers fascinating new insight into why Mormons settlers in isolated southern Utah deceived the emigrant party with a promise of safety and then killed the adults and all but seventeen of the youngest children. The book sheds light on factors contributing to the tragic event, including the war hysteria that overcame the Mormons after President James Buchanan dispatched federal troops to Utah Territory to put down a supposed rebellion, the suspicion and conflicts that polarized the perpetrators and victims, and the reminders of attacks on Mormons in earlier settlements in Missouri and Illinois. It also analyzes the influence of Brigham Young's rhetoric and military strategy during the infamous "Utah War" and the role of local Mormon militia leaders in enticing Paiute Indians to join in the attack. Throughout the book, the authors paint finely drawn portraits of the key players in the drama, their backgrounds, personalities, and roles in the unfolding story of misunderstanding, misinformation, indecision, and personal vendettas. The Mountain Meadows Massacre stands as one of the darkest events in Mormon history. Neither a whitewash nor an exposé, *Massacre at Mountain Meadows* provides the clearest and most accurate account of a key event in American religious history.

The Mountain Meadows Massacre

In the Fall of 1857, some 120 California-bound emigrants were killed in lonely Mountain Meadows in southern Utah; only eighteen young children were spared. The men on the ground after the bloody deed took an oath that they would never mention the event again, either in public or in private. The leaders of the Mormon church also counseled silence. The first report, soon after the massacre, described it as an Indian onslaught at which a few white men were present, only one of whom, John D. Lee, was actually named. With admirable scholarship, Mrs. Brooks has traced the background of conflict, analyzed the emotional climate at the time, pointed up the social and military organization in Utah, and revealed the forces which culminated in the great tragedy at Mountain Meadows. The result is a near-classic treatment which neither smears nor clears the participants as individuals. It portrays an atmosphere of war hysteria, whipped up by recitals of past persecutions and the vision of an approaching "army" coming to drive the Mormons from their homes.

Great Plains Forts

Great Plains Forts introduces readers to the fortifications that have impacted the lives of Indigenous peoples, fur trappers and traders, travelers, and military personnel on the Great Plains and prairies from precontact times to the present. Using stories to introduce patterns in fortification construction and use, Jay H. Buckley and Jeffery D. Nokes explore the eras of fort-building on the Great Plains from Canada to Texas. Stories about fortifications and fortified cities built by Indigenous peoples reveal the lesser-known history of precontact violence on the plains. *Great Plains Forts* includes stories of Spanish presidios and French and British outposts in their respective borderlands. Forts played a crucial role in the international fur trade and served as emporiums along the overland trails and along riverway corridors as Euro-Americans traveled into the American West. Soldiers and families resided in these military outposts, and this military presence in turn affected Indigenous Plains peoples. The appendix includes a reference guide organized by state and province, enabling readers to search easily for specific forts.

Mountain Meadow Massacre 9/11/1857

"The Rio Grande Valley of the New Mexico Territory and the High Plains of Texas for decades were the domain of Comancheros and marauding bands of renegade Indians. Frank Rule, his wife, Ellen, and

their family live in the lawless land near the Rio Grande. Frank is not the average cowboy. Short, bald, and bespectacled, he could easily be mistaken for a clerk in some unsuccessful dry-goods store in a dried-up, godforsaken town. Ellen, the victim of abduction and rape, delivered a half-Indian son. Their daughter, Shirl, was kidnapped by Comancheros and stashed in a remote outlaw encampment in the Texas Panhandle. Their oldest son was also abducted by Indians. Frank rescues Shirl, but his oldest son's fate remains unknown. Frank and Ellen make the fateful decision to leave their isolated ranch and begin a new life near the town of Longsought, Texas. Ordinarily a peaceful man, Frank becomes vengeful after another tragic episode of losses. Tormented at night by the supernatural reappearance of his wife and hectored during the day by the voice of the devil, at times Frank borders on insanity and capable of extreme violence. Yet, even with his own troubles, he has an innate ability to help those who have been wronged. His paladin-like adventures take him across the enormous expanse of the Llano Estacado and into dangerous and unparalleled situations, where he needs all his wits and harsh experiences to survive and see justice done"--

Ethnohistory of the High Plains

*Includes pictures *Includes accounts of the massacre by survivors and soldiers *Summarizes the official investigations and their findings *Includes a bibliography for further reading *Includes a table of contents Sand Creek is a relatively small stream of water tributary to the Arkansas River in a dry, sparsely-populated cattle ranchland area of southeastern Colorado near the Kansas border, but at this otherwise unremarkable location on the Great Plains, one of the worst massacres ever perpetrated against Native Americans in 250 years of ongoing conflict took place. On the morning of November 29, 1864, Colonel John Chivington led 700 militiamen in a surprise attack against Cheyenne leader Black Kettle's camp at Sand Creek. Chivington was a fire and brimstone Methodist minister who had publicly advocated indiscriminately killing Native American children because "nits makes lice." Warning his men ahead of battle, Chivington stated, "Damn any man who sympathizes with Indians! I have come to kill Indians and believe it is right and honorable to use any means under God's heaven to kill Indians!" According to Cheyenne oral tradition and several surviving soldiers' accounts, as soon as Black Kettle saw Chivington's men coming, he raised an American flag on a pole and waved it back and forth calling out that his Wutapai band was not resisting. Ignoring his cries for mercy, the soldiers commenced firing, cutting down an estimated 70-200 Cheyenne, about two-thirds of whom were women and children.

The Cheyenne claimed that soldiers shot babies in the head at point-blank range, raped Cheyenne women, and scalped dead warriors. The following morning, Army Lieutenant James Connor, who had refused to follow Chivington's orders, visited the scene of the massacre and reported, "In going over the battleground the next day I did not see a body of man, woman, or child but was scalped, and in many instances their bodies were mutilated in the most horrible manner - men, women, and children's privates cut out . . . I heard one man say he cut out a woman's private parts and had them for exhibition on a stick . . . I also heard of numerous instances in which men had cut out the private parts of females and stretched them over saddle-bows and wore them over their hats while riding in the ranks." Black Kettle managed to escape the slaughter, only to be killed during George Custer's unprovoked attack at Washita River in 1868, but Cheyenne leader White Antelope was killed and his body was mutilated. According to historian Stan Hoig in *The Sand Creek Massacre*, "The body of White Antelope, lying solitarily in the creek bed, was a prime target. Besides scalping him the soldiers cut off his nose, ears, and testicles - the last for a tobacco pouch." The results of the massacre were precisely what Colonel Chivington hoped to achieve. The Cheyenne, who were at this time allied with the Lakota and Arapaho, vowed to avenge the needless deaths of Black Kettle and his people. Early in 1865, a coalition of 1000 Cheyenne, Lakota Sioux, and Arapaho attacked several white ranches and a military post along the South Platte River Trail near Denver, capturing wagon-trains, confiscating livestock, and killing several hundred white settlers in the process. Staying one step ahead of the U.S. Army, they continued to raid the North Platte Trail that summer, completely wiping out an Army wagon-train and taking its horses and supplies. In response, the federal government dispatched General P. E. Connor and a force of 3,000 men with orders to ignore any overtures of peace or compliance from the marauders, and to "kill every male Indian over the age of 12." The Sand Creek Massacre analyzes one of the most controversial events of the 19th century. Along with pictures of important people, places, and events, you will learn about the Sand Creek Massacre like never before, in no time at all.

Archaeology of the High Plains

Historians have long debated the circumstances surrounding the massacre, one of the most disturbing and controversial events in American history, and painful questions linger to this day. Based on the highest curatorial standards, this invaluable collection allows readers the opportunity to form their own conclusions about the forces that lay behind this dark moment in western U.S. history.

Archeology of the High Plains

At the core of this nuanced book is the question that ecocritics have been debating for decades: what is the relationship between aesthetics and activism, between art and community? By using a pastoral lens to examine ten fictional narratives that chronicle the dialogue between human culture and nonhuman nature on the Great Plains, Matthew Cella explores literary treatments of a succession of abrupt cultural transitions from the Euroamerican conquest of the "Indian wilderness" in the nineteenth century to the Buffalo Commons phenomenon in the twentieth. By charting the shifting meaning of land use and biocultural change in the region, he posits this bad land—the arid West—as a crucible for the development of the human imagination. Each chapter deals closely with two novels that chronicle the same crisis within the Plains community. Cella highlights, for example, how Willa Cather reconciles her persistent romanticism with a growing disillusionment about the future of rural Nebraska, how Tillie Olsen and Frederick Manfred approach the tragedy of the Dust Bowl with strikingly similar visions, and how Annie Proulx and Thomas King use the return of the buffalo as the centerpiece of a revised mythology of the Plains as a palimpsest defined by layers of change and response. By illuminating these fictional quests for wholeness on the Great Plains, Cella leads us to understand the intricate interdependency of people and the places they inhabit. Cella uses the term "pastoralism" in its broadest sense to mean a mode of thinking that probes the relationship between nature and culture: a discourse concerned with human engagement—material and nonmaterial—with the nonhuman community. In all ten novels discussed in this book, pastoral experience—the encounter with the Beautiful—leads to a renewed understanding of the integral connection between human and nonhuman communities. Propelling this tradition of bad land pastoralism are an underlying faith in the beauty of wholeness that comes from inhabiting a continuously changing biocultural landscape and a recognition of the inevitability of change. The power of story and language to shape the direction of that change gives literary pastoralism the potential to support an alternative series of ideals based not on escape but on stewardship: community, continuity, and commitment.

Encyclopedia of the Great Plains

A Project of the Center for Great Plains Studies and the School of Natural Resources, University of Nebraska Great Plains Bison traces the history and ecology of this American symbol from the origins of the great herds that once dominated the prairie to its near extinction in the late nineteenth century and the subsequent efforts to restore the bison population. A longtime wildlife biologist and one of the most powerful literary voices on the Great Plains, Dan O'Brien has managed his own ethically run buffalo ranch since 1997. Drawing on both extensive research and decades of personal experience, he details not only the natural history of the bison but also its prominent symbolism in Native American culture and its rise as an icon of the Great Plains. Great Plains Bison is a tribute to the bison's essential place at the heart of the North American prairie and its ability to inspire naturalists and wildlife advocates in the fight to preserve American biodiversity.

Great Plains Bison

The massacre at Mountain Meadows on September 11, 1857, was the single most violent attack on a wagon train in the thirty-year history of the Oregon and California trails. Yet it has been all but forgotten. Will Bagley's *Blood of the Prophets* is an award-winning, riveting account of the attack on the Baker-Fancher wagon train by Mormons in the local militia and a few Paiute Indians. Based on extensive investigation of the events surrounding the murder of over 120 men, women, and children, and drawing from a wealth of primary sources, Bagley explains how the murders occurred, reveals the involvement of territorial governor Brigham Young, and explores the subsequent suppression and distortion of events related to the massacre by the Mormon Church and others.

The Archaeology of the North American Great Plains

Looking over the vast open plains of eastern Colorado, western Kansas, and southwestern Nebraska, where one can travel miles without seeing a town or even a house, it is hard to imagine the crowded landscape of the last decades of the nineteenth century. In those days farmers, speculators, and town builders flooded the region, believing that rain would follow the plow and that the "Rainbelt" would

become their agricultural Eden. It took a mere decade for drought and economic turmoil to drive these dreaming thousands from the land, turning farmland back to rangeland and reducing settlements to ghost towns. David J. Wishart's *The Last Days of the Rainbelt* is the sobering tale of the rapid rise and decline of the settlement of the western Great Plains. History finds its voice in interviews with elderly residents of the region by Civil Works Administration employees in 1933 and 1934. Evidence similarly emerges from land records, climate reports, census records, and diaries, as Wishart deftly tracks the expansion of westward settlement across the central plains and into the Rainbelt. Through an examination of migration patterns, land laws, town-building, and agricultural practices, Wishart re-creates the often-difficult life of settlers in a semiarid region who undertook the daunting task of adapting to a new environment. His book brings this era of American settlement and failure on the western Great Plains fully into the scope of historical memory.

The Mountain Meadows Massacre

From an award-winning author whose ancestors lived the adventures in this novel comes a spectacular new epic about the American West. Part history, part romance, and part action-adventure novel, *Sun Going Down* follows the fortunes of Ebenezer Paint and his descendants -- rough and tough individuals who are caught up in Civil War river battles, epic cattle drives through drought and blizzards, the horrors of Wounded Knee, the desperation of the dust bowl, and the prosperity of the roaring 1920s. The page-turning plot is peopled by a vibrant, unforgettable cast of characters: a grizzled Mississippi steamboat merchant, two horse-thieving brothers, five Annie Oakley-like sisters who can outride any cowboy, a half-Sioux bride who demands her new family claim her heritage, and a courageous daughter who defies her father and braves the West alone. Throughout their lives, the Paint family must battle both internal and external elements, and learn to live with spirit and wit. Letters and diaries from the author's own family archives form the basis for all the events and characters in *Sun Going Down*, infusing the novel with richly detailed authenticity and deep emotional power. It is intimate in its portraits of the unforgettable characters who settled our country, sweeping in its geographical reach from Vicksburg up through Montana and the Dakotas, and epic as it spans four generations from the Civil War to the Great Depression. Masterfully written, *Sun Going Down* holds the reader fast through tears, laughter, terror, and joy until the very last heart-gripping page is turned.

A Travel Guide to the Plains Indian Wars

Some of the most savage war in world history was waged on the American Plains from 1865 to 1879. As settlers moved west following the Civil War, they found powerful Indian tribes barring the way. When the U.S. Army intervened, a bloody and prolonged conflict ensued. Drawing heavily from diaries, letters, and memoirs from American Plains settlers, historian Thomas Goodrich weaves a spellbinding tale of life and death on the prairie, told in the timeless words of the participants themselves. "Scalp Dance" is a powerful, unforgettable epic that shatters modern myths. Within its pages, the reader will find a truthful account of Indian warfare as it occurred.

The Last Days of the Rainbelt

Indian Massacre in Minnesota was written over 100 years ago by a man whose job was to process claims for property damaged by Sioux raiders after they went on the warpath, killing pioneer families and taking many of those who survived into captivity. He documented the terrifying tales told by settlers of the horrors they suffered. However, to properly present this tragic time, the book begins by giving a brief account of the Sioux Indians; the harsh treatment by our government (who ignored a treaty that promised \$2 million for their land), their living conditions on the reservations and their complaints. The resulting account of the massacres and conspiracy by the great chief Little Crow is also described, along with the personal accounts of the survivors.

Sun Going Down

This book places into modern context the information by which North American mammalian paleontologists recognize, divide, calibrate, and discuss intervals of mammalian evolution known as North American Land Mammal Ages. It incorporates new information on the systematic biology of the fossil record and utilizes the many recent advances in geochronologic methods and their results. The book describes the increasingly highly resolved stratigraphy into which all available temporally significant data and applications are integrated. Extensive temporal coverage includes the Lancian part of the Late Cretaceous, and geographical coverage includes information from Mexico, an integral part of the North American fauna, past and present.

High Plains Applied Anthropologist

A Prehistory of North America covers the ever-evolving understanding of the prehistory of North America, from its initial colonization, through the development of complex societies, and up to contact with Europeans. This book is the most up-to-date treatment of the prehistory of North America. In addition, it is organized by culture area in order to serve as a companion volume to "An Introduction to Native North America." It also includes an extensive bibliography to facilitate research by both students and professionals.

Scalp Dance

J.P. Dunn wrote *Massacres of the Mountains* in an attempt to separate historical fact from sensational fiction and to verify the problems that plagued the Indian tribes in this country for years. He doesn't assign blame, but lets it fall where it belongs by meticulous research and the accurate, unbiased depiction of the true causes and subsequent results of some of the most famous Indian conflicts. Each chapter includes a list of authorities as well as original source documents and evidence relating to the subject. Volume 2 ISBN is 9781582182766

Special Report of the Mountain Meadow Massacre

Chato, a notorious comanchero chief, brutally slaughtered some sodbusters on the wagon-train that Luke Culpepper, an ex-US marshal, was guiding across the Pecos in New Mexico. Now Luke was determined to bring Chato and his villainous gang to justice, but he had only the assistance of Baldy Springer, his mule with a nose for Indians, and a washed-out Pinkerton agent. Soon Luke's life would be hanging by a thread and justice no more than a hope.

Late Cretaceous and Cenozoic Mammals of North America

On November 29, 1864, over 150 Native Americans, mostly women, children, and elderly, were slaughtered in one of the most infamous cases of state-sponsored violence in U.S. history. Kelman examines how generations of Americans have struggled with the question of whether the nation's crimes, as well as its achievements, should be memorialized.

Prehistory of North America

Indian Raids and Massacres covers incidents in Kansas, Colorado, and Nebraska from 1864-1870. Each chapter is a story unto itself and the book can be read in any order as well as from beginning to end. There are two sides to these violent events, and, while the focus is on the Euro American perspective, the contrary perspective of the Native American is also presented. Broome relies on primary-source documents usually ignored by other authors, but more than that, he carefully sorts out all documents relating to each chapter, while carefully applying critical thinking skills to arrive at the

truth of each event. Untapped Indian depredation claims housed in Washington, DC give the reader a deeper understanding of the terrors of Indian raids, especially when experienced by new settlers to the region. What emerges represents bold and new history not found in other published accounts. The Sand Creek Massacre on November 29, 1864 fueled most of the violent responses from then to the Cheyenne Dog Soldier's final defeat at Summit Springs July 11, 1869. Also covered are the violent events that happened before Sand Creek. There is much on Custer in the 1860s, as well as Buffalo Bill Cody and Wild Bill Hickok's 1870 fatal gunfight with a 7th Cavalryman who participated in these events and who was awarded the Congressional Medal of Honor in 1869. These chapters reflect more than 20 years of research and writing on the Central Plains Indian War.
