You Know It Is Possible by Personality Tests To Categorize People in Terms of Their Level of Generosity and Altruism and if You Look at Identical Twins They Tend To Be a More Alike than People Who Aren't Related so that Might Tell You that There Are some Hereditary Influences on Being Generous and Altruistic but They'Re Going To Be Pretty Minor Compared to Other Influences and Particularly Freewill Decisions and if in Fact There Are some Neurological Pathways That Play a Role in Altruism that in no Way Seems to Me To Reduce the Likelihood that this Is a Divinely Inspired One Question That Keeps Coming to Mind Is that the Evidence That You Presented All the Evidence Can Be Used To Account for either a Theistic or a Naturalistic Perspective and that At Least Seems To Suggest that the Issue CanNot Be Settled on Evidence Alone It Seems to Me Rather that There Is a Pre Commitment to a Particular Paradigm Worldview Conceptual Scheme Whatever You Call It that Then Sometimes Even Selects the Evidence or in any Instance the Evidence Gains Its Intensity Meaning Whatever You May Call It within this Particular Conceptual Scheme and Therefore the Internal Consistency Coherence and So On within the Conceptual Scheme Establish a Preconceived Conclusion

It Seems to Me Rather that There Is a Pre Commitment to a Particular Paradigm Worldview Conceptual Scheme Whatever You Call It that Then Sometimes Even Selects the Evidence or in any Instance the Evidence Gains Its Intensity Meaning Whatever You May Call It within this Particular Conceptual Scheme and Therefore the Internal Consistency Coherence and So On within the Conceptual Scheme Establish a Preconceived Conclusion in Other Words Is in One Position Just As Good as the Other and if You CanNot Establish One Position over the Other Just Based on Evidence How Does the Naturalist Becomes a Become a Theist So Great Question and Well Phrased Again I Think You'Re Referring to the Evidence That Supports Evolution and the Relatedness of Living Organisms That Can Certainly Be Supported on a Purely Naturalistic Basis

When We Only Had Classical Mechanics It Seemed as if There Was Going To Be no Solution to this Problem that Everything in the Universe Was Really All Predetermined by the Motions of Particles under the Influence of Classical Mechanics Laws but Then Quantum Came Along and whether It's Fair To Bring Quantum Mechanics into a Philosophical Discussion It Certainly Is Something That You Have To Deal with and I Think in that Perspective the Uncertainty Kicks In and There Is Nothing That Is Defined So Precisely Just in Terms of Pure Physics once that in Certainty Principle Becomes Part

of Reality and It Is so that's Maybe a Little Bit of a Dodge but I Think It's a Legitimate And in My Own Experience There Are Principled Agnostics but I Will Say Most of the People I Encounter Who Say They'Re Agnostics Were Agnostics like I Was Which Was To Say I Don't Want To Think about this so that that's Maybe Not Such a Good Position To Be In because It's a Really Important Set of Questions There Now if One Is an Agnostic and You Look Closely at All the Evidence for and against and You Conclude I Can't Really Find any Evidence Conclusively for either Perspective Then that's Where You Are and I Suspect a Lot of People in this Room May Very Well Find Themselves in that Position

But Don't Be Surprised if over the Course of Time That Might Change for Me the Agnostic Position Ended Up Feeling like a Bit of a Cop-Out like It Had Not Really Resolved the Question After All and that Made Me Want To Go Further and Again while I Can't Prove My Position as a Theist and Particularly as a Christian the Evidence to Me Including the Evidence for Jesus Christ in His Life Which Is Really Very Strong Was Difficult To Dismiss and Particularly Again Coming Back to Louis this Argument that Many Agnostics Might Put Forward that Christ Was a Great Teacher because It Is Hard To Read the Words of Christ and Not Conclude that but We Shouldn't Consider Christ as Divine That's a Hard One To Sustain because
