The Fallen Woman in the Nineteenth-Century English Novel

A sympathetic view of the fallen women in Victorian England begins in the novel. First published in 1984, this book shows that the fallen woman in the nineteenth-century novel is, amongst other things, a direct response to the new society. Through the examination of Dickens, Gaskell, Collins, Moore, Trollope, Gissing and Hardy, it demonstrates that the fallen woman is the first in a long line of sympathetic creations which clash with many prevailing social attitudes, and especially with the supposedly accepted dichotomy of the 'two women'. This book will be of interest to students of nineteenth-century literature and women in literature.

A Fallen Woman

An unforgettable saga, full of romance, shocking secrets and page-turning scandal . . .

Tainted Souls and Painted Faces

Prostitute, adulteress, unmarried woman who engages in sexual relations, victim of seduction—the Victorian "fallen woman" represents a complex array of stigmatized conditions. Amanda Anderson here reconsiders the familiar figure of the fallen woman within the context of mid-Victorian debates over the nature of selfhood, gender, and agency. In richly textured readings of works by Charles Dickens, Elizabeth Gaskell, Dante Gabriel Rossetti, and Elizabeth Barrett Browning, among others, she argues that depictions of fallen women express profound cultural anxieties about the very possibility of self-control and traditional moral responsibility.

The Fallen Woman in Christina Rossetti's Goblin Market

Essay from the year 2016 in the subject English Language and Literature Studies - Literature, grade: 13, University of Sheffield, language: English, abstract: This essay explores how "Goblin Market" deals with the concept of the fallen woman, personified in both Jeanie and Laura. In Victorian times, one of the virtues associated with the ideal middle- and upper-class woman, the so-called 'angel in the house', was chastity. Women who lost their virtue out of wedlock or had sexual relations with a man other than their husband were considered 'fallen woman'. For these women, finding a suitable husband was usually out of the question. They could try to find a job, and in the worst case, ended up as prostitutes. Christina Rossetti helped reintegrate fallen women into society. Nevertheless, Rossetti probably did not think that women should have the same sexual freedom as men. Many of her works deal with innocence and temptation, and the consequences of becoming a fallen woman. In this essay, it shall be explained how Goblin Market deals with the concept of the fallen woman, personified in both Jeanie and Laura.

The fallen woman. Representations in dominant victorian discourses

Bachelor Thesis from the year 2013 in the subject History of Europe - Modern Times, Absolutism, Industrialization, grade: 1,0, Friedrich-Alexander University Erlangen-Nuremberg, language: English, abstract: The aim of this paper is to outline the complexity of the representations of the 'fallen woman.' All representations involved the fear of deviancy and the attempt to preserve the social and moral order. However, the strategies to deal with the 'problem' called 'fallen woman' were divergent. This paper is structured along modern forms of thinking. In Victorian times the differentiation of the religious, medical, judicial and literary fields was not as clear-cut as it is today. For this reason, the primary texts selected for the distinctive chapters might appear to belong to several discourses, not just the one assigned to them. It will become evident that the discourses on the 'fallen woman' reveal similar representations as well as contradictory ones. Even though the structure proposes the separation of the representations as victim and as threat, there are overlaps and the distinctions are not as definite as the outline suggests. In order to demonstrate basic ideas about the 'fallen woman,' there will be a strong focus on the female prostitute. Many aspects of the discourse on the 'fallen woman' become clear when looking at the topic of prostitution, which was thematized in Victorian culture and politics. Moreover, the term 'stereotype' will play a major role in this analysis.

The Wages of Sin

Examines how film censors and producers treated the "fallen woman" or "sex picture" subject.

The Fallen Woman. Two Ideals of Women in Bram Stoker's Dracula

Seminar paper from the year 2016 in the subject English Language and Literature Studies - Literature, grade: 1.0, , course: Gothic Fiction, language: English, abstract: In the novel entitled Dracula, written by Bram Stoker in 1897, the two female characters Lucy Westenra and Mina Harker both seem to represent the Victorian ideal of female virtue. However, as the narrative proceeds, vampirism, brought upon society by Count Dracula, challenges those concepts. After being turned into a vampire, Lucy converts into an openly sexual predator, whereas Mina transforms into a „New Woman“. While Mina can be saved in the end, Lucy has to die at her lover's hand in order to return to that innocent state of purity. The differences between the two friends get evoked throughout the novel and show two different types of women; one who is worth saving and one who is not because it threatens Victorian ideals.

Fallen Woman

When eight-year-old Nora arrives at the Park Ridge School for Girls in 1932, she is sure there's been some mistake. She can't imagine why she and her little sister, Patsy, were torn from their mother only to be subjected to the cruel whims of the house matron, Mrs. Morris. When their mother fails to rescue them week after week—and Mrs. Morris drops hints that their mother may be a “fallen woman”—Nora begins to doubt they will ever see her again. Nine years prior, at seventeen, Gertie Gufftason runs off with Lorenzo, the barker for the traveling carnival passing through her small coal-mining town in Southern Iowa. Thinking she is embarking on a fantastic adventure, Gertie is bitterly disappointed by the life that follows and is thrown into despair when the State removes their two daughters. Gertie eventually tracks down her girls at the Park Ridge, but, expecting a warm welcome, she is shocked by Nora's cool reception. Nora reluctantly returns home with Gertie and Patsy, determined to live a more perfect life than her mother. It is only when she discovers a secret Gertie has kept hidden all these years that Nora begins to fully understand—and forgive—her mother's tragic choices . . .

The Fallen Woman's Daughter

This Companion is designed for readers interested in the creation, production and interpretation of Victorian and Edwardian theatre in its own time and on the contemporary stage. The volume opens with an introduction surveying the theatre of the time, followed by an essay contextualizing the theatre within the culture as a whole. Succeeding chapters examine performance, production, and theatre, including the music, the actors, stagecraft and the audience; plays and playwriting and issues of class and gender. Chapters also deal with comedy, farce, melodrama, and the economics of the theatre.

The Angel in the House

"An account of Charles Dickens' work with destitute girls and young women in mid-eighteenth century London. With support from the millionairess Angela Burdett Coutts, he established a 'safe' house for

young women in Shepherd's Bush where they were taken from lives of prostitution and crime and trained for useful employment."--Borders website.

Fallen Woman

Mary Barton is set in the English city of Manchester between 1839 and 1842, and deals with the difficulties faced by the Victorian working class. John Barton is a questioner of the distribution of wealth and the relations between rich and poor. Soon his wife dies—he blames it on her grief over the disappearance of her sister Esther. Having already lost his son Tom at a young age, Barton is left to raise his daughter, Mary, alone and now falls into depression and begins to involve himself in the Chartist, trade-union movement. Elizabeth Gaskell (1810-1865) was an English novelist and short story writer. Her novels offer a detailed portrait of the lives of many strata of Victorian society, including the very poor, and are of interest to social historians as well as lovers of literature. Some of Gaskell's best known novels are *Cranford*, *North and South*, and *Wives and Daughters*.

The Fallen Woman in the Victorian Novel

In this dark twist on Victorian romance, a champion fighter must risk it all for forbidden love and freedom. London, 1883 "People like us don't get happy endings." In twelve years as a bangtail, Lady has never feared a man's kiss. Owned by the ruthless Hannibal Adams, the "Earl of the East End," she's draped in jewels and dead inside. Lady learns fear, however, when she kisses Mr. Adams's best fighter for luck—for King sees the real woman locked away behind finery and falsity. King's life is made of fists and scars, the only things that have ever felt real to him. Even his name came from the man who owns him—the man who turned him into a champion. From the moment Lady's kiss sends him reeling, King resists wanting what he can't have. Mr. Adams never gives up what he owns. When Lady is sent to nurse King through the tournament, she finds a new strength through the one man who's never treated her like a whore. King discovers that the woman who shares his dark world might also be the one to lead him out. And as the tournament comes to a violent finale, Lady and King must decide—stay spoiled and shackled, or break free and risk what happens when fear and dreams collide. 104,000 words

The Cambridge Companion to Victorian and Edwardian Theatre

Six years ago, to the outrage of her family and the delight of London gossips, Lady Helen Dehaven refused to marry the man to whom she was betrothed. Even more shockingly, her refusal came on the heels of her scandalous behavior: she and her betrothed were caught in a most compromising position. Leaving her reputation in tatters and her motivations a mystery, Helen withdrew to a simple life in a little village among friends, where her secrets remained hers alone. For reasons of his own, Stephen Hampton, Lord Summerdale, is determined to learn the truth behind the tangled tale of Helen's ruin. There is nothing he abhors so much as scandal - nothing he prizes so well as discretion - and so he is shocked to find, when he tracks Helen down, that he cannot help but admire her. Against all expectations, he finds himself forgiving her scandalous history in favor of only being near her. But the bitter past will not relinquish Helen's heart so easily. How can she trust a man so steeped in the culture of high society, who conceals so much? And how can he, so devoted to the appearance of propriety, ever love a fallen lady?

Charles Dickens and the House of Fallen Women

In this third book set in 1820 Bath, a woman shrouded in scandal finds true love with an honorable man. (August)

Rescue of Fallen Women. A statement containing a proposal, etc

In *Unveiling Desire*, Devaleena Das and Colette Morrow show that the duality of the fallen/saved woman is as prevalent in Eastern culture as it is in the West, specifically in literature and films. Using examples from the Middle to Far East, including Iran, India, Pakistan, Bangladesh, Thailand, Japan, and China, this anthology challenges the fascination with Eastern women as passive, abject, or sexually exotic, but also resists the temptation to then focus on the veil, geisha, sati, or Muslim women's oppression without exploring Eastern women's sexuality beyond these contexts. The chapters cover instead mind/body sexual politics, patriarchal cultural constructs, the anatomy of sex and power in relation to myth and culture, denigration of female anatomy, and gender performativity. From Persepolis to Bollywood, and

from fairy tales to crime fiction, the contributors to *Unveiling Desire* show how the struggle for women's liberation is truly global.

MARY BARTON

Tom Winnifrith examines how the great nineteenth-century novelists managed to say something new and important about sexual behaviour in spite of rules which dictated that the recording of this behaviour should combine the utmost discretion and deep disapproval. On the surface their fallen heroines seem to suffer the conventional cruel fate of the erring female: death or Australia or both. Tom Winnifrith examines ways in which the great novelists continued to portray the complexities underlying the simple division of women into angels and whores.

Logan utilizes primary texts from these Victorian writers as well as contemporary critics such as Catherine Gallagher and Elaine Showalter to provide the background on social factors that contributed to the construction of fallen-woman discourse.

Unveiling Desire

Since the late twentieth century, there has been a strategic campaign to recover the impact of Victorian women writers in the field of English literature. However, with the increased understanding of the importance of interdisciplinarity in the twenty-first century, there is a need to extend this campaign beyond literary studies in order to recognise the role of women writers across the nineteenth century, a time that was intrinsically interdisciplinary in approach to scholarly writing and public intellectual engagement.

Fallen Women in the Nineteenth-Century Novel

During the first half of the twentieth century, out-of-wedlock pregnancy came to be seen as one of the most urgent and compelling problems of the day. The effort to define its meaning fueled a struggle among three groups of women: evangelical reformers who regarded unmarried mothers as fallen sisters to be saved, a new generation of social workers who viewed them as problem girls to be treated, and unmarried mothers themselves. Drawing on previously unexamined case records from maternity homes, Regina Kunzel explores how women negotiated the crisis of single pregnancy and analyzes the different ways they understood and represented unmarried motherhood. *Fallen Women, Problem Girls* is a social and cultural history of out-of-wedlock pregnancy in the United States from 1890 to 1945. Kunzel analyzes how evangelical women drew on a long tradition of female benevolence to create maternity homes that would redeem and reclaim unmarried mothers. She shows how, by the 1910s, social workers struggling to achieve professional legitimacy tried to dissociate their own work from that earlier tradition, replacing the reform rhetoric of sisterhood with the scientific language of professionalism. By analyzing the important and unexplored transition from the conventions of nineteenth-century reform to the professional imperatives of twentieth-century social welfare, Kunzel offers a new interpretation of gender and professionalization. Kunzel places shifting constructions of out-of-wedlock pregnancy within a broad history of gender, sexuality, class, and race, and argues that the contests among evangelical women, social workers, and unmarried mothers distilled larger generational and cross-class conflicts among women in the first half of the twentieth century.

Fallenness in Victorian Women's Writing

"examines the changing social and economic status of women from the 1860s through the 1880s, and rejects the stereotypical mid-Victorian femme fatale portrayed by conservative ideologues critiquing popular fiction by Wilkie Collins, Mary Elizabeth Braddon, Honore de Balzac, and William Makepeace Thackeray. In these book reviews, the female protagonist is simply minimized to a dangerous woman. Refuting this one-dimensional characterization, this book argues that the femme fatale comes to represent the real-life struggles of the middle-class Victorian woman who overcomes major adversities such as poverty, abusive husbands, abandonment, single parenthood, limited job opportunities, the criminal underworld, and Victorian society's harsh invective against her." --publisher description.

Woman and the Demon

From the Booker-shortlisted author comes a sensuous, evocative novel exploring the lives of women in Victorian London, for fans of Sarah Waters, Emma Donoghue and Kate Atkinson 2011: When Madeleine loses her job as a lecturer, she decides to leave her riverside flat in cobbled Stew Lane, where history never feels far away, and move to Apricot Place. Yet here too, in this quiet Walworth cul-de-sac, she senses the past encroaching: a shifting in the atmosphere, a current of unseen life. 1851: and Joseph Benson has been employed by Henry Mayhew to help research his articles on the working classes. A family man with mouths to feed, Joseph is tasked with coaxing testimony from prostitutes. Roaming the Southwark streets, he is tempted by brothels' promises of pleasure – and as he struggles with his assignment, he seeks answers in Apricot Place, where the enigmatic Mrs Dulcimer runs a boarding house. As these entwined stories unfold, alive with the sensations of London past and present, the two eras brush against each other – a breath at Madeleine's neck, a voice in her head – the murmurs of ghosts echoing through time. Rendered in immediate, intoxicating prose, *The Walworth Beauty* is a haunting tale of desire and exploitation, isolation and loss, and the faltering search for human connection; this is Michèle Roberts at her masterful best.
