Contents: (1) Foreword by Kemal Dervis, United Nations Development Programme (UNDP) Administrator: Strengthening capacity for positive change; (2) Improving lives through capacity development; (3) UNDP's role in the UN development system; (4) UNDP programmes: Capacity development in action: Strong institutions, inclusive growth: Poverty reduction and achievement of the Millennium Development Goals; Empowering citizens for development: Democratic governance; Strengthening capacity to surmount vulnerability: Crisis prevention and recovery; Greening growth: Environment and sustainable development; (5) Developing capacities to deliver results; (6) UNDP resources. Illustrations.

United Nations Development Programme

The right to leave a country, including one's own, is a necessary prerequisite to the enjoyment of a number of other human rights, most notably the right to seek and enjoy asylum and to be protected against ill-treatment. States are entitled to place restrictions on the right to leave, if they are in compliance with the European Convention on Human Rights and the European Court of Human Rights case law. A number of measures taken or envisaged in recent years by some Council of Europe member states in the Western Balkans pose serious challenges to the right to leave a country, enshrined in the 1963 Protocol No. 4 to the European Convention on Human Rights, as well as to the right to seek and enjoy asylum. The situation is of particular concern to the Council of Europe Commissioner for Human Rights given that these restrictive, migration-related measures have been adopted at the instigation of EU member states in pursuance of their immigration and border control policies, and have been tainted by discrimination as they have targeted and affected, in practice, the Roma. This Issue Paper examines the right to leave a country and what it means both as a right in international human rights instruments and as interpreted by European courts and UN treaty bodies. It focuses on six major themes: the right to leave a country, including one's own; the right to seek and enjoy asylum; non-nationals' right to leave a country; prohibited discrimination as regards the right to leave a country; the situation in the Western Balkans; and the impact of the EU externalisation of border control policies on the right to leave a country. The conclusions highlight the need for European states to examine or re-examine their migration laws and policies in order to fully align them with the European Convention on Human Rights and the Court's jurisprudence.

United Nations Development Programme Annual Report

While there is no shortage of books on the environment there are few introductory texts that outline the social theory that informs human geographical approaches to the interactions between ecology and society. Students arriving at university often lack the understanding of history, economics, politics, sociology and philosophy that contemporary human geography requires. *Environments in a Changing World* addresses this deficit, providing foundation knowledge in a form that is accessible to first year students and applied to the understanding of both contemporary environmental issues and the challenge of sustainability. Students are challenged to develop and defend their own ethical and political positions on sustainability and respond to the need for new forms of ecological citizenship.

The United Nations Development Programme

This book presents a combination of chapters assembled in different fields of expertise. The book examines different aspects of business knowledge from a philosophical and practical standpoint. This data helps modern organizations by providing valuable insights and suggestions for future research and results. The increasing number of business disciplines studied necessitates implementing effective analytics practices within organizations. This book explores disciplinary and multidisciplinary concepts and practical techniques to help analyze the evolving field.

Information Materials Available on the United Nations Development Programme

This is a clear survey of the role played by the United Nations in the major political crises of the post-war world. In covering its high-profile, peace-keeping role, its support of new nations, and its involvement in new initiatives such as famine relief and drug control, the author presents an introduction to the UN in action.

Actions Required to Improve Management of United Nations Development Assistance Activities, Department of State

The Routledge Handbook of Public Sector Accounting explores new developments and transformations in auditing, management control, performance measurement, risk management and sustainability work in the contemporary world of the public sector and the functioning of accounting and management in that realm. It focuses on critical analysis and reflection with respect to changing risk and crisis management patterns in the public sector in the current Covid- 19 and post- Covid- 19 era, across diverse social, political and institutional settings globally. This research-based edited book, targeted at scholars, professionals, teachers and consultants in the fields of public sector accounting, auditing, accountability and management, offers high-level insights into the new architecture and execution of such activities in the emerging post-pandemic world. The chapters are written by leading scholars in the accounting and public administration disciplines internationally and provide important assessments, frameworks and recommendations concerning a wide variety of institutions, practices and policies with a view to addressing the many emerging societal, governmental and professional issues. Spanning theoretical, empirical and policy discussion contributions, the book's chapters will be readily accessible to accounting, auditing and management audiences alike.

What is this thing called Global Justice? explores the core topics covered on the increasingly popular undergraduate modules on global justice including: world poverty economic inequality nationalism human rights humanitarian intervention immigration global democracy and governance climate change international justice. Centered on real world problems, this textbook helps students to understand that global justice is not only a field of philosophical inquiry but also of practical importance. Each chapter concludes with a helpful summary of the main ideas discussed, study questions and a further reading guide.

Annual Report

Fighting to Keep My Job highlights an unpleasant episode during the author's 10-year career with the World Food Council. On 12 June 1989, the Executive Director of the Council notified him of his intention to terminate his employment by 31 December 1989. The author recalls his shock at the news. "I was speechless. This was a letter from my boss. It was the last thing I had expected. What had I done?" The author was at the time Chief of the Council's Liaison Office at United Nations Headquarters, New York. No reason was given why such a drastic action was being taken against him, beyond a vague

allusion made to Mr. Annan, Assistant Secretary-General, Office of Human Resources Management (ASG-OHRM), that he had "not been successful in representing the Council or the Council's interests." A moving narrative of the author's entire 35-year career, the book recounts vividly the steps taken by him in his successful bid to save his job. The case is well-documented in correspondence between himself, his legal counsel, the ASG-OHRM, and the Executive Director; and in the proceedings of the Joint Appeals Board. Pleading with his boss, the author says: "I know that I am in New York at your pleasure. I will continue to serve the Council loyally, take criticism in a constructive spirit, and always strive to do better.. But dropping my job is an entirely different proposition, and I crave your understanding not to pursue it." But this fell on deaf ears. The Executive Director's single-minded aim was to be rid of him. In the ensuing struggle, the author draws inspiration from memories of another successful fight he once had with his Permanent Secretary in Tanzania. He vows to himself: "I will fight this one too. And I will win." And win he did. The author was reinstated, returned to Rome, and - ironically enough - was appointed Officer-in-Charge of the Council, on the expiry of the Executive Director's contract! Read on.

United Nations Development Programme

This volume offers a series of short and highly self-reflective essays by leading international lawyers on the relation between international law and crises. It particularly shows that international law shapes the crises that it addresses as much as it is shaped by them. It critically evaluates the modes of intervention of international law in the problems of the world. Together these essays provide a unique stocktaking about the role, limits, and potential of international law as well as the worlds that are imagined through international lawyers' vocabularies.

Capacity Development: Empowering People and Institutions

The first volume of its kind to take a comprehensive view of social justice issues and interventions for young people from a global perspective.

Research Training and Career Development Programs Supported by the National Institutes of Health

This book offers a cutting-edge scholarly discussion of judicial and legal methods to reconcile national and international economic, social and environmental law for sustainable development. A diverse anthology of perspectives from developed and developing countries, the book contains contributions from judges, international lawyers and other experts with a wealth of experience in the emerging field of sustainable development law. It presents negotiators, scholars and jurists with a lively, thought-provoking and highly current discussion of international legal debates related to sustainable development. The final part discusses future developments in sustainable development law, based on the results of three recent international processes. Sustainable Justice weaves a diverse and intriguing collection, reflecting a vigorous yet practical international legal debate of crucial importance to our common future.

Addressing the sustainable development goals "leave no one behind" promise: Migration and health

Maldives Country Study Guide - Strategic Information and Developments Volume 1 Strategic Information and Developments

Operational Activities Report

She has deep personal roots in the politically conservative and predominantly Mormon culture in Utah and the West and worked well with people having varied perspectives and agendas, establishing effective connections and networks in seemingly hostile contexts. Her election to the local school board and appointment by governors from both parties, eventually as chair, to the statewide Governor's Committee on the Status of Women demonstrated this."--BOOK JACKET.

The right to leave a country

"Today, the majority of sovereign states can be described as 'democracies' in that they possess elected political leadership and some measure of commitment to the protection and promotion of individual rights and equality under law. Likewise, the economies of most democracies revolve around free trade, integrated into wider regional and global markets. Virtually all are organized around Western liberal principles and values. For some, these philosophical commitments are indigenous and longstanding, and for others they were imported later, often through colonization. This book asks how democratic governance and economic development differ when founded on Eastern, Buddhist principles, rather

than Western, liberal, and Enlightenment values and beliefs. The small, remote country of Bhutan is the only democratic, market-based state that is rooted constitutionally and culturally in Mahayana Buddhist principles and ethics. In this book, it provides an alternate vision for what democratic states built on Eastern philosophy might look like. William Long argues that the differences in democratic and development systems between Western and Eastern approaches are profound and important. Bhutan's approach to democracy and development is based on the idea of 'Gross National Happiness' and offers a unique approach to the challenges of political polarization, economic inequality, and declining public trust in political institutions"--
