Hild

Possessing uncanny powers of observation that elevate her influence in turbulent seventh-century Britain, Hild, the king's youngest niece, is established as a seer and compelled to advise the king correctly at the risk of her loved ones. By the Nebula Award-winning author of Ammonite. 75,000 first printing.

Hild

'Truly, truly remarkable' Karen Joy Fowler 'Extraordinary...resonates to many of the same chords as Beowulf, the legends of King Arthur, The Lord of the Rings, and Game of Thrones' Neal Stephenson 'You are a prophet and seer with the brightest mind in an age. Your blood is that of the man who should have been king ...That's what the king and his lords see. And they will kill you, one day' In seventh century Britain, a new religion is coming ashore while small kingdoms are merging, frequently and violently. Hild is the king's youngest niece, with a glittering mind and natural authority, She is destined to become one of the pivotal figures of the early Middle Ages: Saint Hilda of Whitby. But for now she has only the powerful curiosity of a child and the precarious advantage of a plotting uncle, Edwin of Northumbria, who will stop at nothing to become king of the Angles. Hild establishes herself at her uncle's side as the king's seer, and becomes indispensable - as long as all goes well for Edwin. The stakes are high - life and death - for Hild, her family and for all those who seek the protection of this strange girl who seems to see the future. In this vivid, utterly compelling novel, Nicola Griffith has brought the Early Middle Ages to life in an extraordinary act of alchemy, transporting the reader into a mesmerising, unforgettable world.

Child of Light

Back Cover Description: For the sun rises with scorching heat and dries up the meadow; the petal of the flower falls off and its beauty is lost forever. James 1:11 As the light of truth is born in the darkness, the false bearer of light rises over the city of peace with scorching heat. With heat as intense as the sun, everything in the path of the evil one will vanish into smoke. The beauty will disappear and love will vanish from the face of Gaia. Will the child of light complete her mission before the sun's scorching

heat destroys her city? Synopsis: In a fictitious world called Gaia, explore the city of Arcadia during its Great Depression. Despite a convoluted history of war, religion, and corruption, an ancient prophecy points to this city as the One's birthplace for the second coming. When the child of light appears, he or she will be the beacon to reveal the second coming and a vessel to thwart the evil brewing in this autocratic society. During this time alchemists not only have the power to transmute metals, but also to transmute human beings into superior beings. No one knows exactly how the superior beings acquire their power, but once the dormant power is unleashed it is unstoppable. From childhood to adult years, follow the life story of several Arcadians some of which belong to the superior race. Those who believe the prophecy believe the child of light will be one of the superior beings. However, with the House of Lords interfering with the lives of Arcadians the believers will have to find the child of light before they do. Child of Light is the debut novel from the author D. C. Cowan and is the second novel in the Angelic Heroes Trilogy. Chronologically, the first novel, Book of Omni, starts hundreds of years in the past during the Arcadian Revolution occurring during the time of the One's first coming. The third novel, Mount of Truth, finishes the trilogy with an epic journey around the world, through time and dimensions in order to discover the truth and find the mystical city hidden in the mountains said to be the dwelling place of the One on earth.

Journey Into the Flame

In the tradition of *The Celestine Prophecy* comes the first book in a gripping post-apocalyptic trilogy involving the search for ancient books whose secrets hold the key to humanity's survival. In 2027, the Great Disruption shook the world. An unexplained solar storm struck the earth, shifting it four degrees south on its axis. Everything went dark. Humanity was on the verge of despair. Then a man named Camden Ford discovered a set of ancient books called the *Chronicles of Satraya*. Thirty years later, the world is a different place. Thanks to the teachings of the *Chronicles*, hope has been restored, cities rebuilt, technology advanced. The books also have a different owner: Logan Cutler, who inherited them when Camden mysteriously disappeared. But when Logan auctions off the books to pay his debts, they fall into the wrong hands. The *Reges Hominum*, a clandestine group that once ruled history from the shadows, is launching a worldwide conspiracy to regain control. Soon Logan realizes he's made a terrible mistake. With the help of special agent Valerie Perrot and the wisdom of the *Chronicles* as his guide, he embarks on an epic quest to get the books back before it's too late. Abounding with questions about humanity's secret past and its unknown future, *Journey into the Flame* will not only take you to the start of an incredible new world, it will also take you deep into the greater mysteries of the self.

Child of Grass

In the first installment of the Sea of Grass trilogy, Child of Earth, we learn of young Kaer, whose family decides to emigrate to Linnea, a parallel Earth-like world characterized by huge horses, dangerous giant wolves, and a strict religious, primitive culture. Before Kaer and her family can emigrate, they are expected to undergo rigorous training under a massive dome that simulates the Linnean environment in every respect, designed to prepare Earthlings for the new world. In the midst of Kaer's family's training, an uprising occurs. A band of religious zealots known as the Hale-Stones, former Earth residents living on Linnea, began outing other Earthlings and disrupting Linnean society in order to convert them to Earth's Christianity. Kaer's family was stuck in limbo. Now, in Child of Grass, Kaer and Lorrin, Kaer's father, venture away from the training dome as part of a secret mission to restore peace to Linnea and free the hostage Earthlings from captivity. The Mirror & the Light

'If you cannot speak truth at a beheading, when can you speak it?' England, May 1536. Anne Boleyn is dead, decapitated in the space of a heartbeat by a hired French executioner. As her remains are bundled into oblivion, Thomas Cromwell breakfasts with the victors. The blacksmith's son from Putney emerges from the spring's bloodbath to continue his climb to power and wealth, while his formidable master, Henry VIII, settles to short-lived happiness with his third queen, before Jane dies giving birth to the male heir he most craves. Cromwell is a man with only his wits to rely on; he has no great family to back him, no private army. Despite rebellion at home, traitors plotting abroad and the threat of invasion testing Henry's regime to breaking point, Cromwell's robust imagination sees a new country in the mirror of the future. But can a nation, or a person, shed the past like a skin? Do the dead continually unbury themselves? What will you do, the Spanish ambassador asks Cromwell, when the king turns on you, as sooner or later he turns on everyone close to him? With *The Mirror and the Light*, Hilary Mantel brings to a triumphant close the trilogy she began with *Wolf Hall* and *Bring Up the Bodies*. She traces the final years of Thomas Cromwell, the boy from nowhere who climbs to the heights of power, offering a defining portrait of predator and prey, of a ferocious contest between present and past, between royal will and a common man's vision: of a modern nation making itself through conflict, passion and courage.

The Flat Earth Trilogy Book of Secrets I

This book is an Anthology of Gregory Lessing Garrett's writings and others on the topic of Flat Earth Plane Cosmology of all types, including Enclosed Earth, Hollow Earth, Concave Earth, Infinite Plane Earth, The Enochian Earth Model, etc... The hope is that the ideas expounded in this Flat Earth Trilogy

series will provide compelling justifications for the claim that no curvature can be found on the Earth, which points to the empirical conclusion that we live on a plane and not a spinning ball in science fiction outer space. The details regarding the possible topography of the Earth are discussed in depth in this book, but ultimately, the absolute true topography of the Earth is not known by anyone. -Gregory Lessing Garrett

When they return years later, the country is in desperate straits, for the great cities of the east are falling to the menace of the Saxon hordes. In spite of Uther, Arthur becomes a war chieftain and wins many battles to earn him the trust of his Celtic warriors and prove that he alone can unite the tribes. World is the final volume in Neal Stephenson's hugely ambitious and compelling saga. Filled with a remarkable cast of characters in a time of genius, discovery and change, the Baroque Cycle is a magnificent and unique achievement.

The Clayhanger Trilogy: Clayhanger, Hilda Lessways & These Twain (Complete Edition)

This collection is a series of novels by Arnold Bennett, published between 1910 and 1918. Though the series is commonly referred to as a "trilogy"

The Pearl of the Soul of the World

The spellbinding conclusion to the Darkangel Trilogy! Armed with a magical pearl imbued with all the sorcery and wisdom of the world, bestowed upon her by the Ancient known as Ravenna, Aerial finally comes face-to-face with the White Witch and her vampire sons. Backed by her husband, his army of good, and a throng of magical steeds, she must unlock the power of the pearl to awaken her true destiny and save the world.

Child of the Light

As World War I draws to an end, a communist revolt brings gunfire to the city's tree-lined avenues, and economic disaster threatens to destroy society. Amid the chaos, three children find friendship.

Child of a Dream

Alexander: Child of a Dream is Valerio Massimo Manfredi's magnificent story of one of history's greatest characters and his quest to conquer the civilized world. Who could have been born to conquer the world other than a god? Mesmeric beauty, consuming desires, an insatiable hunger. Then premature death. This is the story of a boy, born to a great king – Philip of Macedon – and his sensuous queen, Olympias. It tells of the stern discipline of Philip and the wild passions of Olympias, and how, together, they formed Alexander, a young man of immense, unfathomable potential, capable of subjugating the known world to his power, and thought of by his contemporaries as a god. Alexander's swift ascent to manhood, as a protégé of Aristotle and close friend of Ptolemy and Hephaeston, and the start of his great adventure to conquer the civilized world is recounted in this awe-inspiring novel. This is a wonderful evocation of the far-off and fascinating civilization of ancient Greece, revealed in vibrant tones and scholarly detail.

The Protectors Trilogy: Book Three

?You want to talk about not knowing yourself? Try to blame it on shape shifting? Are we really the first freaking teenagers to feel that way? Do you think that being a Protector makes you weak to admit it? Why? Why is it so bad to admit it? You are fighting for who you are, but if you buy into the lie that you're fighting alone then ? then you're the one hurting yourself ? The silence was as quick as her anger. She had raised her face, holding it tightly shut against any expression until the end, when whatever control over the rise of her voice had shattered. She looked scared. Not of me, but of what she'd said. She stared at me, nearly panting, waiting to see what I would do, if I'd fall into the bed she'd pushed me back against, or if I'd fight back. But it wouldn't be her I'd be fighting. I could shift out. I could disappear. That would have been easiest.

Willful Child

These are the voyages of the starship, A.S.F. Willful Child. Its ongoing mission: to seek out strange new worlds on which to plant the Terran flag, to subjugate and if necessary obliterate new life life-forms, to boldly blow the... And so we join the not-terribly-bright but exceedingly cock-sure Captain Hadrian Sawback - think James T Kirk crossed with â€~American Dad' - and his motley crew on board the Starship Willful Child for a series of devil-may-care, near-calamitous and downright chaotic adventures through â€~the infinite vastness of interstellar spaceâ€(tm)... The bestselling author of the acclaimed Malazan Book of the Fallen sequence has taken a life-long passion for 'Star Trek' and transformed it into a hugely entertaining spoof on the whole mankind-exploring-space-for-the-good-of-all-species-but-trash-ing-stuff-with-a-lot-of-hi-tech-kit-along-the-way type over-blown science fiction adventure. The result is smart. inventive, occasionally OTT and often very funny - a novel that both deftly parodies the genre and pays fond homage to it.

Fortune's Child: A Novel of Empress Theodora (Book 1 of 2)

KIRKUS REVIEWS: "A meticulously researched historical account presented in the form of a thrilling political drama." GRAND PRIZE 2019 Best Book, Chanticleer International Book Awards

Her exquisite beauty sets her apart on stages and in the eyes of men. Stephen, a Syrian lad of striking good looks, is sold by his parents to a Persian wizard, who teaches him a skill in languages that will serve him well. By the time Destiny brings them together in Antioch, Theodora has undergone heart-rending trials and a transformation, while Stephen has been sold again . . . and castrated. Discover the enduring bond that, however imperfect, prompts Theodora—as Empress—to request palace eunuch Stephen to write her biography.

The Rise of Magicks

'On the shield, one of seven forged in the timeless past to hold back the dark, fell a single drop of blood. So the shield weakened, and the dark, spider-patient, waited as the decades passed, and the wound spread under the grass and ground.' The brilliant conclusion to the Chronicles of the One trilogy - an epic story of love, war, family and magic. Fallon Swift has spent all her life preparing for this moment. No longer can she stand by whilst her fellow Magicks are hunted by the fanatical Purity Warriors or rounded up and experimented on by the government. Fallon must follow her destiny to restore the magical shield that once protected them all. But she can't do it alone. It is time to build her army, to take on her nemesis and take down the enemy. She has learned to fight, now she must restore the light and banish the dark forever. The final battle has begun...
