Intro

Which of the following laws allow a mentally stable patient to leave AMA (against medical advice) from a hospital?

You're the nurse caring for a patient who is newly diagnosed with CHF. You may ask the UAP to perform all of the following tasks EXCEPT

Medical battery often occurs when a doctor or other healthcare provider denies you the chance to choose whether to get medical therapy. The act may involve touching or other objectionable behavior and is done with intention. Which of the following is an example of medical battery?

As it pertains to medical competence, nurses are required to deliver a level of care that avoids or minimizes risk. What is the term for this?

In the event that you are unable to speak for yourself, a health care proxy designates a trusted individual as your agent, proxy, or representative to communicate your intentions and make healthcare choices on your behalf. The power of attorney will be the health care proxy. Which of the following individuals would need a health care proxy?

What is the name of the act that states that when a patient is admitted to a healthcare institution, the nurse has a legal obligation to explain and educate the patient about advance directives?

Which of the following ensures that patients receive appropriate care, patient independence and decision-making rights, patient respect, privacy, and access to a complaints mechanism?

It is imperative that the nurse advocate for the patient. Which of the following best describes a nurse advocating for a patient?

What is the term for something that often entails giving responsibility for the outcome while assigning non-licensed assistance people to execute activities or duties linked to patient care?

What is the term for a collaborative approach that supports suggested treatment plans to ensure that patients with disabilities, illnesses, or injuries receive the proper medical care?

12 What is the name of the federal legislation that mandated the development of national standards to prevent the disclosure of sensitive patient health information without the patient's knowledge or consent?

There is a fire on a medical surgical unit on the second floor of the hospital. After the nurse has rescued her patients, what is the next step for the nurse to take?

A nurse in an assisted living cares for many different types of older adults with various health conditions. The nurse knows that patients with sensory changes as they age are at a high risk of which of the following?

The UAP walks into a patient's room who is on oxygen and smoking in his bathroom. What should the UAP do immediately?

A housekeeper is taking out the trash when he is stuck by a needle. What is the appropriate next step for the housekeeper?

What is the acronym that is important to remember when using a fire extinguisher in a fire?

What regulatory body is responsible for enforcing compliance with safety rules and procedures in hospitals?

restraints. The nurse notices that the restraints are tied to the bed rails. What action should the nurse take first?

You're assessing a pre-teen with the father present. The father explains that he is concerned that his child is experiencing depression. Which of the following is NOT an indicator that the patient is experiencing depression?

You're assessing a newborn and you begin asking the mom if she wants immunizations for her infant. The mom says no. What is your BEST response to the mother?

You're assessing a 3 day old newborn at his first doctor's appointment. The infant was born at 8 lbs 5 oz. Which of the following would warrant concern for this infant?

You're caring for a patient who was recently diagnosed with glaucoma. You know that which of the following ethnicities is at HIGHEST risk for glaucoma

You're assessing a two week old breastfed infant. Which of the following would cause concern?

You're educating a patient on why pap smears are so important for sexually active women. What response by the patient lets you know that the patient understands the education provided?

A 30 year old patient's mother joins him in his PCP's office for an appointment for evaluation of psychotic symptoms that the patient has been experiencing. The mother states that she has noticed that the patient is very withdrawn when around others, he is beginning to make up words that make no sense to her, and has been laughing very loudly at random. Which of the following diagnoses does the nurse anticipate for this patient?

20 A 14 year old girl reports that she feels very ashamed after she binge eats so she takes many laxatives to "offset" what she eats. When the nurse assesses the patient's teeth are yellow and chipped. Which of the following does the nurse anticipate for this patient?

A patient is newly diagnosed with Alzheimer's disease. This patient often experiences memory loss and takes longer to complete normal tasks. Which of the following should be included in this patient's plan of care at home?

A parent brings their 7 year old child with ADHD to the pediatric office for a well-child check up. Which of the following interventions will be BEST for this patient?

A mother presents to the pediatrician's office concerned for her 5 year child with ASD (autism spectrum disorder). She states that her child will start kindergarten in two weeks and she is afraid that her child will not cope well. Which of the following may the nurse suggest to BEST help the child?

You are assessing a patient with a new ileostomy. You notice that the ostomy is purple. Which of the following is MOST likely the issue with the new ileostomy?
