Latino Pentecostals in America

This “excellent study” of the Latino Pentecostal movement is “an important resource for understanding the future of Christianity in North America” (Choice). Every year an estimated 600,000 U.S. Latinos convert from Catholicism to Protestantism, a transformation spearheaded by the Pentecostal movement and Assemblies of God. Latino Assemblies of God leaders—and their 2,400 churches across the nation—represent a new and growing force in denominational, Evangelical, and presidential politics. In a deeply researched social and cultural history, Gastón Espinosa uncovers the roots and contemporary developments of this remarkable turn. *Latino Pentecostals in America* traces the Latino AG back more than a century, to the Azusa Street Revivals in Los Angeles and Apostolic Faith Revivals in Houston from 1906 to 1909. Espinosa describes the uphill struggles for indigenous leadership, racial equality, women in the ministry, social and political activism, and immigration reform. Their outspoken commitment to an active faith has led a new generation of leaders to combine the reconciling message of Billy Graham with the social transformation politics of Martin Luther King Jr. This eye-opening study explains why this group of working-class Latinos once called “the Silent Pentecostals” is silent no more. By giving voice to their untold story, Espinosa enriches our understanding of the diversity of Latino religion, Evangelicalism, and American culture.

William J. Seymour and the Origins of Global Pentecostalism

In 1906, William J. Seymour (1870–1922) preached Pentecostal revival at the Azusa Street mission in Los Angeles. From these and other humble origins the movement has blossomed to 631 million people around the world. Gastón Espinosa provides new insight into the life and ministry of Seymour, the Azusa Street revival, and Seymour's influence on global Pentecostal origins. After defining key terms and concepts, he surveys the changing interpretations of Seymour over the past 100 years, critically engages them in a biography, and then provides an unparalleled collection of primary sources, all in a single volume. He pays particular attention to race relations, Seymour's paradigmatic global influence from 1906 to 1912, and the break between Seymour and Charles Parham, another founder of Pentecostalism. Espinosa's fragmentation thesis argues that the Pentecostal propensity to invoke direct unmediated experiences with the Holy Spirit empowers ordinary people to break the bottle of denominationalism and to rapidly indigenize and spread their message. The 104 primary sources include all of Seymour's extant writings in full and without alteration and some of Parham's theological, social, and racial writings, which help explain why the two parted company. To capture the revival's diversity and global influence, this book includes Black, Latino, Swedish, and Irish testimonies, along with those of missionaries and leaders who spread Seymour's vision of Pentecostalism globally.

Political Pentecostalism

The last decade has witnessed fundamental shifts in the relationship between religion and politics. In this light, religious symbols, motifs, justifications, and practices are increasingly noticeable in political discourses, as well as agendas, particularly in the Global South, with Pentecostal Christians standing out as salient actors. Performative practices enacted in political contexts such as the anointing of state authorities, prophecies, warfare prayers, etc. have drawn the attention of numerous scholars worldwide. The four surveys contained in this volume account for these developments in Africa, Asia, and Latin

America, and synoptically engage with the following question: Can any meaningful nexus connecting multiple and apparently isolated nodes of Pentecostal engagement in the political sphere around the globe be identified? In addition, they do the groundwork for drawing parallels on a global level, on the basis of which new light can be shed on fundamental changes in Pentecostal actorhood and self-understanding. Thus, local developments and ethnographic studies are for the first time reflected upon from a global perspective.

Latino Pentecostals in America

Today 12.5 million U.S. Latinos self-identify as Protestant, and Assemblies of God is the destination for one out of four converts. Gastón Espinosa reveals the church's struggle for indigenous leadership, racial equality, women in the ministry, and immigration reform and shows why "Silent Pentecostals" are an activist voice in Evangelical politics.

Church and Politics in Latin America

Complex and profound changes have been taking place in the Latin American Catholic Church in the 20th century which have often been misunderstood and misrepresented. This is a collection of essays written by scholars working in the fields of history, political science, sociology, law and theology.

Power, Politics, And Pentecostals In Latin America

Today over forty million Latin Americans classify themselves as Protestant, of which the overwhelming majority belong to some form of Pentecostalism. The rapid dissemination of Pentecostal beliefs has produced vibrant alternatives to traditional dominant culture and changed relations within the family, locality, and workplace. This volume introduces broad issues in the Pentecostal movement, including gender relations, political power and organization, and inter-Pentecostal and ecumenical relations. These themes are then examined more specifically in the country case studies, which address the historical foundations of the Pentecostal movement, patterns of and explanation for its growth, and the consequences of its expanding presence, including increased political influence.

Religion and Politics in Latin America

This book explores the transformations in religion in conjunction with political change. Professor Levine suggests, highlights the dynamic and dialectical interaction between religion and politics in general, and addresses the more universal problem of relating thought to action. Originally published in 1981. The Princeton Legacy Library uses the latest print-on-demand technology to again make available previously out-of-print books from the distinguished backlist of Princeton University Press. These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions. The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905.

Faith and Power

"Faith and Power is framed within the larger processes of immigration, refugee policies, deindustrialization, the rise of the religious left and right, the human rights revolution, and the Chicana/o, Puerto Rican, and Immigrant freedom movements. The book explores religion and religious politics as part of the larger ecosystem that has shaped Latina/o communities specifically and American politics in general"--

The Oxford Handbook of Latinx Christianities in the United States

"This handbook is organized by various themes with the study of U.S. Latina/x/o Christianities. Keeping in mind that the Oxford Handbooks are geared toward graduate students and professors, the organization and layout of this handbook provides a thorough examination of interlocking themes within the academic study of Latina/x/o Christian histories, sociologies, and anthropologies. These essays, taken individually and collectively, pay attention to both the diachronic (over time, historical) as well as the synchronic (contemporary). Moreover, the essays cover the major U.S. Latina/x/o ethnic groups as well as major Christian denominations and movements. Finally, essays in the handbook attend to important intersectional realities that include empire, migration, diaspora, hybridities, borderlands, and gender"--

A Documentary History of Religion in America

Up-to-date one-volume edition of a standard text For decades students and scholars have turned to the two-volume Documentary History of Religion in America for access to the most significant primary sources relating to American religious history from the sixteenth century to the present. This fourth edition—published in a single volume for the first time—has been updated and condensed, allowing instructors to more easily cover the material in a single semester. With more than a hundred illustrations and a rich array of primary documents ranging from the letters and accounts of early colonists to tweets and transcripts from the 2016 presidential election, this volume remains an essential text for readers who want to encounter firsthand the astonishing scope of religious belief and practice in American history.

Sowing the Sacred

"Enter the religious landscape of California's industrial agriculture in the 1940s. Anthropologist Walter Goldschmidt's early 1940s reconnaissance tour of the social scene in the little town of Wasco offers us a composite picture of religious institutions in a typical industrial-ag town in the state. Anthropologists and sociologists of the time pointed to the proliferation of Pentecostal churches as evidence of industrial farming's undesirable social outcomes. In particular, they noted the enthusiastic and emotional expressions of Pentecostal services and how the recently dispossessed Dust Bowl or "Okie" migrants flocked into these churches. By the 1940s, Dorothea Lange's photograph of the Okie "Migrant Mother" capturing the pathos of white plight had surfaced and caught the national spotlight. California, many noted, had a migration problem, as many "undesirables" flooded into the state. Women such as the one captured in Lange's photograph "Revival Mother" standing and worshipping with eyes closed and raised hands in a makeshift garage church typified the poverty of Pentecostals described by the university researchers"--

Latino and Muslim in America

The experience and mediation of race-religion -- The first wave: from Islam in Spain to the Alianza in New York -- The second wave: Spanish dawah to women, online and in Los Angeles -- Reversion stories: the form, content, and dissemination of a logic of return -- The 9/11 factor: Latino Muslims in the news -- Radicals: Latino Muslim hip hop and the "clash of civilizations thing"--The third wave: consolidations, reconfigurations and the 2016 news cycle

Pentecostals and Charismatics in Latin America and Latino Communities

Pentecostal-charismatics in Latin America and among Latinos: communities that share profound historical, linguistic and cultural roots. This compilation brings together practitioners and academics with pentecostal-charismatic affiliations, who analyse from within the development of the movement among these diverse communities.

Religion, Attire, and Adornment in North America

Clothing, dress, and ornamentation are crucial parts of individual and communal religious life and practice, yet they are too often overlooked. This book convenes leading scholars to explore the roles of attire and adornment in the creation and communication of religious meaning, identity, and community. Contributors investigate aspects of religious dress in North America in the nineteenth, twentieth, and twenty-first centuries, considering adornment practices in a wide range of religious

traditions and among individuals who straddle religious boundaries. The collection is organized around four frameworks for understanding the material culture of religion: theological interpretation, identity formation, negotiation of tradition, and activism. *Religion, Attire, and Adornment in North America* features essays on topics such as Black Israelites' use of African fabrics, Christian religious tattoos, Wiccan ritual nudity, Amish "plain dress," Mormon sacred garments, Hare Krishna robes, and the Church of Body Modification. Spanning the diversity of religious practice and expression, this book is suitable for a range of undergraduate courses and offers new insights for scholars in many disciplines.

The Rowman & Littlefield Handbook of Contemporary Christianity in the United States

This one-volume handbook examines Christianity's contributions to and conflicts with the contemporary culture of the postmodern United States. Chapters present historical, cultural, and theological context for the ways conservative, mainline, and evangelical Christian traditions have influenced and responded to modern life.

Latin America's Neo-Reformation

The purpose of this study is to focus on the intersection of religion and politics. Do different religions result in different politics? More specifically, are there significant contrasts between the political attitudes and behavior of Catholics and Protestants in Latin America?

Pentecostal Power

Since the 1980s an explosion of Pentecostalism across Latin America has attracted considerable attention across various academic disciplines. This edited volume provides a multidisciplinary and continent-wide treatment of Latin American Pentecostalism by various experts, representing an important contribution to the current literature.

The Cambridge Companion to American Protestantism

A comprehensive guide—from both chronological and a topical perspective—to a broad, diverse, deeply rooted, and influential religious tradition.

A Promising Problem

Chicana/o history has reached an intriguing juncture. While academic and intellectual studies are embracing new, highly nuanced perspectives on race, class, gender, education, identity, and community, the field itself continues to be viewed as a battleground, subject to attacks from outside academia by those who claim that the discipline promotes racial hatred and anti-Americanism. Against a backdrop of deportations and voter suppression targeting Latinos, *A Promising Problem* presents the optimistic voices of scholars who call for sophisticated solutions while embracing transnationalism and the reality of multiple, overlapping identities. Showcasing a variety of new directions, this anthology spans topics such as growth and reassessment in Chicana/o history manifested in a disruption of nationalism and geographic essentialism, the impact of legal history, interracial relations and the experiences of Latino subpopulations in the US South, race and the politics of religious history, transborder feminism in the early twentieth century, and aspirations for a field that increasingly demonstrates the relational dynamics of cultural production. As they reflect on the state of their field, the contributors offer significant insights into sociology, psychology, anthropology, political science, education, and literature, while tracing the history of activism throughout the last century and debating the very concepts of "Chicano" and "Chicano history." Although the political landscape is fraught with closed-off rhetoric, *A Promising Problem* encourages diversity of thought and opens the possibilities of historical imagination.

Global Renewal Christianity

This final volume is an authoritative collection from more than two dozen leaders and scholars of the Spirit-empowered movement.

Protestantism and State Formation in Postrevolutionary Oaxaca

In this fascinating book Kathleen M. McIntyre traces intra-village conflicts stemming from Protestant conversion in southern Mexico and successfully demonstrates that both Protestants and Catholics deployed cultural identity as self-defense in clashes over local power and authority. McIntyre's study ap-

proaches religious competition through an examination of disputes over *tequio* (collective work projects) and *cargo* (civil-religious hierarchy) participation. By framing her study between the Mexican Revolution of 1910 and the Zapatista uprising of 1994, she demonstrates the ways Protestant conversion fueled regional and national discussions over the state's conceptualization of indigenous citizenship and the parameters of local autonomy. The book's timely scholarship is an important addition to the growing literature on transnational religious movements, gender, and indigenous identity in Latin America.

Social Work with Latinos

The focus on Latinos in the United States has generally overlooked key social-economic-political dimensions that are not only growing in importance, but may ultimately hold an important key to how well this group does in the immediate and distant future in the country. The approximate ten-year period since this text's initial publication has witnessed an increase in scholarship and new social-political-economic developments regarding this population group. *Social Work with Latinos, Second Edition* captures these advances and adds to the existing body of work in this area. In particular, this revised edition provides an up-to-date demographic profile; identifies the rewards and challenges for the development of social work interventions focused on Latinos; includes a conceptual foundation from which to develop social work strategies for outreach, engagement, service-provision, and evaluation; features a series of case illustrations to highlight how cultural competency/humility can unfold to better reach this population group; grounds the Latino experience within a social, economic, cultural, and political context; and provides recommendations for social work education, research and practice.

Card-Carrying Christians

In the waning years of Latin America's longest and bloodiest civil war, the rise of an unlikely duo is transforming Colombia: Christianity and access to credit. In her exciting new book, Rebecca C. Bartel details how surging evangelical conversions and widespread access to credit cards, microfinance programs, and mortgages are changing how millions of Colombians envision a more prosperous future. Yet programs of financialization propel new modes of violence. As prosperity becomes conflated with peace, and debt with devotion, survival only becomes possible through credit and its accompanying forms of indebtedness. A new future is on the horizon, but it will come at a price.

Lived Religion, Pentecostalism, and Social Activism in Authoritarian Chile

In *Giving Life to the Faith*, Joseph Florez offers an account of Pentecostal activism and the search for a new interpretation of Christian social responsibility during the extraordinary circumstances of everyday life during the Chilean dictatorship.

The Strangers in Our Midst

"The Strangers in Our Midst tells the story of how American evangelicals have responded to refugees and immigrants - ranging from the Cuban refugee influx in the 1960s, to the Southeast Asian refugees in the 1980s, to undocumented immigrants from Latin America in the 1990s and 2000s. Evangelical Christians have been a pillar of US immigration and refugee policy since the end of World War II in two key ways: by acting as refugee sponsors and by offering legalization assistance to undocumented immigrants. They developed an elaborate evangelical theology of hospitality, which emphasized scriptural commands to "welcome the stranger." Initially, evangelicals did not distinguish between legal immigrants and refugees and "illegal," undocumented immigrants. However, a growing anti-immigrant consensus in American society at large and their political alignment with the Republican Party caused them to shed their welcoming approach to immigrants in the 1990s. Evangelicals were now divided in their stances on immigration, as conservative evangelicals viewed only legal immigrants as deserving of their aid, while progressive evangelicals-led by their Latinx coreligionists-emphasized the need for Christians to help all immigrants. In the twenty-first century, a group of Latinx evangelical leaders resurrected and reshaped the evangelical theology of hospitality in an effort to turn the tide in the evangelical debate on immigration. The results are mixed: Unprecedented numbers of evangelicals favor a pathway to citizenship for undocumented immigrants. Yet as the 2016 presidential election showed, this preference had no impact on their political choices"--

Critical Dialogues in Latinx Studies

Introduces new approaches, theoretical trends, and understudied topics in Latinx Studies This groundbreaking work offers a multidisciplinary, social-science oriented perspective on Latinx studies, including the social histories and contemporary lives of a diverse range of Latina and Latino populations. Editors Ana Y. Ramos-Zayas and Mérida M. Rúa have crafted an anthology that is unique in both form and content. The book combines previously published canonical pieces with original, cutting-edge works created for this volume. The sections of the text are arranged thematically as critical dialogues, each with a brief preface that provides context and a conceptual direction for the scholarly conversation that ensues. The editors frame the volume around the “humanistic social sciences,” using the term to highlight the historical and social contexts under which expressive cultural forms and archival records are created. *Critical Dialogues in Latinx Studies* masterfully sheds light on the diversity and complexity of the everyday lives of Latinx populations, the political economic structures that shape enduring racialization and cultural stereotyping, and the continuing efforts to carve out new lives as diasporic, transnational, global, and colonial subjects.

Engaging Latino/a/x Theologies

Sharon E. Heaney describes how the life-giving interruption of Latin American poets, novelists, artists, and theologians changed her life in a conflict-ridden Northern Ireland. An outsider, in this study she provides an engagement with a stream of theology in the United States she takes to be exemplary. Latino/a/x theology is *teología en conjunto* (collaborative theology). It models ways to examine complicated and contested histories and identities, and it resists dominant assumptions about theological points of departure in favor of also valuing the everyday as *locus theologicus*. Identifying major themes and foundational thinkers, alongside more recent developments, Heaney offers an overview and invites readers to further reading, study, and formation. Modelling what it esteems, each chapter closes in conversation with a Latino/a/x leader in the church. The conclusion is written by practical theologian, Altagracia Pérez-Bullard. She affirms, this “is not just an intellectual exercise, . . . this engagement . . . is the practice of our lives as we journey with God and as we journey with one another. . . . It is an exciting journey. It changes us.”

God's Resistance

"This book explores the power of faith in mobilizing resistance to restrictive immigration policies in the US by analyzing the strategies, successes, and failures of faith-based immigrant rights organizations"--

Pentecostal Higher Education

This book presents a theological and missiological argument for pentecostals to engage more forcefully in higher education by expanding and renewing their commitment toward operating their own colleges and universities. The volume's first part describes past and present developments within higher education, highlighting strengths and weaknesses of both pentecostal and (post)secular institutions. The second part highlights the future potential of pentecostal higher education, which is enriched by a Spirit-empowered and mission-minded spirituality that focuses on forming the hearts, heads, and hands of students. Pentecostals increasingly desire to influence all spheres of society, an endeavor that could be amplified through a strengthened engagement in higher education, particularly one that encompasses a variety of institutions, including a pentecostal research university. In developing such an argument, this research is both comprehensive and compelling, inviting pentecostals to make a missional difference in the knowledge-based economies that will characterize the twenty-first century.

The Religious Left in Modern America

This edited collection of exciting new scholarship provides comprehensive coverage of the broad sweep of twentieth century religious activism on the American left. The volume covers a diversity of perspectives, including Protestant, Catholic, and Jewish history, and important essays on African-American, Latino, and women's spirituality. Taken together, these essays offer a comparative and long-term perspective on religious groups and social movements often studied in isolation, and fully integrate faith-based action into the history of progressive social movements and politics in the modern United States. It becomes clear that throughout the twentieth century, religious faith has served as a powerful motivator and generator for activism, not just as on the right, where observers regularly link religion and politics, but on the left. This volume will appeal to historians of modern American politics, religion, and social movements, religious studies scholars, and contemporary activists.

New Mexico's Moses

In *New Mexico's Moses*, Ramón A. Gutiérrez dives deeply into Reies López Tijerina's religious formation during the 1940s and 1950s, illustrating how his Pentecostal foundation remained an integral part of his psyche even as he migrated toward social-movement politics. An Assemblies of God evangelist turned Pentecostal itinerant preacher, Tijerina used his secularized apocalyptic theology to inspire the dispossessed heirs of Spanish and Mexican land grants fighting to recuperate ancestral lands throughout northern New Mexico and the Southwest. Using Tijerina's collected sermons, Gutiérrez demonstrates the ways in which biblical prophecy influenced Tijerina throughout his life from his early days as a preacher to his leadership of the Alianza Federal de Mercedes. Tijerina sought justice for those who had lost their lands and was determined to eradicate the most egregious forms of racism and to valorize the language and culture of Mexicanos. Translated into English for the first time here, Tijerina's sermons serve as a blueprint for the religious origins of the Mexican American Civil Rights Movement.

Bearing Witness

Much like theology itself, the experience of trauma has the potential to reach into almost any aspect of life, refusing to fit within the tramlines. A follow up to the 2020 volume *"Feminist Trauma Theologies"*

Apostles of Change

This "important and well-researched" study of 1960s urban Latino activism and religion is "brimming with the ideas and voices of . . . Latinx activists" (Llana Barber, author of *Latino City*). In the late 1960s, American cities found themselves in steep decline, with poor and working-class families hit the hardest. Many urban religious institutions debated whether to move to the suburbs. Against the backdrop of the Black and Brown Power movements, which challenged economic inequality and white supremacy, young Latino radicals began occupying churches and disrupting services to compel church communities to join their protests against urban renewal, poverty, police brutality, and racism. *Apostles of Change* tells the story of these occupations and establishes their context within the urban crisis. It underscores the tensions they created and the activists' bold, new vision for the church and the world. Through case studies from Chicago, Los Angeles, New York City, and Houston, Felipe Hinojosa reveals how Latino freedom movements crossed the boundaries of faith and politics. He argues that understanding these radical politics is essential to understanding the dynamic changes in Latino religious groups from the late 1960s to the early 1980s.

Women in Pentecostal and Charismatic Ministry

Women in Pentecostal and Charismatic Ministry: Informing a Dialogue on Gender, Church, and Ministry, co-edited by de Alminana and Olena, offers missing and/or silent voices in the Pentecostal/charismatic movement an important corrective and a way forward to shape gender-focused discussions.

Expanding Energy

This book is the seventh and final volume in the *Global Story of Christianity* series. The volume's chapters, written by major scholars in the field, spotlight vital episodes and themes for understanding the historical development of Christianity in the United States and Canada. Serving as an accessible text for students and an informative volume for scholars, the book provides new insights into Christianity's development in North America, offering fresh perspectives on topics frequently overlooked by scholars. The book situates the history of North American Christianity within broader themes associated with Christianity's role as a global religion.

Holy Spirit, The

Reflects on the Holy Spirit in relation to the life of faith: the chapters consider how we become aware of the Holy Spirit's presence; review how the tradition of faith has interpreted the movement of the Holy Spirit; and detail what it means to discern and embrace the gift of the Holy Spirit.

Mexicanos, Third Edition

Responding to shifts in the political and economic experiences of Mexicans in America, this newly revised and expanded edition of *Mexicanos* provides a relevant and contemporary consideration of this

vibrant community. Emerging from the ruins of Aztec civilization and from centuries of Spanish contact with indigenous people, Mexican culture followed the Spanish colonial frontier northward and put its distinctive mark on what became the southwestern United States. Shaped by their Indian and Spanish ancestors, deeply influenced by Catholicism, and often struggling to respond to political and economic precarity, Mexicans play an important role in US society even as the dominant Anglo culture strives to assimilate them. With new maps, updated appendixes, and a new chapter providing an up-to-date consideration of the immigration debate centered on Mexican communities in the US, this new edition of *Mexicanos* provides a thorough and balanced contribution to understanding Mexicans' history and their vital importance to 21st-century America.

Protestants on Screen

Protestants on Screen explores the Protestant contributions to American and European film from the silent era to the present day. The authors analyze how Protestant filmmakers, beliefs, theology, symbols, sensibilities, and cultural patterns have shaped the history of film. Challenging the stereotype of Protestants as world-denouncing-and-defying puritans and iconoclasts who stood in the way of film's maturation as an art, the authors contend that Protestants were among the key catalysts in the origins and development of film, bringing an identifiably Protestant aesthetic to the medium. The essays in this volume track key Protestant themes like faith and doubt, sin and depravity, biblical literalism, personal conversion and personal redemption, holiness and sanctification, moralism and pietism, Providence and secularism, apocalypticism, righteousness and justice, religion and race, the priesthood of all believers and its offshoots-democratization and individualism. Protestants, the essays in this volume demonstrate, helped birth and shape the film industry and harness the power of motion pictures for spiritual instruction, edification, and cultural influence.

Navigating Languages, Literacies and Identities

Navigating Languages, Literacies and Identities showcases innovative research at the interface of religion and multilingualism, offering an analytical focus on religion in children and adolescents' everyday lives and experiences. The volume examines the connections between language and literacy practices and social identities associated with religion in a variety of sites of learning and socialization, namely homes, religious education classes, places of worship, and faith-related schools and secular schools. Contributors engage with a diverse set of complex multiethnic and religious communities, and investigate the rich multilingual, multiliterate and multi-scriptal practices associated with religion which children and adolescents engage in with a range of mediators, including siblings, peers, parents, grandparents, religious leaders, and other members of the religious community. The volume is organized into three sections according to context and participants: (1) religious practices at home and across generations, (2) religious education classes and places of worship and (3) bridging home, school and community. The edited book will be a valuable resource for researchers in applied linguistics, linguistic anthropology, socio-linguistics, intercultural communication, and early years, primary and secondary education.

Hispanic Women/Latina Leaders Overcoming Barriers in Higher Education

Though the percentage of Hispanics in universities continues to grow, few Hispanic women/Latinas advance into leadership positions; instead, many are constrained by a glass ceiling. Therefore, the voices and experiences of those that have overcome these barriers in higher education are pivotal stories to be told. Ranging from the perceptions of these women's journeys to leadership, to an understanding of the barriers they encounter, to the question of their access to the resources they need, each factor is a critical component to understanding Hispanic women/Latinas in the higher education atmosphere. Comprehensive research in this area is needed to explore the themes of identity in terms of racial/ethnic identification, social perception, and gender, along with systemic themes on the institutional level regarding the recruitment, retention, and promotion of a diverse higher education administration. *Hispanic Women/Latina Leaders Overcoming Barriers in Higher Education* explores the recruitment, promotion, retention process, and the barriers and resilience needed for Hispanic women/Latinas in higher education leadership roles. The chapters use data collected via a qualitative, phenomenological research study including open-ended interviews, field notes, biographical questionnaires, and a researcher's reflective journal. While covering topics surrounding these women's experiences such as identity themes, self-identification, institutional shortcomings, and valuable support systems, this book is ideally intended for Latina educators, informing legislators, educational officials, and

higher education administrators along with practitioners, researchers, academicians, and students interested in institutional equality, female empowerment, and Hispanic women/Latinas' journey in higher education.

Essentials of Strategic Management

This title responds head-on to the growing requests by business faculty for a concise, theory-driven strategic management concepts and cases text.

Strategic Management

Strategic Management: Text and Cases, 2nd Edition, by Dess/Lumpkin/Eisner is both readable and rigorous - written for today's student. A rocket-ship in its first edition, the revision continues to provide solid treatment of traditional topics in strategic management, as well as contemporary topics like entrepreneurship, knowledge management, and internet strategies. The prestigious author team understands the importance of thorough, modern concepts illustrated by rich, relevant and teachable cases. The new case selections emphasize variety, currency, and familiar company names. The cases are up-to-date in terms of both financial data and strategic issues. This group of cases gives both instructors and students unparalleled quality and variety. Based on consistent reviewer feedback, these selections combine comprehensive and shorter length cases about well known companies.

Social Issues in the Workplace: Breakthroughs in Research and Practice

Corporations have a social responsibility to assist in the overall well-being of their employees through the compliance of moral business standards and practices. However, many societies still face serious issues related to unethical business practices. Social Issues in the Workplace: Breakthroughs in Research and Practice is a comprehensive reference source for the latest scholarly material on the components and impacts of social issues on the workplace. Highlighting a range of pertinent topics such as business communication, psychological health, and work-life balance, this multi-volume book is ideally designed for managers, professionals, researchers, students, and academics interested in social issues in the workplace.

Strategic Management

STRATEGIC MANAGEMENT: Creating Competitive Advantages, 3/e, by Dess, Lumpkin, and Eisner, responds to the demands of today's rapidly changing and unpredictable global marketplace that students will face when they enter the business world. The concepts-only text provides students with a timely, rigorous, and relevant book written in an engaging manner to spur their interest and excitement. This book provides a solid treatment of traditional topics in strategic management as well as contemporary topics such as entrepreneurship, knowledge management, and e-commerce and internet strategies. Numerous applications from business practice plus sidebars (approximately six per chapter) bring key concepts to life. Instructors can create their own case volumes for use with Strategic Management 3rd Edition from a variety of source- pre-selected case packets, customizing from a recommended set which have been carefully mapped to the chapter concepts, or from the entire Primis database which features cases from Harvard, Darden, INSEAD, Ivey, and other reputable sources.

Books in Print

For courses in strategy and strategic management. Core strategic management concepts without the excess. Just the essentials, Strategic Management and Competitive Advantage strips out excess by only presenting material that answers the question: does this concept help students analyze real business situations? This carefully crafted approach provides students with all the tools necessary for strategic analysis. MyManagementLab for Strategic Management is a total learning package. MyManagementLab is an online homework, tutorial, and assessment program that truly engages students in learning. It helps students better prepare for class, quizzes, and exams—resulting in better performance in the course—and provides educators a dynamic set of tools for gauging individual and class progress. Please note that the product you are purchasing does not include MyManagementLabLab. MyManagementLabLab Join over 11 million students benefiting from Pearson MyLabs. This title can be supported by MyManagementLabLab, an online homework and tutorial system designed to test and build your understanding. Would you like to use the power of MyManagementLabLab to accelerate your

learning? You need both an access card and a course ID to access MyManagementLabLab. These are the steps you need to take: 1. Make sure that your lecturer is already using the system Ask your lecturer before purchasing a MyLab product as you will need a course ID from them before you can gain access to the system. 2. Check whether an access card has been included with the book at a reduced cost If it has, it will be on the inside back cover of the book. 3. If you have a course ID but no access code, you can benefit from MyManagementLabLab at a reduced price by purchasing a pack containing a copy of the book and an access code for MyManagementLabLab (ISBN:9781292060378) 4. If your lecturer is using the MyLab and you would like to purchase the product... Go to www.mymanagementlab.com to buy access to this interactive study programme. For educator access, contact your Pearson representative. To find out who your Pearson representative is, visit www.pearsoned.co.uk/relocator

Strategic Management and Business Policy

A realist2s guide to management, the authors capture the complex life of organizations, providing not only an account of theories, but also an introduction to their practice with examples from everyday life and culture discussing the key themes and debates along the way. Used by nearly 50,000 students and tutors worldwide, Managing and Organizations has been praised for its breadth, innovative content and application to real life. Along with its full coverage of all the essential topics of organizational behavior, the book offers a critical perspective that gives the reader the tools to question dominant assumptions about organizations. New to this edition: A new chapter structure to create a clearer, elegant chapter navigation for students. Chapters have now been streamlined and pulled back to no more than 15,000 words each New and up to date global cases and examples to engage students (Including Netflix, the Crown, Trump and North Korea). Updated and fully integrated IEB – offers a dynamic learning experience for students. Definitions in margins to support B&M learners who do not have English as a first language Updated online resources and new author videos. The book is supported by online resources for both instructors and students, including chapter-specific PowerPoint slides, an instructor manual, test bank, additional case studies articles for lecturers, MCQ's, SAGE journal articles, flashcards and relevant web links. Students get a free interactive eBook with every purchase of the print copy. For students studying Organisational Behaviour, Managing People in Organisations and Introductory Management courses.

Subject Guide to Children's Books in Print 1997

The challenges faced by diversified corporations—firms that operate in more than one industry or market—have changed over the years. In this new edition, Olivier Furrer helps students of corporate strategy to consider the impact of critical changes in resources, businesses and headquarters roles on the firm's ability for establishing and sustaining corporate advantage. New to this edition are stimulating pedagogical features and additional material such as a new chapter on the theoretical foundations of multibusiness firms, along with a host of new examples from across the world. A companion website supplements the book, providing PowerPoint slides, a test bank of questions, and lists of suggested case studies.

Strategic Management and Competitive Advantage: Concept and Cases, eBook, Global Edition

The magazine that helps career moms balance their personal and professional lives.

Managing and Organizations

How do we understand and also assess the health care of America? Where is health care provided? What are the characteristics of those institutions which provide it? Over the short term, how are changes in health care provisions affecting the health of the population, the cost of care, and access to care?. Health Care Delivery in the United States, now in a thoroughly updated and revised 9th edition, discusses these and other core issues in the field. Under the editorship of Dr. Kovner and with the addition of Dr. James Knickman, Senior VP of Evaluation, Robert Wood Johnson Foundation, leading thinkers and practitioners in the field examine how medical knowledge creates new healthcare services. Emerging and recurrent issues from wide perspectives of health policy and public health are also discussed. With an easy to understand format and a focus on the major core challenges of the delivery of health care, this is the textbook of choice for course work in health care, the reference for administrators and policy makers, and the standard for in-service training programs.;chapter

Books in Print Supplement

Armstrong's Handbook of Human Resource Management is the classic text for all students and practitioners of HRM. Providing a complete resource for understanding and implementing HR in relation to the needs of the business as a whole, it includes in-depth coverage of all the key areas essential to the HR function. The 12th edition has been radically updated to create a cutting-edge textbook, which encourages and facilitates effective learning. Comprehensive online support material is provided for the instructor, student and now also the practitioner, providing a complete resource for teaching and self-learning. The text has been updated to include all the latest developments in HRM and now includes two new sections covering HR skills and toolkits.

Corporate Level Strategy

With the far-reaching global impact of the COVID-19 pandemic, the demand and the necessity for digital enterprise transformation have accelerated exponentially. Management and strategies for the adoption and wider usage of newer digital technologies for the transformation of an enterprise through digital tools such as real-time video communications have shown that people no longer need to be required to be physically present in the same place; rather, they can be geographically dispersed. Technologies such as artificial intelligence, cloud computing, digital banking, and cloud data have taken over tasks that were initially done by human hands and have increased both the automation and efficiency of tasks and the accessibility of information and services. Inclusion of all these newer technologies has shown the fast pace at which the digital enterprise transformation is rapidly evolving and how new ecosystems are reshaping the digital enterprise model. Disruptive Technology and Digital Transformation for Business and Government presents interesting research on digital enterprise transformation at different stages and across different settings within government and industry, along with key issues and deeper insights on the core problems and developing solutions and recommendations for digital enterprise transformation. The chapters examine the three core leaders of transformation: the people such as managers, employees, and customers; the digital technology such as artificial intelligence and robotics; and the digital enterprise, including the products and services being transformed. They unravel the underlying process for management and strategies to fully incorporate new digital tools and technologies across all aspects of an enterprise undergoing transformation. This book is ideally intended for managers, executives, IT consultants, business professionals, government officials, researchers, students, practitioners, stakeholders, academicians, and anyone else looking to learn about new developments in digital enterprise transformation of business systems from a global perspective.

Working Mother

Perspectives on International Relations: Power, Institutions, and Ideas shows students new to the field how theories (perspectives) of international affairs—realism, liberalism, constructivism (identity), and critical theory—play a decisive role in explaining every-day debates about world affairs. Why, for example, do politicians and political scientists disagree about the causes of the ongoing conflict in Syria, even though they all have the same facts? Or, why do policymakers disagree about how to deal with North Korea when they are all equally well informed? The new Sixth Edition of this best-seller includes updates on Brexit, the rise of Donald Trump and other populist leaders, and continuing developments for ISIS, Syria, and Russia.

Strategic Management (Arab World Editions)

Management Information Systems provides comprehensive and integrative coverage of essential new technologies, information system applications, and their impact on business models and managerial decision-making in an exciting and interactive manner. The twelfth edition focuses on the major changes that have been made in information technology over the past two years, and includes new opening, closing, and Interactive Session cases.

Resources in Education

Emphasising the essential techniques of business best practices, this title offers thorough analysis and discussions on concepts such as environmental analysis, strategy development and strategy implementation.

Strategic Management

Although there are countless books available on strategic management, there are few, if any, that supply practical coverage of strategic planning, execution, and measurement until now. Considering the entire value chain, this book covers the complete process of strategic planning, execution, and measurement. Based on three decades of field-tested ex

Jonas and Kovner's Health Care Delivery in the United States

Contemporary Studies in Economic and Financial Analysis publishes a series of current and relevant themed volumes within the fields of economics and finance.

Armstrong's Handbook of Human Resource Management Practice

Intended as an introductory course, this text contains updated institutional material which is international in scope and deals with the effects of electronic commerce. It provides tips, questions and answers and special features.

The Impact of the Sarbanes-Oxley Act

This comprehensive text offers an engaging look into new and traditional strategic management topics. Its thorough coverage helps students develop an understanding of the wide range of theories and research available in this field—from competitive strategy and industry analysis to environmental trends and ethics. Integration of international, as well as specifically Canadian, issues and examples throughout provides an essential understanding of both Canadian global economics and its impact on business activities in any location.

Disruptive Technology and Digital Transformation for Business and Government

Perspectives on International Relations

Steen/Noe Fifth Canadian Edition has been written to make HR more accessible to students, more reflective of their situation, and more about them. Today, every manager is "in HR\

Management Information Systems

Concerns about China's ambitions to return to global centre stage as a great power have recently begun to focus on the Digital Silk Road (DSR), an umbrella term for various activities – commercial and diplomatic – of interest to the Chinese government in the cyber realm. Part of (or a spin-off from) the 2013 Belt and Road Initiative, by 2020 the DSR had become a focal point of China's foreign policy. But the DSR remains ill-defined and poorly understood. At the heart of such concerns is not that Chinese technology companies are becoming globally competitive, but rather that Beijing could use them to 'rewire' the global digital architecture, from physical cables to code. Dominance by Chinese technology could shift global norms from a free cyber commons to competing systems of cyber sovereignty or cyber freedom. This Adelphi book brings together eight experts to examine the development of the DSR, explore its impact on economics, security and governance in recipient countries, and assess the broader impact on patterns of economic and technological dependence, on the emerging rules and norms of tech globalisation, and on global geopolitics and great-power relations. Beijing has grasped the opportunity to leverage the entrepreneurial strengths of its private tech sector to gain prominence in the world's digital ecosystem. But the more interventionist Beijing becomes, the more Chinese firms will be seen as instruments of the state, and the greater the pushback against Chinese technology and the DSR may be. To achieve great-power status and global centrality, Beijing might ultimately need to change tack. How it innovates in further rolling out Chinese tech across the world, and what the DSR will then look like, will have far-reaching impacts on global economics, politics and security.

Global Strategic Management

Airborne Express, Hershey's, Motorola, Pillsbury—how do the executives of international corporations formulate effective strategies for corporate success? Strategic Planning, Execution, and Measurement (SPEM)

Many countries in Africa and Asia have coastlines that present opportunities for them to become gateways for trade between the hinterlands and global trading routes. However, policy makers struggle to translate this potential into engines of economic development and social transformation. In the past 40 years, China has taken advantage of its strategic geographical location and its status as one of the world's top manufacturing regions. From a very low position on almost all metrics, today China has become home to more than half of the world's top 50 ports. The rapid development of China's ports was critical for the country's remarkable economic growth. What China achieved can be informative; how and why China revived and modernized its port sector is especially relevant and provides valuable lessons for other countries. This book explores the transformation of China's port sector through four topics and four periods, beginning with China's major economic reforms that started in 1978. The first topic addresses the links between China's macroeconomic and regional development strategies and development of the port sector. During this period—through about 1991—China began decentralizing port management to facilitate development of special economic zones. The second topic—during the period 1992 through about 2001—is more specific about the ports and analyzes changes in port governance, including the way in which essential investments were determined and financed. The third topic examines the relationship of ports to the cities where they are located and to the hinterlands on which they depend—coinciding with the period 2002†“11. Domestic and international investment resulted in many new export-oriented processing factories during this period. The accompanying boost in trade required further expansion of port capacity. The fourth topic addresses how—from 2011 onward—human resource and innovation policies in the port sector have responded to changing demands as the country looks to become a less resource-dependent and more regionally balanced economy.

Business Policy and Strategic Management

Foundations of Strategy, Canadian Edition is a concise text aimed at both undergraduate and MBA students. With the needs of these students in mind, the authors made sure that the text was written in an accessible style, with a clear, comprehensive approach and sound theoretical depth. An excellent set of current and in-depth Canadian and global cases will show students how to apply the strategy concepts in real-world scenarios. Today's strategy modules are delivered in a wide variety of different formats to a wide range of audiences. Instructors frequently find themselves faced with the challenge of delivering their modules in relatively short time frames to student groups with very diverse educational and employment backgrounds. This text is designed to assist instructors in meeting this challenge by covering the core aspects of strategy as concisely as possible without losing academic depth.

Digital Transformation, Strategic Resilience, Cyber Security and Risk Management

This book constitutes the proceedings of the 13th conference on Information Processing and Management of Uncertainty in Knowledge-Based Systems, held in Dortmund, Germany, in June 2010.
