

Nutritional Status Of Children Squatter Settlements

[#child nutrition](#) [#nutritional status](#) [#squatter settlements](#) [#urban slums](#) [#malnutrition in children](#)

This research explores the nutritional status of children residing in squatter settlements. Understanding the factors contributing to malnutrition in these vulnerable communities is crucial for developing targeted interventions and improving the health and well-being of children living in these challenging environments. We aim to identify key indicators and risk factors associated with poor nutritional outcomes in these urban settings.

Readers can explore journal papers covering science, technology, arts, and social studies.
