You can be interested in the ...

Intro

HAZARDS ASSOCIATED WITH EXCAVATIONS.

Falling loads from above

Tripping over equipment or debris

Hazardous atmospheres

Mobile equipment malfunction

Materials falling into the excavation

Falls of people and or vehicles into the excavation

Workers being struck by the plant
Specialist equipment such as pneumatic drills
Hazardous substances
Influx of ground or surface water
Proximity to adjacent buildings
Access and egress to the excavation
Fumes

Weil's disease
Manual handling
Vibrations

PRECAUTIONS & CONTROLS REQUIRED FOR EXCAVATIONS

Shield
Process of temporarily supporting a building, vessel structure, or trench

GENERAL TRENCHING AND EXCAVATION RULES INCLUDE

Keep heavy equipment away from trench edges
Know where underground utilities are located
Test for low oxygen and toxic gases
Inspect trenches following a rainstorm
Do not work under raised loads
Excavation Competent Person
Trenches must have cave-in protection
Look for standing water or other hazards
Never enter an unprotected trench
Contractor History of performance and experience
Excavating equipment operator experience level
Location of excavation
Number of Contractors and Subcontractors
