

a compromised generation the epidemic of chronic illness in americas children

[#chronic illness in children](#) [#pediatric chronic disease](#) [#children's health in America](#) [#epidemic of childhood illness](#) [#compromised generation health](#)

America's children are facing an unprecedented health crisis: a compromised generation increasingly burdened by chronic illnesses. This epidemic of chronic disease, ranging from asthma and allergies to diabetes and autism, demands urgent attention and a deeper understanding of the factors contributing to this alarming trend and the potential long-term consequences for individuals and society as a whole.

Our lecture notes collection helps students review lessons from top universities worldwide.
