The First Book of Moses, Called Genesis

Hailed as "the most radical repackaging of the Bible since Gutenberg\

Genesis

Start at the beginning! This 10-week Bible study explores how Genesis 1-11 is a blueprint for the rest of salvation history, covering themes of grace, sin, redemption, sexuality, family, and covenant.

Holy Bible (NIV)

The NIV is the world's best-selling modern translation, with over 150 million copies in print since its first full publication in 1978. This highly accurate and smooth-reading version of the Bible in modern English has the largest library of printed and electronic support material of any modern translation.

The Beginning of the World

A handy study of Genesis 1-11, this book gives insightful commentary into the stories most often labeled as "myth" by those who want to chip away at the Bible. Morris details amazing evidence that the first 11 chapters of Genesis are literal history that shapes us today.

Genesis, Part Two

A study of the book of Genesis moves the reader from the cosmic creation story to the story of the creation of God's people. Part Two of this study moves us forward from the time of Abraham to the unfolding of his family in the stories of Isaac and Jacob, as well as the story of Joseph and his brothers and their clans.

Rediscovering Genesis

Rediscovering Genesis is an exciting new look at the evolution/creation controversy. Its author is neither scientist nor theologian so he can present an objective point of view. The premise of the book is that both religion and science describe the same Universe and must be compatible. It accomplishes that goal

by exposing the hidden assumptions and self-imposed restriction of both disciplines, and challenging them. It documents the changes needed from both disciplines. The book presents a well researched effort to root out the causes of the evolution/creation controversy and to discover a solution that includes both disciplines. While the book is aimed at a Christian audience, it has much to offer to the less committed individuals as well. It will be of special interest to those who have been, or are currently being, exposed to the Theory of Evolution in our educational systems. It will be invaluable to the parents of those students. It will serve as a guide to educators. It will be of interest to all that are aware of the present controversy. The book is divided into two parts. The first part looks at the biblical creation account in the first 4 chapters of Genesis. By incorporating our modern knowledge into this account, it becomes compatible with both the scientific account of our beginning and the literal seven days of creation described in the Bible. That is a necessary first step in resolving the controversy between science and religion. Part 1 goes on to bring a new, deeper understanding of our relationship with our Creator. Part two brings us face-to-face with two major roadblocks to accepting a world-view that includes a Creator: (1) the problem of suffering in our world and, (2) the evolution/creation controversy. The first roadblock, the problem of suffering, occurs only in the teaching of Christianity. It occurs because we misunderstand the relationship of the Creator with His creation. Understanding this special relationship starts in Genesis. Misunderstanding and misinformation have marked the second, the evolution/creation controversy, from the very beginning. This book explains the facts that are important for general understanding. It goes on to closely examine the scientific definition of life and shows where it leads. This is also a necessary step in resolving the evolution/science controversy. Throughout the book, the overriding theme is authority and its important function in our lives. It is the common ground where both science and religion can merge. Find out how it can change your world-view and your life.

Genesis Revisited - The Creation

Those individuals who believe God created only two people in the garden of Eden may be surprised by the author's viewpoints expressed in this book. The author uses the Bible as the foundation to explain what could be possible—that God did create more worlds, more planets, and more people in His likeness, allowing them to migrate through space travel to different worlds. Some of these other-world individuals may be present among us today.

The Message of Genesis 1-11

Where do we come from? What is our purpose? The early chapters of Genesis proclaim the origin of the world, and of human life on earth. In *The Message of Genesis 1-11*, David Atkinson explores how the first eleven chapters serve as an overture to the rest of the Bible. They evoke wonder as God is portrayed in his creative power and beauty. They reveal his loving mercy and salvation even in his terrible judgment of those who turn from him and despoil the harmony of creation. With vivid, provocative insight, Atkinson illuminates how the meaning of Genesis is still resonant today - providing the insight that allows us to understand both the greatness and the tragic flaw inherent in human beings. Although it was written thousands of years ago, the message of Genesis is one of timely urgency for the modern world: we are responsible participants in God's creation who must, like Noah, confront the possibility of global catastrophe. Part of the loved and trusted *The Bible Speaks Today* series of commentaries, *The Message of Genesis 1-11* offers an insightful, readable exposition of the Biblical text and thought-provoking discussion of how its meaning relates to contemporary life. Used by Bible students and teachers around the world, *The Bible Speaks Today* commentaries are ideal for anyone studying or preaching Genesis and who want to delve deeper into the text. This beautifully redesigned edition has also been sensitively updated to include modern references and use the NRSV Bible text. Readable and reliable, *The Message of Genesis 1-11* will help for anyone looking for a commentary on the Genesis that makes clear its meaning both in its original context and for twenty-first century readers.

Creation in Six Days

Creation in Six Days offers an exegetical, literary, and theological defense of the traditional interpretation of the Genesis account of six-day creation. Jordan's account is primarily designed to answer any approach to the text of Genesis, such as the increasingly popular Framework Hypothesis, that pits the text's literary features against its historical and narrative sense. Beyond his exegetical critique of several prominent positions, Jordan offers a constructive reading of the early parts of Genesis and also seeks to uncover the assumptions which attract people to the Framework Interpretation and similar

views. The explanation, he says, lies in the acceptance of many of the questionable assumptions of modern science on the part of most Christians today, coupled with the pervasiveness of a gnostic or nonhistorical attitude toward the Christian faith.

The Creation Story for Children

"In the beginning, God created"...with these words, the Bible powerfully sets in motion our praise to the Creator for His awesome work. Written and illustrated by David and Helen Haidle, *The Creation Story for Children* is filled with vibrant images of the week of Creation. Illustrated throughout with unique, full-color artwork innovatively highlighting the unique design of twenty creatures. Developed to help young learners begin to grasp the greatness of God. Perfect as part of an education program or as a treasured gift, this book will be an incredible addition to your school, church, or home library. Focused on God's wonderful handiwork in Genesis 1-2 and Psalms 139, it is one children will enjoy over and over again!

The God of Creation

There are other books on Creation and dealing with the issues of Genesis 1, but this one is different. Rick Phillips takes us through the first chapter of Genesis with an absolute confidence that this is the plain, accurate Word of God, describing creation in six literal days of 24 hours. He looks at the alternatives offered and explains clearly and simply why they are inadequate. The science-based criticisms of the Word of God are considered and dealt with. The language used is accessible to most readers, and at each stage the Gospel is clearly explained. Christians generally will find this book a great encouragement amidst the deluge of pro-evolution propaganda, school students will find themselves strengthened to take a biblical stand against the pressures of the education system. If your evangelistic outreach leads you to someone who wants a clear and rational explanation of why the Bible should be believed over against the common understanding of evolution presented in the media, this is the book to give them.

The Meaning of Creation

Conrad Hyers offers a welcome respite from the counter-productive effects of extremism that surround the creation issue. Focusing on the creation texts from the book of Genesis, Hyers interprets the biblical account in light of its relationship to its culture, context, and purpose.

Genesis 1 to 11

The first eleven chapters of the book of Genesis hold the keys to the beginning—but not so much as a history of the world or of the human race, but as a history of God's love, grace, and promise to his creations. In this study, pastor John MacArthur will guide you through an in-depth look at the creation story and some of our earliest interactions with each other and with our Creator. From the first murder to the first covenant, this study includes close-up examinations of Adam, Eve, Cain, Abel, and Noah, as well as careful considerations of doctrinal themes such as "The Fall of Man" and "Heritage and Family." It's from this point that you'll find your footing to understand the rest of the Bible more easily. So much happens in these first eleven chapters, they need their own study. —ABOUT THE SERIES— The MacArthur Bible Study series is designed to help you study the Word of God with guidance from widely respected pastor and author John MacArthur. Each guide provides intriguing examinations of the whole of Scripture by examining its parts and incorporates: Extensive, but straight-forward commentary on the text. Detailed observations on overriding themes, timelines, history, and context. Word and phrase studies to help you unlock the broader meaning and apply it to your life. Probing, interactive questions with plenty of space to write down your response and thoughts.

Genesis, Part One

A study of the book of Genesis is an invitation not only to contemplate the creation story, but to remember with the Israelites their ancestors in faith. Part One of this study covers Genesis 1:1-25:18 (the "pre-history" of Israel including the creation accounts, the stories of the fall and the great flood, as well as the story of Abraham and Sarah).

Genesis in the Light of the New Testament

Genesis One

Most Christians are familiar with the story of creation found in the book of Genesis. But have you ever considered God as a capable author who carefully designed the Bible, using Genesis chapter one as a table of contents which sets up the framework For The rest of the scriptures? Based on decades of research, Genesis One: God's Table of Contents To The Bible reveals this astonishing structure, taking into consideration not only the physical meaning of the words used within the Bible's first chapter, but also their spiritual implication. See these two realms actually relate! Prepare to see that God, The creator of the universe, who called himself light, who also defined the laws of science and physics, shows the principle of the refracting of light into its spectrum of color right in that very same opening chapter! Be among the first to be filled with amazement as this dazzling discovery sweeps the planet, challenging biblical scholars and scientists alike to finally agree that each have had pieces of this puzzle correct all along and to concede that the Bible supports the natural right along with the supernatural!

Encountering God in Genesis

The Bible is God's love letter to us, providing many guiding principles for living life the way God intended. The book of Genesis is particularly important as it introduces God, the creator of everything. In Encountering God in Genesis, author Brenda Frost examines this special book in which we learn many things about God as He interacts with and reveals Himself to His creation. Presenting a Bible study organized into eleven weeks with five days of studies, Encountering God in Genesis provides deeper insight through: observation, asking questions based on the text being studied; correlation, looking at other texts in the Bible that cover similar topics; commentary, providing deep discussion of each idea; vocabulary, explaining the meaning of important words; and application, posing questions that apply what's been studied to our daily lives. Filled with rich lessons, the book of Genesis is quoted or referred to more than one hundred times in the New Testament and by Jesus Himself. Genesis is the foundation of the entire Bible and serves as the backbone to understanding the rest of Scripture. Encountering God in Genesis helps to enhance your knowledge of this important foundation and provides guidance for living your life according to God's will.

God's Creation

Eduardo Adame , ThD, wanted to find a way to share his biblical knowledge and help others discover the true meaning of the scriptures. This he did by researching the ancient manuscripts and transcribing them into biblical scripture format rather than prose format to encourage the reader to research the noted scripture verses. Part I of the book researches various aspects of God's Creations. Part II explores the Natural Creation of Man and Woman, while Part III researches the Spiritual Creation of Man and Woman. Parts II and III include references to additional scriptures, which allows the reader to make comparisons between the Hebrew and Greek manuscripts as well as the Old Testament and the New Testament scriptures. Eduardo Adame , ThD, received his Bachelor of Arts degree in 1975 from San Francisco State University with a major in Broadcast Management. He received the degree of Master of Theology from Summit University of Louisiana in 2000. After retiring from a career in higher education administration, his love for research and the study of the Bible and other biblical documents inspired Dr. Adame to pursue his doctorate in Biblical Theology from Summit University. He received his doctor of Theology degree in 2003. While completing his dissertation, he found that it was often difficult to comprehend the true meanings in the scriptures by simply reading various versions of the Bible.

Unlocking the Mysteries of Genesis

Unlock the Mysteries of Faith and Science Have you wondered how the creation story in Genesis fits with the evolutionary theories of popular science? You're not alone. Many Christians wrestle with the seeming disparity between faith and science. They want to believe the inerrancy of Scripture, but it's difficult to reconcile the two. Unlocking the Mysteries of Genesis seeks to resolve this conflict by answering key questions about the origin of human life, the evidence left by the fossil record, and how the findings of science line up with the Bible. Using the most current research and data, this visually stunning book takes readers on a journey that explores the wonders of God's creation through the lens of faith-based science that clearly points to the authenticity and accuracy of the biblical creation

account. The compelling evidence you'll find as you study both Genesis and science will challenge your intellect and reinforce your faith.

Creation, Fall and the Hope of Redemption

Creation, Fall and Redemption is a verse-by-verse commentary of the foundational book of the Bible, Genesis 111. Pastor Bill takes the reader through a devotional and informative tour of the Creation, fall of man, Cain and Abel, the creation of the first city, the development of civilization, the conditions leading to the flood, and the Tower of Babel, and the division of humanity. This book shows us that not only are the early chapters of Genesis about our beginnings but they also foreshadow the end times and final judgments of the Lord upon this earth. But the book is also a testament to the salvation of God, right from the beginning, through the seed of the woman promise, which is the key to unlocking all of the Book of Genesis.

In the Beginning

In the Beginning is the result of a semi-annual study of Genesis in which God revealed interesting concepts that were organized into a series of Bible studies. As the book of beginnings, it introduces us to God's both the deity and the character, His reason for creation, and His plan to restore His creation after its demise. It reveals principles that become the legal precedence that form the foundation for God's plan of salvation. In this book, we unveil some of these principles established in the beginning and answer some questions along the way. How the existence of God is the only possible explanation of creation. What happened between Genesis 1:1 and 1:2? How the natural and spiritual restoration occurred in six days. How Eve was a part and apart of Adam. How the new birth was designed and foreordained. How Adam and Eve failed God. How death was actually merciful.

The Six Days of Genesis

Discover the five powerful truths within the phrase "In the beginning God." Learn just how closely evolutionists and creationists agree on the division of land and water on the earth. Uncover the biblical clue to where energy came from to explore life processes on an earth without form and void. Explore whether there is any truth to the recolonization theory. Can we really trust Genesis as the literal history of the world? Many modern scholars and scientists would have you believe that you can't, but this fascinating expository study by Paul F. Taylor lays all doubts about the authenticity of the Bible to rest. Follow this spellbinding, verse-by-verse study Taylor takes you on from the Garden of Eden to the Fall to the Table of Nations. Many Christians are alarmed by the disappearance of true biblical teachings in churches and even in many seminaries across America and Britain, but this much-needed resource for teaching prospective clergy and professors will help to battle the disturbing departure from biblical truth. This exciting new tool is a wonderful aid for those who wish to defend against the evolutionary attacks leveled at them by society and sometimes even by the church.

Healing All Creation

In Healing All Creation, a religion journalist and a scripture scholar explore the literary and theological symmetries of Genesis, the Gospel of Mark and the ongoing story of evolution. Authors Joan Connell and Adam Bartholomew shed new light on Judeo-Christian scripture and our current moral and environmental crises. Healing All Creation suggests that spiritual fulfillment is realized not in a distant heaven but in the flawed and fragile Paradise of the present, and that individual acts of compassion can heal a wounded world.

In the Beginning, GOD

With the grace and insight for which she is known, Marva Dawn shows how the opening pages of the book of Genesis rivet our attention on God, calling us to worship and to praise. Yet here Dawn helps us see anew the grace He offers to overcome our rebellious and wandering hearts.

God's Good Earth

God's world was created "very good," Genesis chapter 1 tells us, and in this book Jon Garvey rediscovers the truth, known to the Church for its first 1,500 years but largely forgotten now, that the fall of mankind did not lessen that goodness. The natural creation does not require any apologies or excuses, but rather celebration and praise. The author's re-examination of the scriptural evidence, the

writings of two millennia of Christian theologians, and the physical evidence of the world itself lead to the conclusion that we, both as Christians and as modern Westerners, have badly misunderstood our world. Restoring a truer vision of the goodness of the present creation can transform our own lives, sharpen the ministry of the church to the world of both people and nature, and give us a better understanding of what God always intended to bring about through Christ in the age to come.

Enoch, What Does Heaven Look Like?: Enoch's Revelation of God's Creation

This book "Enoch, What Does Heaven Look Like?" is the story of Enoch's amazing journey into the heavens, where he meets with specific angels that lead him on a trip through the various dimensions of the heavens, and eventually to the Throne of God. This book is meant to give the reader a general description of what heaven looks like from the perspective of the man who walked with God named Enoch; the great-grandfather of Noah (Genesis 5:22-29). For the Bible says (Genesis 5:24) that Enoch "walked with God: and he was not; for God took him." Enoch is listed in the Bible and the Apocryphal works. While Enoch is in heaven he receives revelation from God and the archangels about the first seven days of God's creation of the universe; and the mysteries of the wonders of the various heavens while he visits there. This story of Enoch's epic adventure is an adaptation taken from the Holy Bible, and the book of Enoch, and is written in three parts. The first part of this book is based on an adaptation of the Bible's book of Genesis, and is written from the perspective of Enoch's description of the revelation that he get from the Lord, regarding the first seven days of God's Genesis of creation. The second part of this book is meant to give a general description of what heaven looks like, and is an adaptation based on the "Book of Enoch" and the revelation that Enoch receives from the Lord God, as the archangels lead Enoch through the various dimensions of the heavens showing him the wonders that exists there. The third part of this book described in the last two chapters is an adaptation from the Bible and the "Book of Enoch" regarding the revelation that Enoch receives about the Throne of the God, and the revelation of Jesus the Christ, the Son of God, the Son of Man. The work in this book is not the original "Book of Enoch" letter by letter, but is an adaptation taken from the "Book of Enoch" and the Holy Bible. This book is written in story form and is also a form of poetry; and is not meant to be considered the cannon of Holy Scripture.

Genesis 1-11

The creation narrative in the early chapters of Genesis proved irresistible to the church fathers. Following the apostle Paul, they explored the six days of creation and the profound significance of Adam as a type of Christ, the second Adam. With comment from Basil the Great, Ambrose, and Augustine, this ACCS volume on Genesis 1-11 opens up a treasure house of ancient wisdom.

THE CREATION DAYS OF GENESIS

How long were the creative days? When was "the beginning"? Does science contradict the Genesis account? What does fit the facts? As has been the case with many other doctrines that have been misrepresented or misunderstood, all we ask is that the reader of this book gives the Andrews a fair hearing. He will lay out the biblical interpretation concerning the creative days of Genesis. There are over a dozen different interpretations concerning the creative days of Genesis. In THE CREATION DAYS OF GENESIS, Andrews will consider the main four in an effort to make his point. Within, we will get the Bible's answer to these questions, i.e., God's Viewpoint. Moreover, Christians find real meaning and purpose in life, based on an accurate knowledge of the Creator and his creation activity, as was/is revealed in the Bible.

God's Amazing Creation

God's Amazing Creation takes kids through the first five chapters of Genesis, focusing on the theme of creation in chapters one and two. Young scholars will put on their archaeologist hats to help the book's main characters—inductive detectives Max and Molly—dig up the truth about how the world began. Kids will discover who the world's creator is, how the heavens and earth were formed, what exactly happened in the beginning, and how the earth, the sea, people, and animals came into existence. Great fun and wonderful Bible truths for kids with an insatiable appetite for the "whys" of life!

Searching for Adam

You can believe with great intellectual integrity what the Bible says about Adam and the origin and history of man! Though there are a growing number of books out on Adam, this one is unique with its multi-author combination of biblical, historical, theological, scientific, archaeological, and ethical arguments in support of believing in a literal Adam and the Fall. A growing number of professing evangelical leaders and scholars are doubting or denying a literal Adam and a literal Fall, which thereby undermines the gospel of Jesus Christ, the Last Adam, who came to undo the damaging consequences of Adam's sin and restore us to a right relationship with our Creator. This book is increase your confidence in the truth of Genesis 1–11 and the gospel! Enhance your understanding pertaining to the biblical evidence for taking Genesis as literal historyDiscover the scientific evidence from genetics, fossils, and human anatomy for the Bible's teaching about AdamUnderstand the moral, spiritual, and gospel reasons why belief in a literal Adam and Fall are essential for Christian orthodoxy

Genesis Revealed

The lines have been drawn. On one side are young earth creationists, who assert that God created the universe in six days and—based on calculations derived from the Bible—that the earth is six thousand years old. On the other side are secular scientists, who claim the universe has existed for over thirteen billion years, the earth for 4.5 billion. Scientists claim that no miracles were necessary to form the universe, and that everything is explained by natural causes. However, young earth creationists point to verses at the beginning of the Bible and the beginning of the book of John that clearly claim that God created the universe. In the beginning God created the heavens and the earth. The earth was formless and void, and darkness was over the surface of the deep, and the Spirit of God was moving over the surface of the waters. Genesis 1:1–2 In the beginning was the Word, and the Word was with God, and the Word was God. He was in the beginning with God. All things were made by him; and without him was not anything made that was made. John 1:1–3 But what if there is no contradiction between scientific data and the Bible? Arnold Guyot was a nineteenth-century geologist and geographer at Princeton University. In addition to his numerous scientific accomplishments, he developed the day-age interpretation of Genesis 1, in which the "days" of creation represent geologic ages. When we view the Bible through this lens, we find that modern science has not only failed to refute the miracles of Genesis, but has in fact provided abundant evidence for their veracity. Genesis Revealed: A Scientific Examination of the Creation Story takes readers down the twin paths of science and theology to show that they lead us to the same destination. Citing a multitude of discoveries in astronomy and geology, Dr. Peter Waller makes a compelling case for Guyot's interpretation—and for the miracles described in Genesis 1:1–25.

As It Is Written

Readers come away with a better understanding of the six-day creation argument! The framework hypothesis or literary framework view has grown in acceptance as more readers of Scripture place "science" as the authority over the interpretation of God's Word. By re-interpreting Genesis, this view encourages Christians to disregard the plainly shared timeline of creation and instead consider it as merely figurative or poetic rather than historical and accurate. Kenneth Gentry carefully defines the framework hypothesis, while tracing its historical origins and purpose. This provides a helpful introduction both for those who know the framework hypothesis as well as any hearing the term for the first time. This important study: Presents strong exegetical arguments for the six-day creation approach to GenesisIllustrates the traditional interpretation of Genesis, a survey of exegetical arguments, and responses to alleged problemsDemonstrates the flaws in the framework argument. This book presents in a simple but clear presentation the basic argument for a six-day literal interpretation of Genesis 1. It also explains and rebuts the framework hypothesis, which is a leading view in evangelical academic circles. This book is aimed at intelligent laymen, though with the academic reader in mind, with definitions of technical terms where they are necessary and Greek and Hebrew words transliterated.

In the Beginning ... God Created

This book on the first chapters of Genesis is not concerning the literal creation of the universe. There is more than an ample supply of commentaries on how God created the earth and the heavens. Genesis is the book of beginnings. The first chapter of Genesis is about the mystical creation of the Body of Christ. In what way was Jesus the Beginning of the creation of God? Enjoy the study.

Rethinking Genesis 1–11

Genesis 1-11 contains some of the best-known stories in the world. To modern Westerners they may look like no more than entertaining tales that children can enjoy, but modern adults cannot take seriously. However, when read in the context of the ancient Orient, Genesis 1-11 looks very different. It turns out to be a truly revolutionary document. In retelling the history of the ancient world, it puts a new spin on it by introducing an all-powerful, all-knowing, unique God whose greatest concern is human welfare. The God who appears in Genesis 1-11 is the God presupposed by all the Old Testament writers, indeed by the New Testament as well. The gripping tales of Genesis thus provide the theological spectacles for a sympathetic reading of the Bible. They are the gateway to a valid understanding of its message and can even help modern believers construct a worldview that integrates both the discoveries of modern science and the insights of Christian theology.

Genesis 1-25

Do you struggle to know and follow God's call for you in the world? In this fourteen session LifeGuide® Bible Study on Genesis tells us that even the giants of faith—Abraham, Isaac, Jacob and Joseph—struggled to obey their Creator. But Genesis also reveals the amazing truth that the God who called a world and a nation into being also calls each of us to serve him. For over three decades LifeGuide Bible Studies have provided solid biblical content and raised thought-provoking questions—making for a one-of-a-kind Bible study experience for individuals and groups. This series has more than 130 titles on Old and New Testament books, character studies, and topical studies. PDF download with a single-user license; available from InterVarsity Press and other resellers.

The Days of Mankind

This book, 'The Days of Mankind' was initially drafted in the year 1993/94. A time when the author was unemployed, which allowed him to commune and fellowship with his Father more than usual. It was then that he began reading the book of Genesis and the Lord began to open his eyes to His hidden truths now revealed to you in this book. While many years had passed, he was drawn back to Genesis in early 2003 and more revelations came from the same chapter he thought it not possible to contain additional hidden mysteries of God. He shares this for reason that we should not limit what God is capable of revealing through His word by his Spirit. As such, even that which has been revealed to him and are written in this book, The Days of Mankind does not put a cap on what God can reveal to you. He had purposed the publish this book in 2012, the year of the Covenant, believing it to be the set time for its release to the world. As it is his conviction that 2012 would be the year God covenanted plan for His chosen would begin even more to manifest itself in the body of Christ: and this book will aid in opening the eyes of His creation to embrace the plan of God for their lives."

Words become Worlds

By carefully analyzing the text-semantic features of the texts of Genesis 1-11, this book offers a quite new perspective on the primeval history. The first part of the book examines Genesis 1-11, which is usually read as a creation story concerning the human being in relation to God, in which the human being falls from good to bad. In these text-semantic studies it is shown that such is not the case, especially in the rather exciting analysis of the story of the Tower of Babel. In the second part of the book the methodological framework of these text-semantic studies is presented.

Creation and Destruction

In 1989, David Tsumura published a monograph entitled *The Earth and the Waters in Genesis 1 and 2: A Linguistic Evaluation*, in which he demonstrated that the oft-recited claim that the early chapters of Genesis betrayed a background or adaptation by Israel of mythological terms and/or motifs from other ancient Near Eastern literature could not be supported by a close examination of the linguistic data. Despite the book's positive reception, the notion that the Chaoskampf motif lies behind the early chapters of Genesis continues to be rehearsed in the literature as if the data were incontrovertible. In this revised and expanded edition of the 1989 book, Tsumura carries the discussion forward. In part 1, the general thesis of the original work is restated in a significantly revised and expanded form; in the second part of this monograph, he expands the scope of his research to include a number of poetic texts outside the Primeval History, texts for which scholars often have posited an ancient Near Eastern mythological substratum. Among the questions asked are the following: What are the functions of "waters" and "flood" in biblical poetry? Do the so-called chaos dragons in the Old Testament, such as Leviathan, Rahab, and Yam, have anything to do with the creation motif in the biblical tradition? What is

the relationship between these poetic texts and the Ugaritic myths of the Baal-Yam conflict? Are Psalms 18 and 29 "adaptations" of Canaanite hymns, as suggested by some scholars? Among the conclusions that Tsumura reaches are these: (1) The phrase *tohû wabohû* has nothing to do with the idea of a chaotic state of the earth. (2) The term *tehbām* in Gen 1:2 is a Hebrew form derived from the Proto-Semitic **tiham-*, "ocean," and it usually refers to the underground water that was overflowing and covering the entire surface of the earth in the initial state of creation. (3) The earth-water relationship in Gen 2:5-6 is different from that in Gen 1:2. In Gen 1:2, the earth was totally under the water; in Gen 2:5-6, only a part of the earth, the land, was watered by the 'ed-water, which was overflowing from an underground source. (4) The biblical poetic texts that are claimed to have been influenced by the *Chaoskampf*-motif of the ancient Near East in fact use the language of storms and floods metaphorically and have nothing to do with primordial combat.

The Genesis Accounts of Creation

The problems so many of us encounter in reading the creation accounts in Genesis result not from the accounts themselves, says the author, but from what we have come to think the biblical text says. We must "still our tongue and permit the Bible to speak." The author, professor of Old Testament at Heidelberg University in Germany and author of *A Thousand Years and a Day*, takes the reader step by step through the Genesis accounts, showing their relation to other creation accounts, their profound relevance to our life today, and their praise of God as Creator. - Back cover.

Creation and Fall

Creation and Fall originated in lectures given by Dietrich Bonhoeffer at the University of Berlin in the winter semester of 1932-33 during the demise of the Weimar Republic and the birth of the Third Reich. In the course of these events, Bonhoeffer called his students to focus their attention on the word of God the word of truth in a time of turmoil.
