Mother India

This book is a descriptive account of English as it is used in India. Indian English is a second language to most of its speakers. In its 400-year history it has acquired its own character, yet still looks to native varieties of English for norms. The complex nature of Indian English, which is not really a monolithic entity, is discussed in this book. The book also makes a distinction between what are considered to be standard and non-standard varieties, and provides an overview of the salient features. Indian English includes: * A discussion of the sociolinguistic and cultural factors* The history of the establishment of English in India, bringing it up to modern times* A description of the linguistic aspects: phonetics and phonology, lexical, discourse and morphosyntactic features* Samples of written English from a range of contexts* Samples of speech* An annotated bibliography divided according to topic.

An illuminating exploration of the life and philosophy of an uncommon visionary. Widely revered as a preeminent philosopher and spiritual leader, Sri Aurobindo's teachings and legacy inspire millions across the globe. Yet, the true essence of his wisdom remains an enigma, intensified further by the mystique surrounding his life. In this comprehensive new biography, veteran historian Roshen Dalal sets out to demystify Aurobindo's unique journey. From his early years and education in England to his consequential return to India during its embryonic freedom movement, his arrest in the infamous Alipore Bomb Case and subsequent spiritual awakening and ascetic life at his ashram in Pondicherry, she unravels the intricate events and relationships that shaped his thinking – particularly his collaborations with his spiritual partner, the Mother. Through meticulous analysis of his writings, she sheds light on Aurobindo's radical path for the future – towards a harmonious world order and the awakening of a divine consciousness, culminating in the ultimate transformation of humanity. Drawing from over three decades of research, Dalal presents here the most accessible, lucid and insightful portrait of Sri Aurobindo to date. She underscores the pioneering ideas of a visionary thinker and the enduring power of his legacy.

The Psychic Being

This scholarly monograph initiates an open dialogue with an open mind, with scientists, philosophers, and social activists on symbiosis of science and spirituality. It discusses the generation of innovation in Science for human survival. Part I investigates creativity in science, Part II explores symbiosis of

science and spirituality, Part III deals with science, education, and ethics. Part IV- discusses A New Vision on Earthquake and Tsunamis.

The Vedanta Kesari

In this biography of the Mother, published in February 1978, the author presents her life story as the unfolding and manifestation of a profound inner history, and a far-ranging ministry for man and the earth. He delineates how the Mother developed the Ashram as an experiment in collective yoga, established the Centre of Education as a means of preparing the future humanity to receive the new consciousness, and inspired the founding of Auroville as a place to work out the ideal of human unity. Interwoven with these narrative threads are accounts of the Mother's spiritual nurturing of the disciples and the ongoing saga of physical transformation that she undertook to fulfil Sri Aurobindo's yoga.

The destruction of wildlife habitats ... organized crime ... AIDS ... illiteracy ... acid rain -- these are among the 130,000 topics documented and discussed in the new edition of the Encyclopedia. But its truly unique goal is to present this complex set of issues in ways that facilitate an organized response. To this end, the book also focuses on the complex relationship between problems and society's own ideological relationship with these problems. How do human priorities and perceptions aggravate or enable problems? What are the established and alternative responses? The Encyclopedia contains over 158,000 cross-references between entries, an extensive 91,000 practical key term index, bibliographies, and full cross-referencing to the Yearbook of International Organizations. For anyone concerned with the world community, here are the means to explore and participate in today's most crucial endeavors. Volume 2, Human Potential: Transformation and Values, contains 7,700 entries reflecting a spectrum of problem-solving approaches based on such human development issues as self-learning, creativity, and modes of awareness. The volume also focuses on specific religious beliefs, value systems, and thought patterns.

I stumbled upon life writing at age twenty-nine. I was at that moment in a divorce when you know its over and its time to move on. I realized how little I understood my life and that I had no real sense of how to make a life. I wanted a life. I wanted a certain kind of satisfaction from life that I knew existed; yet here I was, very clear that this marriage wasnt going to work out and faced with raising a lovely child alone as I made my way toward this certain something I couldnt even name. I moved in with my best friends parents, who were very kind to me. To try to get a handle on things, I secluded myself in their basement for many evenings to dissect my life story. It was just instinct. Starting with my earliest memory, I started the walk forward, sifting carefully through each experience I could recall. I would approach certain memories in the writing, and my body

would tighten. At first I just kept going, but those particular memories called me back. So I went back, slowed down, and sifted more carefully looking at the scene, the circumstances, the people involved, and at myself, my emotions, my perceptions, and my fears. At the end of this rather intense process, there was no doubt that something in me had shifted. I felt a new sense of self-possession. I felt aware of myself in a way I wasn't before. I can see this same new presence and power arise in the faces of others as they complete the life-writing process. The Life Writing Workbook guides you step-by-step through eight sessions of deeply engaging, private, and transformative writing through your life story.
