TRAIN DRIVER SAFETY TEST!

Safety is the most important quality needed to become a competent train driver. There is no room for error when it comes to safety as a train driver, and this is in relation to

When you pass the train driver selection process, and you start your training, you will receive official train driver safety training.

You are a train driver about to board your train in preparation for departure. You notice that a disabled passenger ramp is not secured correctly in its train carriage storage facility. What would you do?

You are a train driver in the middle of your shift driving the train towards central London. You are approaching a signal which is green. However, as you get closer, sunlight severely obstructs your view of the signal. How would you handle this scenario?

Q. What are the most important qualities needed to be a train driver? The most important qualities needed to be a train driver are safety awareness, the ability to follow rules and procedures, customer service, and excellent communication skills.

You are starting your shift as a train driver when you notice some rubbish strewn across the train cab floor and controls. What do you do?

You are sitting at the train station waiting to depart when you notice your cab windscreen is dirty. You try to wash the windows using the in-built wash system, but it appears not to be working. What would you do?
