We're Cookin It Up Again

A Cookbook and Workbook commemorating Black Museum pioneers who appeared in the 1983 Blacks in Museums Directory.

The Role of Community-Mindedness in the Self-Regulation of Drug Cultures

This book analyzes heroin users and the drug subculture on the Shetland Islands, an area known for its geographical remoteness, rural character and relative wealth. It fills the scientific gap created by the conventional research in heroin research, which is usually conducted in urban areas and relies on treatment and prison populations. Based on qualitative, in-depth interviews with twenty-four heroin users, this book depicts and analyzes the nature and historical development of the local heroin scene. It illustrates the features and internal structures of the subculture, and it examines the manner in which both are influenced by the location-specific geographical, cultural and socio-economic conditions. It thus reveals complex causal associations that are hard to recognize in urban environments. Complete with a list of references used and recommendations for future research, this book is a vital tool for progressive and pragmatic approaches to policy, intervention and research in the field of illicit drug use.

The Doughty Women: Katherine - What Lies Behind Us (Book 1)

This is a three book series. No cliff hangers! This is the story of three sisters living in Maryland as the disaster at Pearl Harbor looms, and their own participation during World War II. The Doughty Women: With Valor Above All What lies behind us and what lies before us are tiny matters compared to what lies within us. ~ Oliver Wendall Holmes Book 1: The Doughty Women: Katherine What Lies Behind Us Katherine "Kit" becomes a war correspondent Book 2: The Doughty Women: Susan What Lies Before Us Susan is a "Government Girl" who joins a million other women working in Washington, D.C. "for the duration" until the men return. Book 3: The Doughty Women: Lillian What Lies Within Us Lillian is a Registered Nurse who joins the Navy Nurse Corps Book 1 blurb: While European governments were falling, one by one, to the war machine of the German Reich, Katherine Doughty served ably and well in her assignment as TranSignal News overseas correspondent. Now she has been transferred to the London Bureau, just in time to endure the privation and terror of the Blitzkrieg bombs. Dedication to her craft can't prevent Kit from feeling a twinge of envy for her friend, Hallie Vernon, an ATS member who falls in love semi-regularly every few weeks or so. Kit, too, would like to fall in love. However, she has finally met someone: a mystery man from the London tunnels, encountered one night when the wail of the air raid sirens sent citizens scrambling for safety. He's a Texas charmer, this Lew McAllister, and it seems that he's as interested in her as she is in him. But, after spending time together, he disappears without a word of apology or explanation. It's wartime, after all; and the life of each human being has been disrupted. In all the confusion, people are here, there, and everywhere, and it's difficult keeping track even of one's nearest and dearest. Whatever has happened to Lew, whatever kind of mystery he's gotten himself involved in, whatever sort of character flaws he might be dealing with, Kit can only feel suspicion and doubt. Yet she can't help wondering if she will ever see him again.

Cloaks and Maidens; Gods and Train

A collection of short stories and excerpts from novels A few quotes from the book are as follows: "We make fiction for the same reason we make gods. To awaken aspirations. Or deviations." "Even a billion dollars is only so many pennies...yes, the bulk of it will make most men bow over...but not all...it is coinage yes but it rarely makes change. " "Guilt is the strongest prison; he who is a fugitive from himself is never free" "Childhood ends when we stop believing in monsters and start making them"

Cinderella in America

For years, many folklorists have denied the possibility of a truly American folk or fairy tale. They have argued that the tales found in the United States are watered-down derivatives of European fare. With this gathering, William Bernard McCarthy compiles evidence strongly to the contrary. *Cinderella in America: A Book of Folk and Fairy Tales* represents these tales as they have been told in the United States from Revolutionary days until the present. To capture this richness, tales are grouped in chapters that represent regional and ethnic groups, including Iberian, French, German, British, Irish, other European, African American, and Native American. These tales are drawn from published collections, journals, and archives, and from fieldwork by McCarthy and his colleagues. Created along the nationalist model of the Brothers Grimm yet as diverse in its voices and themes as the nation it represents, *Cinderella in America* shows these tales truly merit the designation American.

Gallagher, Marriott, Derringer & Trower

"Rory Gallagher, Steve Marriott, Rick Derringer and Robin Trower are legends. The glue behind legendary barn-burning, hard-touring outfits like Taste, The Small Faces, Humble Pie, Johnny Winter, The Edgar Winter Group and Procol Harum, and later realizing their full potentials as solo artists, this is the first biography of four players whose dedication to music and virtuosity has been inspirational to a generation of fans and admirers." -- Back cover.

Yearning for the Unattainable

Yearning for the Unattainable By: L.L. Eadie Eadie's gift for understanding the adolescent heart is on full display ... in this delicious witch's brew of southern gothic, paranormal romance and realistic contemporary. The town of Wiregrass is a character in itself with its whispers, horrors and secrets. And at the heart of it all is Gentry, the newcomer, who innocently looks for love, but instead is drawn into a portal that nearly takes her life. -Joyce Sweeney on *Yearning for the Unattainable* Eadie's work stands out from the usual teen novel. Written in a light, easy style Tuesday's story of emotional emancipation is one that any teenager can appreciate. -Kirkus Reviews on *Mistaken Identity* A love story mixed with tragedy and humor. Secrets and broken promises from the author's youth (and from all teenagers' lives) prompted Eadie to write this story. She hopes her readers will see themselves in her characters and be able to feel their emotions—recognize them—relate to them—laugh and cry with them.

The Trouble in Aragon Valley

The Long Journey to Glory My Side of the Jacksons' Story seeks to finally set the record straight as to who discovered Michael Jackson and the Jackson 5. The book describes the truth about the real beginning of the Jackson singing group and Michael and their climb to fame. It will include the story of the Jacksons, from the family's very meager beginning in Gary, Indiana, like it has never before been told. We learn more about Joe, the father, and also the neighborhood he chose to live in. There are details surrounding the neighborhood, the little community's Little League baseball teams, the long days of practicing their music in the basement of a neighbor's home, the deceptive maneuvers used by Tito Jackson to develop his guitar-playing skills, and finally, the events surrounding the talent show at Gary's Roosevelt High School that introduced the Jacksons. The story is told by the original unknown member and leader of the group. The Jacksons continue to perform to this day. Although refined by experience and technology, the act has not essentially changed from its inception. In the early days, no one except their families knew about their rehearsals. They couldn't practice together at Joe's house, but they did practice at Reynaud's house. Since they were using his basement and he was the oldest, he automatically made himself the leader. They decided they would surprise Joe with their progress. Before then, the Jackson family wasn't charismatic to the neighbors. The neighborhood was booming with children, and the majority of them laughed teasingly at the Jacksons. There were nine Jackson children at the time living in a two-bedroom basement less house with their parents.

In the struggle to keep the family together in Sydney's grim commission housing, schoolboy Chris is tender witness to poverty and despair. In time he comes to understand that they are exiles in their own land. He senses that it is his generation which must cross the bridge back to that landscape which defines his people's existence.

Alex Hollywood: Cooking Tonight

PROLOGUE One early April afternoon, in a Worcestershire field, the only field in that immediate landscape which was not down in grass, a man moved slowly athwart the furrows, sowing—a big man of heavy build, swinging his hairy brown arm with the grace of strength. He wore no coat or hat; a waistcoat, open over a blue-checked cotton shirt, flapped against belted corduroys that were somewhat the color of his square, pale-brown face and dusty hair. His eyes were sad, with the swimming yet fixed stare of epileptics; his mouth heavy-lipped, so that, but for the yearning eyes, the face would have been almost brutal. He looked as if he suffered from silence. The elm-trees bordering the field, though only just in leaf, showed dark against a white sky. A light wind blew, carrying already a scent from the earth and growth pushing up, for the year was early. The green Malvern hills rose in the west; and not far away, shrouded by trees, a long country house of weathered brick faced to the south. Save for the man sowing, and some rooks crossing from elm to elm, no life was visible in all the green land. And it was quiet—with a strange, a brooding tranquillity. The fields and hills seemed to mock the scars of road and ditch and furrow scraped on them, to mock at barriers of hedge and wall—between the green land and white sky was a conspiracy to disregard those small activities. So lonely was it, so plunged in a ground-bass of silence; so much too big and permanent for any figure of man.

Trails Plowed Under

A mold-breaking memoir of Asian American identity, political activism, community, and purpose. Not Yo' Butterfly is the intimate and unflinching life story of Nobuko Miyamoto—artist, activist, and mother. Beginning with the harrowing early years of her life as a Japanese American child navigating a fearful west coast during World War II, Miyamoto leads readers into the landscapes that defined the experiences of twentieth-century America and also foregrounds the struggles of people of color who reclaimed their histories, identities, and power through activism and art. Miyamoto vividly describes her early life in the racialized atmosphere of Hollywood musicals and then her turn toward activism as an Asian American troubadour with the release of *A Grain of Sand*—considered to be the first Asian American folk album. Her narrative intersects with the stories of Yuri Kochiyama and Grace Lee Boggs, influential in both Asian and Black liberation movements. She tells how her experience of motherhood with an Afro-Asian son, as well as a marriage that intertwined Black and Japanese families and communities, placed her at the nexus of the 1992 Rodney King riots—and how she used art to create interracial solidarity and conciliation. Through it all, Miyamoto has embraced her identity as an Asian American woman to create an antiracist body of work and a blueprint for empathy and praxis through community art. Her sometimes barbed, often provocative, and always steadfast story is now told.

Not Yo' Butterfly

When it first appeared in 1945, this novel disconcerted a good many critics: Agee Ward, "the man who was there" of the title, ostensibly is the man who is not there--a member of the armed forces in World War II, he has been reported missing in action. Yet as we are shown various views of Agee and how he continues to affect the lives of others--among them Grandma Herkimer and Private Reagan, who knew him in boyhood; Peter Spavic and Mrs. Krickbaum, who refuse to believe that he is missing; Miss Gussie Newcomb, his landlady and (to her surprise) his heir--we come to perceive what Agee had in mind when he said "that anything really alive just went on and on."

The Man Who Was There

Step back in time and meet everyday people from another era: This edition brings to you the complete collection of hundreds of life stories, incredible vivid testimonies of former slaves from 17 U.S. southern states, including photos of the people being interviewed and their extraordinary narratives. The Federal Writers' Project was one such project by the United States federal government to support writers during the Great Depression by asking them to interview and record the myriad stories and experiences of slavery of former slaves. The resulting collection preserved hundreds of life stories from 17 U.S. states that would otherwise have been lost in din of modernity and America's eagerness to deliberately forget the blot on its recent past. "If " And if I look long enough into the black glass, there's another living room reflected there, as much alive as this one. A black doorway that leads to a black hole, a black screen like the black Dead Sea, where nothing grows. And all seems dead here, but for the Beast, who lives, eats, and sleeps with me.

Stretch your budget and avoid food waste by remixing leftovers into family-favorite weeknight meals with the help of this smart guide to everyday cooking. Leftovers can be so much more than the sum of their parts. Yesterday's dinner, last week's baking experiment, snack drawer remnants, and cheese drawer bits and bobs are all an opportunity to create something new and delicious. And the holidays—they're a leftovers goldmine! Here We Go Again is dedicated to the recipes your leftovers deserve, whether they're the classics in your rotation, the dishes that maybe didn't hit the spot the first time around, or those last-ditch meal efforts you throw at your kids, only to have half the macaroni still left in the pot. They're also perfect for ingredients that would otherwise be trash-bound—those carrots threatening to go soft, the bunches of kale from the overenthusiastic farmers' market haul, that half a loaf of bread getting harder by the day, the nubbins of cheese that don't seem good for anything other than late-night snacking. Or the dreaded 1 cup of sour cream or buttermilk inevitably left in the back of the fridge from when you made something else with it. Or maybe it's the chicken breasts or steaks you stocked up on when they were on sale and are now sitting in your freezer, waiting for an invitation to be used. And of course, it's all the food staring back at you from your fridge after a holiday meal (and worked way too hard on to throw away!) These are the dishes that we need right now—and in so many ways. We need to get food on the table, every meal, every day. We need to use the food that we have because we don't always know when we'll get to the store or how much we need to make our budget stretch. And above all else we need to take care of ourselves and our families with food that tastes good.

Here We Go Again

A mining company exploiting a gold deposit in Central Australia cuts corners on its environmental protection procedures, and, as a result, a poisonous seepage contaminates a nearby water hole. Two boys are poisoned by swimming in the water hole, and one of them dies.

Well known for his sketches, paintings, and sculptures of the Old West, Charles M. Russell (1864-1926) was also an accomplished author in the humorous genre known as local color. Raphael Cristy sorts Russell's writings into four general categories: serious Indian stories, men encountering wildlife, cattle range characters, and nineteenth-century westerners facing twentieth-century challenges. Russell's art is often misinterpreted as mere longing for a fading open-range west, but his writings tell a different story. Cristy shows how Russell amused his peers with stories that also delivered sharp observations of Euro-American suppression of Indians and humorous treatment of wilderness and range issues plus the emergence of women and urbanization as bewildering agents of change in the modern West. A welcome departure from the usual biographies and coffee table volumes on Russell and his art. . . [Cristy] deals with an important, yet relatively unexplored, aspect of the career of one of the most influential interpreters of the American West.--Byron Price, Director, C. M. Russell Center for the Study of Art
