Separable First Order Differential Equations - Basic Introduction - Separable First Order Differential Equations - Basic Introduction by The Organic Chemistry Tutor 1,654,394 views 7 years ago 10 minutes, 42 seconds - This calculus video **tutorial**, explains how to solve first order **differential equations**, using separation of variables. It explains how to ...

focus on solving differential equations by means of separating variables

integrate both sides of the function

take the cube root of both sides

find a particular solution

place both sides of the function on the exponents of e

find the value of the constant c

start by multiplying both sides by dx

take the tangent of both sides of the equation

Differential Equations | Introduction - Differential Equations | Introduction by Tambuwal Maths Class

35,037 views 3 years ago 12 minutes, 25 seconds - In **mathematics**, a **#Differential**, **#Equation**, is an equation that relates one or more functions and their derivatives. In applications ...
