This is Eliphas Levi's (1810-1875) best-known book. This work arguably made Levi THE most influential writer on magic since the Renaissance. Originally issued in French, the English translator is A.E. Waite and it is doubtful that anyone else could have better captured the essence of Levi's work. The book is divided in two parts; the first is theoretical, the second practical. This is a fascinating and often debated work involving a discussion that covers almost the entire realm of Ritual and High Magic.

Earthen architecture constitutes one of the most diverse forms of cultural heritage and one of the most challenging to preserve. It dates from all periods and is found on all continents but is particularly prevalent in Africa, where it has been a building tradition for centuries. Sites range from ancestral cities in Mali to the palaces of Abomey in Benin, from monuments and mosques in Iran and Buddhist temples on the Silk Road to Spanish missions in California. This volume's sixty-four papers address such themes as earthen architecture in Mali, the conservation of living sites, local knowledge systems and intangible aspects, seismic and other natural forces, the conservation and management of archaeological sites, research advances, and training.

Young, attractive and very ambitious, George Duroy, known to his friends as Bel-Ami, is offered a job as a journalist on *La Vie française* and soon makes a great success of his new career. But he also comes face to face with the realities of the corrupt society in which he lives - the sleazy colleagues, the manipulative mistresses and wily financiers - and swiftly learns to become an arch-seducer, blackmailer and social climber in a world where love is only a means to an end. Written when Maupassant was at the height of his powers, *Bel-Ami* is a novel of great frankness and cynicism, but it is also infused with the sheer joy of life - depicting the scenes and characters of Paris in the belle époque with wit, sensitivity and humanity. "The Renaissance in National Context" aims to dispel the commonly held view that the great efflorescence of art, learning and culture in the period from around 1350 to 1550 was solely or even primarily an Italian phenomenon. A team of distinguished scholars addresses the development of art, literacy and humanism across the length and breadth of Europe--from Rome to the Netherlands, from Poland to France. The book demonstrates that the revival of letters, and the generation of new currents in artistic expression, had many sources independent of Italy, meeting numerous local needs, and serving various local functions, specific to the political, economic, social and religious climates of particular regions and principalities. In particular the authors emphasize that while the Renaissance was in a fashion backward looking, recovering the culture of Greece and Rome, it nevertheless served as the springboard for many specifically modern developments, including the diplomacy of the 'new princes,' the spread of education and printing, the growth of nationalist feeling and the birth of the 'new science'. Bridges of cultural transmission are given equal emphasis with the barriers which were to generate increased separation of linguistic and cultural domains. Three essays on major Italian centres do moreover demonstrate that the diversity of the Renaissance applies to the peninsula no less than to the rest of Europe.

Under the pseudonym Eza Boto, Mongo Beti wrote *Ville cruelle* (Cruel City) in 1954 before he came to the world's attention with the publication of *Le pauvre Christ de Bomba* (The Poor Christ of Bomba). *Cruel City* tells the story of a young man's attempt to cope with capitalism and the rapid urbanization of his country. Banda, the protagonist, sets off to sell the year's cocoa harvest to earn the bride price for the woman he has chosen to wed. Due to a series of misfortunes, Banda loses both his crop and his bride to be. Making his way to the city, Banda is witness to a changing Africa, and as his journey progresses, the novel mirrors these changes in its style and language. Published here with the author's essay "Romancing Africa," the novel signifies a pivotal moment in African literature, a deliberate challenge to colonialism, and a new kind of African writing.
