I Want To Be Able To See before and after Pictures To Say that Person Has a Significant Change after a Traumatic Brain Injury or Anxiety or Depression or a Cyclic Mood Disorder or a Stroke We Want To See that There's Been Significant Change at the Same Time Let's Measure Your Brain in Real Time and Let's Look To See What that Transformation Process Looks like and in the Discovery Louis of that Process We Gain So Much Knowledge about What that Transformational Process Looks like in Other Words I Can Tell You without a Doubt that

And Now Your Body as the Unconscious Mind the Objective Mind Is Not Believing It's Living in the Same Past Experience 24 Hours a Day because You'Re Liberating the Body from that Emotional State so You Ask the Person Why Are You So Unhappy Why Are You So Frustrated Why Are You So Resentful and When We Do Ask that Their Brain Is Going To Associate that Emotion to a Past Event to a Memory to a Memory That's because They Have Nothing To Look Forward to in Their Future So if You'Re Not Being Defined by a Vision in the Future It Just Means to Me that You'Re More in Love with Your Past

That's because They Have Nothing To Look Forward to in Their Future So if You'Re Not Being Defined by a Vision in the Future It Just Means to Me that You'Re More in Love with Your Past Then You Are with the Future So How Do You Teach People To Believe in a Future That They Can't See or Experience with Their Senses Yet but They'Ve Thought about Enough Times in Their Mind that Their Brain Is Literally Changed To Look like the Event Has Already Occurred the Latest Research and Neuroscience Says that's Absolutely Possible We Know that and How Do You Teach a Person To Select a New Possibility in Their Future

So if You'Re Not Being Defined by a Vision in the Future It Just Means to Me that You'Re More in Love with Your Past Then You Are with the Future So How Do You Teach People To Believe in a Future That They Can't See or Experience with Their Senses Yet but They'Ve Thought about Enough Times in Their Mind that Their Brain Is Literally Changed To Look like the Event Has Already Occurred the Latest Research and Neuroscience Says that's Absolutely Possible We Know that and How Do You Teach a Person To Select a New Possibility in Their Future and Begin To Emotionally Embrace that Future before It's Made Manifest to Such a Degree that Their Body as Their Unconscious

So How Do You Teach People To Believe in a Future That They Can't See or Experience with Their Senses Yet but They'Ve Thought about Enough Times in Their Mind that Their Brain Is Literally Changed To Look like the Event Has Already Occurred the Latest Research and Neuroscience Says that's Absolutely Possible We Know that and How Do You Teach a Person To Select a New Possibility in Their Future and Begin To Emotionally Embrace that Future before It's Made Manifest to Such a Degree that Their Body as Their Unconscious Mind Is Believing It's Living in that Future Reality in the Present Moment and They'Re Signaling New Genes and New Ways Ahead of the Environment Now to Their Body Begins To Change To Look like the Event Has Already Occurred We'Ve Proven that that's Possible Now Think about this so the More You Think about Your Desired Future the Joy the Gratitude

It's Living in that Future Reality in the Present Moment and They'Re Signaling New Genes and New Ways Ahead of the Environment Now to Their Body Begins To Change To Look like the Event Has Already Occurred We'Ve Proven that that's Possible Now Think about this so the More You Think about Your Desired Future the Joy the Gratitude the the Feelings You Want To Have that Are More Positive the More You Think about It as Its as a Future Thing Happening the More Your Body Shifts You Feel from some Condition in Your Life the More Altered You Feel inside of You the More You Narrow Your Focus on the Cause and the Brain Freezes an Image and Takes a Snapshot and that Memory Now Is Embossed in the Brain It's Branded in There So Then People Think Neurologically within the Circuits of those Past Experiences and They Feel Chemically within the Boundaries of those Emotions and the Stronger the Betrayal the Stronger the Trauma the More the Body's Living in the Right So Then So How You Reverse that So Now if You Truly Got Passionate about a Future We'Ve all Done this You'Ve Got a Wild Idea in Your Mind

You Have a Community of People That Are Practicing this on a Daily Basis and They'Re Connected to Their Future because that's Where They'Re in Their Mind Is They Begin To Want the Future More than the Emotions of the Past so We'Ve Done Enough Measurements Now Louis To Know that We Can Teach People How To Do that and We Have Evidence that People Can Sustain It for 45 Minutes to an Hour It's a Skill Now They Know that They Know How To Do It So Now They Have Brain Coherence and Heart Coherence Well once the Heart Begins To Become Orderly and Coherent It Acts as an Amplifier

So As Long as You'Re Living by the Same Emotion every Single Day You'Re Signaling the Same Gene in the Same Way and if that Gene Is Related to a Survival Emotion a Stress Hormone Then You'Re down Regulating the Gene and You'Re Creating Disease So When the Person Trades that Emotion and Really Breaks Free from the Chains of Their Path and Now They'Re Feeling an Elevated Emotion Well Now They'Re Dialing Down the Gene for Ms and They'Re Up Regulating the Gene for Health and Balance and so the Person Will You Say to Them Where's the Disease

We Start Opening Our Heart We Start Elevating the Body's Energy and Then those Emotions Can Drive Certain Thoughts of Your Future Other Times You Open Your Awareness You Create Brain Coherence You Have the Vision of Your Future You Begin To Emotionally Experience It However You Want To Jump on that Cycle and Then Sustain It because the Longer You'Re Conscious of that Energy the More You'Re Drawing Your Future to You So Then Most People Spend Their Lives Right They We Live in this Realm Called Space-Time Three-Dimensional Reality and You Move Your Body through Space and Three-Dimensional Reality It Takes Time Yeah so Everything All Your Goals All Your Dreams All Your Visions

High-Rise (novel)

High-Rise is a 1975 novel by British writer J. G. Ballard. The story describes the disintegration of a luxury high-rise building as its affluent residents gradually descend into violent chaos. As with Ballard's previous novels *Crash* (1973) and *Concrete Island* (1974), *High-Rise* inquires into the ways in which modern ...

High-Rise by J.G. Ballard | Goodreads

This story is about civilized people living in a high-rise of 40 floors. Everything seems fine and dandy at the beginning. The place has two swimming pools, a supermarket, a hair salon and even a little school to educate the kids. All the comfort in the world. What could go wrong in a building like that?

JG Ballard's High-Rise Reviewed

Our suspension of disbelief is that we accept no one ever tries to leave the place. *High-Rise* explores and reveals Ballard's ideas about the quick mutability of reality, and the kind of mental state most likely to adapt and succeed in times of extreme and rapid change in an isolated environment.

High-Rise (film) - Wikipedia

High Rise is a horrific novel about a building that begins to have a strange hold over its residents. The high rise is a virtual vertical city, with the higher levels representing higher social class status. The building has it's own school, restaurants, pools, grocery store.

High-Rise Summary and Study Guide - SuperSummary

3 Oct 2015 — The abstract lexicon in the story evokes a prison – there are mazes, blocks, bunkers, cells, corridors, aisles. His mind jumps from one fractured event to another in a kind of short circuit. Time becomes “quantal” just like the blocks on the island. There is no past, no future – just an endless, ...

High-Rise by J.G. Ballard

18 Mar 2016 — The new film adaption of J G Ballard's classic 1975 novel *High-Rise* has been a while coming. Much like the power-cuts that interrupt life in the novel's namesake, various attempts to translate the book for cinema have been erratic, and ultimately failed. But with director Ben Wheatley's effort ...

JG Ballard's High-Rise Reviewed

High-Rise is a 2015 British dystopian thriller film directed by Ben Wheatley from a screenplay by Amy Jump, based on the 1975 novel of the same name by J. G. Ballard. The film stars Tom Hiddleston, Jeremy Irons, Sienna Miller, Luke Evans, and Elisabeth Moss.

High-Rise: A Novel: Ballard, J. G. - Books

High Rise is a horrific novel about a building that begins to have a strange hold over its residents. The high rise is a virtual vertical city, with the higher levels representing higher social class status. The building has it's own school, restaurants, pools, grocery store.

Why JG Ballard's High-Rise takes dystopian science fiction ...

In this visionary tale of urban disillusionment society slips into a violent reverse as the isolated inhabitants of the high-rise, driven by primal urges, create a dystopian world ruled by the laws of the jungle.

Why the dark world of High-Rise is not so far from reality

19 Apr 2023 — Ballard's tower in High-Rise is only 40 stories, barely worth acknowledging in a modern metropolis. We have doubled this while somehow housing even fewer people. These towers require sustenance to live. Bodies to fill them, bodies to pay for them. Bodies are the first and final currency for any work.
