Nneoma Nwaogu "I would also like to extend my great gratitude for such a wonderful study text; they made my understanding of CIMA P1 much easier. Once more thank you very much to the Team." Mthuthuzeli September "I received the fantastic news this morning that I have finally passed T4!! Many thanks for your support and advice in the lead up to the exam, I am certain that without the really important tips on exam strategy you provided I would not have passed. Many thanks again!" Babak Fardaghaie "So I managed a 76% pass for E2 using your notes. They are very well structured and easy to use. Thank you so very much." Amanda Vakalisa "The Astranti method of teaching is systematic and easy to follow. I gained a lot of knowledge and regret not enrolling with Astranti for my earlier CIMA exams. After the course I was confident about my preparation. I would recommend the course to everyone sitting the T4b exam especially the MARKED mocks. Its the section by section detailed feedback from tutors that helps to improve and gain confidence." Gunjan Nagpal "I have cleared all 3 strategic level papers in my first attempt. I used the Astranti learning material during my final revision. They were short, precise and saved a great amount of time which made all the difference for me in the exam. Thank you very much." ## CIMA F3 Financial Strategy

CIMA offers a business qualification with a finance focus, aiming to produce members with accounting prowess who are skilled in strategic decision-making. 98% of its members work in business, the highest proportion of any worldwide accountancy body. Paper F3 is the strategic level paper in the Financial pillar. Material from papers F1 and F2 is relevant as well as information systems from E1 and investment appraisal from P1. The syllabus is concerned with: \* The identification of suitable financial objectives, and how these might be attained by use of appropriate financial strategies \* The management of finance to ensure that adequate short and long-term funds are available to meet the requirements of these financial strategies \* The evaluation of acquisition targets i.e. will the acquisition help in the achievement of a company's financial objectives? \* The evaluation and control of investment decisions This comprehensive Study Text contains all you need to know for F3, featuring step-by-step guides to financial management techniques such as calculating the cost of capital and business

valuations, which many students find tricky. Exam formulae are clearly identified and explained with plenty of examples and questions for essential practice. Key terms are highlighted throughout to help you to learn new terminology such as beta factor and synergy.

I was very impressed with the quality of the materials. They were so well written and much easier to understand than my previous provider's official texts. So much so that I passed my E2 exam gaining my highest grade so far using Astranti's study text. - Gayle June 2019 Simple, easy to understand and very effective, notes are logical and very easy to follow. - Monique June 2019 I like how it's condensed and easy to read. - Paul December 2020 After having cancelled my P1 and E1 exams because I was failing to understand the concepts under another tuition provider I decided to use Astranti books. These are well explained with detailed examples. I managed to pass my subjects on first time attempts. - Isheunesu December 2021 What I really liked were Astranti's Study texts. They were written in this engaging, interactive way which I personally found very interesting (I usually zone out and get really bored) when I have to read extremely theoretical content. - Clare December 2020 The Astranti study texts have been used by thousands of CIMA students in preparation for their management accountancy exams.
