Just One More Question

In this astonishing memoir, the medium who was hailed by Hans Holzer as "probably the best in the world" offers extraordinary insight to readers to help them tap into their own psychic strengths, fulfill their destinies, and answer that "one more question" on their own. For more than twenty-five years, Yolana has used her remarkable gifts to give hope, guide the careers of celebrities and politicians, connect loved ones who have passed on, solve medical mysteries, and even crack some of New York's most high-profile criminal cases. Here she finally reveals the facts behind those illuminating readings, divulges the truths of her experiences with ghosts and the beyond, and most importantly, inspires readers everywhere to trust in themselves and in their own intuitive and spiritual powers.

The twisted roller coaster ride called "opening up psychically" started for me the day my Grandmother died. That one pivotal moment changed me from a materialistic, business-driven agnostic to someone who doubted reality itself. I began to wonder if the brain I had relied on for so many years had finally set itself out to pasture. Talking to the dead isn't a joy ride. It isn't a theme park pass to chat with Elvis whenever you want, or a ticket to discover the long lost secrets of Atlantis. It's a big responsibility, and a task I now hold dear to my heart. This book is about what happens when one stumbles onto the spiritual

path. I present this book to you, raw, uncensored, and in detail - all the ups and downs of what it is really like to spend your days among the dead. You will find the hours of frustration and the moments of debilitating fear are also met with times of pure bliss when life unfolds to demonstrate the beauty of human potential. This book is not some fictional tale "based on a true story." This is my life, and I share it with you.

The Reluctant Medium

A touching, true story of one woman's journey to suppress her mediumship and psychic abilities so to conform to her upbringing and the world. As a child Jane would fear the dark and would clearly see spirits and the afterlife. She learnt, to the best of her ability, how to suppress her gifts until she met a healer, who unbeknown to her was about to open up a Pandora's box and life would never be the same again. A terrifying and horrific time, where spirits were contacting Jane, day and night, eager to communicate through her. Petrified by the intensity of the spirit world, Jane had to seek help and learn quickly how to control her heightened gifts and was led to Eddie, literally her earth angel, who treated her with tough love, guidance and told her to pull herself together. A fascinating read of events that will make you shudder with goose bumps, giggle, laugh aloud and reduce you, at times, to tears. Jane in time would learn through determination, healing and acceptance to truly embrace her true self. An interesting incite into a mediums world, where two worlds become one. A must read!

'No matter where I move or how many times I change my name or what colour I dye my hair, people find me. I don't advertise. I don't have a website. I don't even answer the phone. And still when I arrive at my used-clothing store in town, there are people lurking in the parking lot hoping to get a reading with me.' Born in suburban New York in the 1960s, Suzan Saxman has spent a her life coming to terms with her extraordinary gifts. As a child, she saw things that terrified her and her uncanny insight alienated her from other children and her own mother. But as an adult, she slowly learnt to use her psychic ability to bring comfort to those in need. She has connected the living with the dead, brought messages of hope from one world to another, and helped clients bring the shadow of their past into the light of the present. Described as an 'uncanny and profoundly moving book' by Proof of Heaven author, Eben Alexander, this is a gripping and sometimes unsettling portal into the life of a woman who lives in many worlds, some wildly far from and some eerily near to our own.

The Reluctant Psychic

"Kiersten's story teaches us that narcissistic abuse and coercive and controlling relationships scramble even the deepest metaphysical intuition...by telling her first-person story in a vulnerable and raw way, Kiersten reminds us that narcissistic and abusive relationships have a unique architecture, and represent a gradual process of grooming, gaslighting, and indoctrination." —Dr. Ramani Durvasula, Narcissism Expert, Licensed Clinical Psychologist, and Bestselling Author "If you're wondering if intuition is real and if it can save your life, this book is for you." —Stephanie Arnold, Bestselling Author of *37 Seconds: Dying Revealed Heaven's Help—A Mother's Journey* and star of Netflix's *Surviving Death* docuseries "Little Voices is a life-changing book! Not only will it make even the biggest skeptic believe in intuition, but it will also connect the dots for millions of abuse survivors." —Kelli Ellis, Celebrity Designer, Artist, and Author | HGTV | BRAVO TV | TLC | TDN As a skeptic and firm believer in science, Kiersten struggled with her newfound intuitive skills and the reason they were coming to light. She powered through fear to reach out to strangers and law enforcement with the messages she received. After receiving validation that what she was experiencing was real, helping families and law enforcement became a mission. It had to be—the kids were coming to her for help. One question remained: Why was this happening to her? And the answer was startling. The children were coming to help Kiersten as much as she was helping them. Before she could understand that, though, this happily married mother would have to stumble down a destructive path under a spell cast by a narcissistically abusive predator to learn to trust and use intuition to heal her childhood trauma—and escape a dangerous man she thought she loved. While Kiersten's late-in-life mediumship ability is extraordinary, the wounds she'd buried that led her on a toxic path is a story many can relate to. *Little Voices* vividly inspires everyone to explore their own patterns, uncover their hidden pain, and trust their intuition in order to rise from the ashes.

Messenger Between Worlds

From everyday apps to complex algorithms, Ruha Benjamin cuts through tech-industry hype to understand how emerging technologies can reinforce White supremacy and deepen social inequity. Benjamin argues that automation, far from being a sinister story of racist programmers scheming on the dark web, has the potential to hide, speed up, and deepen discrimination while appearing neutral and even benevolent when compared to the racism of a previous era. Presenting the concept of the "New Jim Code," she shows how a range of discriminatory designs encode inequity by explicitly amplifying racial hierarchies; by ignoring but thereby replicating social divisions; or by aiming to fix racial bias but ultimately doing quite the opposite. Moreover, she makes a compelling case for race itself as a kind of technology, designed to stratify and sanctify social injustice in the architecture of everyday life. This illuminating guide provides conceptual tools for decoding tech promises with sociologically informed skepticism. In doing so, it challenges us to question not only the technologies we are sold but also the ones we ourselves manufacture. Visit the book's free Discussion Guide [here](#).

Inside the Medium

In the complex, multilingual societies of the 21st century, codeswitching is an everyday occurrence, and yet the use of students' first language in the English language classroom has been consistently discouraged by teachers and educational policy-makers. This volume begins by examining current theoretical work on codeswitching and then proceeds to examine the convergence and divergence between university language teachers' beliefs about codeswitching and their classroom practice. Each chapter investigates the extent of, and motivations for, codeswitching in one or two particular contexts, and the interactive and pedagogical functions for which alternative languages are used. Many teachers, and policy-makers, in schools as well as universities, may rethink existing 'English-only' policies in the light of the findings reported in this book.

Just Me Insights from a Reluctant Medium

From the perspective of translanguaging and instruction theories, this Open Access book examines Chinese English Medium Instruction (EMI) lecturers' linguistic and pedagogical characteristics. This book demonstrate that 'English' in EMI is not a monolingual issue and EMI lecturers have applied their bilingual advantages to systematically and strategically advance their pedagogy practices through a translanguaging process. This book reflects upon EMI lecturers' culture-imbedded teaching and learning philosophies and explores the implications of local classroom practices, such as topic-centered instruction and teacher presentation through demonstration. This book argues that EMI teaching is not an approach that can reach universal consent across linguistic, cultural and educational systems; it is an approach that is exclusively contextualised in the lecturers' closely related cultural and educational system, and restricted by the available resources. This is an open access book.

The first volume of this ground-breaking book critically examines how and why arts-based methods such as choir conducting workshops and dialogue improvisation can make a difference in improving professional practice. Taking a 'human-centred' approach, it delivers an insightful account of what these approaches do differently to achieve a new mode of learning – 'sensuous learning' – that cultivates professional judgment to serve the common good, simultaneously supporting personal and collective growth. The chapters present cutting edge examples of multiple ways arts-based methods underpin learning arenas for expanding leadership and improving professional practice. The reflexivity cultivated through these learning arenas has the unique potential to improve professional practice, not merely by enhancing competence but also by cultivating character and conscience, which is central in making judgments that serve the common good. These benefits are relevant for professional practitioners

sharpening the skills and behaviours needed in organisations, including creativity, diversity, imagination, and improvisation.

Only Paralyzed from the Neck Down

We all, as children, saw imaginary friends and heard monsters in the closet. But for Suzan Saxman, those friends and monsters didn't go away—and they weren't imaginary. They were the dead who came to her from the time she was a little girl with urgent messages for the living. Raised in a house filled with secrets, she saw and spoke the truth as soon as she could talk, alarming the nuns in her convent school with her revelations and terrifying her own mother with her strange visions. Each night she woke to see a man with no eyes watching her, and each day she kept watch by the window while her father was at work and Steve, her real father, a swarthy drifter, rendezvoused with her mother. It was the 1960s in suburban Staten Island and she tried to hide it all, and be a daughter her mother could love. Always skeptical of her tremendous gift, she struggled to come to terms with her calling even as she revealed the destinies of everyone, from housewives to hit men, stockbrokers to rock-and-rollers. She could witness everyone's future—everyone's but her own. Why was she visited by angels and demons? Could she ever escape this strange fate? Where was her own soul mate? Now Suzan tells the story of her journey and tries to make sense of her family's buried secrets. Through powerful readings of others' destinies interwoven with compelling narrative, a reluctant psychic emerges from the shadows.

A Call from the Other Side

The media that capture our attention, mold our thoughts, and shape our expressions are the invisible information environments that surround us. The "Digital Age" has forced humanity to engage in daily prolonged immersion within specific media of thought that, over time, become toxic media environments and can result in a state of mental imbalance. As a process for achieving stability, practicing media mindfulness is not about disengaging, but rather having a deeper awareness of the media environments that we are immersed in--how they engage our attention, how they affect our thoughts and behaviors and, most importantly, how we can manage them to avoid their harmful effects. Simply changing one's media environment results in a new way of attending to information and even a shift in one's behavior and thought patterns. This book explains why our media environments are often toxic, the effects they can have on our mental health, and steps we can take in order to practice mindful, balanced, and healthy engagement with media environments. The specific focus of this practice is on managing the psychological effects of all media. Readers will learn how to manage their media environments for optimal mental, emotional, physical, and spiritual health with the aid of a simple mantra: Change your behaviors and your thoughts will follow.

Haunting Experiences

For fans of TLC's Long Island Medium and anyone interested in the big questions of life, death, and finding out what's important in between, New York Times bestselling author and medium Theresa Caputo shares how she discovered her gift and her many encounters with Spirit. Beloved medium Theresa Caputo, star of the hit television show Long Island Medium, opens the door to her world and invites you to experience her exceptional gift of communicating with those who've crossed over to the Other Side. The always funny, frank, and down-to-earth medium—whether she's talking to her family, the local butcher, or the souls of those who've passed on—began communicating with Spirit at the age of four, but didn't fully accept her gift until she was thirty-three years old. She had a good life as a busy wife and working mom, but also suffered from chronic anxiety that, as it turned out, came from ignoring her abilities. Once Theresa began channeling, she realized that she felt much better after delivering a message from Spirit and releasing that energy. Since then she's used her extraordinary gift to help people heal from the loss of their loved ones. Theresa feels that it's her purpose to make us all aware that there is more to life than what we see here in the physical world. She wants you to know that your deceased loved ones are safe and at peace, and that they're now with you in a different way—watching over you, loving you, and assisting you from the Other Side. She also wants you to realize that the unexplainable things you sense and feel from these souls are real, and that it's healthy and essential to acknowledge them. *There's More to Life Than This* lends insight on how Theresa's mediumship works, what happens to your soul when you die, what Spirit says Heaven is like, what the deceased want you to know, the importance of living a positive life, and the many roles that your family, friends, angels, guides, souls of faith, and God play here and in the afterlife. It also explores how to safely connect with Spirit, so that you can recognize when your loved ones are reaching out. Through Theresa's personal story, compelling anecdotes, and fascinating client readings, she teaches us about how she communicates with Spirit and helps us to understand and appreciate the important lessons and touching messages that we're meant to embrace every day.

The Reluctant Fundamentalist

This book presents a case study of English-Medium Instruction (EMI) implemented by universities in Vietnam, making valuable theoretical, empirical, and methodological contributions to the research in EMI which is currently a popular theme in the field of Higher Education. The importance of internationalization of higher education has been widely recognized by many countries all over the world. The spread of English as an international language has resulted in its crucial role in teaching and learning any disciplines. Globally, higher education in many non-English speaking countries has witnessed rapid expansion of (EMI) which was initiated in Europe, then to Asia and other continents which are featured with “Cultural Circles” spread in the world. Although there are many publications with the same theme available today, this monograph is unique because it is the first time to examine EMI classroom interaction from the cultural perspective specifically rather than from linguistic or pedagogical perspectives. It is a pioneering attempt to discuss in depth about cultural issues relating to EMI, namely (1) the social-cultural context of EMI classes in higher education; (2) the cultural backgrounds of EMI teachers and learners; and (3) culture interactions between teachers and learners in EMI classrooms. In addition, both quantitative and qualitative methods are employed to collect data from teachers and learners. Finally, a context-based model of EMI is proposed based on findings of this research. As a country within the Confucius Heritage Cultural Circle, Vietnam has been selected for this study because few studies to date are carried out in how EMI is culturally integrated to teaching and learning in the Vietnamese universities.
