Advanced Critical Care Nursing: General Assessment - Advanced Critical Care Nursing: General Assessment by MRU: Focus on Teaching & Learning 464,723 views 5 years ago 7 minutes, 30 seconds

This video is intended to show you the general flow of an assessment for a standard ICU patient who is intubated with an arterial line and multiple medications.

In the clinical setting your assessments will need to be based on the patient's presenting problem and current condition.

When assessing the catheter and urine ensure you document the colour and amount of urine and assess the urethra for irritation, discharge or damage.
