Principles of Muhammadan Law

The Making of Modern Law: Foreign, Comparative and International Law, 1600-1926, brings together foreign, comparative, and international titles in a single resource. Its International Law component features works of some of the great legal theorists, including Gentili, Grotius, Selden, Zouche, Pufendorf, Bijnkershoek, Wolff, Vattel, Martens, Mackintosh, Wheaton, among others. The materials in this archive are drawn from three world-class American law libraries: the Yale Law Library, the George Washington University Law Library, and the Columbia Law Library. Now for the first time, these high-quality digital scans of original works are available via print-on-demand, making them readily accessible to libraries, students, independent scholars, and readers of all ages. ++++++ The below data was compiled from various identification fields in the bibliographic record of this title. This data is provided as an additional tool in helping to insure edition identification: ++++++ Yale Law Library LP3Y0454400 19190101 The Making of Modern Law: Foreign, Comparative, and International Law, 1600-1926 Bombay: N. Law Relating to Women and Children

'A magnificent selection of the Booker winner's short stories' Sunday Times With an introduction by Anita Desai. Over the course of her glittering literary career, Ruth Praver Jhabvala wrote some of the most wonderful novels of the twentieth century and screenplays to some of the most beloved films - but she was also a master of the short story form. This stunning new collection brings together the jewels in the crown of her writing: it is a showcase of astonishing storytelling power.

Principles of Hindu Law

Transcultural Negotiations of Gender probes into how gender is negotiated along the two axes of 'belonging' and 'longing'— the twin desires of being located within a cultural milieu, while yearning for either what has passed by or what is yet to come. It also probes into the category of 'transculturality' itself, by examining how not only does it pertain to the coming together of cultures from diverse spatial locations, but how shifts over time and changing performative modes and technological means of articulation, within what may be presumed to be the same culture, can also lead to the 'transcultural'. The volume comprises four sections. Part I, '(Be)longing in Time', examines negotiation of gender

through transcultural acts of myths, rituals and religious practices being revised and revisited over time. Part II, '(Be)longing in Space', studies how gender is renegotiated when people from different spaces interact, as also when public spaces and domains themselves become sites of such negotiations. In Part III, 'Performing (Be)longing', such transcultural negotiations are located in the context of changing modes of performance, considering particularly that gender itself is performative. The final section, 'Modernity, Technology and (Be)longing', traces how gender becomes transculturally negotiated in a space like India, with the advent of modernity and its companion technology.

Indian Penal Code

The People's Republic of Bangladesh is centrally located in South Asia and is one of the eight countries that constitute the South Asian Association of Regional Cooperation (SAARC). This unique volume gives a voice to the different religious communities affected by the current laws and practices in force in Bangladesh. The reader will find an overview and gain understanding of the legal issues that need to be addressed in each case.

At the End of the Century

In 2002 the International Labour Organization issued a report titled 'Decent work and the informal economy' in which it stressed the need to ensure appropriate employment and income, rights at work, and effective social protection in informal economic activities. Such a call by the ILO is urgent in the context of countries such as India, where the majority of workers are engaged in informal economic activities, and where expansion of informal economic activities is coupled with deteriorating working conditions and living standards. This book explores the informal economic activity of India as a case study to examine typical requirements in the work-lives of informal workers, and to develop a means to institutionalise the promotion of these requirements through labour law. Drawing upon Amartya Sen's theoretical outlook, the book considers whether a capability approach to human development may be able to promote recognition and work-life conditions of a specific category of informal workers in India by integrating specific informal workers within a social dialogue framework along with a range of other social partners including state and non-state institutions. While examining the viability of a human development based labour law in an Indian context, the book also indicates how the proposals put forth in the book may be relevant for informal workers in other developing countries. This research monograph will be of great interest to scholars of labour law, informal work and workers, law and development, social justice, and labour studies.

Includes entries for maps and atlases.

Transcultural Negotiations of Gender

Mercantile Law explains the fundamental principles of the basic laws governing the modern business world. It presents a comprehensive, systematic and coherent study of the laws relating to Contracts, Sale of Goods, Partnership, Negotiable Instruments, Information Technology, Consumer Protection, Insurance, Insolvency, and Arbitration and Conciliation. It discusses the statutory provisions and the intricacies of law and explains the logic behind them. A large number of decided cases and illustrations given in the text explain the practical implications of the law. Practical problems with hints and solutions have been given at the end of each chapter for the student's self-assessment. The book remains the leading text for students preparing for BCom, MCom, CA, ICMA, MBA, Company Secretaries, IAS, banking and judicial services examinations. It also serves as a handy and compact volume for those engaged in business, young managers and all others interested in the study of business law.

Revisiting Personal Laws in Bangladesh

Not all labour law and industrial relations scholars agree on the efficacy of the comparative approach - that the analysis of measures adopted in other countries can play a constructive role in national and local policy-making. However, the case deserves to be heard, and no better such presentation has appeared than this remarkable book, the carefully considered work of over 40 well-known authorities in the field from a wide variety of countries including Australia, France, India, Israel, Peru, Poland, and South Africa. The volume contains papers delivered at a conference sponsored by the Marco Biagi Foundation at the University of Modena and Reggio Emilia in March 2008.

Like Birds, Like Fishes

Ruth Praver Jhabvala, A Twentieth Century Expatriate Writer Of Polish-Jewish Origins And British Upbringing, Who Chose To Make India Her Home Since 1951 For More Than Two Decades, Has Made Her Mark As Writer Of Novel, Story, Screenplay, Non-Fiction, Etc, Which Have Brought Her Worldwide Recognition And Prestigious Awards And Fellowships Both In India And Abroad. Her Work Offers A Site For The Intersection Of Cultures, Especially Those Of India And Europe/America. *Heat And Dust* (1975), Jhabvala S Booker Winning And Most Well-Known Novel, Which Ensured Her Celebrity Status In The Literary World, Is A Delightful Interrogation Of The Imperial And Post-Imperial Discourses Vis-À-Vis India And England, As Presented Through The Parallel Lives Of Two English Women In India, Placed In Two Distinct Historical Contexts Across Half-A-Century, In Which The Young Narrator Is Set To Restore The Lost Story Of Her Predecessor From The Heat And Dust Of Passion And Oblivion. The Atlantic Critical Study Of *Heat And Dust*, Which Is Primarily Meant For The Students Of English Literature Of Indian Universities, Is A Comprehensive, Self-Sufficient, And An In-Depth Study Of The Text. The Present Book Provides A Thorough And Illuminating Study Of The Text And Examines It From Such Aspects As Race Relations, Man-Woman Relations, Themes, Form, Structure, And Technique. In Addition, It Provides Useful Background Materials Related To Jhabvala S Life, Works, Her Vision Of India, And A Detailed Critical Summary Of The Entire Text, Along With A Select Bibliography And Sample Questions. The Book Will Be Immensely Useful For Students, Scholars And Teachers In The Area.

Enhancing Capabilities through Labour Law

In Human Rights, Gender and the Environment, the authors unravel the complex themes of human rights, gender, and the environment, basing their approach on the pivotal issue of inequality. All three themes manifest unequal relationships that exist between humans and between humans and the environment. It discusses human rights, gender issues in contemporary India, impact of socio-economic development on the environment and examines the specific issues of the environment in an international context and presents policies and movements in India.

National Union Catalog

Winner of the Booker Prize as best novel of the year in 1983, *Heat and Dust* was also made into a major motion picture starring Julie Christie, now regarded by many as a classic.

Mercantile Law, 8th Edition

Study on Ruth Praver Jhabvala, b. 1927, English fiction and screenplay writer from India.

The Modernization of Labour Law and Industrial Relations in a Comparative Perspective

Now in its fifth year, the "Max Planck Yearbook of United Nations Law" is becoming a much sought-after forum for essays by the most distinguished professors in international law. These essays cover a variety of topics related to the activities of the United Nations: from the role of the Security Council to UN treaties, from environmental issues to humanitarian law. The "Yearbook" also contains essays e.g. on the World Bank, the IAEA, and the WTO. Volume 5 focuses in particular on the international dispute settlement system with articles on the activities of international courts and tribunals as well as the contributions to settlement of disputes by other institutions such as the World Bank Inspection Panel. But there are also tackled subjects as the future of peace-keeping, the UN Transitional Administration in Kosovo and East Timor, as well as human rights and their implementation. This book is a must-have for any academic involved in international law. For more information on this yearbook please visit the website of the Max Planck Institute

Geography of Jhabvala's Novels

The only textbook in the area to take a Global South perspective, drawing on the expertise of the authors and bringing in perspectives from a leading judge in the field. International Law of Human Rights takes students through a rigorous exploration of the theoretical foundations and principles of the subject, alongside current practice and procedures.- Provides a unique Global South perspective, offering a broad view of the subject area.- Focuses on the historical and philosophical foundations of human rights before exploring global and regional systems for their protection, and key substantive rights.- Presents a clear and accurate account of current human rights law practice.- Deep discussion and thorough analysis supported by 'further reflections' and 'critical debate' sections, and summaries

of key cases.- Insightful testimonial from the distinguished Judge Cançado Trindade helps to bring a complex discipline to life.- Also available as an e-book with features and links that offer extra learning support.

Ruth Prawer Jhabvala's Heat and Dust

The book 'Business Law' deals with the fundamental branches of business law, namely, law of contract, law of sale of goods, law of partnership, law of negotiable instruments and law of limited liability partnership. Its contents have been extracted from the authors' reputed title 'Mercantile Law' that has gained tremendous readership over the years.

Human Rights, Gender and the Environment

This book deals with the fundamental branches of business law, namely, law of contract, law of sale of goods, law of partnership, law of negotiable instruments and law of information technology. Its contents have been extracted from the authors' reputed title Mercantile Law that has gained tremendous readership over the years. Business Law is intended to serve as a textbook for the students of BCom, BCom (Hons), CA Common Proficiency Test (CPT), CA Integrated Professional Competence Course (IPCC), CS Foundation Programme, ICMA Intermediate, BBA, MBA, and also for those appearing for banking and competitive examinations.

Heat and Dust

The emergence of transnational social movements as major actors in international politics - as witnessed in Seattle in 1999 and elsewhere - has sent shockwaves through the international system. Many questions have arisen about the legitimacy, coherence and efficiency of the international order in the light of the challenges posed by social movements. This book offers a fundamental critique of twentieth-century international law from the perspective of Third World social movements. It examines in detail the growth of two key components of modern international law - international institutions and human rights - in the context of changing historical patterns of Third World resistance. Using a historical and interdisciplinary approach, Rajagopal presents compelling evidence challenging debates on the evolution of norms and institutions, the meaning and nature of the Third World as well as the political economy of its involvement in the international system.

Indian Writing In English:Critical Rum.(part-2)

Examines whether the Indian Supreme Court can produce progressive social change and improve the lives of the relatively disadvantaged.

Author Catalogue of Printed Books in European Languages

Hailed as one of the best books of 1998 by the Los Angeles Times, this group of twelve short stories was written over the past twenty years. From the steamy streets of New Delhi to New York's tony Upper East Side, Jhabvala's characters grapple with the universal quandaries of the human experience—jealousy, passion, temptation, and deception—truths of life and love that follow no matter where we wander.

The Reader's Guide to Women's Studies is a searching and analytical description of the most prominent and influential works written in the now universal field of women's studies. Some 200 scholars have contributed to the project which adopts a multi-layered approach allowing for comprehensive treatment of its subject matter. Entries range from very broad themes such as "Health: General Works" to entries on specific individuals or more focused topics such as "Doctors."

Ruth Prawer Jhabvala

This text assesses the suitability of the UN Convention against torture and other cruel, inhuman or degrading treatment or punishment (hereinafter referred to as the Torture Convention) as a means of

protecting and enforcing the right to be free from torture. Evaluation of the Convention's ability to attain these ends is undertaken through a critical commentary on its substantive and enforcement provisions and on other human rights instruments.

Max Planck Yearbook of United Nations Law, 2001

"The chapters of this volume were presented at the twenty-seventh and twenty-eighth Sokol Colloquia on Private International Law, held at the University of Virginia School of Law in September 2014 and September 2015." -- Acknowledgments, p. [xi].

International Law of Human Rights

Fully updated to cover topics such as climate change, trade and business activities, while retaining the original style and structure.

Business Law, 7th Edition

This volume looks at the living and working conditions of street vendors in different cities of the world. It examines the legal guidelines regarding control of public space and the rights of the working poor to earn their livelihood, and the civic authorities' constant regulation of this space.

Business Law: (As per latest syllabuses of universities in India), 8th Edition

'We are from different settlements but we belong to one city.' – Rekha, Vikasini from Ahmedabad Living on the margins of India's urban sprawls, the poor women of the nation's slums bear the manifold burdens of housework, childcare and earning a livelihood. The Mahila Housing SEWA Trust (MHT) was established in 1994 with the aim of mobilizing and empowering these urban poor women, and supporting their access to adequate housing. Twenty-five years on, the MHT has changed the lives of over 1.7 million individuals, reaching more than 3,30,000 households and skilling over 17,000 women. The City-Makers tells the story of this incredible journey – a journey of transformation that has the potential to one day change the cities in which we live. The accounts of the innumerable courageous women workers who have taken steps – individually and collectively – to bring about change at the personal and community levels speak of the struggles, the sense of solidarity and the triumph they experience as they build their homes with their own hands; bargain with government and private agencies for access to water, sanitation, affordable energy and land rights; find solutions to make their homes climate-resilient; and participate in city-level planning and decision-making processes. Together, the success stories of Meena, Mumtaz, Parul, and others like them, reflect the central message of the MHT's mission: that women living in urban informal settlements must be taken along if India wishes to make its cities participatory, inclusive and sustainable.

International Law from Below

First published in 2001. Routledge is an imprint of Taylor & Francis, an informa company.

A Qualified Hope

East Into Upper East

Myth in History, History in Myth

Based on the proceedings of a 2005 conference, this volume re-examines the role of Dutch social and patriotic myths. Using recent methodological approaches, the essays assess how the Dutch perceived their myths and how they were treated by previous historians.

Myth and History: Close Encounters

The present volume tackles the twin subject of myth and history, engages into discussions of the emerging interactions between the two spheres, and highlights the concomitant intricate contexts of reference. Thus, it contributes to the study of a su

Myth and History in Ancient Greece

Surely the ancient Greeks would have been baffled to see what we consider their "mythology." Here, Claude Calame mounts a powerful critique of modern-day misconceptions on this front and the lax methodology that has allowed them to prevail. He argues that the Greeks viewed their abundance of narratives not as a single mythology but as an "archaeology." They speculated symbolically on key historical events so that a community of believing citizens could access them efficiently, through ritual means. Central to the book is Calame's rigorous and fruitful analysis of various accounts of the foundation of that most "mythical" of the Greek colonies--Cyrene, in eastern Libya. Calame opens with a magisterial historical survey demonstrating today's misapplication of the terms "myth" and "mythology." Next, he examines the Greeks' symbolic discourse to show that these modern concepts arose much later than commonly believed. Having established this interpretive framework, Calame undertakes a comparative analysis of six accounts of Cyrene's foundation: three by Pindar and one each by Herodotus (in two different versions), Callimachus, and Apollonius of Rhodes. We see how the underlying narrative was shaped in each into a poetically sophisticated, distinctive form by the respective medium, a particular poetical genre, and the specific socio-historical circumstances. Calame concludes by arguing in favor of the Greeks' symbolic approach to the past and by examining the relation of mythos to poetry and music.

A Short History of Myth

As long as we have been human, we have been mythmakers. In *A Short History of Myth*, Karen Armstrong holds up the mirror of mythology to show us the history of ourselves, and embarks on a journey that begins at a Neanderthal graveside and ends buried in the heart of the modern novel. Surprising, powerful and profound, *A Short History of Myth* examines the world's most ancient art form - the making and telling of stories - and why we still need it.

Heroes in Herodotus

This examination of Herodotus' references to mythological heroes reveals new aspects of his historiography and of his literary technique. In the development of Greek prose, Herodotus lies between the early logographers and later historians, thematically and stylistically as well as chronologically. His use of heroes exemplifies the intermediate nature of his work. As historiographical data, the heroes serve as chronological reference points, provide aetiologies for families and cities, and explain later customs and courses of action. As literary devices, the heroes operate as symbolic elements that stress important points in the text, place foreign countries within a comprehensible context, and contribute to the characterization of individuals such as Leonidas, Demaratus, and Xerxes.

Myth, History and the Industrial Revolution

Tourists are today urged to visit the 'birthplace of the Industrial Revolution', packaged as part of 'a glorious heritage'. Half a century and more ago the picture was very different. Then the Industrial Revolution was commonly treated as having been a social catastrophe which had brought 'a new barbarism' to the country. Donald Coleman traces the history of the term 'Industrial Revolution' and the uses to which it has been put. Originating in European radical Romanticism, popularised in English by Arnold Toynbee in the 1880s, it has achieved, with its meaning transformed, the status of potent myth in the nation's history. The book examines industrial revolutions real and imaginary; illuminates some of the activities of businessmen engaged therein; considers attitudes towards the businessmen who have thus come to occupy the historical stage; and discusses the academic study of business history -- a subject hardly imaginable without the Industrial Revolution. In the course of investigating these inter-related topics, the volume as a whole offers valuable insights into the ways in which economic history has been written and the concepts which have been invented and deployed in an effort to understand a central event in British history. This book provides an excellent introduction to the subject.

The Invention of Scotland

This book argues that while Anglo-Saxon culture has given rise to virtually no myths at all, myth has played a central role in the historical development of Scottish identity. Hugh Trevor-Roper explores three myths across 400 years of Scottish history: the political myth of the "ancient constitution" of Scotland; the literary myth, including Walter Scott as well as Ossian and ancient poetry; and the sartorial myth of tartan and the kilt, invented--ironically, by Englishmen--in quite modern times. Trevor-Roper reveals myth as an often deliberate cultural construction used to enshrine a people's identity. While his treatment of Scottish myth is highly critical, indeed debunking, he shows how the ritualization and

domestication of Scotland's myths as local color diverted the Scottish intelligentsia from the path that led German intellectuals to a dangerous myth of racial supremacy. This compelling manuscript was left unpublished on Trevor-Roper's death in 2003 and is now made available for the first time. Written with characteristic elegance, lucidity, and wit, and containing defiant and challenging opinions, it will absorb and provoke Scottish readers while intriguing many others. "I believe that the whole history of Scotland has been coloured by myth; and that myth, in Scotland, is never driven out by reality, or by reason, but lingers on until another myth has been discovered, or elaborated, to replace it."-Hugh Trevor-Roper

Adam in Myth and History

Our recent understanding of British history has been slowly unraveling thanks to new techniques such as DNA analysis, new archaeological data and reassessment of the literary evidence. There are considerable problems in understanding the early history of Britain; sources for the centuries from the first Roman invasion to 1000 AD are few and contradictory, the archaeological record complex and there is little collaboration or agreement between archaeologists, Roman and Anglo-Saxon historians. A common assumption concerning the development of the English language and, therefore British history, is that there was an invasion from northern Europe in the fifth century, the so-called Anglo-Saxon migration; a model based on the writings of Bede. However the Bedan model has become increasingly unsustainable and is on the verge of collapse. Myth and History offers a comprehensive reassessment of the present scientific, historical, archaeological and language evidence, debunking the model of British history based on Bede, and showing how Roman texts can be used in conjunction with the other evidence to build an alternative picture. Stephen Yeates demonstrates that the evidence that has been used to construct the story of an Anglo-Saxon migration, with an incoming population replacing most, if not all, of the British population has been found wanting, that initial attempts to interpret literally the DNA evidence based on historical sources are problematic, and that the best DNA analysis of the British Isles fits the evidence into a broader European view which attempts to plot the movement of people across the Continent and which sees the major migration periods in Europe as occurring in the Mesolithic and the Neolithic. This DNA analysis is constant with the latest assessments based on language development, contemporary historical reports from the Roman period, and the analysis of archaeological data from the Iron Age and Roman period. He also argues that the Roman texts can be used to identify where the Late Roman provinces of Britain actually lay and this leads to important conclusions about the ethnicity and origins of the early British peoples. This book is a timely attempt to unravel myth from history, present a cogent platform for Anglo-Saxon studies and understand who the British people really are.

Myth and History

"... a pioneering effort in English-language studies on Albania." --Nicholas C. Pano Albanian history is permeated by myths and mythical narratives that often serve political purposes, from the depiction of the legendary "founder of the nation," Skanderbeg, to the exploits of the KLA in the recent Kosovo War. The essays in *Albanian Identities*, by a multinational, multidisciplinary team of scholars and non-academic specialists, deconstruct prevalent political or historiographical myths about Albania's past and present, bringing to light the ways in which Albanian myths have served to justify and direct violence, buttress political power, and foster internal cohesion. *Albanian Identities* demonstrates the power of myths to this day, as they underpin political and social processes in crisis-ridden, post-totalitarian Albania.

Albanian Identities

Science Between Myth and History explores scientific storytelling and its implications on the teaching, practice, and public perception of science. In communicating their science, scientists tend to use historical narratives for important rhetorical purposes. This text explores the implications of doing this.

Myth Becomes History

This volume studies the marvellous stories of early Rome transmitted by ancient historians, to explore the porous boundaries and the hybrid borrowings between myth, history and historiography.

Science Between Myth and History

*Includes pictures *Includes ancient accounts of the myth *Discusses historical theories behind the legend *Includes online resources and a bibliography for further reading "Theseus, the hero-slayer of the Minotaur, entered Crete from without, as the symbol and arm of the rising civilisation of the Greeks." - Joseph Campbell Countless civilizations have come and gone over the course of time, but interest in mythology is one of the great constants. People have approached myths from countless angles, some denigrating and self-righteous, others earnest and open-minded, but there is something mystical and universal in all myths that speaks to the reader across the years, regardless of what they know of historiography or "schools of thought." The truth is that all of these stories live in a murky, anachronistic history so entangled that trying to unravel it can mean everything or nothing at all. One of the reasons for this is the age of most myths, especially those from ancient times (the name Theseus can be traced back as far as 1450 BCE, for instance). Another is the sheer volume of possible versions there can be of a given myth. A lot of mythological stories span centuries, so it's likely that nothing like an "original version" of Theseus and the Minotaur will ever be known. In fact, even if the story could be traced all the way back, the "original" is likely to be so far removed from the beloved modern-day version that it would not be adopted as canon anyway. Nor, it has to be said, can a version of the story be isolated that would have been read at a specific point in time, such as the Classical Period, since a lot of the sources for stories like Theseus are either fragmentary or come even later. Moreover, an "original" is less important than the layers of meaning accumulated over the ages. To the modern reader, the sum of the parts can be more fruitful than the mode of conception. Regardless, as one of the most famous myths of all time, the story of Theseus has been at the heart of Greek mythology since he became Athens' "Culture Hero" at the beginning of the 5th century BCE, and variants on his story surface in countless ancient sources. The importance of the story to the Greeks themselves makes it worth looking at the story from a historical standpoint; many scholars believe the actions and events in myths have a basis in historical fact. On the other hand, Joseph Campbell's "monomyth" theory takes a different approach by suggesting all myths are part of a wider, mythological framework representing the psychological needs of the reader. Whether the approaches are "correct" has been and will continue to be debated in scholarly circles for the foreseeable future, but in many respects both sides of the debate can add value and understanding for modern readers. Even in the case of a story like Theseus that so many people are familiar with, studying the legend allows for different ways of interpreting it, and helps readers understand all the different variations of events within it. Theseus and the Minotaur: The History of One of Greek Mythology's Most Famous Legends looks at the myth of Theseus and the Minotaur, based on both Greek and Roman sources, from which both fascinating and key elements of the story emerge. Along with pictures depicting important people, places, and events, you will learn about the story like never before.

Myth and History in the Historiography of Early Rome

A Cyclops is popularly assumed to be nothing more than a flesh-eating, one-eyed monster. In an accessible, stylish, and academically authoritative investigation, this book seeks to demonstrate that there is far more to it than that - quite apart from the fact that in myths the Cyclopes are not always one-eyed! This book provides a detailed, innovative, and richly illustrated study of the myths relating to the Cyclopes from classical antiquity until the present day. The first part is organised thematically: after discussing various competing scholarly approaches to the myths, the authors analyse ancient accounts and images of the Cyclopes in relation to landscape, physique (especially eyes, monstrosity, and hairiness), lifestyle, gods, names, love, and song. While the man-eating Cyclops Polyphemus, famous already in the *Odyssey*, plays a major part, so also do the Cyclopes who did monumental building work, as well as those who toiled as blacksmiths. The second part of the book concentrates on the post-classical reception of the myths, including medieval allegory, Renaissance grottoes, poetry, drama, the visual arts, contemporary painting and sculpture, film, and even a circus performance. This book aims to explore not just the perennial appeal of the Cyclopes as fearsome monsters, but the depth and subtlety of their mythology which raises complex issues of thought and emotion.

Theseus and the Minotaur

"The book explores how border subjects have been created and disputed in cultural narratives of the Texas-Mexico border, comparing and analyzing Mexican, Mexican American, and Anglo literary representations of the border"--Provided by publisher.

Cyclops

""Borsch has not answered all the questions, of course. Who can? But his view of the Man tradition makes more sense to me than, for example, Perrin's rather cavalier dismissal of the evidence, and it not only enlightens but also enlivens the discussion. As against the extreme skeptics, Borsch is also convincing to me in arguing the case for a large measure of authenticity in the Son of man tradition in the Gospels. If the proof of the pudding is in the eating, the book constantly calls me back to its pages for insight regarding the problem, both in its historical dimension and in its bearing upon the meaning of Jesus of Nazareth for faith today. --'Theology' ""The author is well aware of the difficulties involved in entering a field wherein so much investigation has been done. And of this, with the positive and negative conclusions, he gives an excellent survey, crisp and critical The lines opened up will engage the attention of a new and more positive chapter in the form-critical argument. --'London Quarterly and Holborn Review' Frederick H. Borsch is the retired Bishop of the Episcopal Diocese of Los Angeles and Professor of New Testament and Chair of Anglican Studies at The Lutheran Theological Seminary at Philadelphia. He is also the former Dean of the Chapel at Princeton University. His other books include 'The Spirit Searches Everything: Keeping Life's Questions', 'The Bible's Authority in Today's Church', 'Introducing the Lessons of the Church Year: A Guide for Lay Readers and Congregations', and 'The Christian and Gnostic Son of Man'.

How Myth Became History

"Tantalizingly rich . . . this is a splendid book."--Greece and Rome "Burkert relegates his learned documentation to the notes and writes in a lively and fluent style. The book is recommended as a major contribution to the interpretation of ancient Greek myth and ritual. The breadth alone of Burkert's learning renders his book indispensable."--Classical Outlook "Impressive. . . founded on a striking knowledge of the complex evidence (literary, epigraphical, archaeological, comparative) for this extensive subject. Burkert offers a rare combination of exact scholarship with imagination and even humor. A brilliant book, in which . . . the reader can see at every point what is going on in the author's mind--and that is never uninteresting, and rarely unimportant."--Times Literary Supplement "Burkert's work is of such magnitude and depth that it may even contribute to that most difficult of tasks, defining myth, ritual, and religion. . [He] locates his work in the context of culture and the history of ideas, and he is not hesitant to draw on sociology and biology. Consequently his work is of significance for philosophers, historians, and even theologians, as well as for classicists and historians of Greek culture. His hypotheses are courageous and his conclusions are bold; both establish standards for methodology as well as results."--Religious Studies Review

The Son of Man in Myth and History

There is a considerable difference between real history and discourse history - this book stems from this idea. The author points out that history is constantly reconstructed, adapted and sometimes mythified from the perspective of the present day, of present states of mind and ideologies. Boia closely examines the process of historical culture and conscience in nineteenth and twentieth century Romania, particularly concentrating on the impact of the national ideology on history. Based upon his findings, the author identifies several key mythical configurations and analyses the manner in which Romanians have reconstituted their own highly ideologized history over the last two centuries. The strength of History and Myth in Romanian Consciousness lies in the author's ability to fully deconstruct the entire Romanian historiographic system and demonstrate the increasing acuteness of national problems in general, and in particular the exploitation of history to support national ideology.

Structure and History in Greek Mythology and Ritual

This book is an overview and analysis of the global tradition of the outlaw hero. The mythology and history of the outlaw hero is traced from the Roman Empire to the present, showing how both real and mythic figures have influenced social, political, economic and cultural outcomes in many times and places. The book also looks at the contemporary continuations of the outlaw hero mythology, not only in popular culture and everyday life, but also in the current outbreak of global terrorism.

History and Myth in Romanian Consciousness

Ever since Herodotus declared in Histories that to preserve the memories of the great achievements of the Greeks and other nations he would count on their own stories, historians have debated whether and how they should deal with myth. Most have sided with Thucydides, who denounced myth as "unscientific" and banished it from historiography. In Mythistory, Joseph Mali revives this oldest

controversy in historiography. Contesting the conventional opposition between myth and history, Mali advocates instead for a historiography that reconciles the two and recognizes the crucial role that myth plays in the construction of personal and communal identities. The task of historiography, he argues, is to illuminate, not eliminate, these fictions by showing how they have passed into and shaped historical reality. Drawing on the works of modern theorists and artists of myth such as Nietzsche and Wittgenstein, Joyce and Eliot, Mali redefines modern historiography and relates it to the older notion and tradition of "mythistory." Tracing the origins and transformations of this historiographical tradition from the ancient world to the modern, Mali shows how Livy and Machiavelli sought to recover true history from uncertain myth-and how Vico and Michelet then reversed this pattern of inquiry, seeking instead to recover a deeper and truer myth from uncertain history. In the heart of Mythistory, Mali turns his attention to four thinkers who rediscovered myth in and for modern cultural history: Jacob Burckhardt, Aby Warburg, Ernst Kantorowicz, and Walter Benjamin. His elaboration of the different biographical and historiographical routes by which all four sought to account for the persistence and significance of myth in Western civilization opens up new perspectives for an alternative intellectual history of modernity-one that may better explain the proliferation of mythic imageries of redemption in our secular, all too secular, times.

Outlaw Heroes in Myth and History

Medieval accounts of how Norway was unified by its first king provide a lively, revealing, and wonderfully entertaining example of this process. Taking the story of how Harald Fairhair unified Norway in the ninth century as its central example, Bruce Lincoln illuminates the way a state's foundation story blurs the distinction between history and myth and how variant tellings of origin stories provide opportunities for dissidence and subversion as subtle - or not so subtle - modifications are introduced through details of character, incident, and plot structure.

Mythistory

Explores how and why historians and writers from the Middle Ages to the present day have constructed different accounts of King Arthur. This study explains and discusses some central points of debate: what role was Arthur intended to perform in the political and cultural worlds that constructed him and how did the idea of King Arthur evolve.

Between History and Myth

Peter Gow unites the ethnographic data collected by the fieldwork methods invented by Malinowski with Levi-Strauss's analyses of the relations between myth and time. His book is an analysis of a century of social transformation in an indigenous Amazonian society, the Piro people of Peruvian Amazonia, taking as its starting point a single myth told to the author by a Piro man. Gow explores Piro history and ethnography outwards into the domains of myth-telling in general, and following the logic of certain important myths, further out into important domains of Piro experience such as visual art, shamanry and girls' initiation ritual. All of these domains, like the myths themselves, have been demonstrably changing over the period since the 1880s. The book then shows how these changes are in fact transformations of transformations, changes in social forms that are intrinsically about change. The logic of these changes are then followed through the historical circumstances of Piro people from the 1880s to the 1980s, to show how the intrinsically transformational nature of Piro social forms led them to respond in the ways that they did to the coming of rubber bosses, missionaries, and film-makers. This book makes an important contribution to debates in anthropology on the nature of history and social change, as well as addressing neglected areas such as myth, visual art, and the methodological issues involved in addressing fieldwork and archival data.

King Arthur

By employing the same basic methodologies used to establish the currently accepted chronology, it has been possible for a group of young archaeologists, including David Rohl, to create a New Chronology which resolves many of the problems permeating ancient world studies. In particular, one model has been developed which has major implications for Old Testament research. Through the revision of the master chronology of ancient Egypt they have unlocked the key to biblical history - the epic events of the Bible really did happen as recorded in the Books of Genesis, Exodus, Judges, Samuel, Kings and Chronicles - the problem was that we had previously been looking for them in completely the wrong place in time. Many of the conundrums of the past are explained, and legendary figures such as Joseph,

Moses, David and Solomon find their true political setting. Exodus and Conquest will be restored to history and the magic of legend will begin to make its great comeback

An Amazonian Myth and Its History

"The few full-length studies of the *Morte D'Arthur* and other Arthurian texts published in the past 15 years have rarely reached and sustained the level of theoretical and interpretive sophistication found here. King Arthur and the Myth of History ought to have quite an impact on Arthurian studies, in part because Finke and Shichtman take medieval Arthurian literature--particularly what passes for history and chronicle--very seriously, on its own terms, in its different cultural contexts."--Kathleen Kelly, Northeastern University
King Arthur and the Myth of History considers why, in the 12th century, tales of a 6th-century British king who achieved immortality in an apparently hopeless struggle to repel Saxon invaders, suddenly emerged full blown, virtually from nowhere. Further, why did this figure from the margins of the Norman empire suddenly become an important subject of historical writing at the center of that empire, and why has he since continued to be an enduring cultural icon? Laurie Finke and Martin Shichtman contend that Arthur has been employed by historians as a potent but empty symbol to legitimize institutional political ambitions during times of social stress. The study focuses on three periods of cultural crisis: the Norman colonization of England in the 11th and 12th centuries, the Wars of the Roses in the 15th century, and the rise and resurgence of fascism in 20th-century Europe. It examines four English chronicles of the Norman period--those of William of Malmesbury, Geoffrey of Monmouth, Wace, and Layamon. Other chapters investigate John Hardyng's *Chronicle* and Malory's *Morte D'Arthur*, both produced during the tumult of the Wars of the Roses. Finally, it considers more contemporary texts that offer the history of Adolf Hitler's acquisition of the Holy Grail: Jean-Michel Angebert's *The Occult and the Third Reich: The Mystical Origins of Nazism* and the Search for the Holy Grail and Trevor Ravenscroft's *Spear of Destiny*. Finke and Shichtman argue that these texts reveal tensions between the claims that history makes about objectivity or referentiality and particular social, political, and ideological agendas. They demonstrate that at historical moments of great stress, the turn to antiquarianism, in an effort to bypass traumas of the recent past in favor of archaic origins, offers a unique opportunity for the literary and cultural theorists to investigate the aims and uses of history itself.

Myth, History

After a Careful re-reading of primary sources written in Old Burmese, author Michael A. Aung-Thwin set about tracing the history of five key events that took place during the Kingdom of Pagan in order to disentangle that history from myth. He found that four of the five events, which have been considered the most important in the history of early Burma, are actually inventions of late-nineteenth- and twentieth-century colonial historians caught in their own intellectual and political world. A fifth is a genuine indigenous Burmese myth, but it too has been embellished by modern historians. Aung-Thwin concludes that these five key events, which have been taught as Burmese history for the past hundred years, actually have no basis in history.

A Test of Time

In Nazi Germany between the years 1940 and 1944, proof of your Aryan or Semitic roots meant the difference between life and death. How this inhuman and intrinsically absurd theory of racial superiority originated and how it took hold of the German imagination makes for a fascinating, scholarly study. Tracing the origins of the Aryan Myth in the West, the author shows how in the heyday of nationalism, most European people developed legends glorifying their high born ancestry. He shows how these legends developed into pseudoscientific theories, which treated Europeans as the norm and other peoples as inferior--until in 19th-century Germany they culminated in the concept of a superior Germanic "race" in contrast to the inferior Jewish "race." This cultural study sheds horrifying new light on the philosophy that "justified" the mass extermination of millions of "subhumans" during World War II.--From publisher description.

Myth, History, and Faith

This is the first full scholarly study of the Great Wall of China to appear in any language, and it challenges many deeply held ideas about Chinese history. Drawing both on primary sources and on the latest archaeology, the book first demonstrates that the standard account of the Great Wall is untrue and misleading and then presents a convincing new account. It begins by tracing the various walls

and systems of frontier defences that existed in early Chinese history, and shows how the greatest of these achieved a mythical symbolic stature which long survived the Wall itself. A striking concluding chapter traces how the true history of the Wall was lost in the early twentieth century as it was gradually transformed into a Chinese national symbol explained through historical myth. The book is an important contribution to the history of China's defensive policy, and her ideological attitudes, and will be of interest both to students of Chinese history and of international relations in the pre-modern world.

King Arthur and the Myth of History

Myth-History Combine Marks The Ruling Motive Of The Contemporary Indian Novel In English. In Amitav Ghosh's *The Circle Of Reason*, Reason Makes A Full Circle And Is Subjected To Subversion Towards The End With A Post-Modern Ambivalence. In *The Great Indian Novel*, Shashi Tharoor Is Given To Gigantism Of History And Makes Great Political Personages Parade On The Dice Game Of National Politics, As A Part Of Post-Colonial Discourse. Salman Rushdie's *Midnight's Children* Is An Enabling Text. The Text Synchronises The Individual History With National History Lending It A Universal Significance. The Texts Seek To Picture The Socio-Political Situation Of Post-Independence India With A Post-Modern Urgency.

Four Theories of Myth in Twentieth-century History

This volume brings together 13 original articles which review, re-establish, and rehabilitate the origins, forms, and functions of the mythological elements that are found in the narratives of Herodotus' *Histories*.

Myth and History in the Historiography of Early Burma

In Greek mythology, Hyperboreans were a tribe who lived far to Greece's north. Contained in what has come down to us of Greek literary tradition are texts that identify the Hyperboreans with the Celts, or Hyperborean lands with Celtic ones. This groundbreaking book studies the texts that make or imply this identification, and provides reasons why some ancient Greek authors identified a mythical people with an actual one. Timothy P. Bridgman demonstrates not only that these authors mythologize history, but that they used the traditional Greek parallel mythical world to interpret history throughout ancient Greek culture, thought and literature.

Aryan Myth

This anthology, *'History and Myth: Postcolonial Dimensions'*, seeks to interrogate and dismantle the colonially structured symmetrical interpretations of the histories and mythological narratives of the former European colonies through depolarization, pluriversality, and border thinking. Here, the concepts of history and myth have been addressed from different perspectives and spatiotemporal zones by scholars from different parts of the world, which add to the global value of the book. It has been argued in this volume that the understanding of postcolonial histories and myths in the contemporary era is highly influenced by the colonially fashioned binaries: valid/ invalid, civilized/barbaric, inclusive/exclusive, relevant/irrelevant, good/bad, etc., which continue to preserve the epistemic citadels of coloniality and selectively promote such historical and mythological narratives that celebrate the superiority of the Global North and the inferiority of the Global South. This book will be of particular interest to scholars, researchers, teachers, and those interested in understanding history, postcolonial studies, decolonial studies, cultural studies, literature, and sociology.

The Great Wall of China

On museum visits, we pass by beautiful, well-preserved vases from ancient Greece—but how often do we understand what the images on them depict? In *Image and Myth*, Luca Giuliani tells the stories behind the pictures, exploring how artists of antiquity had to determine which motifs or historical and mythic events to use to tell an underlying story while also keeping in mind the tastes and expectations of paying clients. Covering the range of Greek style and its growth between the early Archaic and Hellenistic periods, Giuliani describes the intellectual, social, and artistic contexts in which the images were created. He reveals that developments in Greek vase painting were driven as much by the times as they were by tradition—the better-known the story, the less leeway the artists had in interpreting it. As literary culture transformed from an oral tradition, in which stories were always in flux, to the stability of written texts, the images produced by artists eventually became nothing more than illustrations

of canonical works. At once a work of cultural and art history, *Image and Myth* builds a new way of understanding the visual culture of ancient Greece.

Myth and History in Contemporary Indian Novel in English

Where do myths come from? What is their function and what do they mean? In this Very Short Introduction Robert Segal introduces the array of approaches used to understand the study of myth. These approaches hail from disciplines as varied as anthropology, sociology, psychology, literary criticism, philosophy, science, and religious studies. Including ideas from theorists as varied as Sigmund Freud, Claude Levi-Strauss, Albert Camus, and Roland Barthes, Segal uses the famous ancient myth of Adonis to analyse their individual approaches and theories. In this new edition, he not only considers the future study of myth, but also considers the interactions of myth theory with cognitive science, the implications of the myth of Gaia, and the differences between story-telling and myth. ABOUT THE SERIES: The Very Short Introductions series from Oxford University Press contains hundreds of titles in almost every subject area. These pocket-sized books are the perfect way to get ahead in a new subject quickly. Our expert authors combine facts, analysis, perspective, new ideas, and enthusiasm to make interesting and challenging topics highly readable.

El Capital. Volumen I

He aquí la versión manga de esta obra cumbre de recobrada vigencia que invita a «seguir a los propietarios del dinero y de la fuerza de trabajo al lugar oculto de la producción [donde] descubriremos el secreto de la obtención de beneficios». «El capital es trabajo muerto que sólo se reanima, a la manera de un vampiro, al chupar trabajo vivo, y que vive tanto más cuanto más trabajo vivo chupa.»

El capital : el manga

He aquí la versión manga de esta obra cumbre de recobrada vigencia que invita a «seguir a los propietarios del dinero y de la fuerza de trabajo al lugar oculto de la producción [donde] descubriremos el secreto de la obtención de beneficios».

El Capital. Volumen II

"Story of a cheese-maker turned capitalist and how greed, exploitation and its social consequences destroys lives and remakes workers into commodities."--Cover p. [4].

Capital - In Manga!

Rousseau, personaje excéntrico y rebelde, fue un pensador contradictorio e inclasificable, cuyo legado ha sido reclamado y repudiado al mismo tiempo por las tres ideologías que han dominado el pensamiento político moderno: liberalismo, socialismo y nacionalismo. He aquí la versión manga de su obra capital, libro de cabecera de los revolucionarios de 1789 y de figuras posteriores como Simón Bolívar y Fidel Castro.

El contrato social

Adam Smith fue uno de los exponentes más representativos de la economía clásica, ya que introdujo una serie de nuevos conceptos que lo llevaron a desarrollar los cimientos del liberalismo económico, lo que lo hizo merecedor del título de padre de la economía moderna. La riqueza de las naciones se considera su obra más importante, pues en ella analiza de manera cuidadosa no solo desde el prisma económico, sino también social, histórico y moral la economía de su tiempo, criticando en especial el sistema mercantilista que imperaba y abogando por un sistema de libre mercado poco común en aquel entonces, pero sin duda vigente y estudiado a fondo a día de hoy, más de dos siglos después.

A Treatise on the Social Compact

The Brothers Karamazov is a novel of realism and tells a dynastic story. It explores life and what it means through the use of a dysfunctional family, the Karamazovs. The family is headed by Fyodor Pavlovich Karamazov, a cruel landowner, who has neglected and emotionally abuses his three sons. The eldest son, Dmitry, is in competition with his father over the same woman, although he is engaged to another. The same son has given up his inheritance in order to have money immediately, but suspects his father is cheating him financially.

EL ARTE DE LA GUERRA

"It's a pretty long story," Primo Levi tells a classroom of children, "so I'll try to make it simple." Translated from the original Italian, this hauntingly illustrated comic tells the story of the Italian Jewish chemist who survived the camps at Auschwitz against all odds. Matteo Mastragostino draws on historical research, interviews, and Levi's own landmark books to piece together a fictionalized yet profoundly intimate portrait of a courageous figure. In the scene that emerges, Levi visits a group of schoolchildren to retell his life story and keep the memory of the Holocaust alive, answering innocent questions with hard truths. Sobering yet tender, Primo Levi extends a rare opportunity for readers both young and old to deepen their understanding of life, death, and the human spirit.

La riqueza de las naciones

What would you do if you could become any superhero for just an hour? The catch? Who you become is absolutely random. Teenage Miguel Montez discovers the long-lost H-Dial, an ancient and unbelievably powerful rotary phone that gives its users (seemingly) random superpowers for one hour. With evil factions desperate to get their hands on its power, Miguel steals the only mode of transport he can—his uncle's food truck! Join Miguel as he hightails it across the country to give the H-Dial to the one man who can keep it safe: Superman! Collects Dial H for Hero #1-6.

The Brothers Karamazov (Annotated with Critical Essay and Biography)

This prize-winning book is both an illustrated tour of a Tokyo rarely seen in Japan travel guides and an artist's warm, funny, visually rich, and always entertaining graphic memoir. Florent Chavouet, a young graphic artist, spent six months exploring Tokyo while his girlfriend interned at a company there. Each day he would set forth with a pouch full of color pencils and a sketchpad, and visit different neighborhoods. This stunning book records the city that he got to know during his adventures. It isn't the Tokyo of packaged tours and glossy guidebooks, but a grittier, vibrant place, full of ordinary people going about their daily lives and the scenes and activities that unfold on the streets of a bustling metropolis. Here you find businessmen and women, hipsters, students, grandmothers, shopkeepers, policemen, and other urban types and tribes in all manner of dress and hairstyles. A temple nestles among skyscrapers; the corner grocery anchors a diverse assortment of dwellings, cafes, and shops—often tangled in electric lines. The artist mixes styles and tags his pictures with wry comments and observations. Realistically rendered advertisements or posters of pop stars contrast with cartoon sketches of iconic objects or droll vignettes, like a housewife walking her pet pig, a Godzilla statue in a local park, and an urban fishing pond that charges 400 yen per half hour. This very personal guide to Tokyo is organized by neighborhood with hand-drawn maps that provide an overview of each neighborhood, but what really defines them is what caught the artist's eye and attracted his formidable drawing talent. Florent Chavouet begins his introduction by observing that, "Tokyo is said to be the most beautiful of ugly cities." With wit, a playful sense of humor, and the multicolor pencils of his kit, he sets aside the question of urban ugliness or beauty and captures the Japanese essence of a great city in this truly vital portrait.

Primo Levi

THE TWO FACTORS OF A COMMODITY: USE-VALUE AND VALUE (THE SUBSTANCE OF VALUE AND THE MAGNITUDE OF VALUE). THE wealth of those societies in which the capitalist mode of production prevails, presents itself as "an immense accumulation of commodities,"¹⁰ its unit being a single commodity. Our investigation must therefore begin with the analysis of a commodity. A commodity is, in the first place, an object outside us, a thing that by its properties satisfies human wants of some sort or another. The nature of such wants, whether, for instance, they spring from the stomach or from fancy, makes no difference. ¹¹ Neither are we here concerned to know how the object satisfies these wants, whether directly as means of subsistence, or indirectly as means of production. Every useful thing, as iron, paper, 8c., may be looked at from the two points of view of quality and quantity. It is an assemblage of many properties, and may therefore be of use in various ways. To discover the various use of things is the work of history.¹² So also is the establishment of socially-recognised standards of measure for the quantities of these useful objects. The diversity of these measures has its origin partly in the diverse nature of the objects to be measured, partly in convention. The utility of a thing makes it a use-value.¹³ But this utility is not a thing of air. Being limited by the physical properties of the commodity, it has no existence apart from that commodity. A commodity, such as iron, corn, or a diamond, is therefore, so far as it is a material thing, a use-value, something useful. This property of a commodity is independent of the amount of labour required to appropriate its useful qualities. When treating of use-value, we always assume to be dealing with definite quantities, such as dozens of watches, yards of linen, or tons of iron. The use-values of commodities furnish the material for a special study, that of the commercial knowledge of commodities.¹⁴ Use-values become a reality only by use or consumption: they also constitute the substance of all wealth, whatever may be the social form of that wealth. In the form of society we are about to consider, they are, in addition, the material depositories of exchange value.

Dial H for Hero Vol. 1: Enter the Heroverse

This carefully crafted ebook: "The Count Of Monte Cristo (Complete)" is formatted for your eReader with a functional and detailed table of contents. The Count of Monte Cristo (French: Le Comte de

Monte-Cristo) is an adventure novel by French author Alexandre Dumas (père). It is one of the author's most popular works, along with The Three Musketeers. Dumas completed the work in 1844. The story takes place in France, Italy, islands in the Mediterranean, and in the Levant during the historical events of 1815–1838. It is an adventure story primarily concerned with themes of hope, justice, vengeance, mercy and forgiveness, it focuses on a man who is wrongfully imprisoned, escapes from jail, acquires a fortune and sets about getting revenge on those responsible for his imprisonment. However, his plans have devastating consequences for the innocent as well as the guilty. The book is considered a literary classic today. According to Luc Sante, "The Count of Monte Cristo has become a fixture of Western civilization's literature, as inescapable and immediately identifiable as Mickey Mouse, Noah's flood, and the story of Little Red Riding Hood." This English translation was originally published in 1846 by Chapman and Hall, London.

Tokyo on Foot

Get ready for the darker and dirtier side of New Orleans with an alpha romance from New York Times, Wall Street Journal, and USA Today bestselling author Meghan March. New Orleans belongs to me. You don't know my name, but I control everything you see—and all the things you don't. My reach knows no bounds, and my demands are always met. I didn't need to loan money to a failing family distillery, but it amuses me to have them in my debt. To have her in my debt. She doesn't know she caught my attention. She should've been more careful. I'm going to own her. Consume her. Maybe even keep her. It's time to collect what I'm owed. Keira Kilgore, you're now the property of Lachlan Mount. Ruthless King is book one of the Mount Trilogy. All books are available now. Reading order: Ruthless King Defiant Queen Sinful Empire "So hot and explosive, I recommend having the fire department on standby." - New York Times bestselling author Laurelin Paige "Meghan takes us a sexy and gritty, non-stop journey that kept my heart in my throat and my body primed! Lachlan Mount is the king and he is mine!"— T Gephart, USA Today bestselling author. Capital: A Critique of Political Economy. Volume I

'Has the power to move hearts and change minds' Guardian 'Tremendously uplifting and a novel of all-too-rare power' Sunday Express 'An amazing book . . . I absolutely loved it. I cried my eyes out' Tom Fletcher Read the award-winning, multi-million copy bestselling phenomenon that is WONDER in this new tenth anniversary edition. 'My name is August. I won't describe what I look like. Whatever you're thinking, it's probably worse.' Auggie wants to be an ordinary ten-year-old. He does ordinary things - eating ice cream, playing on his Xbox. He feels ordinary - inside. But ordinary kids don't make other ordinary kids run away screaming in playgrounds. Ordinary kids aren't stared at wherever they go. Born with a terrible facial abnormality, Auggie has been home-schooled by his parents his whole life. Now, for the first time, he's being sent to a real school - and he's dreading it. All he wants is to be accepted - but can he convince his new classmates that he's just like them, underneath it all? A funny, frank, astonishingly moving debut - and a true global phenomenon - to read in one sitting, pass on to others, and remember long after the final page. Discover more from the World of Wonder: White Bird, a graphic novel *Soon to be a motion picture!* Auggie & Me 365 Days of Wonder We're All Wonders And read more from R. J. Palacio with Pony, an unforgettable new story!

The Count Of Monte Cristo (Complete)

Liberalism and Distributive Justice discusses liberalism, capitalism, distributive justice, and John Rawls's difference principle. Chapters are organized in a narrative arc: from liberalism as the dominant political and economic system, to the laws governing interpersonal transactions in liberal society, to basic economic and political institutions that determine distributive justice.

Ruthless King

Jiro Taniguchi returns with this delightful and insightful tale of life in a Japan long forgotten. Inspired by an historical figure, Tadataka Ino (1745 - 1818), Taniguchi invites us to join this unnamed but appealing and picturesque figure as he strolls through the various districts of Edo, the ancient Tokyo, with its thousand little pleasures. Now retired from business he surveys, measures, draws and takes notes whilst giving free rein to his taste for simple poetry and his inexhaustible capacity for wonder.

Wonder

No other Marxist text has come close to achieving the fame and influence of *The Communist Manifesto*. Translated into over 100 languages, this clarion call to the workers of the world radically shaped the events of the twentieth century. But what relevance does it have for us today? In this slim book Slavoj Žižek argues that, while exploitation no longer occurs the way Marx described it, it has by no means disappeared; on the contrary, the profit once generated through the exploitation of workers has been transformed into rent appropriated through the privatization of the 'general intellect'. Entrepreneurs like Bill Gates and Mark Zuckerberg have become extremely wealthy not because they are exploiting their workers but because they are appropriating the rent for allowing millions of people to participate in the new form of the 'general intellect' that they own and control. But, even if Marx's analysis can no longer be applied to our contemporary world of global capitalism without significant revision, the fundamental problem with which he was concerned, the problem of the commons in all its dimensions – the commons of nature, the cultural commons, and the commons as the universal space of humanity from which no one should be excluded – remains as relevant as ever. This timely reflection on the enduring relevance of *The Communist Manifesto* will be of great value to everyone interested in the key questions of radical politics today.

Liberalism and Distributive Justice

The Japan Self-Defense Forces are still looking for a way to combat the alien threat, but so far conventional weapons have had no effect. Maybe it's time to try something unconventional. Meanwhile, Kadode Koyama and her best friend avidly track the aliens' movements on social media and less enthusiastically study for college entrance exams. When the end of the world looms overhead, you learn to take things one step at a time. -- VIZ Media

Furari

Explains the basics of genetics and reveals the stories of the researchers who discovered pieces of the DNA puzzle.--

The Relevance of the Communist Manifesto

A fairy tale for any age, Jen Wang's *The Prince and the Dressmaker* will steal your heart. Paris, at the dawn of the modern age: Prince Sebastian is looking for a bride—or rather, his parents are looking for one for him. Sebastian is too busy hiding his secret life from everyone. At night he puts on daring dresses and takes Paris by storm as the fabulous Lady Crystallia—the hottest fashion icon in the world capital of fashion! Sebastian's secret weapon (and best friend) is the brilliant dressmaker Frances—one of only two people who know the truth: sometimes this boy wears dresses. But Frances dreams of greatness, and being someone's secret weapon means being a secret. Forever. How long can Frances defer her dreams to protect a friend? Jen Wang weaves an exuberantly romantic tale of identity, young love, art, and family. This title has Common Core connections.

Dead Dead Demon's Dededede Destruction, Vol. 1

While many professional translators believe the ability to translate is a gift that one either has or does not have, Allison Beeby Lonsdale questions this view. In her innovative book, she demonstrates how teachers can guide their students by showing them how insights from communication theory, discourse analysis, pragmatics, and semiotics can illuminate the translation process. Using Spanish to English translation as her example, she presents the basic principles of translation through 29 teaching units, which are prefaced by objectives, tasks, and commentaries for the teacher, and through 48 task sheets, which show how to present the material to students.

DNA Detective

A collection of four interrelated, stream-of-consciousness short stories follows women and their cat companions as they explore the frailty of life, the pain of isolation, and the limits of communication.

The Prince and the Dressmaker

In July 1942, thirteen-year-old Anne Frank and her family, fleeing the occupation, went into hiding in an Amsterdam warehouse. Over the next two years Anne vividly describes in her diary the frustrations of living in such close quarters, and her thoughts, feelings and longings as she grows up. Her diary ends abruptly when, in August 1944, they were all betrayed. First published over sixty years ago, Anne Frank's *Diary of a Young Girl* has reached millions of young people throughout the world. BBC TV's major new dramatization brings her extraordinary writing to life in a way that will engage and inspire a whole new generation. 'One of the greatest books of the last century' - Guardian

Teaching Translation from Spanish to English

Immediately following the Avatar's adventures chronicled in *The Promise*, this remarkable omnibus that collects parts 1-3 of *The Search*, from *Airbender* creators Michael Dante DiMartino and Bryan Konietzko! For years, fans of *Avatar: The Last Airbender* and *The Legend of Korra* have burned with one question--what happened to Fire Lord Zuko's mother? Finding a clue at last, Zuko enlists the aid of Team Avatar--and the most unlikely ally of all--to help uncover the biggest secret of his life.

Diccionario universal de historia y de geografia ...

EMMA RiOS (PRETTY DEADLY, ISLAND) and HWEI LIM (Lalage, Hero) team up for a new ongoing series, following a terrorist talking dog, an idealist mage, and a heroic lab rat on their quest for acceptance.

She and Her Cat

Subaru Natsuki was just trying to get to the convenience store but wound up summoned to another world. He encounters the usual things--life-threatening situations, silver haired beauties, cat fairies--you know, normal stuff. All that would be bad enough, but he's also gained the most inconvenient magical ability of all--time travel, but he's got to die to use it. How do you repay someone who saved your life when all you can do is die?

The Diary of a Young Girl

"The definitive study of the great Spanish architect whose soaring work is all about openness, energy and aspiration." -Met Home Spanish-born architect Santiago Calatrava has achieved considerable international acclaim with his breathtaking feats of architecture and engineering in the service of elegant and humanistic modern forms. This updated volume comprehensively examines this contemporary master's career, including the architect's furniture designs, sculpture, and drawings. His spectacular cultural and civic projects have secured Calatrava's place in the pantheon of world-class 21st-century architects. Among these are the Athens Olympics Sports Complex; the Tenerife Concert Hall in the Spanish Canary Islands; the Valencia Science Museum, Planetarium, and Opera House, and the much-anticipated World Trade Center Transportation Hub. This newest edition introduces Calatrava's latest triumphs, including the expressive Turning Torso tower in Sweden and the Chicago Tower, the tallest skyscraper in the US when built. A catalogue raisonne, detailed biography, and bibliography complete this comprehensive monograph.

Avatar: The Last Airbender--The Search Omnibus

Since its landmark publication in 1980, the original history has sold more than 1.7 million copies. More than a successful book, it triggered a revolution in the way history is told, displacing the official versions with their emphasis on great men in high places to chronicle events as they were lived, from the bottom up. Historians Howard Zinn and Paul Buhle and cartoonist Mike Konopacki have collaborated to retell, in vibrant graphic form, a most immediate and relevant chapter of *A People's History of American Empire*: the story of America's ever-growing role on the world stage. Narrated by Zinn, this version opens with the events of 9/11 and then tracks back to explore the cycles of US expansionism from Wounded Knee to Iraq, while taking in World War I, Central America, Vietnam, and the Iranian revolution. The book also follows the story of Zinn, the son of poor Jewish immigrants, from his childhood in the Brooklyn slums

to his role as one of America's leading historians. Shifting from world-shattering events to one family's small revolutions, this is a classic ground-level history of America in a dazzling new form.

Mirror #1

A classic of early modernism, *Capital* combines vivid historical detail with economic analysis to produce a bitter denunciation of mid-Victorian capitalist society. It has also proved to be the most influential work in social science in the twentieth century; Marx did for social science what Darwin had done for biology. Millions of readers this century have treated *Capital* as a sacred text, subjecting it to as many different interpretations as the bible itself. No mere work of dry economics, Marx's great work depicts the unfolding of industrial capitalism as a tragic drama - with a message which has lost none of its relevance today. This is the only abridged edition to take account of the whole of *Capital*. It offers virtually all of Volume 1, which Marx himself published in 1867, excerpts from a new translation of 'The Result of the Immediate Process of Production', and a selection of key chapters from Volume 3, which Engels published in 1895. ABOUT THE SERIES: For over 100 years Oxford World's Classics has made available the widest range of literature from around the globe. Each affordable volume reflects Oxford's commitment to scholarship, providing the most accurate text plus a wealth of other valuable features, including expert introductions by leading authorities, helpful notes to clarify the text, up-to-date bibliographies for further study, and much more.

Re:ZERO -Starting Life in Another World-, Vol. 1 (light novel)

The second novel in the critically acclaimed Captive Prince trilogy from global phenomenon C. S. Pacat. With their countries on the brink of war, Damen and his new master, Prince Laurent, must exchange the intrigues of the palace for the sweeping might of the battlefield as they travel to the border to avert a lethal plot. Forced to hide his identity, Damen finds himself increasingly drawn to the dangerous, charismatic Laurent. But as the fledgling trust between the two men deepens, the truth of secrets from both their pasts is poised to deal them a final devastating blow...

Historia de la revolución hispano-americana: (1830. 572 p., [7] h. de lám. pleg.) - T. III (1830. 631 p., [4] h. de lám. pleg.)

A milestone in Japan's post-war philosophical thought and a dramatic turning point in Tanabe's own philosophy, "Philosophy as Metanoetics" calls for nothing less than a complete and radical rethinking of the philosophical task itself. It is a powerful, original work, showing vast erudition in all areas of both Eastern and Western thought.

Santiago Calatrava

When recently-orphaned Barnaby Gaunt is sent to stay with his uncle on a beautiful remote island off the coast of Canada, he is all set to have the perfect summer holiday. Except for one small problem: his uncle is trying to kill him. Heir to a ten-million-dollar fortune, Barnaby tries to tell everyone and anyone that his uncle is after his inheritance, but no one will believe him. That is, until he tells the only other child on the island, Chrissie, who concludes that there is only one way to stop his demonic uncle: Barnaby will just have to kill him first. With the unexpected help of One-Ear, the aged cougar who has tormented the island for years, Chrissie and Barnaby hatch a fool-proof plan. Playful, dark and witty, *Let's Kill Uncle* is a surprising tale of two ordinary children who conspire to execute an extraordinary murder - and get away with it.

A People's History of American Empire

Since the rediscovery of her work in the late 1980s, Annemarie Schwarzenbach--journalist, traveler, archaeologist, opium addict, and antifascist novelist--has become a European cult figure among free spirited bohemians. Available in English for the first time and beautifully translated by Lucy Renner Jones, *Death in Persia* is a collage of the political and the private, documenting Schwarzenbach's intimate feelings and public ideas during four trips to Persia between 1933 and 1939. From her reflections on individual responsibility in the lead-up to World War II to her reactions to accusations from her friends of having deserted Europe and the antifascist cause for Tehran, Schwarzenbach recorded a great deal about daily life in Persia, and, most personally, her ill-fated love affair with Jalé, the daughter of the Turkish ambassador. Chronologically preceding Schwarzenbach's exquisite travelogue *All the Roads are Open*, an account of her automobile journey from Geneva to Afghanistan in 1939, *Death in*

Persia is the enthralling diary of an astute observer standing at the crossroads of major events in history and a gorgeous new addition to Annemarie Schwarzenbach's growing English-language oeuvre.
