cultural-practice-dress-colonial-australia

colonial-australia-fashion-history

colonial australia fashion, poverty dress australia, cultural dress australia, australian fashion history, dress as cultural practice

Explore how clothing in colonial Australia served as more than just a necessity, but as a powerful form of cultural expression and adaptation for those fashioned from penury. This article delves into the socio-economic and historical significance of dress, examining how individuals used clothing to navigate their identities and social standing within the complex landscape of colonial Australia.

Revolutionen

Die in diesem Heft versammelten Materialien ermöglichen die Behandlungen von Revolutionen als Längsschnitt im Geschichtsunterricht. Die Ausrichtung entspringt der Überzeugung, dass Schüler*innen über Längsschnittthemen eher angeregt werden, in größeren Zusammenhängen zu denken und damit auch ihre narrativen Kompetenzen zu stärken. Längsschnitte leisten durch Gegenwartsbezüge einen wichtigen Beitrag zur politischen Bildung. Zu historischer Bildung können sie beitragen, wenn es im diachronen Vergleich gelingt, über die Analyse der Quellen dem Phänomen der Standortgebundenheit auf die Spur zu kommen und so schließlich auch eine historische Selbstreflexion zu entwickeln.

Rundschau der neuesten Zeit

The 18th century was a wealth of knowledge, exploration and rapidly growing technology and expanding record-keeping made possible by advances in the printing press. In its determination to preserve the century of revolution, Gale initiated a revolution of its own: digitization of epic proportions to preserve these invaluable works in the largest archive of its kind. Now for the first time these high-quality digital copies of original 18th century manuscripts are available in print, making them highly accessible to libraries, undergraduate students, and independent scholars. This collection reveals the history of English common law and Empire law in a vastly changing world of British expansion. Dominating the legal field is the Commentaries of the Law of England by Sir William Blackstone, which first appeared in 1765. Reference works such as almanacs and catalogues continue to educate us by revealing the day-to-day workings of society. ++++ The below data was compiled from various identification fields in the bibliographic record of this title. This data is provided as an additional tool in helping to insure edition identification: ++++ British Library T128699 English text with German chapter headings and gloss. Revolutionen in der Geschichte

Die ausgewählten Texte setzen sich primär mit dem Ruhrgebiet auseinander und sind vorab in verschiedenen Blogs erschienen, u.a. bei den Ruhrbaronen und beim Freitag. Bemängelt wird vor allem die geringe Kooperationsbereitschaft der Kommunen und eine fehlende zukunftsorientierte Wirtschaftspolitik. Der Titel „Wie wärs mit einer Revolution?“ entstammt einem der Beiträge, die sich auf die schier ausweglose Situation im Ruhrgebiet einlassen. Außer der regionalen Situation werden jedoch auch die Künste allgemeiner thematisiert, ihre gesellschaftlich geringer gewordene Relevanz. Matern ist kein Journalist. Die eigenwilligen Texte, die essayistische, rhetorische und satirische Elemente zusammenführen, bezeichnet er als „Saturnalien“. Sie dienen nicht nur der Aufklärung, sondern sollen auch aufrütteln, tätig zu werden, bevor das Land NRW den Kommunen nicht mehr helfen kann und die Bürger das Vertrauen gänzlich verlieren.

Neues Englisch-Geographisches Und Historisches Lesebuch Von I.M.F. Schulze. ... Mit Einer Charte. of 2;

This book is among the rare contributions to the 150th anniversary of 1848 which takes a completely new, theoretically informed approach. Instead of a traditional social or political history, the authors analyse the dichotomy between the international dimension in the ideas of the revolution and the nationalisation of memories in its commemorations over the past 150 years. The book offers original research on the history of European ideas and takes part in the current debate about the relationship between history and memory.

Ein geographisch-historisches Lesebuch zum Nutzen der Jugend und ihrer Erzieher

Geschichte gehört

Ostdeutsche stilisieren sich im öffentlichen Diskurs gern als Opfer der deutschen Einheit. Tatsächlich haben sie sich aber von der friedlichen Revolution bis heute als mächtiger politischer Akteur erwiesen. So ging im revolutionären Umbruch von 1989 die Dynamik nicht von der kleinen Schar der Bürgerrechtler und Bürgerrechtlerinnen aus, sondern von der Bevölkerung. Und heute beherrscht die ostdeutsche Bevölkerung durch ihr Wahlverhalten und nicht zuletzt durch ihren Opferdiskurs die öffentlichen Debatten. Am ostdeutschen Protestverhalten lässt sich begreifen, wie sich eine Bevölkerung zum Volk konstituiert - unter den Bedingungen einer Diktatur - und wie in der Demokratie die kollektive Selbstermächtigung zum Ressentiment verkommt.

Wie wärs mit einer Revolution?

Rehmann provides a comprehensive Gramscian socio-analysis of Max Weber's political and intellectual position in the ideological network of his time. He deciphers Weber as an organic intellectual who constructs a new bourgeois hegemony in the transition to 'Fordism'.

Historisches Lesebuch in drei Bänden

A well-written, stimulating...piece of scholarship. —German Studies Review. In a major re-evaluation of the cultural, political, and sociological assumptions about the "peculiar" course of modern German history, the authors challenge the widely held belief that Germany did not have a Western-style bourgeois revolution. Contending that it did indeed experience one, but that this had little to do with the mythical rising of the middle class, the authors provide a new context for viewing the tensions and instability of 19th-and early 20th-century Germany.

Historisches Lesebuch: 1815-1817. Hrsg. und eingeleitet von Werner Pöls

Am 24. Februar 1848 wird in Paris nach 1789 zum dritten Mal Revolution gemacht, die Monarchie gestürzt und die Republik ausgerufen. Und endlich springt der revolutionäre Funke auch über den Rhein. In den vierunddreißig deutschen Staaten und vier freien Städten der Zeit beginnen Aufstände gegen die herrschenden Polizei- und Militärmonarchien, gegen die Willkürherrschaft des »Deutschen Bundes«. Zum ersten Mal erhebt die Demokratie auch in deutschen Ländern ihr Haupt: direkte, allgemeine Wahlen, Republik, eine freiheitliche Verfassung, Grundrechte, Gewaltenteilung, sozialer Ausgleich. Es beginnt der dramatische Kampf für die Werte, die für uns heute die scheinbar selbstverständlichen Grundlagen unseres Gemeinwesens sind. Aber nur eine Partei der Opposition will die »ganze Revolution«, eine »demokratische Bunderepublik«. Die Liberalen, vor allem die »Konstitutionellen« – die sich bald »Ordnungspartei« nennen – wollen an der Monarchie festhalten, wenn auch in reformierter Form. Und sie, die Ordnungspartei und die neuen Märzregierungen, sind es, die mit den Fürsten die Revolution mit Bajonetten verhindern ... In einer großen Erzählung entwirft der Literaturwissenschaftler Jörg Bong ein atemberaubendes Panorama einer Zeit im Umbruch: Von den ersten revolutionären Versammlungen Ende Februar bis hin zu den Schlachten einer demokratischen »Armee der Freiheit« gegen die Truppen des Bundes. Stimmen zum Buch »Was für ein Glück: Jetzt endlich hat die deutsche Revolution von 1848, die so beseelt war von der Leidenschaft und der Kraft des Wortes, in Jörg Bong ihren Wiederentdecker gefunden. Mit glühender Passion und voll ungeheurem Wissen erzählt er uns, wie 1848 all das begann, was wir heute für modern halten.« Florian Illies »Jörg Bong lässt den Freiheitskampf von 1848 aufleuchten: parteinehmend, pointiert und mitreißend!« Prof. Dr. Frank Engehausen, Historiker, Universität Heidelberg »Die deutsche Geschichte ist eine Quelle der Inspiration, des Muts und der Freiheit – wenn man nur richtig hinsieht. Jörg Bong zeigt in diesem spannenden, unterhaltsamen und hoch politischen Buch, auf welche historischen Kräfte wir uns heute besinnen sollten.« Nils Minkmar »Die Entstehung der Demokratie in Deutschland und Europa - diese aufregende Geschichte erzählt Jörg Bong mit größter Spannung und Sachkenntnis. 'Die Flamme der Freiheit' ist das richtige Buch zum großen Paulskirchen-Jubiläum, weil es uns daran erinnert, dass die Demokratie hart erkämpft wurde und täglich verteidigt werden muss.« Ina Hartwig

1848 — A European Revolution?

Seitdem Menschen über das Wesen der Verfassung nachdenken, haben sie theoretisch und praktisch das Problem des permanenten Verfassungswandels zu lösen. Schon Polybios konstatierte dabei nicht allein den naturhaft erscheinenden Wandel, sondern er fragte nach Konstanten im Wandel. Machte er da bei dem verlorene Bewußtsein von den verderblichen Lebensverhältnissen in schlechten Staaten als Voraussetzung für den Niedergang, aber auch die Heraufkunft besserer Verfassungsordnungen aus, so war er doch in der Lage, Kriterien einer guten Verfassung zu nennen: Gleichheit und Redefreiheit. Die Alternative einer derart gebundenen und gerechtfertigten Ordnung erblickte er im Faustrecht. Die sozialdemokratische Verfassungstheorie ist in diesem Spannungsverhältnis von sozialen und bürgerlichen Freiheiten und Rechten, aber auch von politischer Gewalt - die nicht von der sozialdemokratischen Partei und ihren Anhängern ausging - entwickelt worden. Der Verfolgung unter Bismarcks Ausnahme gesetz in den Jahren 1878 und 1890 folgte die Unterdrückung unter Hitler 1933 bis 1945, die sozialdemokratischen Handlungsmöglichkeiten nach der Befreiung vom Nationalsozialismus auf den westlichen Teil Deutschlands beschränkte. Sozialdemokratische Verfassungstheorie konnte angesichts dieser Entwicklungen nur in der konkreten Auseinandersetzung mit den jeweiligen politischen Verhältnissen und der Reflexion über Geschichte entwickelt werden; sie wurde nicht nur aus theoretischen Grundanschauungen abgeleitet, sondern reflektierte Geschichte: Verfolgung, Unterdrückung, soziale Probleme. Es ist deshalb nicht überraschend, daß die sozialdemokratische Verfassungstheorie nicht allein das Ordnungsproblem behandelte: Verfassung als Bauplan eines Regierungssystems, sondern das Grundproblem von Freiheit und Ordnung, von Schutz und Wandel, von Ziel und Zweck reflektierte.

Tradition and Revolution

The Routledge History of Women in Europe since 1700 is a landmark publication that provides the most coherent overview of woman's role and place in western Europe, spanning the era from the beginning of the eighteenth century until the twentieth century. In this collection of essays, leading women's historians counter the notion of 'national' histories and provide the insight and perspective of a European approach. Important intellectual, political and economic developments have not respected national boundaries, nor has the story of women's past, or the interplay of gender and culture. The interaction between women, ideology and female agency, the way women engaged with patriarchal and gendered structures and systems, and the way women carved out their identities and spaces within these, informs the writing in this book. For any student of women's studies or European history, The Routledge History of Women in Europe since 1700 will prove an informative addition to their studies.

·ý€ò

The work patterns of European women from 1700 onwards fluctuate in relation to ideological, demographic, economic and familial changes. In A History of European Women's Work, Deborah Simonton draws together recent research and methodological developments to take an overview of trends in women's work across Europe from the so-called pre-industrial period to the present. Taking the role of gender and class in defining women's labour as a central theme, Deborah Simonton compares and contrasts the pace of change between European countries, distinguishing between Europe-wide issues and local developments.

Das unzufriedene Volk

There is a prehistory of the adultery novel, which became a pan-European literary paradigm in the second half of the 19th century. In the wake of the French Revolution, secular marriage legislation emerges, producing a metaphorical surplus that is still effective today. Using legal history and canonical literary texts from Rousseau to Goethe and Manzoni to Hugo and Flaubert, this book traces how marriage around 1800 became a figure of reflection for the modern nation-state. In the process, original contributions to the philology of the individual texts emerge. At the same time, law and literature are made fruitful for a historical semantics of society and community. This book is a translation of an original German 1st edition "Ehe als Nationalfiktion" by Dagmar Stöferle, published by J.B. Metzler, imprint of Springer-Verlag GmbH Germany, part of Springer Nature in 2020. The translation was done with the help of artificial intelligence (machine translation by the service DeepL.com). The author (with the support of Chris Owain Carter) has subsequently revised the text further in an endeavour to refine the work stylistically.

Max Weber: Modernisation as Passive Revolution

The papers collected in this volume view important moments of decision for the German Evangelical Church in the 19th and 20th centuries and illuminate their consequences for the formation of a popular church independent of the state. A main focus is on the period of the National Socialist dictatorship from 1933 to 1945 and the struggle between Church and State. A regional focus is placed on Hesse.

Historisches Lesebuch: 1815-1871. Hrsg und eingeleitet von Werner Pöls. (GDB 67-A17-317)

Achtes Buch: Vom Frieden 1815 bis zur französischen Revolution 1830 : Dichtung der allgemeinen Bildung. Abteilung VII.

The Peculiarities of German History

Mit seiner Untersuchung liefert der Verfasser einen wesentlichen Beitrag, mit dem man das Scheitern der Revolution von 1848/49 erklären kann. Erst, wenn man diese Untersuchung liest, ermisst man, wie dringend erwünscht ähnliche Beiträge zu anderen preußischen Provinzen - etwa Brandenburg, Pommern oder Preußen - sind. Der Verfasser hat eine bemerkenswerte Quellengrundlage erschlossen und dabei namentlich auch kleinere Archive mit wertvollen und wichtigen Beständen ausgewertet. Von Anlage und Methode ist die Arbeit klassischen geschichtswissenschaftlichen Standards verpflichtet.

Die Flamme der Freiheit

This collection of original essays by scholars on the historical study of the family from various parts of the world represent a new departure in this field. The essays cover a great variety of topics, and many countries are represented. The essays open up new debates and point to new directions in the field by examining dimensions of family relations that had not been sufficiently addressed in previous scholarship.

Historisches Lesebuch in drei Bänden: 1914-1933

Interest in the history of the workplace is on the rise. Recent work in this area has combined traditional methods and theories of social history with new approaches and new questions. It constitutes a 'topical contact zone', a particularly dynamic field of research at the junction of social history, history of occupational health and safety, history of technology and the industrial environment. This book focuses on the new approaches in this important and growing area and their possible range of influence. These new attempts to rewrite a history of the workplace are multiple - and in some cases disparate - but share many key characteristics. They are turning away from the assumption that class and class conflict is the prime mover in social history, abandoning the traditional binomial workers vs. entrepreneurs perspective which had long sustained the historical perspective on labour. Moreover, as this collection outlines, these new attempts concentrate on the analysis of complex social networks of actors that defined and configured industrial workplaces, suggesting a broadening of possible social actors. This book was originally published as a special issue of the European Review of History.
