I Am Malala

Winner of the 2014 Nobel Peace Prize In 2009 Malala Yousafzai began writing a blog on BBC Urdu about life in the Swat Valley as the Taliban gained control, at times banning girls from attending school. When her identity was discovered, Malala began to appear in both Pakistani and international media, advocating the freedom to pursue education for all. In October 2012, gunmen boarded Malala's school bus and shot her in the face, a bullet passing through her head and into her shoulder. Remarkably, Malala survived the shooting. At a very young age, Malala Yousafzai has become a worldwide symbol of courage and hope. Her shooting has sparked a wave of solidarity across Pakistan, not to mention globally, for the right to education, freedom from terror and female emancipation.

The bestselling memoir by Nobel Peace Prize winner Malala Yousafzai. *I Am Malala*. This is my story. Malala Yousafzai was only ten years old when the Taliban took control of her region. And on October 9, 2012, she nearly lost her life for the cause: She was shot point-blank while riding the bus on her way home from school. No one expected her to survive. Written in collaboration with critically acclaimed National Book Award finalist Patty McCormick, this is Malala's story, written for her peers. Meet the girl behind the icon - a girl who loves cricket, has spats with her best friend, and, on the day of the shooting, nearly overslept and missed an exam. A girl who saw women suddenly banned from public, schools blown up, and Taliban opponents whipped in public. A girl whose homeland descended into a state of fear and repression, and who found herself transformed from being somewhat shy and bookish into a fearless opponent of a murderous regime. This is the story of her passionate belief in every child's right to education, her determination to make that a reality throughout the world, and her hope to inspire other children around the world to stand up for their rights alongside her. Includes brand new material about Malala's life after the shooting - adapting to life in a strange country, rehabilitation, and her thoughts on the continued threats she faces, as well as new photos and illustrations.

I Am Malala

As a child in Pakistan, Malala made a wish for a magic pencil that she could use to redraw reality. She would use it to give gifts to her family, to erase the smell from the rubbish dump near her house, to sleep an extra hour in the morning. As she grew older, Malala wished for bigger and bigger things. She saw a world that needed fixing. And even if she never found a magic pencil, Malala realized that she could still work hard every day to make her wishes come true. This beautifully illustrated picture book tells Malala's story, in her own words, for a younger audience and shows them the worldview that allowed her to hold on to hope and to make her voice heard even in the most difficult of times.

an unofficial guide or companion to read alongside the book. If people like Malala can come out of Pakistan, all is not yet lost in that benighted country. The result of the clash between her passion in advocating such a noble cause and the forces of darkness embodied in the Taliban was to almost martyr her before her time. She is a child prodigy, and her autobiography rings true. She is objective, clear, and evenhanded in describing a society (of which she is a part) so charged with religious fervor and conflict. Moreover, Malala has the character and the wisdom to push an issue that is greatly upsetting in a deeply patriarchal society: the right of every girl and woman to an education. Why should this be? Because it is profoundly liberating to that portion of the population that happens to be women and therefore threatening to those who have power over them. These oppressors feared education's liberating influence for women and girls, causing them to strike out against an innocent and wholesome girl in the form of Malala. Here's your chapter-by-chapter guide you can use as you read along with Malala Yousafzai's *I Am Malala*!

I Am Malala

"A stirring and timely book." --New York Times After her father was murdered, Mariya escaped in the middle of the night with her mother. Zaynab was out of school for two years as she fled war before landing in America. Her sister, Sabreen, survived a harrowing journey to Italy. Ajida escaped horrific violence, but then found herself battling the elements to keep her family safe. **** In her powerful new book, Nobel Peace Prize winner and New York Times bestselling author Malala Yousafzai introduces some of the people behind the statistics and news stories about the millions of people displaced worldwide. Malala's experiences visiting refugee camps caused her to reconsider her own displacement -- first as an Internally Displaced Person when she was a young child in Pakistan, and then as an international activist who could travel anywhere in the world except to the home she loved. In *We Are Displaced*, which is part memoir, part communal storytelling, Malala not only explores her own story, but she also shares the personal stories of some of the incredible girls she has met on her journeys -- girls who have lost their community, relatives, and often the only world they've ever known. In a time of immigration crises, war, and border conflicts, *We Are Displaced* is an important reminder from one of the world's most prominent young activists that every single one of the 68.5 million currently displaced is a person -- often a young person -- with hopes and dreams.

Malala

From Christina Lamb, the coauthor of the bestselling *I Am Malala* and an award-winning journalist—an essential, groundbreaking examination of how women experience war. In *Our Bodies, Their Battlefields*, longtime intrepid war correspondent Christina Lamb makes us witness to the lives of women in wartime. An award-winning war correspondent for twenty-five years (she's never had a female editor) Lamb reports two wars—the “bang-bang” war and the story of how the people behind the lines live and survive. At the same time, since men usually act as the fighters, women are rarely interviewed about their experience of wartime, other than as grieving widows and mothers, though their experience is markedly different from that of the men involved in battle. Lamb chronicles extraordinary tragedy and

challenges in the lives of women in wartime. And none is more devastating than the increase of the use of rape as a weapon of war. Visiting warzones including the Congo, Rwanda, Nigeria, Bosnia, and Iraq, and spending time with the Rohingya fleeing Myanmar, she records the harrowing stories of survivors, from Yazidi girls kept as sex slaves by ISIS fighters and the beekeeper risking his life to rescue them; to the thousands of schoolgirls abducted across northern Nigeria by Boko Haram, to the Congolese gynecologist who stitches up more rape victims than anyone on earth. Told as a journey, and structured by country, *Our Bodies, Their Battlefields* gives these women voice. We have made significant progress in international women's rights, but across the world women are victimized by wartime atrocities that are rarely recorded, much less punished. The first ever prosecution for war rape was in 1997 and there have been remarkably few convictions since, as if rape doesn't matter in the reckoning of war, only killing. Some courageous women in countries around the world are taking things in their own hands, hunting down the war criminals themselves, trying to trap them through Facebook. In this profoundly important book, Christina Lamb shines a light on some of the darkest parts of the human experience—so that we might find a new way forward. *Our Bodies, Their Battlefields* is as inspiring and empowering as it is urgent, a clarion call for necessary change.

I Am Malala

Maajid Nawaz spent his teenage years listening to American hip-hop and learning about the radical Islamist movement spreading throughout Europe and Asia in the 1980s and 90s. At 16, he was already a ranking member in Hizb ut-Tahrir, a London-based Islamist group. He quickly rose through the ranks to become a top recruiter, a charismatic spokesman for the cause of uniting Islam's political power across the world. Nawaz was setting up satellite groups in Pakistan, Denmark, and Egypt when he was rounded up in the aftermath of 9/11 along with many other radical Muslims. He was sent to an Egyptian prison where he was, fortuitously, jailed along with the assassins of Egyptian President Anwar Sadat. The 20 years in prison had changed the assassins' views on Islam and violence; Maajid went into prison preaching to them about the Islamist cause, but the lessons ended up going the other way. He came out of prison four years later completely changed, convinced that his entire belief system had been wrong, and determined to do something about it. He met with activists and heads of state, built

a network, and started a foundation, Quilliam, funded by the British government, to combat the rising Islamist tide in Europe and elsewhere, using his intimate knowledge of recruitment tactics in order to reverse extremism and persuade Muslims that the 'narrative' used to recruit them (that the West is evil and the cause of all of Muslim suffering), is false. *Radical*, first published in the UK, is a fascinating and important look into one man's journey out of extremism and into something else entirely. This U.S. edition contains a "Preface for US readers" and a new, updated epilogue.

The Best Kind of Magic

Born into a conservative family in a provincial town, in Haryana, Kalpana Chawla dreamt of the stars. Through sheer hard work, indomitable intelligence and immense faith in herself, she became the first indian woman to travel into space, and most remarkably to travel twice. A shinning career was tragically cut short in the recent Columbia mishap. In this well researched biography, journalist Padmanabhan talks to people who knew her, family and friends at Karnal, and colleagues at Nasa, to produce a moving portrait of a woman whose life was unique.

The Story of Malala Yousafzai

A comprehensive reassessment of the idea that all humans are entitled to learning, examining existing conceptualisations and proposing a new basis for Education for All.

Kalpana Chawla, a Life

In this intimate and extraordinary memoir, Ziauddin Yousafzai, the father of Malala, gives a moving account of fatherhood and his lifelong fight for equality – proving there are many faces of feminism. “Whenever anybody has asked me how Malala became who she is, I have often used the phrase. ‘Ask me not what I did but what I did not do. I did not clip her wings’” For over twenty years, Ziauddin Yousafzai has been fighting for equality – first for Malala, his daughter – and then for all girls throughout the world living in patriarchal societies. Taught as a young boy in Pakistan to believe that he was inherently better than his sisters, Ziauddin rebelled against inequality at a young age. And when he had a daughter himself he vowed that Malala would have an education, something usually only given to boys, and he founded a school that Malala could attend. Then in 2012, Malala was shot for standing up to the Taliban by continuing to go to her father's school, and Ziauddin almost lost the very person for whom his fight for equality began. *Let Her Fly* is Ziauddin's journey from a stammering boy growing up in a tiny village high in the mountains of Pakistan, through to being an activist for equality and the father of the youngest ever recipient of the Nobel Peace Prize, and now one of the most influential and inspiring young women on the planet. Told through intimate portraits of each of Ziauddin's closest relationships – as a son to a traditional father; as a father to Malala and her brothers, educated and growing up in the West; as a husband to a wife finally learning to read and write; as a brother to five sisters still living in the patriarchy – *Let Her Fly* looks at what it means to love, to have courage and fight for what is inherently right. Personal in its detail and universal in its themes, this landmark book shows why we must all keep fighting for the rights of girls and women everywhere.

They would be the first Black First Family in the White House and serve the country for two terms. Growing up, Michelle and her older brother, Craig, shared a bedroom in their family's upstairs apartment in her great-aunt's house. Her parents, Fraser and Marian, poured their love and energy into their children. Michelle's beloved dad taught his kids to work hard, keep their word, and remember to laugh. Her mom showed them how to think for themselves, use their voice, and be unafraid. But life soon took her far from home. With determination, carefully made plans, and the desire to achieve, Michelle was eager to expand the sphere of her life from her schooling in Chicago. She went to Princeton University, where she learned what it felt like to be the only Black woman in the room. From her early years of marriage, and the struggle to balance being a working woman, a wife, and the mom of two daughters, Michelle Obama details the shift she made to political life and what her family endured as a result of her husband's fast-moving political career and campaign for the presidency. She shares the glamour of ball gowns and world travel, and the difficulties of comforting families after tragedies. She managed to be there for her daughters' swim competitions and attend plays at their schools without catching the spotlight, while defining and championing numerous initiatives, especially those geared toward kids, during her time as First Lady. Most important, this volume for young people is an honest and fascinating account of Michelle Obama's life led by example. She shares her views on how all young people can help

themselves as well as help others, no matter their status in life. She asks readers to realize that no one is perfect, and that the process of becoming is what matters, as finding yourself is ever evolving. In telling her story with boldness, she asks young readers: Who are you, and what do you want to become?

Malala: Activist for Girls' Education

Dear Reader, Many people have wondered why I've been speaking out on controversial issues for the last few years. They say I've never held political office. I'm not a constitutional scholar. I'm not even a lawyer. All I can say to that is "Guilty as charged." It's true that I've never voted for a budget America could not afford. I've never raised anyone's taxes. And I've never promised a lobbyist anything in exchange for a donation. Luckily, none of that really matters. Our founding fathers didn't want a permanent governing class of professional politicians. They wanted a republic, in Lincoln's words, "of the people, by the people, and for the people." A country where any farmer, small-business owner, manual laborer, or doctor could speak up and make a difference. I believe that making a difference starts with understanding our amazing founding document, the U.S. Constitution. And as someone who has performed brain surgery thousands of times, I can assure you that the Constitution isn't brain surgery. The founders wrote it for ordinary men and women, in clear, precise, simple language. They intentionally made it short enough to read in a single sitting and to carry in your pocket. I wrote this book to encourage every citizen to read and think about the Constitution, and to help defend it from those who misinterpret and undermine it. In our age of political correctness it's especially important to defend the Bill of Rights, which guarantees our freedom to speak, bear arms, practice our religion, and much more. The Constitution isn't history—it's about your life in America today. And defending it is about what kind of country our children and grandchildren will inherit. I hope you'll enjoy learning about the fascinating ways that the founders established the greatest democracy in history—and the ways that recent presidents, congresses, and courts have threatened that democracy. As the Preamble says, the purpose of the Constitution is to create a more perfect union. My goal is to empower you to help protect that union and secure the blessings of liberty. Sincerely, Ben Carson

Becoming: Adapted for Young Readers

She thought the murders had stopped. She was wrong.

A More Perfect Union

"To The Women I Once Loved" is a reflection of a poet's heart, his deepest inner feelings towards past relationships and how they contributed to the man he has become. Each piece brings consciousness to parts of a woman that ought to be glorified, qualities men sometimes neglect in relationships; while making both men and women aware that who they become has a direct correlation with who they've been with. Pierre allows readers to see where he missed it before in a way that is uplifting not only to the reader but also the women of his past. This literary piece is filled with hope and will salivate the soul of those waiting on love.

A Flicker in the Dark

Beirut isn't an obvious home for a young Australian couple, but when the opportunity arose for journalist Catherine Taylor and her husband to move to Lebanon, they didn't think twice about leaving their comfortable life in Sydney. Catherine soon fell in love with the Paris of the Middle East and became fascinated by the complexity of its people: their exuberant and loving nature seemed to belie the many dark years of bloodshed and conflict they'd endured. She set about trying to understand the region, interviewing the wives of suicide bombers, Lebanese hashish farmers, stricken Palestinians on the West Bank, female boxing contestants in Cairo, Hezbollah fighters, and even Osama bin Laden's best friend. She also witnessed firsthand the impact of 9/11 on the region. Gradually she learnt to negotiate these very different cultures with humour and more than the occasional faux pas. When she reluctantly left after several years she vowed to return. In 2006, after the violence flared up again between Israel and Lebanon, she went back to see how her adopted country and friends had coped, and how, with their remarkable resilience, they saw the way forward.

To the Women I Once Loved

The winner of the Coretta Scott King/John Steptoe New Talent Award, this work introduces a white boy living in the South of 1964, who recounts his first experience of racial prejudice--and his friendship with a black boy that defied it. Full color.
