Duck, Death, and the Tulip

In a strangely heart-warming story, a duck strikes up an unlikely friendship with Death. Death, Duck and the Tulip will intrigue, haunt and enchant readers of all ages. Simple, unusual, warm and witty, this book deals with a difficult subject in a way that is elegant, straightforward, and thought-provoking.

Words and Pictures

"This is the fascinating insight into the artistic development of one of the world's most distinguished illustrators, from the start of his career until 2000. The words describe his approach to the challenges and opportunities of illustration; the pictures, chosen from fifty years of publication, show the progress from his first experience of Punch magazine to the publishing of his own-authored picture books such as Fantastic Daisy Artichoke. Some are familiar, such as those of Roald Dahl's Matilda, or The BFG, while others are from early in his career, and some - roughs, layouts and personal drawings - will be completely new to most readers." -- Back cover.

The Man Who Loved Boxes

Once there was a man who loved boxes. He also loved his young son, but because he did not know how to say so, he made things for his son out of boxes. Love is expressed in different ways and a small boy comes to understand his father's special way of showing his love for him.

Saci

Saci (original title: O Saci) Bonus short stories: The Periscope (original title: O Periscópio), Caterpillars and Butterflies (original title: Lagartas e Borboletas) and The Second Jackfruit (A Segunda Jaca). Who are the sacis? Saci is a one-legged Brazilian folktale character known for his black skin, red tuque, pipe and pranks. Elfish, he will do your head in if he wants to annoy you, but if you are lost in the woods there is no better guide than this ally of plants and animals. It's nearly midnight and Saci and Pete delve into Red Toucans Weald, the dense forest just beyond Yellow Woodpecker Grange, and outsmart darkness, jaguars, anacondas, rattlesnakes... and supernatural creatures: Caipora, Curupira, Headless Mule, White Pig Sow with her seven piglets, Werewolf, Iara and the implacable 3,000 year-old alligator-headed witch Cuca, who kidnaps Retroussy. The two heroes have until dawn to solve the mystery and achieve her rescue. The short stories also by Monteiro Lobato included in this book are 'The Periscope', 'Caterpillars and Butterflies' and 'The Second Jackfruit'. In 'The Periscope', Viscount, now an inventor, creates a periscope to see the invisible, and what do they see? Sacis! In 'Caterpillars and Butterflies', Viscount presents his new invention: the 'psychocaptor', a machine that reads the thoughts of animals and trees. In 'The Second Jackfruit', Viscount is missing and Emily summons the ingenuity of a saci to help her find her best friend.

The 2nd edition of the Handbook of Technological Pedagogical Content Knowledge (TPACK) for Educators addresses the concept and implementation of technological pedagogical content knowledge—the knowledge and skills that teachers need in order to integrate technology meaningfully into instruction in specific content areas. Driven by the growing influence of TPACK on research and practice in both K-12 and higher education, the 2nd edition updates current thinking about theory, research, and practice. Offering a series of chapters by scholars in different content areas who apply the technological pedagogical content knowledge framework to their individual content areas, the volume is structured around three themes: Current thoughts on TPACK Theory Research on Technological Pedagogical Content Knowledge in Specific Subject Areas Integrating Technological Pedagogical Content Knowledge into Teacher Education and Professional Development The Handbook of Technological Pedagogical Content Knowledge (TPACK) for Educators is simultaneously a mandate and a manifesto on the engagement of technology in classrooms.

Children's early experiences of literacy have a major influence on how they continue to learn as they grow older. Children enter early childhood programs and school with a wealth of knowledge and understandings of literacy. It is critical that early childhood professionals and teachers recognise and build on this learning. Literacy Learning in the Early Years offers a practical introduction to literacy issues for early childhood professionals and teachers working with children aged 0-8, in childcare, preschool and school contexts. The authors take a socio-cultural approach to literacy learning, emphasising the importance of understanding the various contexts in which young children are involved in literacy practices. They explore a range of literacy issues that early childhood professionals and teachers are facing in the 21st century. These issues include the role of play in literacy learning, how to use information communication technologies with young children and ways of introducing critical literacy. Literacy is understood broadly and readers are encouraged to explore a range of print and other media with children. With chapters from both Australian and UK authors Literacy Learning in the Early Years is an ideal professional reference and student text. a very useful introductory text to literacy development in early childhood. It is clearly written and accessible to the wide range of professionals working with young children as well as to teachers and parents. It will be a valuable text in training at initial and in-service levels on a wide range of courses. Lesley Abbott, Professor of Early Childhood Education, Manchester Metropolitan University this well written, comprehensive book combines many practical examples of learning to do literacy and suggestions for action, and all the while engages the reader with questions and starting points for reflection. Susan Hill, Associate professor, The Centre for Studies in Literacy, University of South Australia

for the First Time In this thought-provoking and extremely timely work, Nuccio Ordine convincingly argues for the utility of useless knowledge and against the contemporary fixation on utilitarianism—for the fundamental importance of the liberal arts and against the damage caused by their neglect. Inspired by the reflections of great philosophers and writers (e.g., Plato, Dante, Montaigne, Shakespeare, Borges, and Calvino), Ordine reveals how the obsession for material goods and the cult of utility ultimately wither the spirit, jeopardizing not only schools and universities, art, and creativity, but also our most fundamental values—human dignity, love, and truth. Also included is Abraham Flexner's 1939 essay "The Usefulness of Useless Knowledge," which originally prompted Ordine to write this book. Flexner—a founder and the first director of the Institute for Advanced Study in Princeton—offers an impassioned defense of curiosity-driven research and learning.

The Usefulness of the Useless

A private meeting, chance encounters, and a mysterious tour of Lisbon, in this brilliant homage to Fernando Pessoa. In this enchanting and evocative novel, Antonio Tabucchi takes the reader on a dream-like trip to Portugal, a country he is deeply attached to. He spent many years there as director of the Italian Cultural Institute in Lisbon. He even wrote *Requiem* in Portuguese; it had to be translated into Italian for publication in his native Italy. *Requiem*'s narrator has an appointment to meet someone on a quay by the Tagus at twelve. But, it turns out, not twelve noon, twelve midnight, so he has a long time to while away. As the day unfolds, he has many encounters—a young junky, a taxi driver who is not familiar with the streets, several waiters, a gypsy, a cemetery keeper, the mysterious Isabel, an accordionist, in all almost two dozen people both real and illusionary. Finally he meets The Guest, the ghost of the long dead great poet Fernando Pessoa. Part travelog, part autobiography, part fiction, and even a bit of a cookbook, *Requiem* becomes an homage to a country and its people, and a farewell to the past as the narrator lays claim to a literary forebear who, like himself, is an evasive and many-sided personality.

Requiem: A Hallucination

THE SILENCE OF THE BOOKS: a declaration of love to literature, books and libraries. A beautiful LITERARY FICTION - a novel to be savored not only for its plot filled with tensions and suspense, but also for the details of its construction, like the work with the language, the impacting descriptions and the choice of the character's names. SYNOPSIS: In a time where books are forbidden, the mysterious Santiago Pena has just arrived in Portugal, where he will meet Alice, a girl who is despised by her parents. The discovery of an old notebook will hold intriguing questions. What connection is there between a young man accused of a crime that he alleges not having committed, sumptuous architectural projects and the finding of an abandoned library? For what reason would someone use the phrase "festina lente" ("make haste slowly")? And why does the stranger Santiago seem to awaken in Alice's parents' dangerous yearnings? Suspense and adventure mixed with profound reflections on the paradoxes of the human condition in this breathtaking story about friendship, madness, love, the loss of innocence. As the perspective switches from the private man to a curious girl, the narrative amazes because of the diversities of meanings. Dialoguing with classics from universal Literature, "The silence of the books" investigates what the future of a society that, fascinated by the technological progress, banishes books. And launches a challenge to the ones that insist on declaring, grimly, the death of one of the greatest symbols of Civilization. THE SILENCE OF THE BOOKS: "What would you do if books were forbidden? Is there a 'criminal gene' that leads to violence? Can a library change lives? Can desire become anger? Would you allow a software program make your life decisions?" This novel is part of the best western tradition, with subtle mentions of books, poems and wines, of classical myths and folklore, of artworks and scientific theories. On the other hand, embarks on great contemporary debates, like the genetic programming, privacy invaded by cameras and recording devices, the question about the identity in the virtual world, the right to oblivion, the role of literature, free will. THE SILENCE OF THE BOOKS: a ravishing story. Poetic prose of immeasurable beauty.

My Alphabet Playbook (Limited Edition)

Originally published in 1968. This volume discusses Francis Bacon's thought and work in the context of the European cultural environment that influenced Bacon's philosophy and was in turn influenced by it. It examines the influence of magical and alchemical traditions on Bacon and his opposition to these traditions, as well as illustrating the naturalist, materialist and ethico-political patterns in Bacon's allegorical interpretations of fables.

Three Cheers, Secret Seven

Friendship Bear, Friendship Bear, where are you? World-famous pop artist Romero Britto brings his famous bears to life in this bold, interactive book that features lift-the-flaps and touch-and-feel elements! Vibrant colors create inviting patterns to touch and feel as readers lift the flaps in search of the one and only Friendship Bear.

From My Window

This textbook provides a concise, readable introduction to contemporary work in syntactic theory, particularly to key concepts of Chomsky's minimalist programme. Andrew Radford gives a general overview of the main theoretical concepts and descriptive devices used in 1990s work. The discussion is largely based on data from a range of varieties of English (not only Modern Standard, but also Belfast English, Shakespearean English, Jamaican Creole, etc.) and does not presuppose any prior knowledge of syntax. There are exercises and a substantial glossary. This is an abridged version of Radford's major textbook *Syntactic Theory and the Structure of English: A Minimalist Approach*, and will be welcomed as a short introduction to current syntactic theory.

The Silence of the Books

A story inspired by the question, "What are people doing right at this moment on the other side of the world?" depicts natural and human events happening all over the world—from New York and Turkey to South Africa and Greece—at the same second.

The Units of Language Acquisition

This book demonstrates how contemporary children's texts draw on utopian and dystopian tropes in their projections of possible futures. The authors explore the ways in which children's texts respond to social change and global politics. The book argues that children's texts are crucially implicated in shaping the values of their readers.

Francis Bacon: From Magic to Science

Private investigator Bacci Pagano can't resist taking the bait when his new client dangles a check with too many zeros. He should have known that where there's bait, there's always a hook.

Where Is Friendship Bear?

Are some of the world's most talented writers of children's books essentially children themselves? In this engaging series of essays, Pulitzer prize-winning author Alison Lurie considers this theory, exploring children's classics from many eras and relating them to the authors who wrote them, including Louisa May Alcott, creator of *Little Women*, and Salman Rushdie and his *Haroun and the Sea of Stories*, Dr Seuss and J. K. Rowling. In analysing these and many other authors, Alison Lurie shows how these gifted writers have used children's literature to transfigure sorrow, nostalgia and the struggles of their own experience.

Syntax

Longlisted for the Man Booker International Prize 'A savagely short novel of immeasurable ambition and violent beauty. This is the language of genius.' Juan Pablos Villalobos 'How often, honestly, does the unveiling in translation of a 'forgotten genius' live up to the hype? Well here's one that does: Raduan Nassar' Times Literary Supplement 'Yes, bastard, you're the one I love' A pair of lovers - a young female journalist and an older man who owns an isolated farm in the Brazilian outback - spend the night together. The next day they proceed to destroy each other. Amid vitriolic insults, cruelty and warring egos, their sexual adventure turns into a savage power game. This intense, erotic cult novel by one of Brazil's most infamous modernist writers explores alienation, the desire to dominate and the wish to be dominated. A new translation by Stefan Tobler

Adolescent Sleep Needs and School Starting Times

Cinderella and thirty seven other tales are featured in this volume of timeless European tales. Cinderella is a story of a beautiful young girl who lives with her step mother and two vain and selfish sisters. She is made to work day and night in menial chores until her Fairy Godmother magically appears and transforms Cinderella to the young lady she was by birth.
