

civil engineering objective question answer file type

[#civil engineering objective questions](#) [#civil engineering mcq pdf](#) [#free civil engineering quiz](#) [#civil engineering competitive exam questions](#) [#download civil engineering study material](#)

Explore a comprehensive collection of civil engineering objective questions and answers, ideal for students and professionals preparing for competitive exams or seeking to enhance their knowledge. These valuable resources are available in various downloadable file types, providing excellent practice material and clear solutions for effective learning.

Our thesis archive continues to grow with new academic contributions every semester.

We truly appreciate your visit to our website.

The document Civil Engineering Objective Questions Pdf you need is ready to access instantly.

Every visitor is welcome to download it for free, with no charges at all.

The originality of the document has been carefully verified.

We focus on providing only authentic content as a trusted reference.

This ensures that you receive accurate and valuable information.

We are happy to support your information needs.

Don't forget to come back whenever you need more documents.

Enjoy our service with confidence.

This document remains one of the most requested materials in digital libraries online.

By reaching us, you have gained a rare advantage.

The full version of Civil Engineering Objective Questions Pdf is available here, free of charge.

FLUID MECHANICS

Fluids include

Rotameter is used to measure

Pascal-second is the unit of

Purpose of venturi meter is to

Ratio of inertia force to viscous force is

Ratio of lateral strain to linear strain is

The variation in volume of a liquid with the variation of pressure is

A weir generally used as a spillway of a dam is

The specific gravity of water is taken as

The most common device used for measuring discharge through channel is

The Viscosity of a fluid varies with

The most efficient channel is

Bernoulli's theorem deals with the principle of conservation of

In open channel water flows under

The maximum frictional force which comes into play when a body just begins to slide over

The velocity of flow at any section of a pipe or channel can be determined by using a

The point through which the resultant of the liquid pressure acting on a surface is known as

Capillary action is because of

Specific weight of water in SI unit is

Turbines suitable for low heads and high flow

Water belongs to

Modulus of elasticity is zero, then the material

Maximum value of Poisson's ratio for elastic

In elastic material stress strain relation is

Continuity equation is the law of conservation

Atmospheric pressure is equal to

Manometer is used to measure

For given velocity, range is maximum when the

Rate of change of angular momentum is

The angle between two forces to make their

The SI unit of Force and Energy are

One newton is equivalent to

If the resultant of two equal forces has the same magnitude as either of the forces, then the angle

The ability of a material to resist deformation

A material can be drawn into wires is called

Flow when depth of water in the channel is greater than critical depth

Notch is provided in a tank or channel for?

The friction experienced by a body when it is in

The sheet of liquid flowing over notch is known

The path followed by a fluid particle in motion

Cipoletti weir is a trapezoidal weir having side

Discharge in an open channel can be measured

If the resultant of a number of forces acting on a body is zero, then the body will be in

The unit of strain is

The point through which the whole weight of the body acts irrespective of its position is

The velocity of a fluid particle at the centre of

Which law states The intensity of pressure at any point in a fluid at rest, is the same in all

Which of the following is a classification based on the instrument used?

In ordinary chain survey, the maximum permissible error is

The smaller horizontal angle between the true meridian and the survey line is known as

The operation of turning the table so that all the lines on the paper are parallel to the corresponding
lines on the ground, is called

The horizontal distance between any two consecutive contours is called

Removal of parallax may be achieved by focusing

When the angular measurement is more precise than the linear measurement in a traverse the
balancing of traverse is done by

The most accurate instrument for measuring the horizontal and vertical angle is

Which of the following instrument is used for measurement of angles?

Which method is particularly suitable when a contoured map of a hill required?

A straight line joining the ends of an arc is called

The instrument attached to the wheel of the vehicle in order to measure the distance is called

The purpose of an optical square is same as instrument.

Which line is normal to the level line at a point?

The maximum tolerance in a 20 m chain is

Least count of transit theodolite reading

The most commonly used theodolite operations are

Which of the following rules is used to calculate area of a plot ?

SSC/RRB-JE/DDA/PWD/CPWD/IES/GATE 100 MOST COMMON QUS.

Which instrument is used in trigonometric levelling? a Wye level b Compass c Theodolite d Dumpy level

The allowable length of an offset depends upon the a degree of accuracy required b method of setting out the perpendiculars and nature of ground c scale of plotting d all of the above

The correction for sag is a always additive b always Subtractive c always zero d Sometimes additive and sometimes Subtractive

Cross staff is an instrument used for a measuring approximate horizontal angles b setting out right angles c measuring bearings of the lines d none of the above

Local attraction in compass Surveying may exist due to a incorrect levelling of the magnetic needle b loss of magnetism of the needle c friction of the needle at the pivot d presence of magnetic substances near the instrument

The prismatic compass and Surveyor's compass a give whole circle bearing (WCB) of a line and quadrantal bearing (QB) of a line respectively b both give QB of a line and WCB of a line c both give QB of a line d both give WCB of a line

The horizontal angle between the true meridian and magnetic meridian at a place is called a azimuth b declination c local attraction d magnetic bearing

A negative declination shows that the magnetic meridian is to the a eastern side of the true meridian b western side of the true meridian c Southern side of the true meridian d none of the above

Agate cap is fitted with a a cross staff b level c chain d prismatic compass

Theodolite is an instrument used for a tightening the capstan-headed nuts of level tube b measurement of horizontal angles only c measurement of vertical angles only d measurement of both horizontal and vertical angles

The process of turning the telescope about the vertical axis in horizontal plane is known as a transiting b reversing

Size of a theodolite is specified by a the length of telescope b the diameter of vertical circle c the diameter of lower plate d the diameter of upper plate

Which of the following is not the function of levelling head ? a to support the main part of the instrument

b to attach the theodolite to the tripod c to provide a means for leveling the theodolite
 For which of the following permanent adjustments of theodolite, the Spire test is used ?
 Which of the following errors is not eliminated by the method of repetition of horizontal angle measurement ? a error due to eccentricity of verniers b error due to displacement of station
 45. In the double application of principle of reversion, the apparent error is a equal to true error b half the true error c two times the true error d four times the true error
 If a tripod settles in the interval that elapses between taking a back sight reading and the following foresight reading, then the elevation of turning point will a increase b decrease c not change
 The following sights are taken on a "turning point" a foresight only b backsight only c foresight and backsight d foresight and intermediate sight
 The rise and fall method of levelling provides a complete check on a backsight b intermediate sight c foresight d all of the above

MECHANICAL ENGINEERING INTERVIEW QUESTIONS & ANSWERS! - MECHANICAL ENGINEERING INTERVIEW QUESTIONS & ANSWERS! by CareerVidz 174,326 views 4 years ago 12 minutes, 16 seconds - COMMON **MECHANICAL ENGINEERING**, JOB **QUESTIONS**, ANSWERED
 Q. How do I prepare for a **mechanical engineering**, ...
 Intro
 Welcome to this Mechanical Engineering interview training tutorial.
 1. Read the job description and person specification.
 Q. Tell me about yourself and why you want to be a Mechanical Engineer? I am naturally an inquisitive person who enjoys working in a team environment where the ability to problem-solve and collaborate with others is an essential part of the role. I believe I have a good balance of technical analytical and practical skills that mean I am a strong candidate for this mechanical engineering position
 I think the most important skill as a mechanical engineer is safety awareness and compliance. You also need numerous other technical and non-technical skills to be a competent and safe mechanical engineer
 Questions, to ask in a **mechanical engineering interview**, ...
 I would start out by DEFINING THE EXACT PROBLEM. This is one of the most important steps, because it's quite easy to misinterpret information and data and you need to make sure you don't jump to any conclusions
 What to wear during your mechanical engineering interview...
 My biggest strength is my ability to collaborate and work with other people to create innovative and safe mechanical engineering solutions.
 ... SET OF **MECHANICAL ENGINEERING INTERVIEW**, ...

Introduction

What is the difference between a Co-Op and an Internship

Besides career fairs, what other ways can I find internship and employment opportunities?

What are your research areas?

Do students do internships and research throughout the school year or summer?

Does doing co-op typically extend your graduation date?

What's the best way to get involved in co-ops and internships freshman year?

Does the co-op have to be in Indiana or can it be in different states?

Study abroad or international work?

What are some major companies that most Purdue alumni work at?

What resources do I have access to at Purdue while applying for internships?

How to incorporate research and study abroad into workload?

What separates Purdue's experiential opportunities from other colleges?

Are you limited on the countries you can go to, or can you design your own program?

Intermission

Can you talk about government internships?

Percentage of student demography in undergrad engineering?

More info on EPICS and VIP?

What do opportunities look like for Nuclear Engineering

Does ROTC program take too much time for an engineering student?

Women in Engineering or Society for Women in Engineering?

Ways for students to discern what engineering major they want to concentrate in?

Honors College Experiences?

How big are First-Year classes and academic support?

What resources did you use to find internships or research opportunities?

Opportunities for multidisciplinary and interdisciplinary studies?

How to apply for honors college?

How many classes in FYE are trying to weed out students?

How do you reach out to people in industry?

How do you rate alumni association?

What is the reason you chose Purdue Engineering and why should someone choose it over other institutions?
