Hunting Humans: The Rise of the Modern Multiple Murderer

In this new edition of his landmark 1986 study, pioneering anthropologist Elliott Leyton examines the psyche and motivations of his six original multiple-murderer subjects and now takes stock of how far we've come since then in our understanding of why people commit gruesome assaults on innocent strangers.

Hunting Humans: Rise of the Multiple Murderer

Elliott Leyton (author) has written a superb detailed book focusing on 6 modern serial killers/modern mass murderers. Edmund Kemper, Ted Bundy (the charming young Republican), Albert Desalvo (the social climber known as The Boston Strangler), David Berkowitz (Son of Sam), Mark Essex (the racist) & Charles Starkweather.

Hunting Humans by Elliott Leyton

A completely revised and expanded edition of a classic study from the authority on serial killers.

Hunting Humans: The Rise of the Modern Multiple Murderer

In this classic study, Elliott Leyton challenges the conventional idea of serial murderers as deranged madmen. He explores the twisted – but comprehensible – motives of a half-dozen notorious killers: Edmund Emil Kemper, Theodore Robert Bundy, Albert DeSalvo (“The Boston Strangler”), David Richard Berkowitz (“Son ...

The Lost Tribe

Two years before this story begins, the Liawep were living deep in the jungle of Papua, New Guinea, long forgotten by the outside world. Numbering seventy-nine men, women, and children, the tribe worshipped a mountain, dressed in leaves, and hid when planes flew overhead, believing them to be evil sanguma birds. Their discovery by a missionary hit the headlines in 1993. Galvanized by the reports of people living in Stone Age conditions, Edward Marriott set out to find the Liawep. Banned from visiting the tribe by the New Guinea government, he assembled his own ragtag patrol and ventured illegally into the wilderness in search of his quarry. Nothing could have prepared him for what he found or for the dramatic events that followed. A thrilling, superbly written adventure, *The Lost Tribe* is a memorable account of what happens when good intentions go awry, when rational man meets primal beliefs, and when a small, primitive people are ensnared by the predations of civilization.

Cultures Merging

"Economists agree about many things--contrary to popular opinion--but the majority agree about culture only in the sense that they no longer give it much thought." So begins the first chapter of *Cultures Merging*, in which Eric Jones--one of the world's leading economic historians--takes an eloquent, pointed, and personal look at the question of whether culture determines economics or is instead determined by it. Bringing immense learning and originality to the issue of cultural change over the long-term course of global economic history, Jones questions cultural explanations of much social behavior in Europe, East Asia, the United States, Australia, and the Middle East. He also examines

contemporary globalization, arguing that while centuries of economic competition have resulted in the merging of cultures into fewer and larger units, these changes have led to exciting new syntheses. Culture matters to economic outcomes, Jones argues, but cultures in turn never stop responding to market forces, even if some elements of culture stubbornly persist beyond the time when they can be explained by current economic pressures. In the longer run, however, cultures show a fluidity that will astonish some cultural determinists. Jones concludes that culture's "ghostly transit through history" is much less powerful than noneconomists often claim, yet it has a greater influence than economists usually admit. The product of a lifetime of reading and thinking on culture and economics, a work of history and an analysis of the contemporary world, *Cultures Merging* will be essential reading for anyone concerned about the interaction of cultures and markets around the world.

Tribal Warriors at the Last Frontier

Papua New Guinea is indeed the land of mystery. It is a land of natural wilderness, breathtaking landscapes, lost cultures, unexpected tropical jungles, and high mountains, many networks of rivers and fascinating flora and fauna. But what's more mysterious is the people, who are richer in their culture than any other county in the world. This is because they speak 800 different languages; thus, they have 800 unique cultures. *Tribal Warriors at the Last Frontier* is a true story of a very small tribe known as the Jika Mukuka tribe in the Western Highlands of Papua New Guinea. The story takes us back a few hundred years before the discovery of the Hagen people by the first white men (the Leahy brothers; Michael and Danny) from Australia. The origin of the Jika Mukuka tribe and the events that the Jika Mukukas went through. The Jika Mukuka tribe survived through a turbulent period of tribal warfare, forced out of their homeland to seek refuge all over the land of different tribes in the Hagen society. Almost 90 percent of their tribesmen were killed by an enemy ten times their size but few of those brave warriors sought refuge at Kuta, the mine site of Danny Leahy. The Jika Mukukas came to learn the new ways of the white man, which were both weird, funny, and confusing. After seven years of exile, the last surviving 29 men returned to their homeland and rebuilt the tribe of Jika Mukuka. The small Jika Mukuka tribe was the last to resettle among thousands of tribes but was richly blessed by producing two powerful men in Papua New Guinea, who were Pena Ou, the first national member for Hagen, and Paias Wingti, former three time Prime Minister of Papua New Guinea and Governor for Western Highlands.

The Lost Tribe

English summary: In this work, one of the leading economic historians presents his answer to the question of whether and how culture determines economics or is instead determined by it. Using illustrative examples, Jones questions one-sided cultural explanations of social behavior and describes the interaction between culture and economic development. His analysis of contemporary globalization, a subject currently under considerable and partially apprehensive discussion, shows how many centuries of economic competition have resulted in the merging of cultures into fewer and larger units, and that these changes have regularly led to important social advances. The english original was published in 2006 by Princeton University Press. German description: Hier legt einer der fuhrenden englischsprachigen Wirtschaftshistoriker beredt und pointiert seine Antwort auf die Frage vor, ob bzw. wie weit Kultur die Wirtschaft bestimmt oder umgekehrt von dieser bestimmt wird. Anhand zahlreicher anschaulicher Beispiele aus funf Erdteilen und verschiedensten Zeitaltern stellt Jones, der selbst Lehrerfahrungen auf drei Kontinenten hat, einseitig kulturelle Erklarungen sozialen und wirtschaftlichen Verhaltens in Frage und arbeitet die Wechselwirkungen zwischen Kultur und wirtschaftlicher Entwicklung heraus. Seine Analyse der viel und teilweise angstvoll kritisierten (aber keineswegs neuartigen) Globalisierung zeigt, dass jahrhundertelanger wirtschaftlicher Wettbewerb dazu gefuhrt hat, dass Kulturen zu weniger und grosseren Einheiten verschmolzen. Das hatte kulturelle Veranderungen zur Folge, die regelmassig wichtige soziale Weichenstellungen bewirkt haben. Heute gehen diese Veranderungen vor allem mit Hilfe der neuesten Kommunikationstechniken vor sich, die starker als je zuvor auch in weniger entwickelten Landern einen individuellen Zugang zu kultureller wie okonomischer Information erlauben. Kultur ist fur wirtschaftliche Ergebnisse entscheidend, doch reagieren Kulturen ihrerseits standig auf die Krafte des Marktes, oft freilich um eine Generation zeitverzogert. Langfristig jedoch, wie der Historiker Jones zeigen kann, sind Kulturen bemerkenswert formbar und anpassungsfahig. Sie sind wandlungsfahiger, als Nichtkonomen behaupten, und doch einflussreicher, als Okonomen gewohnlich zugeben.

The British National Bibliography

Si la question de l'authenticité est déterminante dans l'art contemporain (elle porte non seulement sur les objets, mais aussi sur les artistes et leurs intentions), elle l'est également en préhistoire où la fabrication de faux a, tour à tour, causé un retard ou une avancée des connaissances dans ce domaine. Les touristes, comme les pèlerins, sont perpétuellement en quête d'authenticité (et leurs rôles sont facilement interchangeables) ; l'ethnologue lui-même n'est pas à l'abri des rêves d'authentique. Mais comment garantir l'authenticité ? La faillibilité de l'œil et celle de la photographie (ici réalisée par des médium) sont également interrogées dans ce volume à travers les travaux de Broca et les procès des spirites photographes qui prétendaient saisir le portrait des spectres et des esprits. Au sommaire : N. Heinrich, "Art contemporain et fabrication de l'inauthentique" ; N. Dias, "La fiabilité de l'œil" ; C. Cohen, "Faux et authenticité en préhistoire" ; D. Brown, "Des faux authentiques. Tourisme versus pèlerinage" ; G. Charuty, "La "boîte aux ancêtres". Photographie et science de l'invisible" ; M. Faure, "Un produit agricole "affiné" en objet culturel. Le fromage Beaufort dans les Alpes du Nord" ; P. Lemonnier, "La chasse à l'authentique. Histoires d'un âge de pierre hors contexte".

The Alpine Journal

Tudor Parfitt examines a myth which is based on one of the world's oldest mysteries - what happened to the lost tribes of Israel? Christians and Jews alike have attached great importance to the legendary fate of these tribes which has had a remarkable impact on their ideologies throughout history. Each tribe of Israel claimed descent from one of the twelve sons of Jacob and the land of Israel was eventually divided up between them. Following a schism which formed after the death of Solomon, ten of the tribes set up an independent northern kingdom, whilst those of Judah and Levi set up a separate southern kingdom. In 721BC the ten northern tribes were ethnically cleansed by the Assyrians and the Bible states they were placed: in Halah and in Habor by the river of Gozan and in the city of Medes. The

Bible also foretold that one day they would be reunited with the southern tribes in the final redemption of the people of Israel. Their subsequent history became a tapestry of legend and hearsay. The belief persisted that they had been lost in some remote part of the world and there were countless suggestions and claims as to where.

Acclaimed travel writer Rick Antonson (*Full Moon Over Noah's Ark*) tackles his most challenging adventure yet: a formidable trail through the remote jungles of Papua New Guinea. Rick Antonson has traveled to parts of the world that are not simply exotic but sometimes damned near inaccessible. He has climbed to the summit of Mount Ararat in eastern Turkey, traveling beyond to Iraq and Iran and Armenia. He has undertaken an improbable overland journey to the ancient city of Timbuktu, an enlightening look into efforts to preserve the city's priceless manuscripts. Now he has traversed the notorious Kokoda Trail in Papua New Guinea, a country some call "the last wild place on earth." The trail is a narrow, 60-mile footpath featuring rough jungle, 6,000 feet in elevation change, and punishing weather extremes. In a country unfairly locked in Western misperceptions, the track is inhospitable terrain yet home to hospitable indigenous peoples, who live among the rusting reminders of the Japanese, Australian, and American armies that clashed in some of the deadliest protracted combat of World War II. In *Walking With Ghosts in Papua New Guinea*, Antonson shares a journey of physical and mental endurance in his inimitable way, in the company of a mixed band of resolute adventurers, blending fascinating historical context with the tribulations of unexpected discoveries in faraway lands.

Globalisierung der Kultur?

Laszlo and Tumas tell the story of a Wycliffe translator in the jungles of New Guinea and her relentless efforts to bring the Word of God into the Sepik Iwam language.

New Statesman

"Perhaps the finest and most profound account of ethnographic fieldwork and discovery that has ever entered the anthropological literature." —The Wall Street Journal "If you want to experience a profoundly different culture without the exhausting travel (to say nothing of the cost), this is an excellent choice." —The Washington Post One of Time's 32 Books You Need to Read This Summer * One of National Geographic's Best Travel Books of Summer As a young anthropologist, Don Kulick went to the tiny village of Gapun in New Guinea to document the death of the native language, Tayap. He arrived knowing that you can't study a language without understanding the daily lives of the people who speak it: how they talk to their children, how they argue, how they gossip, how they joke. Over the course of thirty years, as he returned again and again to document the vanishing language, he found himself inexorably drawn into the lives and world of the Gapuners, and implicated in their destiny. In *A Death in the Rainforest*, Kulick takes us inside the village as he came to know it, revealing what it is like to live in a difficult-to-get-to village of two hundred people, carved out like a cleft in the middle of a tropical rainforest. And in doing so, he also gives us a brilliant interrogation of what it means to study a culture, an illuminating look at the impact of Western culture on the farthest reaches of the globe—and, ultimately, the story of why this anthropologist realized that he had to give up his study of this language and this village.

Two men, sworn enemies, come face to face on the battlefields of France. When Jack Kelly, a captain in the Australian army, shows compassion towards his prisoner Paul Mann, a brave and high-ranking German officer, an unexpected bond is formed. But neither could imagine how their pasts and futures would become inextricably linked by one place: Papua. The Great War is finally over and both soldiers return to their once familiar lives, only to find that in their absences events have changed their respective worlds forever. In Australia, Jack is suddenly alone with a son he does not know and a future filled with uncertainty, while the photograph of a beautiful German woman he has never met fills his thoughts.

Meanwhile the Germany that Paul had fought for is vanishing under the influence of an ambitious young man named Adolph Hitler, and he fears for the future of his family. A new beginning beckons them both in a beautiful but dangerous land where rivers of gold are as legendary as the fearless, cannibalistic tribes, and where fortunes can be made and lost as quickly as a life. LONGLISTED FOR THE DYLAN THOMAS PRIZE LONGLISTED FOR THE IMPAC DUBLIN LITERARY AWARD, 2014 SHORTLISTED FOR THE KITSCHIES PRIZE, 2014 (GOLD TENTACLE) The brooding, bold and brilliant first novel from the Man Booker and Bailey's Prize-shortlisted author of *A Little Life*. In 1950, a young doctor called Norton Perina signs on with the anthropologist Paul Tallent for an expedition to the remote Micronesian island of Ivu'ivu in search of a rumoured lost tribe. They succeed, finding not only that tribe but also a group of forest dwellers they dub 'The Dreamers', who turn out to be fantastically long-lived but progressively more senile. Perina suspects the source of their longevity is a hard-to-find turtle; unable to resist the possibility of eternal life, he kills one and smuggles some meat back to the States. He scientifically proves his thesis, earning worldwide fame and the Nobel Prize, but he soon discovers that its miraculous property comes at a terrible price...

On every continent and in every nation, animals unrecognized by modern science are reported on a daily basis. People passionately pursue these creatures--the name given to their field of study is cryptozoology. Coined in the 1950s, the term literally means the science of hidden animals. When the International Society of Cryptozoology (ISC) was formed in 1982, the founders declared that the branch of science is also concerned with "the possible existence of known animals in areas where they are not supposed to occur (either now or in the past) as well as the unknown persistence of presumed extinct animals to the present time or to the recent past...what makes an animal of interest to cryptology is that it is unexpected." This reference work presents a "flesh and blood" view of cryptozoology. Here, 2,744 entries are listed, the majority of which each describe one specific creature or type of creature. Other entries cover 742 places where unnamed cryptids are said to appear; profiles of 77 groups and 112 individuals who have contributed to the field; descriptions of objects and events important to the subject; and essays on cryptotourism and hoaxes, for example. Appendices offer a timeline of zoological discoveries, annotated lists of movies and television series with cryptozoological themes, a list of crypto-fiction titles and a list of Internet websites devoted to cryptozoology.

In 1980 seven-year-old Sabine Kuegler and her family went to live in a remote jungle area of West Papua among the recently discovered Fayu - a tribe untouched by modern civilisation. Her childhood was spent hunting, shooting poisonous spiders with arrows and chewing on pieces of bat-wing in place of gum. She also learns how brutal nature can be - and sees the effect of war and hatred on tribal peoples. After the death of her Fayu-brother, Ohri, Sabine decides to leave the jungle and, aged seventeen, she goes to a boarding school in Switzerland - a traumatic change for a girl who acts and feels like one of the Fayu. 'Fear is something I learnt here' she says. 'In the Lost Valley, with a lost tribe, I was happy. In the rest of the world it was I who was lost.' Here is Sabine Kuegler's remarkable true story of a childhood lived out in the Indonesian jungle, and the struggle to conform to European society that followed.

NEW YORK TIMES BESTSELLER • The extraordinary true story of a journey into the deepest recesses of the Amazon to track one of the planet's last uncontacted indigenous tribes. Even today there remain tribes in the far reaches of the Amazon rainforest that have avoided contact with modern civilization. Deliberately hiding from the outside world, they are the last survivors of an ancient culture that predates the arrival of Columbus in the New World. In this gripping first-person account of adventure

and survival, author Scott Wallace chronicles an expedition into the Amazon's uncharted depths, discovering the rainforest's secrets while moving ever closer to a possible encounter with one such tribe—the mysterious flecheiros, or “People of the Arrow,” seldom-glimpsed warriors known to repulse all intruders with showers of deadly arrows. On assignment for National Geographic, Wallace joins Brazilian explorer Sydney Possuelo at the head of a thirty-four-man team that ventures deep into the unknown in search of the tribe. Possuelo's mission is to protect the Arrow People. But the information he needs to do so can only be gleaned by entering a world of permanent twilight beneath the forest canopy. Danger lurks at every step as the expedition seeks out the Arrow People even while trying to avoid them. Along the way, Wallace uncovers clues as to who the Arrow People might be, how they have managed to endure as one of the last unconquered tribes, and why so much about them must remain shrouded in mystery if they are to survive. Laced with lessons from anthropology and the Amazon's own convulsed history, and boasting a Conradian cast of unforgettable characters—all driven by a passion to preserve the wild, but also wracked by fear, suspicion, and the desperate need to make it home alive—*The Unconquered* reveals this critical battleground in the fight to save the planet as it has rarely been seen, wrapped in a page-turning tale of adventure.
