Reversing Your Seborrheic Dermatitis

Ask yourself this; did Seborrheic Dermatitis exist in the times of our ancestors, centuries ago, or was it born in recent times? Where did it come from? How did we find ourselves diagnosed with it? Has it occurred to you that the foods that you consume on a daily basis directly affect your health? Would you like to know more about the one protocol that has worked for us, time and time again, in increasing our health to a point where "disease" can no longer exist? Through reversing our own chronic diseases and conditions - ranging from severe autoimmune, neurological, digestive - all the way to rare genetic conditions, we noticed a commonality during our healing journeys. We discovered a protocol that supercharged our health and subsequently worked well in the removal of any condition, disease, infection, abnormality, addiction, mental health condition - or any other label that you may come across. Through producing this series of information-assisted journals, our goal has been to reach you directly and share our experiences with you, with the aim of giving you hope. Regardless of what you have been diagnosed/labeled with - if applied correctly, you will experience significant positive

changes. This journal has been broken down into two parts - the first part being information-based, and the second part being an assisted journal area for you to document, track and journal your personal daily progress, whilst being given helpful tips along the way. We didn't want to release just another "information overloaded" book which the reader does not benefit from or take action on immediately. Through this interactive and simplified approach found within this series of journals, you will achieve your health goals effectively. Welcome to the world of improved health and healing. Good luck on your journey.
