The Skeptic's Annotated Bible

Completely Revised Second Edition with 23 new killings from the Apocrypha. Drunk With Blood includes a separate account for each of God's 158 killings. These stories fill the pages of the Bible, yet they are seldom read in church and are ignored by most Bible believers, which is a shame because God is so proud of his killings: "I kill ... I wound ... I will make mine arrows drunk with blood and my sword shall devour flesh." Deuteronomy 32:39-42 You've probably hear of a few of God's killings. Noah's Flood, Sodom and Gomorrah, David and Goliath, maybe. But there are over 150 others that are unknown to pretty much everyone, believer and nonbeliever alike. Did you know, for example, that God: *Forced friends and family to kill each other for dancing naked around Aaron's golden calf? *Burned Aaron's sons to death for offering him strange fire? *Burned complainers to death, forced the survivors to eat quail until it literally came out their noses, sent "fiery serpents" to bite people for complaining about the lack of food and water, and killed 14,700 for complaining about his killings? *Buried alive those that opposed Moses (along with their families)? *Burned 250 men to death for burning incense? *Rewarded Phinehas for throwing a spear through the bellies of an inter-tribal couple while they were having sex? *Ordered, assisted in, or approved of dozens of complete genocides? *Accepted human sacrifice in the cases of Jephthah's daughter and Saul's seven sons? *Helped Samson murder thirty men for their clothes, slaughter 1000 with the jawbone of an ass, and kill 3000 civilians in a suicide terrorist attack? *Smote the Philistines of several cities with hemorrhoids in their secret parts? *Killed a man for trying to keep the ark of the covenant from falling and 50,070 for looking into the ark? *Approved when David bought his first wife with 200 Philistine foreskins? *Killed King Saul for not killing every Amalekite as he told him to do? *Slowly killed a baby to punish King David for committing adultery? *Killed 70,000

because David had a census that he (or Satan) told him to do? *Sent a lion to kill a prophet for believing another prophet's lie, another lion to kill a man for not smiting a prophet, and some more lions to kill people that didn't fear him enough? *Killed 450 religious leaders who lost a prayer contest with Elijah and burned 102 men to death for asking Elijah to come down from his hill? *Sent two bears to rip apart 42 boys for making fun of Elisha's bald head? *Killed 27,000 Syrians by having a wall fall on them, sent an angel to kill 185,000 sleeping soldiers, interfered in human battles to kill a half million Israelite and a million Ethiopian soldiers? *Killed King Ahab for not killing a captured king, and then sent King Jehu on a series of mass murders to kill all of Ahab's family and friends who had ever "pissed against a wall?" *Killed Jehoram by making his bowels fall out? *Killed Job's ten children in a bet with Satan? *Killed Ezekiel's wife and told him not to mourn her? *Killed Ananias and Sapphira for not giving Peter all their money? *Killed King Herod by feeding him to worms? All of these killings, and more, are found in the Bible, and their stories are told in the 2nd Edition of Drunk With Blood.

The Skeptic's Annotated Bible : Corrected and Explained : the Collegiate Workbook

A mockery of the Bible and Christianity.

Drunk with Blood

The Hebrew Bible portrays King Manasseh and child sacrifice as the most reprehensible person and the most objectionable practice within the story of 'Israel'. This monograph suggests that historically, neither were as deviant as the Hebrew Bible appears to insist. Through careful historical reconstruction, it is argued that Manasseh was one of Judah's most successful monarchs, and child sacrifice played a central role in ancient Judahite religious practice. The biblical writers, motivated by ideological concerns, have thus deliberately distorted the truth about Manasseh and child sacrifice.

The Born Again Skeptic's Guide to the Bible

Genesis. Every God damned chapter. Because you know it's nonsense, but were never sure why.

King Manasseh and Child Sacrifice

Part auto-biography and part exposé of Ken Daniels' experience and long time belief in Christianity and the questions and answers he's had to ask about with regard to the validity of Christian theories.

Self-Contradictions of the Bible

For thousands of years, the faithful have honed proselytizing strategies and talked people into believing the truth of one holy book or another. Indeed, the faithful often view converting others as an obligation of their faith—and are trained from an early age to spread their unique brand of religion. The result is a world broken in large part by unquestioned faith. As an urgently needed counter to this tried-and-true tradition of religious evangelism, A Manual for Creating Atheists offers the first-ever guide not for talking people into faith—but for talking them out of it. Peter Boghossian draws on the tools he has developed and used for more than 20 years as a philosopher and educator to teach how to engage the faithful in conversations that will help them value reason and rationality, cast doubt on their religious beliefs, mistrust their faith, abandon superstition and irrationality, and ultimately embrace reason.

Holy Bible - Best God Damned Version - Genesis

This important new volume is the most comprehensive critique of the Bible ever written. McKinsey strives to tell both the good and bad of biblical writings with this thoroughly-researched expose of the Bible's errors, contradictions, and fallacies. McKinsey believes that it is important that the Bible's inadequacies and negative teachings be exposed.

Why I Believed

"Science can't explain the complexity and order of life; God must have designed it to be this way.""God's existence is proven by scripture.""There's no evidence that God doesn't exist.""God has helped me so much. How could none of it be true?" "Atheism has killed more people than religion, so it must be wrong!" How many times have you heard arguments like these for why God exists? Why There Is No God: Simple Responses to 20 Common Arguments for the Existence of God provides simple, easy-to-understand counterpoints to the most popular arguments made for the existence of God.

Each chapter presents a concise explanation of the argument, followed by a response illustrating the problems and fallacies inherent in it. Whether you're an atheist, a believer or undecided, this book offers a solid foundation for building your own inquiry about the concept of God.

A Manual for Creating Atheists

Homosexuality has been at the forefront of debate in the church for the last quarter-century, with Biblical interpretation at the heart of this debate. Some biblical passages appear to condemn certain same-sex relationships or erotic practices, resulting in a challenge to clergy as well as laity regarding the preaching and understanding of these Biblical passages. In "The Man Jesus Loved," Jennings proposes a gay-affirmative reading of the Bible in the hope of respecting the integrity of these texts and making them more clear as well as persuasive. This reading suggests that the exclusion of persons on the basis of their sexual orientation or same-sex practices fundamentally distorts the Bible generally and the traditions concerning Jesus in particular.

The Encyclopedia of Biblical Errancy

"Not only do I believe that it is possible to maintain moral standards without the crutch of religion but I would argue that it is the only way to achieve true goodness." *Disproving Christianity and Other Secular Writings* compiles popular and lesser-known arguments against the principles established by the Christian canon. Using a phenomenological approach to build his case based on in-depth study at the University of California, Santa Barbara McAfee analyzes the Hebrew Scriptures and New Testament doctrine to build a logical and reasonable case against their validity. From contradictions between lived and portrayed religions to factual errors within the texts themselves, no stone is left unturned in this fully updated and expanded refutation of Christianity.

Why There Is No God

L. Michael White, one of the world's foremost scholars on the origins of Christianity, provides the complete, astonishing story of how Christianity grew from the personal vision of a humble Jewish peasant living in a remote province of the Roman Empire into the largest organized religion in the world. Rather than reading the New Testament straight through in its traditional, or "canonical" order, *From Jesus to Christianity* takes a historical approach. Looking at the individual books chronologically, in the sequence in which they were actually written, readers can see what they divulge about the disagreements, shared values, and unifying mission of the earliest Christian communities. White digs through layers of archaeological excavations, sifts through buried fragments of largely unknown texts, and examines historical sources to discover what we can know of Jesus.

Man Jesus Loved

Collected essays from bestselling author Michael Shermer's celebrated columns in *Scientific American* For fifteen years, bestselling author Michael Shermer has written a column in *Scientific American* magazine that synthesizes scientific concepts and theory for a general audience. His trademark combination of deep scientific understanding and entertaining writing style has thrilled his huge and devoted audience for years. Now, in *Skeptic*, seventy-five of these columns are available together for the first time; a welcome addition for his fans and a stimulating introduction for new readers.

Disproving Christianity and Other Secular Writings (2nd edition, revised)

The Expositor's Study Bible (KJV) is different than any other study Bible ever produced. With abbreviated commentary notes placed directly in the scripture, it makes Bible study easier than ever before. With over 1 million copies in print today, The Expositor's Study Bible has become one of the most loved Bible study tools of our time.

From Jesus to Christianity

'A fantastic compendium of skeptical thinking and the perfect primer for anyone who wants to separate fact from fiction.' Richard Wiseman, author *59 Seconds* 'Thorough, informative, and enlightening... If this book does not become required reading for us all, we may well see modern civilization unravel before our eyes.' Neil deGrasse Tyson, author of *Astrophysics for People in a Hurry* In this tie-in to their popular 'The Skeptics Guide to the Universe' podcast, Steven Novella, along with 'Skeptical Rogues' Bob Novella, Cara Santa Maria, Jay Novella and Evan Bernstein explain the tenets of skeptical thinking

and debunk some of the biggest scientific myths, fallacies and conspiracy theories (anti-vaccines, homeopathy, UFO sightings, and many more.) They'll help us try to make sense of what seems like an increasingly crazy world using powerful tools like science and philosophy. The Skeptics' Guide to the Universe is your guide through this maze of modern life. It covers essential critical thinking skills, as well as giving insight into how your brain works and how to avoid common pitfalls in thinking. They discuss the difference between science and pseudoscience, how to recognize common science news tropes, how to discuss conspiracy theories with that crazy colleague of yours, and how to apply all of this to everyday life. As fascinating as it is entertaining, this page turner is your essential guide to seeing through the fake news and media manipulation in our increasingly confusing world.

Skeptic

Why Is It Critical for Christians to Study the Past? How does knowledge of the past shape Christians' views of God, Christ's redemption, and humanity as a whole? In his new book, Vern S. Poythress teaches Christians how to study and write about the past by emphasizing God's own command to remember his works and share them with the next generation. Readers will explore concepts such as providentialism, Christian historiography, divine purpose, and the 4 basic phases of biblical history: creation, fall, redemption, and consummation. By learning how to appropriately study history, believers will begin to recognize God's lordship over all events and how even minor incidents fit into his overarching plan.

The Expositor's Study Bible

The first book to deal with all the arguments against religion and, equally important, to put forward an alternative - humanism

The Skeptics' Guide to the Universe

A wealth of evidence for doubters and disbelievers "Whether it's the latest shark cartilage scam, or some new 'repressed memory' idiocy that besets you, I suggest you carry a copy of this dictionary at all times, or at least have it within reach as first aid for psychic attacks. We need all the help we can get." -James Randi, President, James Randi Educational Foundation, randi.org "From alternative medicine, aliens, and psychics to the farthest shores of science and beyond, Robert Carroll presents a fascinating look at some of humanity's most strange and wonderful ideas. Refreshing and witty, both believers and unbelievers will find this compendium complete and captivating. Buy this book and feed your head!" -Clifford Pickover, author of The Stars of Heaven and Dreaming the Future "A refreshing compendium of clear thinking, a welcome and potent antidote to the reams of books on the supernatural and pseudoscientific." -John Allen Paulos, author of Innumeracy and A Mathematician Reads the Newspaper "This book covers an amazing range of topics and can protect many people from being scammed." -Stephen Barrett, M.D., quackwatch.org Featuring close to 400 definitions, arguments, and essays on topics ranging from acupuncture to zombies, The Skeptic's Dictionary is a lively, commonsense trove of detailed information on all things supernatural, occult, paranormal, and pseudoscientific. It covers such categories as alternative medicine; cryptozoology; extraterrestrials and UFOs; frauds and hoaxes; junk science; logic and perception; New Age energy; and the psychic. For the open-minded seeker, the soft or hardened skeptic, and the believing doubter, this book offers a remarkable range of information that puts to the test the best arguments of true believers.

Redeeming Our Thinking about History

Examines the apparent contradictions in the world and explains how the invisible, natural, and supernatural worlds might interact and affect people's daily lives.

The God Argument

An elderly lady once left 20,000 dollar and 'my Bible and all it contains' to her nephew. The young man knew what the Bible contained so he didn't bother to open it. He merely picked it up and put it on a high shelf in his house, and headed for Las Vegas. It wasn't long until all his money was gone. He lived the next 60 years as a pauper, scraping for every meal and barely having the clothes on his back. As he was moving to a convalescent home he reached up to grab that old Bible and accidentally dropped it from his trembling hands. It fell to the floor and opened, revealing a 100 dollar bill between every page. That man lived his life as a pauper when he could have lived in luxury, simply because of his prejudice.

He thought he knew what the Bible contained. Most people don't know that the Bible contains a wealth of incredible scientific, medical and prophetic facts. The implications are mind boggling...

The Skeptic's Dictionary

"While the Hebrew Bible and the New Testament are understood to be related texts, the sacred scripture of Islam, the third Abrahamic faith, has generally been considered separately. Noted religious scholar Gabriel Said Reynolds draws on centuries of Qur'anic and Biblical studies to offer rigorous and revelatory commentary on how these holy books are intrinsically connected."--Dust jacket.

A Skeptic's Guide to Faith

This historic book may have numerous typos and missing text. Purchasers can usually download a free scanned copy of the original book (without typos) from the publisher. Not indexed. Not illustrated. 1909 edition. Excerpt: ... STUDY XVI CONCLUDING THOUGHTS. Our Duty Toward The Truth.--Its Cost, Its Value, Its Profit. TN the preceding chapters we have seen that both the light * of nature and that of revelation clearly demonstrate the fact that an intelligent, wise, almighty and righteous God is the Creator of all things, and that he is the supreme and rightful Lord of all; that all things animate and inanimate are subject to his control; and that the Bible is the revelation of his character and plans so far as he is pleased to disclose them to men. From it we have learned that though evil now predominates among some of his creatures, it exists for only a limited time and to a limited extent, and by his permission, for wise ends which he has in view. We have also learned that though darkness now covers the earth, and gross darkness the people, yet God's light will in due time dispel all the darkness, and the whole earth will be filled with his glory. We have seen that his great plan is one that has required ages for its accomplishment thus far, and that yet another age will be required to complete it; and that during all the dark ages of the past, when God seemed to have almost forgotten his creatures, his plan for their future blessing has been silently but grandly working out, though during all those ages the mysteries of his plan have been wisely hidden from men. We have also seen that the day or age which is now about to dawn upon the world is to be the day of the world's judgment or trial, and that all previous preparation has been for the purpose of giving mankind in general as favorable an opportunity as possible, when, as individuals, they will be placed on trial for eternal life. The long period of six thousand years has greatly multiplied the race, and...

Scientific Facts in the Bible

Did Jesus ever do anything wrong? Judging by the vast majority of books on New Testament ethics, the answer is a resounding No. Writers on New Testament ethics generally view Jesus as the paradigm of human standards and behaviour. But since the historical Jesus was a human being, must he not have had flaws, like everyone else? The notion of a flawless human Jesus is a paradoxical oddity in New Testament ethics. According to Avalos, it shows that New Testament ethics is still primarily an apologetic enterprise despite its claim to rest on critical and historical scholarship. The Bad Jesus is a powerful and challenging study, presenting detailed case studies of fundamental ethical principles enunciated or practised by Jesus but antithetical to what would be widely deemed 'acceptable' or 'good' today. Such topics include Jesus' supposedly innovative teachings on love, along with his views on hate, violence, imperialism, animal rights, environmental ethics, Judaism, women, disabled persons and biblical hermeneutics. After closely examining arguments offered by those unwilling to find any fault with the Jesus depicted in the Gospels, Avalos concludes that current treatments of New Testament ethics are permeated by a religiocentric, ethnocentric and imperialistic orientation. But if it is to be a credible historical and critical discipline in modern academia, New Testament ethics needs to discover both a Good and a Bad Jesus.

The Qur'an and the Bible

An urgent defense of reason, the essential method for resolving—or even discussing—divisive issues: “A timely masterpiece.”—Patricia S. Churchland, author of *Touching a Nerve* Reason, long held as the highest human achievement, is under siege. According to Aristotle, the capacity for reason sets us apart from other animals, yet today it has ceased to be a universally admired faculty. Rationality and reason have become political, disputed concepts, subject to easy dismissal. Julian Baggini argues eloquently that we must recover our reason and reassess its proper place, neither too highly exalted nor completely maligned. Rationality does not require a cold, sterile worldview—it simply involves the application of critical thinking wherever thinking is needed. Addressing such major areas of debate as

religion, science, politics, psychology, and economics, the author calls for commitment to the notion of a “community of reason,” where disagreements are settled by debate and discussion, not brute force or political power. Bagginis insightful book celebrates the power of reason, our best hope—indeed our only hope—for dealing with the intractable quagmires of our time. “The toxic gloating of ‘gut feelings,’ hateful politics and heart-over-head attacks on good sense urgently need an antidote. Bagginis risen to the occasion...compelling.”—Patricia S. Churchland, author of *Conscience: The Origins of Moral Intuition*

The Plan of the Ages

An examination of skepticism and one of its principal complaints against God, the Bible and Christianity. Despite the best efforts of the most skilled skeptics for 20 centuries, the case against Christianity has never been made. Alleged moral dilemmas, often cited by skeptics as proof the Bible could not be divinely inspired, have critical information left out.

The Bad Jesus: The Ethics of New Testament Ethics

A burlesque, philosophical, humorous, spiritual, and scientific case against the menace of theism and organised religion, by Daniel S. Fletcher. Neither physicist, nor biologist, merely a humble, cocky, vaguely eloquent kid, with a polemic against the tyrannical conditions imposed on man by man, 'divinely' mandated by the ancient superstitions of the illiterate desert. This is a contribution to the war of ideas - for humanism over barbarism, poetry over pogroms, literature over scripture, irony over immolation, and the triumph of philosophy, science, reason and morality over the archaic and totalitarian commandments and divisive preachments of doctrine. Wisdom begins in wonder, and knowledge is power! Viva la libertad!

The Edge of Reason

THE SUNDAY TIMES BESTSELLER We all want to lead a happy life. Traditionally, when in need of guidance, comfort or inspiration, many people turn to religion. But there has been another way to learn how to live well - the humanist way - and in today's more secular world, it is more relevant than ever. In THE LITTLE BOOK OF HUMANISM, Alice Roberts and Andrew Copson share over two thousand years of humanist wisdom through an uplifting collection of stories, quotes and meditations on how to live an ethical and fulfilling life, grounded in reason and humanity. With universal insights and beautiful original illustrations, THE LITTLE BOOK OF HUMANISM is a perfect introduction to and a timeless anthology of humanist thought from some of history and today's greatest thinkers.

Skepticism: The Case against Christianity?

Why do 9 out of 10 children raised in Christian homes leave the Church? Why do many professing Christians show little or no evidence for their faith? Why do 80-90% of those making decisions for Christ fall away from the faith? For decades, the world's most popular gospel message has been drawing the lost by promising God's wonderful plan for their life. But behind the facade of the "wonderful plan" message is the reality of the trials, temptation, and persecution that Jesus promised. How can we reconcile the two? In this life-changing book, best-selling author Ray Comfort explores whether this common gospel approach aligns with real life--and with Scripture. The vital biblical principles he reveals will force you to reexamine your ideas about the gospel--and will teach you how to reach unbelievers the way God intended. A must-read for all who care about the lost. Over a quarter million copies in print!

The Atheist Bible

The Old Testament is a fierce battleground for atheists and Christian apologists, with each side accusing the other of taking challenging and troubling passages out of context. In this handbook, Joshua Bowen not only provides the background to the Old Testament and the ancient Near East, but engages with hotly contested topics like slavery, failed prophecy, and the authorship of debated Old Testament books. This book provides: -clear and straightforward explanations to complex topics -direct engagement with hot-button Old Testament issues -specific arguments to help you in a debate or discussion. Whether you are looking to debate problematic Old Testament issues on social media or have a relaxed, meaningful discussion with a family member over coffee, The Atheist Handbook to the Old Testament is an indispensable resource for you.

The Little Book of Humanism

This comprehensive volume offers readers clear and concise answers to every major Bible difficulty from Genesis to Revelation, staunchly defending the authority and inspiration of Scripture. Written in a problem/solution format, the book covers over 800 questions that critics and doubters raise about the Bible. Three extensive indices--topical, Scripture, and unorthodox doctrines--offer quick and easy access to specific areas of interest. Multipurpose in scope and user-friendly in format, The Big Book of Bible Difficulties offers the resources of five books in one: a critical commentary on the whole Bible an apologetics text a Bible difficulties reference a theology manual treating important doctrines a handbook on verses misused by cults. - Publisher.

God Has a Wonderful Plan for Your Life

In 1492, Columbus Sailed to Slay a Jew.

The Atheist Handbook to the Old Testament

The Bible is the best-selling, most widely read, and most quoted book in history. It is also misunderstood, misquoted, and fiercely debated. If, as Christians believe, the Bible is the Word of God, why is it so complex and difficult to interpret in parts, yet simple enough for even children to understand in others? In Scripture and the Skeptic Eric Huffman, author of 40 Days of Doubt, helps readers understand and cope with confusion about the Bible and provides answers to questions by reframing it as a perfect and seamless story. Huffman illustrates how the Bible, even the parts some consider ungodly, presents the beautiful story that God intended to tell. Through storytelling from his own experiences and his take on Bible stories, Huffman helps readers understand the Bible by interpreting the entire book through the lens of Jesus's life, death, and resurrection. He shows how every part of the Bible is either crying out for Jesus, witnessing his incarnation, or responding in the aftermath of his resurrection. Readers discover how to trust the Bible as God's beautiful and perfect salvation story. Includes questions with each chapter for personal reflection or group study. From the author of 40 Days of Doubt: Devotions for the Skeptic.

The Big Book of Bible Difficulties

It is true that mankind himself has probably always been characterized with the main desire to determine just what spiritual truth really is. For centuries and centuries, highly educated philosophers and religious men alike have always stood toe to toe, disagreeing on spiritual truth. Since they cannot all be right, this would strongly indicate that education, religious persuasion, or even intelligence has little to do with our discovery of the real spiritual truth. For if these things were truly critical, then obviously the spiritual/intellectual giants of history would have agreed on spiritual truth long ago. In this work, author Ted Even endeavors to show that the disagreeing intellectuals/skeptics of the past only serve to reinforce Christ's radical statement about our need to just become like little children in order to discover the spiritual truth, and that literally everyone has the same opportunity to enter the kingdom of heaven on that basis. However, while super intelligence or big degrees may not be necessary, the discovery of spiritual truth does require just one very reasonable quality of heart, which little children have always possessed. Find out just what this basic quality of heart is, as you continue your search for spiritual truth within this simple-to-understand work which only leaves the real spiritual truth left standing.

The Bible 2

"Skeptics vs. Scripture - Book 1" is a guided tour through a maze of questions that challenge Christian beliefs. In each chapter, a skeptic is permitted to make his case against God, Christianity, and the Bible in his own words, giving readers an inside view of an atheist's perspective. Author David Kidd applies sound biblical interpretation, rational arguments, and compelling real-life examples to expose skeptic errors and demonstrate the accuracy and reliability of the Bible. This book turns the tables on unbelief by using logic and reason to explain foundational Christian truths in everyday language.

Scripture and the Skeptic

Speaking all over the United States about apologetics issues, Charlie Campbell has heard just about every question skeptics have to offer. In this concise, reader-friendly handbook, he provides brief responses to the top-40 questions that keep people from the faith, such as... What evidence do you have that God exists? How do you know the Bible is actually true? What about those who have never heard of Jesus? Will they be condemned to hell? If God is so loving, why does He allow evil and suffering?

How can you say Jesus is the only way to heaven? Don't all religions basically teach the same thing? Aren't a lot of churchgoers hypocrites? With a gracious introductory note to skeptical readers and a generous sprinkling of inspiring quotes throughout, this handy resource is an enjoyable read as well as a powerful evangelistic tool.

Answers for the Honest Skeptic

Richard Trudeau writes, I'm a skeptic. I don't believe in supernatural beings or miraculous events. I don't believe in a supernatural God, or the soul, or miracles, or an afterlife. I don't believe that Jesus was raised from the dead on the third day--or the fourth day, or any subsequent day. My skepticism notwithstanding, there are stories in the Bible that I return to over and over. They engage my mind. They strengthen my heart. They nourish my spirit. While seeking neither to encourage skepticism nor to undermine it, I want to share my enthusiasm about these stories with fellow skeptics and others who might find my point of view interesting. I believe that for Christianity to flourish--and to a lesser extent, for Judaism to flourish--they need to be separated from the perceived necessity of belief in the supernatural. This book shows by a series of examples how this separation can be carried out.

Skeptics Vs. Scripture Book I

One-Minute Answers to Skeptics
