A New Low-impedance High Vacuum Valve

For more than a decade, Johnny Ryan (Angry Youth Comix, Prison Pit) has been filling the back page of Vice magazine with some of the most transgressively hilarious and politically incorrect comics to ever grace a glossy, national magazine. A New Low collects this impressive body of work, as well as several other surprises. The victims of Ryan's skewering satire in this collection include: G.G. Allin, Caddyshack, Bill Cosby, E.T., Everybody Loves Raymond, Ireland, Italy, Kenny G, Kid Rock, D.H. Lawrence, Ted Nugent, Russians, Small Wonder, The Shield, Spain, Two and a Half Men, Vice magazine, Wall Street, and so much more that can't be so easily categorized (such as "Erotic Art Collecting Squirrel" or "Whorenado," to name but a few). Johnny Ryan's utterly unpretentious taboo-tackling is an infectious and hilarious bombardment of political incorrectness, taking full advantage of the medium's absurdist potential for maximum laughs. In an age when the medium is growing up and aspiring to more mature and hoity-toity literary heights, Ryan builds on the visceral tradition that cartooning has had on our collective funny bone for over a century, and A New Low collects almost 100 full-color examples of Vice's signature cartoonist.

New Low

This book serves as a guide for the next generation of dieters who will be delighted to know that only certain carbohydrates are responsible for adding on the pounds and clogging up the arteries—and sugar is not one of them.

The New Low Carb Way of Life

Lost in a maze of underground tunnels, Jason and his friend Wayne are not only in danger of freezing to death or dying slowly of starvation, they are also at risk of being murdered by two dangerous criminals if they are caught. Danger lurks around every dark, dank corner and Jason needs all his wits about him to keep one step ahead.

Jason Sinks to a New Low

Do you ever lament that you'd love to be able to garden more, but just don't have the time? The demanding pace of modern life leaves little space for the pleasures of gardening. On the other hand, gardening itself could be the culprit: elaborate, traditional perennial borders; water-hungry or disease-prone plants; needy lawns; and high-maintenance plants that require staking or clipping all suck up precious hours. Simply put, we need to start gardening in a whole new way. In this inspiring book, Val Easton shows exactly how to have a low-maintenance garden that doesn't sacrifice style. You won't have to give up your favorite plants or settle for expanses of ugly bark nuggets. You just have to unlearn some bad old habits and pick up some good new ones. So, how do you go about making a "new" low-maintenance garden? First, design your garden with maintenance in mind—good-looking hardscape will both save weeding time and showcase your favorite plants. Second, simplify your garden routines—learn the most efficient planting and maintenance techniques and don't get stressed if everything isn't letter-perfect. Third, learn how to work with nature rather than against it. And finally, embrace home-grown fruits, herbs, and vegetables; well planted containers; and thoughtfully chosen plants. The New Low-Maintenance Garden doesn't just tell you how to garden in a whole new way—it shows you, through profiles and beautiful photographs of real gardens that embody low-maintenance techniques. The pressures of life are not likely to ease up anytime soon, but the lessons of this timely book will help you banish guilt over undone garden chores and revel in your garden successes.
